

NO FOREIGNERS WERE LEFT ALIVE

Situation in Peking—Russian Force Reported Lost—Tien Tsin in Grave Danger.

[Early Dispatches.] Berlin, July 7.—The firm of Meichers & Co. of Shanghai telegraphs to Bremen under date of July 6th: "We have reason to believe that all the foreigners in Peking have perished. The rebellion is spreading in north China. The foreigners at Tien Tsin must quit that city, as fresh Chinese attacks are expected. The disturbances are increasing in Shan Tung. We see at present no occasion for apprehensions in the Yang-Tze territory or at Shanghai, as the viceroys of Wu Chang and Nankin do not recognize the present source of power at Peking."

REWARD OFFERED. Emperor William has telegraphed to the commander of the German squadron in Chinese waters, to the governor-general of Shan Tun, to the viceroys and to others offering 1,000 taels to any one accomplishing the deliverance of any foreigner of any nationality whatever now shut up in Peking who is handed over to any German magistrate, and offering to pay the expenses of the publication of this offer in Peking.

The German consul at Tien Tsin wires under date of July 1st, that an authentic letter from the British minister at Peking, Sir Claude MacDonald, to the British consul here, dated Peking, June 25th, had just arrived. The dispatch from the consul added that it confirmed the statements that Yuan Kaiteli, the German minister, was shot dead, June 25th, by Chinese soldiers while on his way to the Tsung-li-Yamen. His companion, an interpreter named Cordes, was dangerously wounded. Sir Claude MacDonald feared an attack on the British legation. The consul said that Sir Claude MacDonald believed Yuan Kaiteli was killed on the spot, but that his body had not been found.

FREE HAND TO JAPAN. London, July 7, 2:45 a. m.—The Russian government announces that it will give Japan a free hand to apply military force in China. The terms of this consent are announced in the subjoined dispatch from St. Petersburg, under date of July 6th, under inquiry from the Japanese cabinet regarding the dispatch of Japanese troops to Peking. The Russian government declared on May 27th that it left the Japanese government full liberty of action in this connection, as the Tokio cabinet expressed its readiness to act full agreement with the other powers.

20,000 JAPANESE TROOPS. It is in consequence of this, no doubt, that Japan is preparing to embark 20,000 more troops. Political considerations that were thought to have been influencing the action of the powers are thus laid aside for a moment, at least, by the government's readiness to give the clearest possible support to China's future. Japan's sending of troops can have little bearing on the fate of the foreigners in Peking.

RUTHLESS THIRST FOR BLOOD. Details of further horrors in Peking are gathered by correspondents at Shanghai from Chinese sources, especially of the slaughter in the Chinese and Tartar city of thousands of native Christians, so that the capital resembles a scene of carnage. The ruthless thirst for blood is spreading in all the northern provinces, and wherever there are native Christians are reproduced in miniature. From these provinces nothing further comes regarding the legation forces, dead. The correspondents aver that all the Chinese officials in Shanghai wished to throw light on the real state of affairs in the capital, they could do so, and therefore, the worst reports are accepted as true.

Prince Tuan's coup d'etat is described by the Shanghai correspondent of the Daily Mail as a sequence to the grand council of ministers, at which Yuan Luan advanced the suppression of the Boxers promptly. The dowager empress and a scene of disorder ensued. Prince Tuan passionately intervened, and the council and the partisans raised the cry, "Down with the foreigners." The palace officials of all sorts and kinds, the populace took up the cause of Prince Tuan and his agents immediately put the emperor and the dowager empress under restraint.

3,000 RUSSIANS LOST. The Che Foo correspondent of the Express, telegraphing on Thursday, says there is no longer any doubt that disaster has overtaken a Russian force of 3,000 that left Tien Tsin for Feng on June 11th. The Russians had a full complement and carried a large amount of provisions. As nothing has been heard from them for twenty-four days it is assumed that they have been overwhelmed. A trustworthy news is received to the effect that all the country to the northeast of Peking is covered with the corpses of men and horses of the western garrisons.

Piling of a desperate character took place in the immediate neighborhood of Tien Tsin on June 20th. Taku was expected at any moment. The Chinese commanders are awaiting the arrival of more guns and reinforcements before making an effort to retake the city.

