President J. T. Kingsbury delivered very interesting and thoughtful lecture before the University summer school this afternoon. His subject was "Culture."

The citizens of the town of Lund, on the Oregon Short Line, have petitioned for a postoffice representing that the office would have over seventy-five patrons.

According to John Plinders and W. S. Matthews, of Grantsville, the lake has receded far back at its point near Grantsville. The extreme heat has not damaged Tooele valley, but very little because of the many wells there.

The Milwaukee Sentinel says many complimentary things about the rustling qualities of the Salt Lake Elks in securing the 1902 convention and reports the pictures of Joseph E. Snensperger, Lester D. Freed, C. O. Ellingwood and A. E. Lyon.

Capt. John Anderson, who came here to establish a post of the Volunteers of America, has been called to Reno, Nevada, where his two-year-old child is lying seriously ill. The work of organizing has been postponed for one month.

On July 27th, at 9:30 a. m. came a circular to Salt Lake from Tokio, Japan, via Seattle. Twenty four hours later came a similar missive from the same source, via San Francisco. Another day saw still a third circular from Tokio, via Tacoma.

Postmaster Thomas is now looking for one from Victoria, B. C. These circulars are all mailed by the postal offices of Tokio, Japan, on July 15, with a view to ascertaining which of the four routes is the fastest.

Frank H. Paul, of the firm of Mitchell Vance & Co., of New York, is here for the purpose of putting in the electric light fixtures in the Kearns residence. Mr. Mitchell is not at liberty to state the cost of the fixtures, but he says they will be an elegant fit to their surroundings. Different shade effects will be put in so that the magnificent interiors will be made to appear at the best possible advantage. It may be about a month before the fixtures can be placed in the Kearns residence.

The enthusiasm and general interest in the coming Labor day celebration bespeaks for that event an elaborate and painstaking display seldom equaled in this state. Last night the executive committee of the Federation of Labor met to further the arrangements for the coming celebration. Nearly all the members were present, and A. E. Johnson acted as chairman. A sub-committee was appointed composed of John Britton, William Picketing and Daniel Elton to assist in the arrangements. The executive committee will meet again next Sunday morning to appoint other sub-committees to attend to the various phases of the work.

SHOWERS HEAVY IN SOME PARTS.

Nine Counties Were Much Benefitted by Last Week's Rains.

GRAINS RIPPENED RAPIDLY. Grasshoppers Are Doing Damage in Cache, Weber, Sanpete and Sevier Counties—Fruit Blown Off Trees.

Weekly crop bulletin, Salt Lake City, Utah, July 30, 1901. The temperature continued excessive throughout the week ended July 29th, the average daily departure amounting to about 5 degrees.

Thundershowers were general during the first half, and scattered thundershowers occurred during the latter half of the week. These showers were heavy enough to be of considerable service in parts of Rich, Tooele, Sanpete, Millard, Beaver, Piute, Wayne, Iron and Garfield counties, but elsewhere they were too light to be of much value.

The heaviest falls reported occurred at Meadowville and Frisco, the former receiving 1.70 and the latter 1.56 inch. Sugar beets, corn and potatoes continued to ripen rapidly and wheat harvest is in full progress.

The cutting of the second crop of lucern is in progress. Meadow hay is being harvested and, like lucern, the yield is rather light. Grasshoppers are doing some damage in parts of Cache, Weber, Sanpete and Sevier counties. Fruit ripened rapidly; considerable of it was blown from the trees by the high winds accompanying the thundershowers.

(The name of the post-office is followed by the name of the county.) Corinne, Boxelder.—Very warm and dry. Second crop of lucern is being harvested. Wheat is considerably below the average. Dried lent was being cut. Water is getting very scarce. There is plenty for irrigation purposes.

W. E. Johnson. Washlake, Boxelder.—Very warm, with plenty of wind in the day time. Harvesting is in full progress. Second crop of lucern is being cut. The yield will be below the average. Small mountain streams are nearly dry.—M. Ward.

