

MINING, BUSINESS AND STOCKS.

ACTIVITY IN MAY DAY TODAY

Stock Sells Up to 63, but Closes a Little Weaker.

DAILY-WEST NOT SO STRONG

Daily Sells - Galena Active - Petro Makes a Sharp Advance - Yankee Cons. Softening.

TODAY'S METALS:

SILVER 60%
LEAD \$4.00
CASTING COPPER 15%

The amount of business transacted on the exchange today totaled \$2,707.50. Daily participated at \$1.20, while Daily-West opened at \$1.12 and closed at \$1.18, with the sale of 435 shares.

Galena was loosened up at 4 1/2, and May Day was very active at figures ranging from 6 1/2 to 8 1/2. The stock was firmer today than it has been for the past two or three days.

Grand Central was held at \$5.85, with \$1.65 offered, while Yankee Cons. was offered at 8 1/2, with 5 1/2 bid.

Yankee was unchanged, but a sharp advance is noted in Petro, which was held at 2 1/2, with 2 1/2 offered. Lower Mammoth and Mammoth are practically unchanged.

CRUISING PARTY RETURNS.

After Meeting With Some Hardship They Arrive Safely Home.

The cruising party composed of John Hobbeker, Jr., of Omaha, his sister-in-law, W. L. Eastman and Frank Hoop, an employe of the pavilion, whose protracted absence on the lake caused so much anxious speculation, got back to the beach last evening. They were all well and hearty, and with no great story of adventure to tell, except the loss of thirty feet of mast, a season of thirty-six hours without any water, which was substituted with the juice of canned fruit. Once the party was grounded near Antelope Island, a short exploring tour on which resulted in the discovery of a spring, but the water contained so much sulphur that it could only be used in making coffee.

The lady was seasick nearly all the time, but she was too brave to complain much.

CHILDREN GUESTS

The population of Salt Lake—a new \$12.00 Standard Dictionary given the successful guesser. See the "News" advertisement.

Pump cheeks, flushed with the soft glow of health, and a pure complexion make all women beautiful. HERBINE imparts strength and vitality to the system, and the rosy hue of the cheeks. Price, 50 cents. Z. C. M. L. Drug Dept.

For digestive weakness, nervousness, pains in the side, flatulence, dizziness, indigestion, headache and other annoying accompaniments of constipation, HERBINE is a prompt and unequalled remedy. Price, 50 cents. Z. C. M. L. Drug Dept.

For mosquito bites, bites of stings of insects, animals or reptiles, apply BAL-LARD'S SNOW LINIMENT. It counteracts the poison in the wound, subdues the inflammation and heals the flesh. Price, 50 cents. Z. C. M. L. Drug Dept.

WILL QUARRY ITS OWN LIMESTONE

American Smelting Co. Buys Land in Parley's Canyon for that Purpose.

RIGHT OF WAY FOR R. R.

Included in Present Deals—At the South Swansea—Petro Looking Well—Mrs. Coram Dies.

It was reported today that the American Smelting company is purchasing several hundred acres of land in Parley's canyon, about 300 or 400 yards above the waterworks, for the purpose of securing a limestone quarry from which to obtain the necessary fluxing for the new smelter at Murray.

When seen by a "News" representative today Manager T. R. Jones of the Smelting company said that a large tract of land had been secured in the canyon for the purposes named. Mr. Jones intimates, however, that it will be several years before the company decides to utilize the limestone beds secured there. At present Messrs. Tate and Jones are supplying the smelter with all the lime rock that is needed from their quarries north of the city. The rock is of very good quality, but the smelter company does not propose to always depend on others for its supplies. For this reason the above purchase has been made, so that the smelter company may have an independent source of supply.

Notwithstanding the denial of those interested that the company will not soon utilize its resources in this direction, there exists the belief that the company will operate its own quarries as soon as the new \$1,000,000 smelter is completed. The fact that the right of way for a railroad is being secured at the same time makes the latter supposition very probable. Already several lawyers in the city have passed upon the titles to various pieces of property which are said to have been bought by the Rio Grande Western Railway company.

There is also talk of the railway being straightened and some of the curves being overcome between the city and the canyon, which may have something to do with the building of the road that will in the near future connect Parley's canyon with the smelter at Murray.

AT THE SOUTH SWANSEA.

The Output Will be Nearly Doubled in About 60 Days.

After spending several days underground at the South Swansea in company with experts James W. Neill and W. G. Van Horn and Attorney Arthur Brown and Messrs. Messrs. L. E. Ritter and J. M. Wheeler are again in town. Mr. Wheeler reports the mine looking well. The new shaft is nearly down 600 feet. It is being put down more rapidly than expected yesterday, that softer ground is being encountered. At the 650 level connection will be made with the old workings. Thereafter, or in about 35 days, it is expected that all the mine's output will be extracted through the new shaft. In order to raise the ore to the 650 level a donkey engine will be placed on that level in the old shaft. Within the next 60 days, Mr. Wheeler expects the output from the mine will be nearly doubled. At the same time new parts of the vein will be prospected and work will be crowded more in several places in the mine. Four cars of ore were shipped yesterday, and more are on the way with a further lot of four cars being loaded at the mine.

