PERSONAL MAGNETISM.

How Prominent Men Develop This Power and Use It to Influence Others—Women, Too, Adepts in This Mysterious Art.

A Reporter Makes Astonishing Discoveries Secret Methods Which Charm and Fascinate the Human Mind.

High Priests of the Occult Reveal Jealously Guarded Secrets of Years—Two Wonderful New Books by Frankfort New York.

Two wonderful new books entitled "Success and How to Win It," and "The Secret of Power," have just been issued at an expense of over \$50,000 by one of the leading publishers of the city of New York. These are from the pens of the ablest specialists of modern times. The authors gave away the copyright on condition that 10,000 copies should be distributed to the public free of charge. The Columbia Scientific Academy is now complying with this contract, and until the edition of 10,000 copies is exhausted you can get copies of both these books absolutely free. Both books are profusely illustrated with the most expensive half-tone engravings. They are full of wonderful secrets and are so arranged that they are thoroughly explained the real source of the power of personal influence. They fully and completely reveal the fundamental principles of success and influence in every walk of life. The hidden mysteries of personal magnetism, will power and scientific character reading are explained in an intensely interesting manner. Two secret methods of personal influence, which positively enable any intelligent person to exercise a marvelous influence and control over any one whom he may wish. These methods are entirely new and have never before been made public. A reporter has tried them personally and can vouch for their wonderful power.

The books also describe absolutely certain methods by which you can read the character, secrets and lives of every one you meet. No one can deceive you. You can tell what vocation is best for you to follow. You can know the secret power by which millionaires have become so rich. The latest and best system of physical and mental culture and magnetic healing is fully explained and illustrated by beautiful photographs. All these such books have ever before been published. No such wonderful information has ever before been placed in the hands of the public. On account of the large number of copies of these books, the legislature of the state of New York debated whether or not the state ought to permit their promiscuous circulation; but it was finally decided that they would accomplish what greatly overbalance the ill, and their distribution was not interfered with.

Not long ago John D. Rockefeller, the richest man in America, was talking to a Sunday school class, that he regarded his success in life largely to his ability to influence others. Lincoln, Lee, Napoleon and Alexander the Great all won fame and renown by their wonderful power of personal influence. Jay Gould piled up millions by this same power. J. P. Morgan organized the billion-dollar steel trust and enriched himself by millions simply by his marvelous ability to influence others. There are today thousands of men with twice the brains and education of Mr. Morgan who are practically paupers. They have the ability to organize a trust, but they have not sufficient power of personal influence. Personal influence, will power, stamina—call it what you will—flows from the creation of man been the subtle force that has brought wealth, fame and renown to those who were fortunate enough to possess it.

This strange, mysterious influence is inherent in every human being. By the late methods explained by the New York specialist in human culture any intelligent person can develop a wonderful magnetic personality and learn how to read the character, secrets and lives of others in a few days' study at his own home. You can use this marvelous power without the knowledge of your most intimate friends and associates. You can use it to obtain lucrative employment, to secure an advance in salary, to win the friendship and influence of others, to obtain a greater share of happiness from life. You can be respected, honored and become a leader in your community.

If you are not fully satisfied with your present condition and circumstances; if you long for greater success or more money; if you are not able to influence others to the extent you desire, the reporter would advise you to write at once for free copies of the great works now being given away by the Columbia Scientific Academy.

Mrs. E. C. Young, of Indiana street, Lawrence, Kansas, recently sent for copies of the books. After carefully examining them and testing the methods of personal influence on her friends and associates, she made the following statement in a letter to a friend: "The instructions given by the Columbia Scientific Academy have been worth to me more than all the previous reading of books I have ever read. They are so simple and so easy to understand that I could read them and be benefited. I am amazed and mystified at the things I do. I believe I could make \$25 per day reading character alone if I were to charge for my services. I am sure I could make \$100 per day if I would read the wonderful information I receive. I have thought him crazy."

Mrs. M. E. Watson of Martinsville, Indiana, says she has had accurate information in past years. I could have avoided many misfortunes. The works of the Columbia Scientific Academy shall be my guiding star the remaining days of my life. If you will send your name and address to the Columbia Scientific Academy, Department 519 R, 1321 Broadway, New York City, both of the above books will be sent you absolutely free, postage prepaid. On account of the great expense involved in preparing these books, the Columbia Scientific Academy requests that only people who are especially interested in the subject should achieve greater success and better their condition in life.

and resolutions to his memory will appear in the next issue of the Gold and Blue.