LI TRIES TO STEM THE TIDE. According to the Daily Telegraph's correspondent, in a dispatch dated Thursday, United States Consul McChang has been persuaded by Li Hung Chang and has persuaded him to issue a proclamation containing detailed instructions to prefects, sub-prefects and magistrates. It orders them to detect, suppress and severely punish traitors. These officials, the proclamation says, will be held responsible for the safety of the missionaries and native Christians. The governors of two provinces join in the proclamation. Another proclamation issued by Li Hung Chang directs that persons starting an uprising shall be at once beheaded and that those spreading false rumors shall be severely punished. This latter phase, in a Chinese sense, means slow strangulation by means of a wooden collar. Wholesale executions are expected to follow these proclamations.

Official dispatches from Port Arthur to the Russian government, bearing date of July 2nd, show that the country to the northward is in a state of disturbance, and that bands are destroying property. Six pirate ships have been captured by Russian vessels at the island of Billong.

METHODIST MISSION CAPTURED.

New York, July 7.—A dispatch to the Journal and Advertiser from Chee Foo says bad news has been received from the Methodist mission at Tsung Hwa. The place was attacked by a band of Chinese and the settlement broken up. The Methodist native girl converts were carried away into captivity by the Boxers after their preacher had been slain. Other converts who had incurred the hatred of the Boxers fled to the settlement. This prevented a wholesale butchery, as the settlement of converts was greatly outnumbered.

Pea-Ti-Ho, it is reported, is burned. The property of foreigners and native converts to Christianity, is destroyed. Pao-Ting-Poo is safe. A report comes from apparently reliable sources that Chu-Wang is burned. The American commander of the Chinese merchant vessel Haechi had an exciting experience while protecting a party of missionaries near Teng-Chow-Fa. The Haechi had been hiding under the shore ready to bring the missionaries to safety. A Russian gunboat loomed up on the horizon and, seeing the Chinese ship, prepared to attack and capture it.

The captain hoisted the American flag and the Russians sailed away. Indian troops, lancers and infantry, sent from Singapore, most of them from the 11th and 12th hill districts on the Afghanistan border, are pressing to the relief of the besieged.

ALL FOREIGNERS KILLED. The most dreadful rumors continue to come from within the city of Peking. There are many stories afloat that it is hopeless to try to trace any of them to their source. Without any degree of definiteness, the report of reiteration is, that "people have been killed," "foreigners have been killed."

Your correspondent considers the reports to be very doubtful, that is, if what the Chinese mean to convey is that all the foreigners in Peking have been slain. This report may refer solely to the killing of Von Ketteler. The refugees from Teng-Chau-Fu have arrived here. All the refugees got in safely but one man, named Wells, who refused to leave the station and his fate is unknown. Communication with Tien Tsin is interrupted.

BRITISH FOREIGN OFFICE HOLDS BACK. New York, July 7.—There had been no official news from China up to midnight, and Mr. Broderick had only been able to report the situation unchanged when closely questioned in the house of commons today. Rumors that a bulletin had been received from Sir Claude MacDonald had been confirmed in a roundabout way through Berlin, where information has come from the German consul at Tien Tsin stating that the German minister had been killed in the street and that an interpreter had been shot dead. The British foreign office does not give out news until it is forced to do so. Lady Hart is also reported to have received a dispatch from Sir Robert Hart but it was carried on account of the same runner who handed to the British consul the urgent message for relief.

LONDON YET HOPEFUL. Press messages are few in number and dated in the majority of cases, Chinese news has been during the last fortnight. The London public pays little attention to sensational headlines in the newspapers covering alleged details of an appalling massacre. It is compelled to feel that the Chinese accounts of what has taken place are of no value. Many of the best informed men believe that the fate of the legations will be like the mystery of the death of Gordon, a story that will be told by hundreds of rumor mongers without a single authentic detail.

The most alarming dispatch received on the continent is from a German commercial house at Shanghai, stating that all the foreigners in Peking had perished; that the rebellion was spreading in the north and that disturbances were increasing in Shan Tun. The action of the American government in maintaining independence of European concert or coalition is fully justified if continental reports respecting the dimensions of the powers are accurate. Mr. Broderick has admitted that Japan was strongly urged by Great Britain to intervene with a large force and while he denies that any power has offered objections, he asserts that negotiations over the latter are still in progress.

EUROPEAN COMPLICATIONS ARISE. There are persistent rumors on the continent that Japan will not be allowed a free hand in time to secure the evacuation of the legations, and that complications have already arisen. These reports are probably premature. The powers will hold together until definite assurances are received that the legations have been destroyed. Differences of opinion are then likely to separate.