PETRO LOOKING WELL.

Management Expects to Shortly Tap an Ore Chute 1,000 Feet Deep.

An advance was recorded in Petro today on the stock exchange. When approached as to the condition of the mine today Glen Bothwell said it is looking very well. A nice body of milling ore is being met, and is being encountered and the manager is now driving a drift above the tunnel level to connect with an ore chute which has been followed from the surface some 450 feet. If intercepted this ore chute will be cut by this drift about 1,000 feet below the surface. The drift has now been run about 600 feet and indications point to an early contact with the ore body that is being sought. "Within the next two weeks we may reach our destination," said Mr. Bothwell today. If accomplished this will give the Petro some 600 feet or more of stopping ground on this chute and greatly increase the resources of the company. Some ore will shortly be shipped. The mine are full, but the management will not make any decided move in the extraction of ore until the extent of the above ore body has been proven to the depth of 1,000 feet.

COTTONWOOD ITEMS.

Senator Rawlins Property—The Silver Lake Co. Working Its Claims. Special Correspondence.

Brighton, Aug. 9.—Mr. R. A. Brighton is driving a 100-foot tunnel in a group of claims owned by Senator Rawlins. He has encountered some very nice copper-bearing rock, assay returns from which have not yet been received. The Woodman Copper company has put a force of men at work who are driving the New Sensation tunnel, already 100 feet long, to connect with the vein which is in ore. Glen has two shifts pushing work in a tunnel which is now in 600 feet and encountering 4 per cent copper ore. The Silver Lake Mining company has opened up some nice bodies of copper ore, running from 4 per cent to 15 per cent and carrying small amounts of gold and silver. There are two shifts at work driving a tunnel, tap a large vein at a depth of 225 feet. The vein was opened above by a 40-foot incline and cross cut 20 feet all in ore that will average 10 per cent copper and \$2 in gold, with 4 per cent silver. The property has been opened up in at least ten different places, all showing good values. Mr. Lambert, who is managing the property, says it is the company's intention to erect a plant for working the enormous quantity of ore in sight.

MRS. CORAM DIES.

Death Announced of the Wife of a Well Known Mining Operator.

A telegram received from Boston today from the office of the Bingham Copper and Gold company, announces the death of Mrs. J. A. Coram, wife of the well known mining operator. Mr. Coram has large interests in Butte as well as at Bland, New Mexico. He is also president of the Bingham Copper and

Gold company, now proceeding with the erection of a smelter south of the city. Mr. Coram's extended acquaintance in the West will cause much sympathy to be extended to him from various mining States. Mrs. Coram has been ill for several months.

J. B. CROCKER HERE.

Arrives from Boston to Look Over the Shawmut of Bingham.

Joseph B. Crocker, of the Boston brokerage firm of Edgely & Crocker, is in the city for the purpose of examining the Shawmut property at Bingham, in which he is largely interested. Mr. Crocker is out west more for pleasure than business. He expresses himself as satisfied with the condition of the Shawmut mine, though he regrets the delays in mill machinery which will set back the starting until some time next week. Mr. Crocker was not able to stop to see the initial run made, but he says the report after the first thirty days' run will be more intelligible to him anyway. He anticipates a successful run as he is a devotee of Duncan McVie, J. C. Crocker's partner, who largely followed in his construction.

Strike in Concord Group.

The Sumpter, Ore., correspondent of the Spokane Review says: By far the most important strike that has been made here in many months is the one just made on the Concord group. This property adjoins the famous Red Boy on the west and runs parallel with it. The distance from here is fifteen miles. The Red Boy for the past fifteen months has been producing 65 tons of 35 ore per day, which is treated on the ground by a 10-stamp mill and cyanide plant. A Pendleton banker and some of his friends advanced the money for development and the Concord Gold Mining company was incorporated and work commenced about January 1 of this year. Since January over 800 feet of tunneling has been driven. The outcropping on the surface of the apex showed that it would be necessary to run a tunnel 800 or 900 feet to intersect the ledge. Of this distance 575 feet is completed. At 205 feet a blind lead was discovered, and the prospecting was done on it.

Last week W. W. Robbins, the manager, commenced a vein on this lead. One just such as is found in the Red Boy was uncovered and it assays 406.06 in gold and 86 in silver. The whole vein is in ore and there can be but little doubt that the Concord will make another Red Boy.

MINING NOTES.

A shipment of cyanide product has arrived from the Chloride Point.

The Horn Silver of Frisco reached the market today with two cars of ore.

Eleven cars of concentrates were on the market today from Senator W. A. Clark's Ophir Hill property.

A rich strike is reported in the Homestake mine at Neal owned by Charles Balbach, says the Boise Statesman.

The Taylor-Brunton sampler reported eleven cars of ore from Stockton and two cars of ore from Frisco today.

