

MINING, BUSINESS AND STOCKS.

BUSINESS WAS BETTER TODAY.

Grand Central Very Active at Higher Figures.

DAILY-WEST WAS IN DEMAND

Lower Mammoth Closes Stronger—Mammoth a Little Weaker—Northern Light Wanted—Ajax Sells.

TODAY'S METALS:

- SILVER 59 1/2
LEAD \$4.57 1/2
CASTING COPPER 16

Business on the exchange showed much more life today. The volume was larger, amounting to \$10,370.12, representing the sale of 12,800 shares.

Daily West was traded in at from \$19.12 1/2 to \$19.10, while Mammoth made a solitary sale at \$2.25.

Lower Mammoth opened at 53 1/2 and closed with the sale of 100 @ 54.

Northern Light was quite active at from 6 to 6 1/2.

Ajax was also traded in at 6 1/2, while Martha Washington was handed out at 1/2, while West Morning Glory sold at 1/2.

Closing quotations were posted as follows:

Table with columns: Stocks, Bid, Asked. Lists various stocks like Ajax, Albion, Albee, etc.

STOCK TRANSACTIONS.

Table with columns: Stock Name, Price. Lists transactions for Ajax, Daily West, Grand Central, etc.

Grand Opening Saturday.

'THE BEST PUBLICATION.'

The following self explanatory letter has recently been received from the President of the Eastern States Mission:

It may be interesting to you to know that we have presented Public Libraries in this mission with about forty copies of the work, 'The Articles of Faith' and editors of leading papers and prominent men with 84 copies.

WALL STREET INVESTMENT CO.

Rooms, 204-211, D. F. Walker Building, New York Stocks, Chicago Grain TELEPHONE 958.

HEAVY DEMAND FOR SUGAR

That Stock Holds Leading Place in Wall Street Sales Today.

Large Offerings Finally Cause a Decline, but Recovery Followed—Live Stock and Produce Steady.

New York, April 27.—The opening of the stock exchange was rather quiet at small gains. The disposition seemed to be to await developments in sugar.

The stock opened with sales at 3.300 shares at 1/2 below to 1/2 above last night's prices.

The demand continued large, raised the price an additional 1/2. As prices ascended offerings became more liberal and undermined the strength of the market.

Sugar fell back 2 1/2. While concessions were general, the market showed some resisting power on a sale down and stiffened somewhat before 11 o'clock.

There were many large blocks of stock exchanged at top figures, but the transactions became smaller later.

The market again took an abrupt course downward in sympathy with sugar, which touched 1 1/2. Heavy purchases of the tobacco stocks advanced them two points and steadied the list.

The market seemed entirely dominated by the manipulation in the specialties. Sugar was supported and recovered to 1 1/2, and New York Central rose two points.

The price of sugar fell rapidly in the last hour, without any effective support. The market was generally heavy, but not very active.

The closing was dull and easy at lesser generally of a point or upwards.

Bonds brought better prices on a good demand.

MONEY AND BONDS.

Money on call nominally at 2 1/2 per cent. Prime mercantile paper, 4 1/2 per cent.

Sterling exchange firm with actual business in bankers' bills at 4 1/2 per cent for demand and at 4 1/4 per cent for sixty days.

Commercial bills, 4 1/2 per cent. Silver certificates, 5 1/2 per cent. Bar silver, 6 1/2 per cent.

Mexican dollars, 47 1/2. Government bonds, steady. Refunding 2s, W. I., 102 1/2; 2s reg., 99 1/4; 3s reg., 105 1/2; do coupon, 105 1/2; new 4s reg., 132; do coupon, 134; old 4s reg., 114; do coupon, 114; 5s reg., 112; do coupon, 112 1/2.

SUGAR.

Sugar—Raw, firm; refined, quiet.

CHICAGO MARKETS.

LIVE STOCK.

Chicago, April 27.—Cattle—Receipts, 2,000. Generally steady. Good to prime steers, 4.50 to 5.00; poor to medium, 4.25 to 4.50; stockers and feeders, 3.50 to 4.00.

Hogs—Receipts today, 23,000; tomorrow, 13,000. Left over, 4,407; 5c lower. Top, 5 1/2; mixed, butters, 5.25 to 5.50; good to choice heavy, 5.40 to 5.55; rough heavy, 5.25 to 5.35; light, 5.00 to 5.15; bulk of sales, 5.00 to 5.50.

Sheep—Receipts, 6,000. Steady. Good to choice wethers, 5.25 to 5.50; fair to choice mixed, 4.75 to 5.00; western sheep, 5.40 to 5.55; yearlings, 5.50 to 6.00; native lambs, 5.00 to 5.25; western lambs, 6.00 to 6.25.

PRODUCE.