It is Incontrovertible! The Editor of the "Christian Millon," under the heading of General Notes, on August 20, 1896, wrote: "A good article will stand upon its own merits, and will not require any aid from the editor's pen. It will continue long, if it does not, is more or less degree, harmonize with the statements which are published concerning it."

Mr. Hall Galt, of "The Despatcher," "The Mansfield," "The Christian," when speaking on "Criticism," recently, said: "When a thing that is advertised greatly exceeds its value and goes permanently, when it is sold, it only goes for a while, the public is the proprietor."

BEECHAM'S PILLS. It is a fallacy to imagine that anything will sell just because it is advertised. How many nostrums have been started with glaring and smelted out in gloom? The fact is, a man is not easily gulled a second time; and a man who has been once deceived, is more than twice as sure to be deceived again. Assuredly the sale of more than 6,000,000 boxes of BEECHAM'S PILLS per annum, under a public trial of half-a-century, is a conclusive testimony of their popularity, superiority and proverbial worth.

Another proclamation issued by Li Hung Chang directs that persons starting an uprising shall be at once beheaded and that those spreading false rumors shall be severely punished. This latter phase, in a Chinese sense, means slow strangulation by means of a wooden collar. Wholesale executions are expected to follow these proclamations. Official dispatches from Port Arthur to the Russian government, bearing date of July 2nd, show that the country to the northward is in a state of disturbance, and that bands are destroying property. Six pirate ships have been captured by Russian vessels at the island of Billong.

The European powers into at least two groups and the occupation of the capital will be preceded by a secret agreement respecting the ultimate partition of the empire. The American government stands in a different position from Russia, Germany, England and France, which have been forcing China to cede harbors and territory to them and thereby causing the outbreak of a widespread anti-foreign movement. It is not responsible for the existing agitation against foreigners, and has no part in the coalition which must inevitably divide the empire among the European powers and Japan.

HOPING AGAINST HOPE. Seattle, Wash., July 7.—J. Clark, editor of the Shanghai Mercury and war correspondent of the London News, arrived here today on the Rio Jun Maru from Shanghai. He has been a resident of China for forty years. Speaking of the conditions there he said: "I see by the dispatches that hope has been given up of the safety of the foreigners in Peking. I cannot think the conditions warrant this belief, and am of the opinion that they are yet safe while the Germans are still foreigners, but but and only is still foreigners."

The cholera's next selection was "The Song of the Brotherhood." President Joseph F. Smith was the next speaker, and delivered a fervent and impressive speech in which he praised Superintendent Bamberger for his generosity, and the committee for their untiring efforts in providing such a pleasant entertainment for the aged. He felt to bless the aged fathers and mothers in Zion, and hoped they would be comforted by the thought that their sons and daughters would honor them and live long in this goodly land.

THE REASON IS NOT GOOD. "There is still a greater reason for believing the foreigners within the legation have not been murdered. While the Boxers are in control of Peking, and are so dangerous to the foreigners, they are wise enough to know the death knell of the cause they espouse would be sounded in a wholesale slaughter of foreign diplomats."

POWERS ARE BACKWARD. "I have the best hopes of the safety of Shanghai and the cities in the adjacent provinces. While the viceroys are the appointees of the empress dowager, they are sensible to countermand anything that would rob them of their position. They are not ready in sympathy with the Boxer movement, and are at least semi-friendly toward foreigners. Of course while there is dilatory action on the part of the powers, the Boxers will gain strength, and to predict what they are capable of doing would be foolish."

Situation is Very Bad. Finghan, Mass., July 7.—Secretary John D. Long, shortly after his arrival at his home from Washington, in speaking of the situation in China, said: "The situation is a very grave one. There has been no official news from there, and even a message that we got there, Kempf came by runners. The purpose of the American government is to protect American lives and American property, and not agrardisement."

Muir Glacier Breaking. Tacoma, Wash., July 7.—The steamer Queen from Alaska brings further news of the presumed disintegration of the famous Muir glacier. The sea in the vicinity was found full of floating ice, broken from the face of the glacier, but it was impossible to get near enough to find out just how badly damaged it is. It is thought the gradual working of the ice towards the sea will soon fill the mouth of the former river completely. This will create a new face on what remains of the glacier.

THE FAMINE IN INDIA. Grain is Plenty, but the Prices Are Too High. New York, July 7.—Louis Kloppsch, who went to India to prepare the way for the arrival of the British steamship Quito chartered by the United States government to carry 200,000 bushels of grain to Bombay, has returned on the Hamburg-American steamship Pennsylvania. Dr. Kloppsch left India June 2.

