Miners Not Altogether Satisfied With the Terms Offered.

IN SALT LAKE CITY ONLY, AT J. P. GARDNER'S 126-128 MAIN STREET.

ARBITRATION MAY SETTLE.

Will There Be Seed for Future Trouble—All Uncertainty—Amount of Increase in Wages.

Pottsville, Pa., Oct. 15.—The Schuylkill delegates to the Scranton convention have returned and the prevailing impression is that the collieries will soon be at work, provided the operators agree to the terms of that body.

In the Schuylkill region, it will be remembered, the men went out largely on a sympathetic strike and it is believed they will follow the miners of the upper anthracite belt who agree to the offer of the convention, and that the miners there are eager to go back to work at the advance which their employers are willing to pay.

Roosevelt Shows His Own Position Regarding the Ice Trust—Charge of Hypocrisy.

10 PER CENT INCREASE.

In contradiction to this, the leaders say that they will get 10 per cent, or equal to 10 per cent above the basis. On the even \$2.50 basis, outside laborers will be paid \$2.75 a week, inside laborers \$3.00 and miners \$12 a week.

ALL IS UNCERTAINTY YET.

New York, Oct. 15.—Whether or not the demand made by the miners will be granted is the question upon which definite information was not obtainable in this city yesterday.

ATTITUDE OF RAILWAYS.

Some of the individual operators who were seen said that they had no idea of what attitude the railroads would take, but they agreed that whatever action was taken by the railroads would be in accordance with the acquiescence of the individual mine owners.

VIEW OF OPERATORS.

"Nor do I think," one of the independent operators said in discussing the situation "that the mine-owners will consent to bind themselves to pay so large an increase until April 1, when the warm weather and the falling off in the demand for coal, which always occurs in the spring, might very greatly reduce prices."

Brutal Murder of a Child.

Dayton, O., Oct. 14.—The dead body of Ada Lantz, the twelve-year-old daughter of Charles P. Lantz, a carpenter, was found in the rear of her father's residence last night. A surprise party had been tendered her parents, and while the guests were playing cards the girl fell from the house.

Americans Are Rescued.

Manila, Oct. 14.—Captains Devenaux Shields, who, with fifty-one men of company F, Twenty-ninth regiment, U. S. V. Infantry, was captured by the insurgents last month on the island of Marikina, was rescued yesterday by the American rescue force, with all the members of his party.

Killed on the Railway.

Chicago, Oct. 14.—An open switch at Eighty-fifth street, South Chicago, believed to have been purposely mis-placed, caused the death of two men, seriously injuring another, and made wreckage of the engine and forward

carried by these men and their dependents.

In the Tammany State convention in New York they actually denounce the ice trust in their political capacity, while in their private capacity they were stockholders in it, and through their counsel were doing everything to prevent its dissolution by the attorney general.

Affairs are Unsatisfactory.

New York, Oct. 15.—General Buller's impending return from South Africa is understood to be due to a rather unexpected call upon his services in reorganizing the South African corps, says the London correspondent of the Tribune.

ATTITUDE OF CHILE.

Does Not Like Arbitration—Program for the Mexico Conference.

New York, Oct. 15.—Before finally accepting the invitation of Mexico to participate in the Spanish-American conference to be held next year in the City of Mexico, says the Washington correspondent of the Herald, the Chilean government has arranged for a definite program, setting forth the business the conference shall discuss.

Had to Send the Child Back.

New York, Oct. 15.—M. Muline, a Philadelphia shoemaker, sent to Russia for his wife and child, both of whom arrived at Ellis Island several days ago, and were detained because one of the children, a girl 8 years of age, was an imbecile.

PUNISHING CUBAN FRAUDS.

Government is Vigorously Pursuing Offenders.

New York, Oct. 15.—A special to the Herald from Washington says: Since his return from the investigation of the Cuban postal frauds, Post Assistant Postmaster General Brewster has been engaged in formulating the evidence to be submitted by the department when those arrested are brought to trial.

Campaign of Defamation—English People Glad It is Past—Chamberlain's Position.

New York, Oct. 15.—A dispatch to the Tribune from London says: There are many signs of public relief over the close of the canvass. While it has been a short canvass, there has been much bitterness. Old politicians describe it as a carnival of bad manners and evil passions.

ATTITUDE OF CHILE.

Does Not Like Arbitration—Program for the Mexico Conference.