BRIGHAM YOUNG ACADEMY.

Provo, Utah, Nov. 7, 1901. Prof. W. L. Nelson lectured in Salem last Monday evening.

Prof. Hickman spent Friday, Saturday and Sunday visiting the Beaver branch.

Prof. Wolfe lectured in Santaquin last Friday evening under the auspices of the local school board.

Judge Bothin of Salt Lake City lectured before the parents' class on Wednesday evening, his subject being "Peter's Mistake."

The Academy Sunday school sent representatives to the Sunday school officers' meeting held in the Stake tabernacle last week.

County Supt. Brown who has charge of the chemistry department, lectured in Clinton on Wednesday and in Colton on Friday evening.

The first musical of the season was given last Friday evening. Mr. Thomas Vickers and Miss Jennie Thompson made their first appearance before a

Provo audience and were heartily welcomed and applauded.

The literature classes furnished the program in Literary society last Saturday. Short spicy papers, recitations, reading and excellent musical numbers made the evening a most enjoyable one.

On Monday morning all the young men of the school met in room D, where an interesting lecture on "Health" was delivered by Dr. S. J. Allen, one of the leading physicians of Provo.

During the month of October the library has received eighty-six papers and magazines, one hundred and thirty-seven pamphlets and fifty-two books. 2,207 books have been taken out during the month by students and teachers.

One of the most popular classes in Sunday school is the Book of Mormon class under the direction of Judge Booth. In order to accommodate more students a new section has been organized with Prof. Swenson as teacher.

The Literary society has been very successful this year both as regards good programs and large and attentive audiences. Over five hundred season tickets have been sold and an order for more has been placed within the printers' hands.

Although reports of the spread of typhoid fever and other diseases are constantly coming in, the academy is proud to report that less than one percent of the students and teachers have been absent this semester on account of illness.

A number of the students and teachers were present at the reception given last week at the home of Miss Lulu Gates, who has just returned from Germany. All are laud in their praise of her beautiful voice.

An organization known as the Pedagogium has been effected with the following officers: President, R. L. Woodcock; vice-president, Nellie Schofield and secretary, Miss Lulu Gates. The object of the society is to give the students a review course in the elementary branches in order that they may be well qualified teachers.

BRIGHAM YOUNG COLLEGE

Logan, Nov. 8.—One of the most attractive events in the college for the past few weeks, was the recital by Miss Barry on Monday evening. At the twelve o'clock meeting on the same day, she gave some interpretive illustrations and illustrations to the students. The recital was very well attended.

Some very warm discussions are going on among the students, about what the college colors shall be. The present colors, cherry red and pearl gray, have proven in some respects unsuccessful, and some of the students propose to change to a more suitable color, when other hold strongly for the present flag.

More room seems to be the next thing the college must look for. Although the college contains some very good rooms, it is found necessary to crowd more chairs in some in order to seat the students.

Professor Mosiah Hall will lecture before the teachers of Boxelder Co., in Brigham City, on Nov. 9.

The class in surveying is doing some very good work. There has not been a class in surveying in the college for some time before. Professor Chamberlain does not hesitate to take proper advantage of fine weather, for he has his students out doing field work quite often, and some very good lessons are gained respecting the natural aspects of the earth.

"Challenge for a game of basket ball" is getting to be an annual announcement from the teams of the various college classes.

Mr. E. W. Peterson, sophomore, made some very winning remarks in chapel Thursday morning, in an eloquent little speech in favor of retaining the present colors of the student body. Afterwards, gave his views a large majority.

OLDEST POSTMISTRESS.

Appointed by Lincoln and Still Retains Office.

Women who hold postoffice positions today owe much, it is said, to the courage and perseverance of Mary Anne Paschall, postmistress of Trenton, Ind., and known as the oldest woman officeholder in America. Her bitter struggle to defend the mails in the early days of her appointment to office and her ultimate success forever opened the field to women. She tells the story of her adventures in a spirited manner.