Hunger and disease are doing dreadful execution among the poor," said Dr. Kloppsch. The Quito arrived with her cargo in splendid condition. The grain is sold at 15 cents a bushel to those famine sufferers who have money.

It cost us 50 cents a bushel, and thus our original investment of \$100,000 becomes \$150,000, which is to be used for buying grain for those that have absolutely no means. Dr. Kloppsch said there is plenty of grain in India, but it is sold at high prices. He said famine sufferers increase at the rate of 25,000 a day. As soon as the rainy season sets in the plague will find every condition favorable for its unchecked development, Dr. Kloppsch fears.

Twelve Died from Heat. Chicago, July 7.—A heavy rain storm last night was the first decided break in the hot wave. It was declared by the weather bureau office here to be only temporary relief as hot weather is predicted again for today. The deaths yesterday, due to the heat, were 12. Several of the latter are in a serious condition and their recovery is doubtful.

Col. Pettit Acquitted. Manila, July 7.—The court martial convened for the purpose of hearing the charges against Col. James S. Pettit, of the Thirty-first Volunteer infantry, who was accused of violating the sixty-second article of war in making an arrangement with President Medelli of Zamboanga for the capture of Juan Ramos, and who was afterwards transferred to Medelli and killed, has brought back a verdict of acquittal. Judge Arthur in reviewing the evidence, disapproved of the finding of the court martial. The acquittal, it is announced, restored Col. Pettit to duty in his regiment.

Gen. James Bell, it is announced, will succeed Brigadier General E. B. Williston, the provost marshal at Manila. Gen. Bell will enter upon his duties July 15. Gen. Williston will return home.

ROUTING OF THE OLD FOLKS. Remainder of a Program that Pleased All Auditors. Following the address of Apostle Lyman in the afternoon program of the Old Folks at Lagoon yesterday William H. Foster sang in fine style the old favorite "Bring Back the Old Folks."

President Angus M. Cannon next addressed the assembly. He said he was proud to be associated with the people who had labored so assiduously to redeem and make habitable this once desert land. George Margets sang a couple of humorous selections, after which Sir Bamberger, the proprietor of the resort, made a short address, during which he stated that he had lived in the great west for upwards of thirty years, and had never before been called by his right title, namely that of Elder. He had never associated with a better or more hospitable people than the inhabitants of this State, and were he a millionaire he would never wish to reside outside of Zion. Like the "Mormon" people he said he believed in paying an honest thing if he could do it in his own way. He said he felt honored in being thus privileged to show kindness to the old folks and heartily invited them to come again.

El H. Polrice gave a humorous recitation in German dialect entitled the "Bishop Robert T. Burton, in behalf of the presiding bishopric, said he was glad to mingle with these associations of the old folks, where there was no distinction on account of race, color or religion."

The choir's next selection was "The Song of the Brotherhood." President Joseph F. Smith was the next speaker, and delivered a fervent and impressive speech in which he praised Superintendent Bamberger for his generosity, and the committee for their untiring efforts in providing such a pleasant entertainment for the aged. He felt to bless the aged fathers and mothers in Zion, and hoped they would be comforted by the thought that their sons and daughters would honor them and live long in this goodly land.

ROY HODGERT INJURED. The most serious spill of the season occurred in the final of the one mile handicap amateur, in which Roy Hodgert and A. W. Smith were hurt. Both were riding on the south bank at a lively pace, when they came together and went down. Smith was injured beyond a few small cuts, but Hodgert had a number of bones broken in his right hand and an artery severed. He was conveyed to St. Mark's hospital in an ambulance, where his wound was dressed. Later he was taken home.

SHORTS vs. POKIES. The Short Lines and Pockies are testing conclusions once more on Walker's baseball grounds this afternoon. As shown in last evening's "News" some changes have been made in the local team's line-up, and the game ought, therefore, to be a close one.

TO TEST THEIR SPEED. A Purse is to be Offered to the Best Man. The Salt Palace management is contemplating a novel race to test the speed of the local grand purses who will be hung up and a number of riders will enter. Each man will ride alone unpaired and the fastest man takes the money. This will avoid any loading and will show the actual speed of each man as one will not know the time of the others.

RACES WERE BOTH GOOD AND BAD.

Motor-Cycle Race Made Up for All Deficiencies.

ROY HODGERT BADLY HURT.

Collides With A. W. Smith and Both Go Down—"Devil Catcher" Beats the Swede's Motor.

