SAD DEATH OF A STRANGER.

C. Spencer Pratt, a stranger in Ogden died yesterday about 1 o'clock at the Ogden hotel of lung trouble. The man is about 25 years of age, and apparently of good education and standing. His home is in Englewood, N. J. He came to Ogden Sunday last in a weak physical condition, and Dr. Wilson, the city physician, has been attending him up to the time of his death, which was probably due to pneumonia.

Amongst his effects was found a package of letters written by his mother and sister from Englewood, N. J. Also some letters written by a young lady from Jersey City, New Jersey, No. 82 Ocean avenue, and signed Alice, and addressed to C. Spencer Pratt, at various stations along the line of the Union Pacific. From these letters it is very evident that the unfortunate man was in a refined family, and the letters are written by persons of education and no doubt of wealth. They are also very affectionate. The remains were taken to Larkin & Sons' undertaking parlors, where they will be kept awaiting word from the relatives who have been telegraphed by Chief of Police O'Brien.

DOES NOT DISAPPOINT.

The New Discovery for Catarrh Seems to Possess a Remarkable Merit.

A new catarrh cure has recently appeared which so far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes, or in stomach and liver.

The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains. The tablets are a scientific combination of Gaiacol, Eucalyptol, Sanguinaria, Hydrastin and similar valuable and harmless antiseptics.

The internal remedy for catarrh cure may be found at any drug store under name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nasal, throat, bronchial tubes or stomach, the remedy is equally effective, success, relieving the stuffy feeling in head and nose, clearing the mucous membrane of throat and trachea from catarrhal secretions, which cause tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration in some case to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the face become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach, causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, present in the blood, and local washes, douches, salves, inhalers and sprays can have no effect on the real cause of the disease. The internal remedy which acts upon the blood is the only rational treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration had extended as far as to destroy the septum of the nose. He says, "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectively they remove the excessive secretion and bring about a healthy condition of the mucous membrane of the nose, throat and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh, with a mailed free by addressing F. A. Stuart Co., Marshall, Mich.

The cemetery has just been completed, and Arbor day was observed by planting the grounds with trees and shrubbery, to make it a beautiful place.

MAXFIELD-ELLETT NUPTIALS.

Charles A. Ellett and Millie Maxfield were united in the bonds of matrimony by Bishop Hiette E. Maxfield the 19th of March. The marriage took place at the home of the bride, Mrs. H. H. Ellett. The ceremony was performed a repast was served and a free ball was given in the evening.

Frederic Larson, the principal of our school, was beguiled into the residence of John H. Peterson during the noon hour one day last week. When the principal returned he found that the school furniture had been removed and it was evident that something besides books was to be the order of the day. Refreshments were served and the remainder of the afternoon was spent in singing, reciting, dancing and games.

OUR NEIGHBORS.

Weather and Crop Bulletin.

U. S. Department of Agriculture, Idaho section, Climate and Crop Service. Weather Bureau, Boise, Idaho, Tuesday, April 23, 1901.

During the past week no precipitation has fallen in any part of the state, and the temperature has been in the elevated sections and frost formed in the valley districts each morning, except on Saturday, the 23rd instant. Variable winds prevailed, with the light to fresh, except in the northern counties, where it was brisk to high from a westerly direction.

CROP CONDITIONS.

Northern Sections: The weather has been favorable for the growth of vegetation, but dry winds caused the soil to become in good condition for plowing. Gardening, seeding of wheat and oats, and potato planting made fair progress. Hare grass is growing and winter wheat is looking well. Buds on fruit and shade trees are swelling and the outlook is bright for the fruit crop.

Southern Sections: During the early part of the week the frost was of such severity that sprouting grain was injured somewhat and bloom on apricot, some apple, cherry, peach and pear trees were injured in some localities. However, the general fruit prospects have not been impaired and the outlook is favorable for large crops of apples and prunes. Farm work progressing. Grass made good growth and seeding was completed in many districts.

Central Sections: Cold and unseasonable weather has prevailed, consequently grass on the range grows slowly and very little plowing has been done. Stock is in good condition and sheep shearing has begun.

Eastern Sections: Owing to the latter part of the week having become warm, snow disappeared rapidly and agricultural lands dried sufficiently to enable plowing and seeding to make good progress. Grass and lucern made good growth. In consequence of scarcity of hay and poor condition of the range, stock is in rather poor condition. Some fruit trees in favored sections have commenced to bloom.

CANEVILLE.

Sunday School Reorganized—Arbor Day—Room for Home-seekers. Special Correspondence.

Caneville, Wayne Co., April 24.—Our little town resembles a flower garden as all the fruit trees are in full bloom. Some of the peaches, pears and apricots have been damaged by frost, but there is yet fine prospect for a splendid fruit crop. Lucern is six inches high, hay very scarce, grain is looking nice.

Arbor day was observed by planting a lot of trees were set out on the meeting house lot, which is a marked improvement.

The canal has been completed and the water runs through without a dam in the river, which is a grand improvement. Settlers can now come and make homes here with safety.

Sunday school was reorganized today with Joseph Roberson as superintendent, with Geo. B. Rust and Samuel Allen as his assistants; Birdie Clirfew, secretary.

The reason for these changes was because the former superintendent, Geo. J. Poetel, had moved away.