May wheat opened at 65 1/2 per cent and touched 67 1/2. July opened at 67 1/2 per cent. Close: Wheat—April, 65 1/2; May, 65 1/2; July, 67 1/2; Sept., 68 1/2. Corn—April, 23 1/2; May, 23 1/2; July, 24 1/2.

OMAHA LIVE STOCK.

Omaha, April 27.—Cattle—Receipts 2,000. Market steady; native beef steers, 4.00 to 5.25; cows and heifers, 3.50 to 4.70; canners, 2.25 to 3.50; stockers and feeders, 3.75 to 5.10; calves, 3.00 to 7.00; bulls, stags, etc., 2.00 to 4.00.

DENVER LIVE STOCK.

Denver, April 27.—Cattle—Receipts 900. Market active and steady. Beef steers, 4.25 to 5.00; cows, 3.00 to 4.50; feeders, 2.50 to 3.50; river, 3.50 to 5.00; stockers, freight paid, 3.75 to 4.50; bulls, stags, etc., 2.00 to 3.25.

SAN FRANCISCO PRODUCE.

San Francisco, April 27.—Wheat—Quiet; May, 93 1/2; Dec., 104 1/2; cash, 96 1/2. Barley—Firm; May, 75; Dec., 75; cash, 75.

LONDON AUCTION.

London, April 26.—A sale of sheep skins was held here today, and 3,262 bales were offered.

The attendance was good, and a large proportion of the offerings were sold. Merino combing realized 1 1/2 per cent; merino clothing 3/4 and crossbreds, 3/4 to 1/2 lower than the last sale.

THE LAST CONFERENCE.

The proceedings of the recent conference were of unusual interest. They were printed verbatim in a pamphlet shortly to be issued by the Deseret News. Orders are now being received, and will be filled as soon as the pamphlets are ready. Sent to any address on receipt of 15 cents.

We also have a few copies of the pamphlets containing the full proceedings of prior conference. Price 15 cents.

Grand opening Saturday. Kollitz' new store at 272 Main St.

PAID THE MONEY THIS AFTERNOON

Final Act in the Snyder Improvement Transfer Accomplished.

\$100,000 WAS PAID TODAY.

\$50,000 to be Paid Hereafter—Successful Operations Which Will Prove Beneficial to Utah Mining.

This afternoon final action was taken in the business transactions which transferred the property of the Snyder Improvement Company to Messrs. Kimberly and Huck, and \$100,000 dollars cash changed hands through the Bank of Commerce.

It was on May 1, 1899, that Hon. L. C. Huck and Mr. F. C. Rutan, of Chicago, accompanied by Mr. Willard F. Snyder, Col. John Q. Cannon and D. R. Gill, Jr., Senator Cannon's secretary, left this city for Gold Mountain, in Platte county, to make examinations of the ground and properties, which included the Annie Laurie mine.

At that time a big snowstorm came on and it was not until later on that a proper examination was made. The property having met the expectations of the Chicago gentlemen, Senator Cannon and Mr. W. F. Snyder went on to the Windy city to enter into negotiations for the sale of the property.

At this time Senator Cannon was called to New York and later to Europe by pressing business connected with the Snyder Land and Cattle Company and Mr. Snyder continued the negotiations with the prospective purchasers, at length bringing about the consummation of today, which disposes of the Snyder Improvement Company's property to Gold Mountain.

Mr. Willard F. Snyder has succeeded in bringing to Utah and putting into local circulation \$100,000, which amount will be increased to nearly a million dollars when contemplated improvements shall have been completed.

The successful outcome of these negotiations reflects much credit upon Mr. Snyder's business ability and tenacity, which surmounted all obstacles, and it will result in giving an impetus to the mining industry of the entire country that will prove of great benefit to the State.

He has other similar transactions in view and hopes to be able to place a number more of Utah properties in the near future. Mr. Snyder is achieving quite a reputation as a promoter.

Within the next few days Engineer J. T. Brecken will visit the Annie Laurie for the purpose of deciding upon a suitable place for the big electric plant which will be one of 400 horse power and the electricity for the operation of the mill will be generated by this plant four miles distant.

Plans for the new mill are now being drawn up. It will have a capacity of 150 tons per day. The ore will be crushed dry, then oxidized and pumped into the mill. The water power will be used, secured from Fish Creek. Plans for the new mill are now being drawn up.

FROM THE SHAFT AND WHILE DRIFTING FOR THE TUNNEL IS GOING ON AT THAT LEVEL, WORK IS ALSO BEING PROCEEDED IN THE GUNDRY WINE IN THE UPPER WORKINGS OF THE MINE.

GOLD IN JAPAN.

An Immense Area Containing Gold Dust—Nuggets Over Half a Pound.

