

SEVEN PEOPLE BURNED TO DEATH

Perished in a Chicago Apartment Building.

A TRAIN STOPS FIREMEN.

Crew Refused to Do Anything When Called on to Move—Quarrel Conducted of a Dowdell.

Chicago, May 5.—Seven people were burned to death, three fatally injured and several others slightly burned and otherwise injured in a fire that destroyed a three-story apartment building at 616 Marquette avenue, South Chicago, early today.

DEAD. Mrs. Josephine Cooley, 5 years old, daughter of Mrs. Cooley, 15 months old, Annie Cooley, owner of the building. Mr. Peter Zook, 30 years old, and his wife, Mrs. Victoria Zook.

INJURED. William Cooley, husband of Mrs. Josephine Cooley, badly burned; will die. Lousa Christensen, face and body burned; will probably die. Harry Murphy, badly burned and both legs broken by jumping from third-story window; will recover. John Zook, badly burned and bruised; will recover.

Mrs. Julia Erwin burned and badly injured. While the occupants of the burning building were struggling with the smoke and flames in hopes of forcing their way to safety, the firemen who were responding to the alarm were waiting for a freight train which blocked the way of the fire engine to move away from the crossing and give an open road to the fire.

Scattered among the embers were found the charred remains of the victims. The bodies were burned beyond recognition and were identified in various ways.

The train crew, who live at Elkhardt, Ind., are being held without bail, awaiting the verdict of the coroner's inquest.

The fire was fraught with an incident of the most distressing character. The little two-year-old daughter of Christensen, who lived on the third floor, was terribly burned, her left arm and her face being roasted. Her father, a follower of Dr. Dowdell, refused to allow the little one to have medical attention, and fought desperately when she was taken from him. He clung to the burned arm of the child, and part of the fire was from the fact that the father was knocked down by some person in the crowd, and barely escaped lynching. He was arrested.

Members of the Lake Shore & Michigan Southern railway, on whose tracks the train is said to have blocked the firemen, declare that they have evidence that the blocking lasted but a few minutes, and that the members of the crew did everything in their power to make way for the fire engines. After an investigation by the police officials, the train crew was released on bonds tonight.

The police think the man was killed about the date of the murder of Farness, in November, 1900. They believe the man was at work at Gauger's mill at the time and that he met death at the hands of the same gang that murdered Farness. Lieut. Hayes said: "Just as soon as I learned that the body had been in the water all winter and that the papers indicated the man was connected with the strike of the woodworkers I concluded that murder had been done."

The case will be investigated closely. The fact that a workman should disappear during the time of a strike is a matter where a man would not have been murdered without causing comment is explained by the police on the ground that the man had not been known in Chicago. His letters showing that he came in June or July, 1900.

Boers Concentrating Under Delarey.

New York, May 6.—The report that a force of Boers is concentrating under Delarey at Hartbeestfontein is regarded with a feeling of satisfaction in London, according to the Tribune's correspondent. The standard expects as a result to hear of another surrender on a scale of Pretorius. The British force should far outnumber the Boers, and as the latter must by this time have been cut off from their supplies, Delarey cannot have any artillery with him. This fact alone should place him at a severe disadvantage.