Vernon, Tooele.—Good thundershowers from the 23rd to 25th; the precipitation was heavy in the mountains, causing small floods, but no damage. The first part of the week was very warm, the maximum temperature reaching 104 degrees. Barley is being harvested, and wheat will soon be ripe.

W. H. Durand. Levan, Juab.—The maximum temperatures of the week continued in the nineties. Wheat harvest is in full progress. Second crop of lucern is being cut. The yield will be below the average. Corn promises a full crop. Early apples and apricots are getting ripe.—William Brown.

Hyrum, Cache.—A very warm week, the latter part being cloudy with a few sprinkles of rain. Grain is being cut; the yield will be light. Irrigated crops are looking well. Sugar beets are in good condition. Winds have blown considerable fruit from the trees.—James Almon.

Paradise, Cache.—The weather continues warm and dry. Thundershowers on the 25th and 26th, but no rain fell. Second crop of lucern ready to cut. Wheat harvest was begun on the 26th. Meadow hay is being cut and put into stacks; the yield is light. Wheat is being damaged by grasshoppers; the gulls have been preying upon them for several days. That part of the second crop of lucern which has been watered is heavier than the first crop.—James Lofthouse.

Utah, Weber.—Partly cloudy with several traces of precipitation. High winds prevailed. Evergreen is drying up on the ranges and dry farms. Where water is to be had, crops are fresh and green, but below average. Grasshoppers are doing considerable damage.—Charles DeLafayette.

Eden, Weber.—Very warm and dry. Light shower on the 24th. Wheat is ripening very fast. Second crop of lucern is beginning to bloom, and will make a fair yield where it has been watered.—J. M. Wilbur.

Morgan, Morgan.—Very warm; several thundershowers, but no rain in the valleys. Timothy is being harvested and will make a fair yield. Wheat harvest is looking well. Potatoes are ripening rapidly.—S. Francis.

Miller, Salt Lake.—Warm and dry. Well watered crops are growing nicely. Second crop of lucern is being cut. Sugar beets are looking well and are an average yield. Water in the mountain streams is getting very low.—John Morgan.

American Fork, Utah.—Several thundershowers, accompanied by wind, but no rain. Irrigation water is getting scarce. Harvest has begun. Much of the wheat is badly shrunken. Sugar beets are looking well as a rule. The wind has blown much fruit from the trees.—J. C. Wagstaff.

Pleasant Grove, Utah.—Very warm week. All kinds of fruit are ripening rapidly. Harvesting and haying are in full operation. Threshing will soon begin. Light showers from the 23rd to 25th. Water is scarce.—H. B. Strett.

Ephraim, Sanpete.—Very hot and dry; not enough rain to do any good. The crops left by the grasshoppers are suffering severely from the heat and drought.—A. C. Nielsen.

Gunnison, Sanpete.—Several good showers, which have helped grain very much. Irrigation water holds out but wheat was expected. Grain is ripening very rapidly, and the cutting of wheat has begun. Grasshoppers are doing damage; they cut the blossoms off of lucern. Second crop of lucern is very light.—C. A. Madsen.

Meadowville, Rich.—Very warm; a very fine rain, amounting to 1.70 inches, on the 23rd; the amount was thoroughly soaked. Rye has been harvested and meadow hay is now being cut; the yield from meadow hay is very light. Second crop of lucern is doing well.—J. S. Morford.

Laketown, Rich.—A nice thundershower on the 23rd, which did much good to crops; loose soil was washed to the depth of three or four inches. Water is rather scarce, and some wheat is suffering from drought. The second crop of lucern will be light on account of shortage of water.—G. G. Weston.

Coalville, Summit.—Very warm, and irrigated crops have grown rapidly during the week. Two weeks' winter wheat is being cut. Hay is being made. No rain and very little wind.—Thomas Beard.