An Associated Press correspondence to the "News" dated at Yokohama, Japan, April 7, says: The discovery of gold in Hokkaido, the northernmost of the main islands of the Japanese empire, is assuming more and more importance. It is now being reported that the river beds containing gold dust is put at 3,500 miles, and the total productive area at 1,500,000 acres. Nuggets weighing over half a pound have been found. Since the discovery of gold in Hokkaido, the management of mines have been removed by this government, companies have been formed among the foreigners in Yokohama, and in one case a tract of acres has been purchased by a trust from California, engaged and all arrangements made to begin operations. It will be a boon to the Japanese to have skilled miners from the west take a hand, as the native method of working gold diggings are said to be exceedingly wasteful and destructive.

The removal of restrictions upon foreigners in the matter of mining is held to be a good omen for the final granting to them of the privilege of land ownership in general.

COPPER SITUATION.

Shipments from United States Show Increase of 50 Per Cent.

The monthly report of James Lewis and Sons on copper under date of Liverpool, April 26th, says that scarcity of warrants led to a rapid advance in standard copper from 47 1/2 to 61 on the 1st ulto, to 47 1/2 on the 6th, and the market has since fluctuated between 47 1/2 and 47 3/4 for cash and early delivery, the closing value being 47 1/2.

Three months' prompt sold in the early part of the month at a discount of 1 1/2 per cent, but this has since diminished to 1 1/4 per cent, sales being chiefly confined to those made to protect purchasers of other copper.

"American electrolytic sold at relatively low prices—about 43 per cent below its value for delivery as standard; but, with large purchases by consumers, it is now being sold at the parity of standard, having displaced English copper of which 1,412 tons have gone into the public stocks.

The shipments from the United States States made are as follows: About 17,700 tons, against 13,714 tons in the same month last year, or about 45,500 tons for the first quarter of this year, against 29,429 in 1899—an increase of over 15,000 tons, or 50 per cent. The increase is accounted for by the quantity of copper by consumers must have largely increased their private stocks, while its shipment has relieved the American market and led to an advance in the quotation for lake in New York to 17 cents.

New District Named.

As interest in the new copper camp east of town increases from day to day, parties interested in the district have been discussing the question of giving it a suitable name, so at a meeting held in this city today at which nearly a dozen members were present. The matter was brought up and fully discussed. The name of "Elchaco" was suggested, but in favor of another and it seems to be now of a foregone conclusion that what now promises to be a great copper camp both as to richness and large extent will hereafter be known as the Utah copper camp.

Assays received today from a four foot shaft in this camp gave over 26 per cent copper and 70 cents in gold or a total value of nearly sixty dollars per ton. It is estimated that the shaft will be about 100 feet deep, and will give a return of about 10 per cent of copper and 10 cents in gold.

It seems that the whole country over there is a network of veins, which can readily be traced for considerable distance on the surface and with what width as depth is attained.

There is no doubt but what there will be a great influx of mining men to the camp during the next few months.

Mr. Chas. Johnson, who has the camp lease, and like many others, is highly enthused over the outlook.—Laramie Boomerang.

A New Corporation.

Special Correspondence. Provo, April 26.—Articles of Incorporation of the Brooklyn Consolidated Mining Company has been filed with the county clerk.

The principal place of business is Springville and the limit of the capital stock is \$100,000, divided into shares at 10 cents. The company owns the following claims in the Tintic district: Sunnyside lode, Brooklyn lode and Brooklyn No. 2.

The stock is made assessable and each of the stockholders contributes 15 per cent of their stock to be sold as a working capital.

The officers of the company are president, William H. Meneray; vice president, Milan Packard, and secretary and treasurer, James W. Packard, with Noah L. Packard and Mary Packard, directors.

The incorporators, the number of shares owned by each and their residence, are as follows: W. H. Meneray, Springville, 568,585; Milan Packard, Springville, 204,583; Jas. W. Packard, Springville, 77,778; Noah Packard, Springville, 77,778; Mary Packard, Springville, 25,252; Clara V. Packard, Springville, 25,252; Olive L. Packard, Springville, 12,626; Hannah P. Hall, Springville, 12,626; Clara V. Packard, Springville, 12,626; John T. Hodson, Salt Lake City, 12,626.

THE GRAND CENTRAL.

Mine Said to be Shipping Good Ore from the 900 Level.

Some speculation has been indulged in by some of the smaller stockholders in the Grand Central mine of Tintic, regarding the grade of ore recently encountered on the 900 level. It was stated today on very good authority that the last shipment of 4 cars came from the 900 level, the same authority also stated that the settling price of the shipment was about 33 per cent. The ore is said to run high in copper, with a fair sprinkling of the yellow metal.

NEW BINGHAM TUNNEL.

Preliminary Surveys Are Being Made by F. M. Lyman, Jr.