New York, Oct. 15.—A secret mission from Santo Domingo there has arrived, says the World, William Swift Wright, formerly of Loganport, Ind., now confidential adviser of President Jimenez.

AN EVEN CHANCE FOR UTAH

Claim Made by the Republican National Committee.

Forecast Given Out Respecting Presidency—Estimates McKinley 370, Bryan 115, Doubtful 62.

Chicago, Oct. 14.—Henry C. Payne, vice chairman of the Republican national executive committee, tonight gave out his first forecast of the election. Mr. Payne made an estimate of the votes by States and in doing so divided the States into four classes—twenty-four States having 270 electoral votes, certain for McKinley; twelve States, having 115 electoral votes, certain for Bryan; six States, having thirty-eight electoral votes, in which the chances of Republican or Democratic success are even, and three States, having twenty-four electoral votes, in which the chances are sixty to forty in favor of the Democrats.

MR. BRYAN'S TOUR IN OHIO

It Will Close Monday Night With a Speech at Cleveland.

Then He Will Go to New York—Preparations Made to Welcome Him to Gotham.

Akron, O., Oct. 14.—William J. Bryan spent the day very quietly. He was the guest of Judge Grant, and, aside from going out to church in the forenoon, he remained indoors all day. He attended the Westcott Congregational church and heard a sermon preached by Rev. J. L. Davis, but there were no political references in the sermon, and Mr. Bryan was allowed to come and go as any other visitor would have been.

TO ENTERTAIN BRYAN.

New York, Oct. 14.—Mr. Bryan is scheduled to arrive in this city via the Erie route at 10 o'clock tomorrow afternoon. A committee will meet him at the station, including Adlai E. Stevenson and Webster Davis. He will be taken to the Hoffman House, where suites have been reserved. Dinner with Mr. Bryan and Mr. Stevenson as guests of

Scrofula THE OFFSPRING OF HEREDITARY BLOOD TAINT.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands, enlarged tonsils, throat, catarrh, weak eyes, offensive areas and abscesses and sometimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, but the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

S. S. S. makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

The war department has practically determined to adopt General Davis' recommendation and reduce the military force in Porto Rico. The troops will be brought to the United States, and then sent to Manila.

It is believed, can be spared from the island, and these will make a welcome addition to General MacArthur's command.

In order that there may be no interruption of the practice work of the submarine boat Holland, instructions have been given to Lieut. Caldwell, her commanding officer, to take her from Newport to Annapolis, Md.

It is believed that Jimenez has sent him here to entreat a grant of a loan sufficiently large to transfer the bonded indebtedness from Belgium to American creditors, having decided on this route in a seven week tour of the republic, in which he found conditions most prosperous.

Mr. Wright said that in 1893 Santo Domingo owed the Belgian bondholders about \$7,000,000, but that the indebtedness has since grown to about \$20,000,000.

"The Santo Domingo Improvement company," said Mr. Wright, "formerly gave the government \$80,000 a month on its bonds and applied the balance, less expenses, on the interest of the Belgian bonds. The budget was not sufficient for the government's expenses and the revenues were not sufficient for the debt."

"Counsel for the improvement company in May, made a new contract by which the debt was continued for three years, interest to be paid at 4 per cent until the company made a statement of the debt within six months and difference to be arbitrated.

"The six months expired this month, but the company refused to make a statement, and the Belgian bondholders demanded a commission to adjust the debt."

Mr. Bryan will continue his Ohio tour and will close it with a night meeting at Cleveland, after which he will proceed to New York. During tomorrow's speeches will be made at New Philadelphia, Alliance, Union, Youngstown and Leavittsburg, in addition to Cleveland.

Mr. Bryan has found his Ohio tour comparatively restful. He has not been required to make so many speeches a day and in most cases the speaking stands have been in the immediate vicinity of the railroad stations. He has also been relieved of the constant presence of local committees on the train.

The practice in most States is for committees from each town at which Mr. Bryan is scheduled to speak to meet his train an hour or two before their town is reached and ride in with him. The consequence is that the train is generally overcrowded and Mr. Bryan's time and strength overtaxed.

In the Ohio tour the State committee has been represented, but committees from various stopping-places have not been encouraged by the State managers, the result being to give the national candidate more time for rest and reading, and the concentration of speeches than he ordinarily has. The good effect of this is seen in the physical condition of the candidate. He bids fair to be in excellent shape when he reaches New York.