Midway, Wasatch.—Unusually warm, with occasional thundershowers, but little rain in the valley. Heavy rain at the head of Snake Creek canyon on the 23rd and 24th. Sugar beets look well where properly cultivated. Hay is being harvested in good condition. The yield will be below the average.—John Huber.

Heber, Wasatch.—Warm and dry. Thundershowers in the mountains all week, and 10 inch of rain fell here on the 25th. Some grain is beginning to change color. Vegetation is very rank where there is no bearing of moisture. Ranges and pastures are very dry.—John Crook.

Verna, Utah.—Very warm; several light thundershowers, but the precipitation was not heavy enough to be of much service to crops. The hay crop is below average. Wheat and oats have suffered from want of water, and will yield below the average. Early apples are ripe.—William Menotti.

Holt, Millard.—Nice showers on the 23rd and 24th, amounting to .59 inch. Grain harvest has begun; the yield will be light.—Thomas Menotti.

Holden, Millard.—The warm weather, combined with a very light wind. Water is still scarce.—T. H. Sibley.

Joseph, Sevier.—Very warm with several thundershowers. The first crop of lucern is nearly all up; the yield is much below average. Some wheat has been harvested. Grasshoppers are plentiful.—Ed. Newby.

Emery, Emery.—The weather continues very warm; the precipitation on the 23rd to 25th. Apples and peaches are ripe, and the yields are generally good.—H. C. Wolkman.

The High Council of said Stake will meet at the same place at 9 o'clock a. m. of said day. A full attendance is desired at both meetings.

FRANK Y. TAYLOR, JAMES R. MILLER, EDWIN BENNING, Stake Presidency. JORDAN STAKE CONFERENCE. The quarterly conference of the Jordan Stake will be held at Sandy, Saturday and Sunday, August 3 and 4, commencing on Saturday at 10 o'clock a. m. at which time the business of the general monthly Priesthood meeting will be transacted. The second meeting on Sunday will commence at 12:30 p. m.

ORRIN P. MILLER, HYVUM GOFF, JAMES JENSEN, Presidency of the Stake. Had to Conquer or Die. "I was just about gone," writes Mrs. Rosa Richardson, of Laurel Springs, N. C. "I had Consumption so bad that the best doctors said I could not live more than a month, but I began to use Dr. King's New Discovery and was wholly cured by seven bottles and am now stout and well." It's an unrivaled life-saver in Consumption, Pneumonia, LaGrippe and Bronchitis; infallible for Croup, Colds, Asthma, Hay Fever, Croup or Whooping Cough. Guaranteed bottles 50c and \$1.00. Trial bottles free at Z. C. M. I. Drug Dept.

Children often cry, not from pain, but from hunger, although fed abundantly. It soothes the child, softens the stool, and is not assimilated, but devoured by worms. A few doses of WHITE'S CREAM VERMIFUGE will destroy the worms, when the children will begin to thrive at once. Price, 25 cents. Z. C. M. I.

For Over Fifty Years. Mrs. Wessolow's Soreness Suffer has been used for children's colic. It soothes the child, softens the stool, and is not assimilated, but devoured by worms. 25 cents a bottle.

Permanent Muscular Strength. There is this to be borne in mind in these days when so many young men are giving so much attention to muscular development, in gymnastic and athletic exercises, that there cannot be permanent muscular strength where there is not blood strength.

Head's Sarsaparilla gives blood strength, promotes digestion and assimilation, and builds up the whole system.

Business men who lack the vim, snap and vigor they once had, should use HERBINE. It will purify the blood, strengthen and invigorate the system. Price, 50 cents. Z. C. M. I.

Wise Words from Wise Minds.

The family paper is pre-eminently the evening paper. Only a small percentage of any family has leisure to do more than to scan the morning paper, which comes into the household when the head of the family is rushing to prepare for work, the children are hustled off to school, and the housewife has her hands full of the usual morning duties. At night the day's events are calmly brooded over, the household and the evening paper is taken up when all its contents can be heard, weighed and discussed.