F. M. Lyman, Jr., came in from Bingham this morning, where he has been surveying for the big tunnel which it is proposed to project from "Bingham's West Dip" to the heart of the great mineral zone of the old camp. The tunnel, it is claimed, will not only drain the rich mineral belt, but the flow of water may be very profitably used on the lands of Tintic county. It is proposed to run the tunnel from the Bingham company's property. The undertaking is one of great magnitude, but Mr. Lyman says Eastern capitalists have already signified their willingness to furnish the necessary capital when the feasibility of the scheme is demonstrated.

AT THE STAR CON.

Machinery Set in Place and Work Resumed on 600 Level.

Work has been resumed at the Star Consolidated mine in Tintic. The trouble with the boilers necessitated a closing down for a few weeks, until a new boiler was installed. This has now been accomplished and everything is in the most promising condition. A force of men is engaged in driving forward on the 600 level. The drift is now about 510 feet.

We Sell So Many

of these \$3.00 shoes for men and tell of them so often that we sometimes overlook the fact that we build many more kinds for men, \$1.50 to \$5.00.

We build lots of good shoes for boys too, \$1.25 up.

We sell lots of good shoes for women and girls.

ROBINSON BROS. CO.

SHOE BUILDERS, 124 Main St.

SHEEP AND WOOL.

Oneida County Republican: Every indication points to the heaviest wool clip in the northwest for many years.

This is the opinion of a member of a Boston wool buyers' association, who has just been through Utah, Idaho, Montana and Wyoming. This is better news than to hear of the wholesale slaughter of sheep because farmers can not afford even to feed them.

Denver Stockman: J. P. Curry, of Fort Morgan carried off the bun today for Provo Provo Grand Junction for \$1.10, Colorado-bred stock. This is the best price paid on this market for several years.

Denver Stockman: C. W. Trimble, of Fort Collins sheep feeder, marketed 53-1b spring lambs at 38 per cent and 100 to 120-1b old Utah ewes at \$3.50.

Denver Stockman: At the recent annual meeting of the Custer County (Montana) Wool Growers' association, it was voted to change the name to the Wool Growers' Association of Eastern Montana. This association is now in its eighteenth year of usefulness and reputation by changing its name to interest in Montana, which is the largest wool producing State in the union, and it proposes to take its proper place hereafter amongst the most influential live stock organizations. After voting to change its name it also strengthened itself by joining the National Live Stock association. The officers for the ensuing year are: A. S. Wiley, president; A. McC. Howard, vice president; J. S. Truett, secretary; K. McLean, S. F. Cole and F. D. O'Neil, executive committee.

Casper, Wyoming—About fifteen wool buyers and commission men are in town from Boston, Philadelphia and Chicago, but as yet have made no bids on wool. They claim that the condition of the market will not warrant over 14 cents per pound. It is expected, however, that wool here this season will bring from 15 cents to 18 cents.

Port Collins Courier: W. H. Peterson, of Windsor got back from St. Joseph where he marketed his lambs. He got \$7.15 per cwt. in St. Joe.

PROPERTY TRANSFERS.

Abstract of file in the county recorder's office, Salt Lake county, April 26, 1900:

Western L. and S. company to Salt Lake City, warranty deed, 325x500 feet northeast corner of lot 4, block 102, plat D.

Edmund Deedy, Harry Deedy, bridge, warranty deed, lots 2-7, block 2, Golden Park addition.

E. Thayne to Job Harker, warranty deed, 13 acres, north 1/2 of the northeast 1/4 of section 25, township 2 south, range 1 east.

H. C. Curtis to John Halpin, warranty deed, 1/2 interest in lots 1-2, block 159, plat D.

E. R. Tripp to Ethel R. Perkins, warranty deed, lot 5, block 4, New England addition.

Carrie E. Prosser and husband to John Halpin, warranty deed, 1/2 interest in lots 1-2, block 159, plat D.

Salt Lake Realty company to Sarah E. Holding, warranty deed, lot 9, block 1, Kelsey & G's subdivision, block 44, plat C.

Christina A. Farmer to Christina M. Arnold et al, warranty deed, south half of lot 5, block 124, plat A.

Saponifier.

Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap.

It is made by a process that is household use. It is made by a process that is household use. It is made by a process that is household use.

The Taylor-Drumton sampler reported eleven cars of ore today from Tintic.

The Bullion-Beck, of Eureka, was on the market today with four cars of concentrates.

The Mammoth, of Tintic, had three cars of crude ore and three cars of concentrates on the market today.

The Alaska dividend of 2 cents a share is said to have been paid in on all but a few shares and no advertisement will be made.

George H. Davis was expected in town today with a small clean up of \$200 or \$300 from the West Mountain Placer.

Richfield Reaper: Joseph E. Ray of Pullman is in town looking after the shipment of machinery and mill supplies which have been received here for the Coconino Smelter Co. in the Buckskin mountains.