Last evening's bicycle races at the Salt Palace was an occasion for cheers, groans and shudders. The crowd was a good one both in point of numbers and temperament; quick to forget a deficiency and applaud vigorously that which was good. The big event of the evening was the race of the motor-cycles, Chapman's "Devil Catcher," and Lawson's "Red Devil." The race was five miles and was as pretty and inspiring a sight as ever beheld at the saucer. At various stages of the race the crowd grew frantic with joy and yelled and yelled and yelled. Both machines behaved nicely and the race ended without an accident.

CHAPMAN'S MOTOR WINS. From the crack of the starter's pistol the race was exciting. A flying start was made and Iver Lawson and Chapman soon took the lead of Vaughn and Gust Lawson, who were engineering the "Terrible" machine. They maintained this position for the first mile when the Swede's motor made a pretty good start and went ahead of the other. Thus it was until the third mile, the crowd cheering wildly. Chapman and Iver led them for another mile, but Gust and Vaughn again got the lead and gained a quarter of a lap. Everybody thought the race was over and Gust and Vaughn, but a pleasant surprise awaited them. Chapman opened wide the throttle and with Iver leaning over the handle bars, let the "Devil Catcher" go, and Iver, soon passing the others and winning by nearly half a length. Time—4:53 1-5.

MUNSON SPRINTS SOME. In the first heat of the mile handicap Amateur Julius Munson developed a sprinting streak quick unlooked for and carried off the honors in the time of 1:09 1-4. Liday second and Sturrock third.

The second heat was the fastest and was won by W. E. Samuelson, with A. W. Smith a close second. Time 1:07 1-5. This was the fastest heat. King captured the third in 1:07, Bainbridge crowding him.

CROWD GREW WEARY. In the qualifying heats of the two mile handicap professional, the crowd grew weary and groaned. The heats were two miles and were handicap. The first ran Chapman and Lawson scratch. Gust Lawson, Iver Lawson, Gust Lawson 30 yards, and Gust Lawson 30 yards, and Gust Lawson and Chapman won, but the time, well, it was awful, 4-42, two to qualify three in the fastest heat. Turville and Gust did not qualify. The fault of the loafing habits of the other men, who for they overtook the handicaps in the first mile. It was therefore the fault of the handicaps, who apparently were afraid of hurting themselves.

The final was run in 4:26 by John Lawson, C. E. May second. The United States record was demolished in the third by Vaughn making the distance in 4:08, Gunn second and Emery third.

The final was very pretty. Chapman and Iver overhauled the other men in the first mile and led the lead until the home lap, when Vaughn made a beautiful sprint and cut Chapman out of second place. Iver won first time, 4:18.

ROY HODGERT INJURED. The most serious spill of the season occurred in the final of the one mile handicap amateur, in which Roy Hodgert and A. W. Smith were hurt. Not Exactly Sick But—

Neither are you well. The frequent headaches, the fatigue after slight exercise; the lack of appetite, want of energy, a slight but troublesome pain here or there, the loss of flesh and strength; the ease with which you take cold; all this indicates that your health is not as it should be. What is the best thing to do? All persons suffering as described above have a certain remedy in

Dr. Williams' Pink Pills for Pale People

They are for pale people, for delicate people, for nervous people, for people who are thin and lacking in energy, spirits and appetite. When you take Dr. Williams' Pink Pills for Pale People you are simply doing what thousands of your fellow beings the world over have done with the greatest success. Knowing this it is always unnecessary and often dangerous to experiment with something else that is recommended as "just as good."

Tom Sharkey is a very angry fighter. Within ten days he has been defeated by Gus Ruhlin, and some people who regard as a bitter enemy, has put in circulation a report that he is to wed. "I ain't going to get married," he says. "I have my sister here and my father and mother are coming over soon. Some fool started that story. All my friends know I never intend to get married. Say, young fellow, whenever the wise guys get women and me they mixed up in pipe dreams you just remember that Sharkey isn't in it."

The "Terrible Swede's" New motor cycle will arrive here next Monday or Tuesday. Eddy Smith, the clever little amateur, will probably be in shape to enter the races by the latter part of next week if not by Tuesday.

The Rio Grandes go to Ogdén tomorrow to play Father Gilmin's boys again. The Rios have practiced nearly every day this week and are in fine shape.

One week from today the Rio Grandes and Short Lines will play here and "Kid" Shepard will pitch for the Clippers.

SPORTING NOTES. Iver Lawson and John M. Chapman, the invincible team at the saucer, have decided that it would not be a