"When first I received my commission," said the postmistress, "I found immediately that my path would be very difficult. Not only was there the imperfect mail system to stumble over, but the will of the men of the country was against me because of the high feeling opposed to women holding public offices. Not infrequently I was compelled to remain awake all night watching the mail bags, and occasionally I had difficulty in securing the mail from the train upon the platform at the depot the men of the town would seize it before I could get within reach and assert the mail to suit themselves. Of course, when I was in the right to disturb the mail, but they took all the law in their own hands, believing a woman powerless.

"I tolerated this behavior for a short time, and a few months later, one day just before the mail train had arrived I went upon the platform, leveled my gun and declared I would shoot the first ruffian who touched the United States mail. I was a pretty good shot, having often gone hunting with my bothers at the old farm in the wilds of West Virginia, and when a fellow seized the bag I put a bullet in his leg. "That episode marks the last of the troubles at the station, but hostilities did not cease at my home. At night attempts were made to rob the place, and this necessitated my sleeping under the counter which I did for three months. But I could not prevent broken windows. These cowardly acts were not done by reputable citizens, who, nevertheless, tried more effective means of forcing me from my position. Several petitions against me were sent to Washington, but President Lincoln remained my staunch friend.

"After a few months the chief annoyance ceased, and the only trouble I had was with the imperfect mail system, for which some people blamed me. I owed it all to Dr. Williams' Pink Pills.

"Improvement began while I was taking the second box. I continued taking the pills and from that time on it was gradual but sure. My awful stomach troubles had disappeared, my eyesight has been restored, my brain is clear and active, and if ever a man should be grateful and anxious that others should know the wonderful properties of Dr. Williams' Pink Pills, that man is myself."

(Signed) JOHN HUNTER. Subscribed and sworn to before me. C. L. STETSON, Notary Public.

Interest in this miraculous cure is intense in Chico and vicinity where the townpeople have the evidence of their own eyes as to its authenticity. Newspaper space is too limited to give expression to the many who are willing

AN ENTIRE CITY EXCITED OVER A SEEMING MIRACLE

John Hunter, Blind and Helpless from Paralysis, Now Sees, Walks and Works.

FACTS VERIFIED BY THE MAYOR AND OTHER PROMINENT MEN.

An Investigation by the San Francisco Examiner Demonstrates the Absolute Truth of a Cure that Almost Parallels the Miracles of Old—Its Full Significance to all Nervous Sufferers.

The town of Chico, in Butte County, Cal., is in a state of excitement over a miracle so marvelous as to be almost beyond belief. The local papers have given columns to the discussion of a case that, with all reverence, might justly be compared with the miracles of old, for here is a man who was blind and he sees, speechless and he talks, powerless to move and he walks and works. Pronounced incurable no later than the spring of last year, he is this week shingling a roof and repairing a building.

So widespread became the fame of this miracle of modern times that a San Francisco Examiner representative visited Chico and made a thorough investigation of the case. Every scrap of evidence was sifted and the most searching inquiry served only to establish the truth of a cure that, although miraculous, is unquestionable.

THE MAYOR OF CHICO.

Gives His Endorsement of the Account of the Miracle.

One of the most prominent and public spirited citizens of Chico is the Hon. G. L. Clark, now serving his second term as mayor and president of the board of trustees of the city. Speaking of the case related above, Mr. Clark told the representative of the San Francisco Examiner that he knew of John Hunter's former helpless condition and said it was generally considered a hopeless case. No one was more so than Mayor Clark when he met Mr. Hunter on the street, able to walk, work and care for himself. He considers the recovery nothing short of miraculous. In conclusion Mayor Clark said he believed the cause of suffering humanity could be helped by any publicity given the remedy which restored John Hunter's health.

A Clergyman's Opinion.

The Rev. W. G. White, pastor of the Chico Presbyterian Church, of which Mr. Hunter is a member, has known the latter during and since his illness. When asked for an expression on the

to be heard, but the following prominent citizens voice the sentiment of the whole community.

case, Mr. White wrote and signed the following: "The recovery of Mr. Hunter seems very remarkable and his present condition is the wonder of his friends."

Prominent Banker's Statement.

