

MRS. M'KINLEY HAS BLOOD INFECTION.

Caused by Periostitis of the Index Finger—Her Case Now Presents a More Hopeful Aspect.

Washington, June 8.—Mrs. McKinley's physicians were in consultation about two hours today and subsequently a very complete statement of the character of the illness from which she has been suffering was issued. Such statement has been promulgated from time to time, and while in San Francisco it was said the President desired an announcement of the nature of Mrs. McKinley's illness given to the public. But for one reason or another this bulletin is as follows:

SURGEON GENERAL STERNBERG, WHO IS TRYING HARD TO SAVE MRS. M'KINLEY.

Dr. Sternberg is in frequent consultation with Drs. Rixey, Johnson, Ouler and other physicians who have been called in to battle with the complications in the case of Mrs. McKinley.

A witness told of conversation with her brother just after the killing. Kansas City, Mo., June 8.—Lulu Prince-Kennedy cried convulsively in the courtroom this morning when a witness testified to a conversation held with the prisoner's favorite brother Bert Prince, a few minutes after the killing of Kennedy. Mrs. Kennedy was removed from the room in an effort to quiet her, but when she was brought back a few minutes later, she sobbed and finally collapsed entirely. Unable to proceed with the trial, Judge Wolford ordered an adjournment until Monday afternoon, when the morning and evening sittings, was carried bodily across the corridor to her cell. This was the first real sign of a breakdown of the prisoner, who has displayed since the killing in January last, the cool attitude and apparent carelessness bearing she has shown during the trial.

GREAT GOLD NUGGET DISCOVERED.

Seattle, Wash., June 8.—The Times says: A giant nugget weighing 3264 was found in a recent wash-up on American Hill, Klondike, on the claim being worked by Thompson, Adams, Gains and Cornelius. Today's reports from the north indicate exceptionally lively times on all the creeks. The clean-up of 1901 is in full swing. From all parts of the camp come reports of water running freely, and claim owners taking prompt advantage of the opportunity to wash up their dirt. Summer work is also beginning. Double shifts are being put on at places. Sulphur Creek reported a good flow of water all along the stream and activity at all points. Eldorado is busy everywhere on the creek bottom and hills. The report comes from Chechaco that nearly every claim there is running full blast

STILL TALKING OF THE DERBY.

London, June 8.—London is still talking of the Derby and the Oaks. The discussion of the relative merits of American and British methods of training and riding has broken out anew. It must be confessed that the British comments are generally very fair. They sorrowfully admit the superiority of America on every point. The Sporting Times says: "The Derby has been won by a French horse and an American horse, but never until Wednesday was it won by a horse that had other than an English jockey in the saddle. What- ever our horses might be, the supremacy of our jockeys was deemed complete. But that fallacy is now exploded. Thus two records were broken, viz: A victory for a jockey who was not a subject of the king and the running of the race in the fastest time on record."

Reappointment of Postmasters.

Washington, June 8.—Representative Mercer, of Nebraska, called at the White House today to ascertain the policy of the President in the matter of re-appointment of postmasters and other federal officers whose terms expire during the recess of congress. He learned that, generally speaking, where it was the intention of the President to re-appoint the present incumbents the appointments would be held over until after a congress convened. In this way the necessity of filing two bonds will be avoided. In the case of officers having fixed tenures it may be necessary to make the appointments during the recess.

and an aggregate of 1,000 men are estimated to be employed on the hill. The big pumping plants of McDonald & Grant and Barton & Co. are working to their full capacity. Hunker and Gold Bottom are alive with men engaged in sluicing, and Hunker is already sending some gold to Seattle. Bonanza has also sent in some new crop gold and is working at nearly all points. No reports are heard of scarcity of men and some predict that there are more men in the camp now than will be needed at the bustle season. The long brewing war against concessions in the Klondike has opened with attacks against the big grants from all quarters according to the Dawson News. Suit has been filed in the gold commissioner's court against the Doyle concessions on Bonanza and the Matson concession. A third suit is also to be brought against the Matson concession.

the Santiago medals until the return of Asmit, Secy. Hackett. The honors approved by the secretary are as follows: Ensign C. E. Pettigill, U. S. N., for courage and efficiency at the battle of Tien Tsin. Ensign A. H. McCarthy, U. S. N., to receive a very highly commendatory letter from the navy department for his skill, courage and good judgment in handling his vessel, the gunboat Calamianes in the Augusan river, Mindanao, February 25, 1901, and the successful carrying out of the object of the expedition. INTERNATIONAL MACHINISTS.

They Accept the Metal Trades' Declaration of War. Toronto, Ont., June 8.—The International Machinists' association today passed a resolution to the effect "that after due consideration we accept the challenge of the National Metal Trades' association and after accepting this declaration of war we cheerfully pick up the gauntlet and hurl back defiance. We never will accept any modification of our demands and resume labor until the cause for which we struggle is triumphant and a shorter work day is an accomplished fact." President O'Connell claims that the International association did all it could to get a satisfactory adjustment by pacific means offering to accept any decision reached by arbitration, that would cover the question nationally, but he says the employers refuse every effort of any conciliation. F. P. Sargent, grand master of the Locomotive Firemen's association, assured the delegates that his order would assist them by all means in their power.

FELL FROM A TREE.

Son of County Clerk James Meets With a Bad Accident. When County Clerk James arrived at his office this morning there was sad news awaiting him from his home. A telephone message had been received about twenty minutes before from his daughter, requesting that her father be told to come straight home as soon as he arrived at the office as Harold Pembroke, his nine-year-old son, had fallen from a tree and had not recovered consciousness since his fall. Mr. James, it is needless to say, made post haste home again. Upon arriving at his residence he went for Dr. Inkerter, who, after examining the head of the boy, expressed grave fears that he had sustained a severe concussion of the brain. Two hours after the accident the little fellow regained consciousness and at this time is said to be resting as easily as possible under the circumstances. It appears that he was climbing a tree outside his home when a limb broke and precipitated him a distance of thirty-five feet to the sidewalk below. He fell with full weight on his head and shoulders.