Four more cars of ore are on the way to market from the South Swansea of Tintic. Four other cars are also being loaded at the mine.

R. E. Plough of the Silver Summit at West Mountain reports the leading of lead ore from that property, which will be marketed shortly.

R. G. Wilson has purchased a block of 10,000 shares of treasury stock of the Ridge & Valley Mining company, whose properties are in Eureka.

Up to press time P. T. Farnsworth said he was not prepared to say whether the payment of \$50,000 on the Dalton Lark deal would be made today or not.

The Swansea of Tintic and the Silver King of Park City paid \$30,000 in dividends today. The former handed out the regular monthly sum of \$5,000, while the latter paid its monthly dividend of \$75,000.

President Urban H. Broughton of the Highland Boy or Utah Consolidated company and E. H. Hines, pleased with the prevailing conditions of the company. He will likely visit the mine tomorrow.

John C. Sullivan is in from Tintic and reports the 700 level shaft within six feet of the 700 level. At that depth the ledge proper is to be expected. It is intercepted within about 50 feet and prospecting on the vein will commence.

Col. R. A. Hawkins expects to leave for Denver county tomorrow evening in company with some eastern capitalists. The party will look over the Klondike country and see some claims in Beaver Lake district.

Charles J. Hodge, owner of the Last Chance mine at Bingham, has reached town from Chicago. In reference to the reported sale of the property, or to his plans while here, he had nothing to say today. He will likely remain here several weeks.

Manager Heffron of the Bingham Copper and Gold company has sent a number of photographs to the Boston officials showing the progress made up on the new smelter site near the Jordan river from the time when the foundations were first laid. It is noted, when some of the steel structure is being put in place.

Grand Junction Sentinel: J. N. Corbin, editor of the Grand Valley Times, published at Moab, Utah, left last night for Denver, with his goodly supply of ore, which he is taking to that city to be assayed. While there he will try and secure capitalists to invest money in the La Sal mining property, owned by himself and others. Mr. Corbin is firm in his belief that a rich mining camp will be opened up in that country and that with capital fortunes will be made. The samples of ore he took with him to Denver were rich gold bearing.

BUSINESS STANDS STILL.

Market Shows No Change in Its Character at the Opening of Transactions.

Fluctuations Were in Stocks Which are Never a Factor in Influencing Sentiment.

New York, Aug. 10.—No change was shown in the character of the market in the opening transactions this morning. Business seemed to come almost absolutely to a standstill immediately after the opening. Fluctuations of any amount were principally in stocks which are never a factor in influencing sentiment, namely pullman, which fell 2 1/2; American leg, 2 1/2; and lead preferred 1/4. Among the gains was 1/4 in sugar. The bears put St. Paul down a large fraction on its unfavorable weekly earnings. The market also suffered

LIST OF LETTERS

Remaining uncalled for at the post-office, Salt Lake City, Utah, Aug. 10, 1900. To obtain these letters the applicant must call for "Advertised Letters," and give the date of the list. If not called for within two weeks they will be sent to the Dead Letter Office.

BLACK HAWK VETERANS.

Second Day of Reunion at the Provo Lake Resort.

Speeches and Songs by Comrades and Others—Musical Entertainments with Nurse and Receptions.

Provo Lake Resort, Utah County, Aug. 9.—The camp was enlivened by martial music this morning, the second day of camp, by J. A. Warner and company—Sergeant Roger Farrer is officer of the day. The veterans fell into line and were drilled by Major B. W. Driggs. At roll call sixty-four veterans answered, while a number in camp did not answer. There are more people present than at any other camp fire.

Assembly was called to order at 10 o'clock by Judge E. Booth. Singing by comrades led by George Harrison. Prayer by Chaplain Oliver Huntington, Song by comrades.

Judge E. Booth spoke of the part the veterans took in the expedition; furnishing food and supplies. He also urged the veterans to write their recollections of the Indian campaign in Utah.

Bishop Eli Bennett, of Cedar Valley, address the assembly, told of the massacre of the two Weeks boys by Indians. The murderers were afterwards apprehended and executed near Jordan near Salt Lake, the only Indians ever brought to justice in a legal way.

Singing by the camp was followed by a song by Mrs. Jenkins.

Comrades Henry Moyle and John Tanner related incidents of the Indian campaign, followed by a song. The song was sung by Mrs. Ross, strong recitation. Miss Ruth Pearson gave a recitation. In Indian costume gave a recitation in five acts.

John Lowery spoke and gave many incidents of the Indian wars in Utah. Miss Strong daughter of the late William Strong, gave a recitation, songs were given by Wm. H. Adams, Alonzo Say and Joseph Hancock.

Major B. W. Driggs made a speech. Letters of regret were read from Pres. Geo. C. Cannon, Commissioner Davis and Captain W. L. Bieder.

A resolution was read authorizing the commander to announce the death of any comrades, that members of the association might attend their funerals. "Song America." Benediction.

In the afternoon G. H. Robinson was master of exercises. He also urged the veterans to write their recollections of the Indian campaign in Utah.