Mr. A. H. Crow, is cashier of the Bank of Chico. He is a sound, conservative, able financier whose advice is sought after and followed by his townsmen. Mr. Crow told the reporter that he had known John Hunter for a number of years and that his recovery was simply marvelous. He knows Mr. Hunter to be very enthusiastic over Dr. Williams' Pink Pills for Pale People and was willing to corroborate Mr. Hunter's own statement. "I had never expected to see him recover any of his lost faculties, much less to see him able to walk, see and work, as he now is," concluded Mr. Crow.

The Postmaster of Chico.

The postmaster of Chico is Mr. W. W. Wilson who, when interviewed, said: "I can only corroborate the statements you already have. Everyone you meet and ask will tell you the same thing. I was at Mr. Hunter's house and saw his pitiable condition with my own eyes. I have also seen him today walking the streets and practically well. I know enough of John Hunter to say that he would not make an untruthful statement, nor would he mislead anyone as to the means that brought about what we all consider one of the greatest cures of the age. His affidavit can therefore be absolutely depended upon."

A Marvelous Cure.

In the Chico Record, published by Richards & Duell, an article appeared from the pen of one of their reporters sent to investigate the case and verify the facts. The article was headed: "Blind John Hunter Recovers His Sight." "Story that Reads Like Fiction." After reciting the cure of Mr. Hunter, the article continues: "Marvelous as this may seem to his friends and still more marvelous as his story of his recovery may appear to everyone who reads it, it is all true, though it would not be accepted if it were not for the fact that he is a living witness with scores of friends to corroborate him. The article concludes with the statement that Mr. Hunter desired the credit for his cure to be given to Dr. Williams' Pink Pills."

Now Sees, Talks, Walks and Works.

"You see the result. From a blind, helpless paralytic, unable to move and so broken down and hopeless that life was a burden, I can now walk, do any odd jobs about the place, go down town, and—most wonderful of all—can see. And I owe it all to Dr. Williams' Pink Pills.

"After being virtually given up as a dead man by friends and physicians, and resigning myself to my apparent fate, my niece read an advertisement of Dr. Williams' Pink Pills for Pale People. I discussed it with my family and, almost hoping against hope, determined to try the pills. I mentioned it to my doctor and he not only gave his consent to my trying Dr. Williams' Pink Pills but strongly advised my doing so."

"I was in a more hopeless condition it would be hard to find. My stomach refused to perform its functions without heroic measures and intense suffering. "Doctors diagnosed my case as locomotor ataxia and my family physician gave me every care and attention possible but all his prescriptions during two years were powerless to alleviate my sufferings or in any way afford the slightest relief."

"I related this behavior for a short time, and a few months later, one day just before the mail train had arrived I went upon the platform, leveled my gun and declared I would shoot the first ruffian who touched the United States mail. I was a pretty good shot, having often gone hunting with my bothers at the old farm in the wilds of West Virginia, and when a fellow seized the bag I put a bullet in his leg. "That episode marks the last of the troubles at the station, but hostilities did not cease at my home. At night attempts were made to rob the place, and this necessitated my sleeping under the counter which I did for three months. But I could not prevent broken windows. These cowardly acts were not done by reputable citizens, who, nevertheless, tried more effective means of forcing me from my position. Several petitions against me were sent to Washington, but President Lincoln remained my staunch friend."

chance of it is that Dr. Williams' Pink Pills are not an ordinary medicine. They are wonderful in their potency in nervous troubles, small or great, and as they are on sale in every drug store throughout the country, they are within reach of all. The cure of such a severe nervous disorder as that of Mr. Hunter, proves the power of the remedy in lesser troubles, such as sciatica, neuralgia, nervous headache, St. Vitus' dance and nervous debility.

Dr. Williams' Pink Pills have a double action—on the blood and on the nerves. It is not claimed that these pills are a cure-all, but the very nature of the remedy makes it efficacious in a wide range of diseases than any other. It is a scientific preparation designed to cure disease through a direct action on the blood and nerves. Impoverished blood and badly fed nerves are the cause of nearly every ailment that afflicts mankind. If the blood is kept pure, rich and red, and the nerves strong and active, disease cannot obtain a foothold.

If you have any reason to believe that your dealer is not supplying you with the genuine Dr. Williams' Pink Pills for Pale People, order direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., and the pills will be sent postpaid for fifty cents per box or six boxes for two dollars and a half. Remember that the genuine Dr. Williams' Pink Pills cured John Hunter when hope had been abandoned. Pills sold as substitutes have never cured anybody.
