CHAMBERS' ESTATE VALUED AT \$430,000.
Brother of the Deceased Arrived Here From Kansas City Last Night and Will Ask That C. L. Road be Appointed Administrator.

George R. Chambers of Kansas City, the brother of the late Robert C. Chambers, arrived in Salt Lake last night and immediately went into consultation with his brother's attorneys, Bennett, Harkness, Howat and Van Cott. At first it was thought that he would petition to have himself appointed administrator of his brother's estate but the laws of Utah make it impossible for a non-resident to be appointed administrator, by a Utah court. Consequently, a petition was drawn up by Attorney Van Cott for George R. Chambers in behalf of Ada C. Martin, Margaret E. Chambers and Sarah J. Chambers, sisters of the deceased, petitioning the Third judicial district court of Utah to issue letters of administration to Charles L. Road, secretary of the Ontario Mining company.

He maintained that he had simply entered the clerk's office to play a joke on that official, but he did not seem to be able to give any lucid explanation of what the joke was.

FRANCE PROTECTS CATHOLIC CLAIMS.
In China She Assumes the Role of Defender of the Faith—Will Look After Indemnities.

Washington, April 15.—In the question of Chinese indemnities, which is going on at Peking and also at the various foreign capitals, it has been developed that the French government is desirous of looking after not only those claims of a distinctly national character relating to France and French subjects, but also the extensive class of claims of Catholic institutions and missionaries. In making known this desire the French authorities have made it clear that they look upon the non-military claims as quite as worthy of consideration as those connected with the equipment of military expeditions. The extent of these depositions to Catholic persons and property in China, is said to be very large, owing to the number of Catholic missions maintained throughout the Chinese empire. It is said that some 6,000 persons, directly and indirectly connected with the missions, many of them native converts, have been killed or wounded during the course of the disturbances. Besides these much property has been destroyed and damaged. As the Catholic authorities have no official status in the negotiations at Peking, they have naturally looked to the French government as most likely to render them such aid as might be proper in the circumstances. This assistance has been readily granted, and as a result, the various governments have been advised of the desire of the French authorities to see that these non-military claims receive suitable attention as far as possible. It is desired to separate this class of claims from those of a purely national and military character, and to leave them for subsequent adjustment. The claims refer not only to French Catholic missions and missionaries, but include also practically the entire range of claims which Catholic missions have suffered.
