MINING STOCKS SHOWED STRENGTH

May Day, California and Lower Mammoth Were Stronger.

41,150 SHARES FOR \$18,343

Was the Extent of Morning Business—Daily West Was Further Depressed by Bear Element.

The mining share market was dull and uneventful this morning. Trading was spread over a number of stocks on the list and was particularly heavy in none, California, May Day and Victor doing most of the business.

Several hundred Daily came out at \$2.00, and Yankee traded at \$2.10 and \$2.12. For some unknown reason Daily West continued to decline and sales were recorded as low as \$25.50.

With no prospect of litigation with the Quincy, according to statements by officials of both companies, the mine looking fine and regular shipments and dividends coming along, it does seem as if the bear element has little ground upon which to operate that stock.

Trading this morning resulted in the recording of sales involving 41,150 shares and \$18,343. Generally, stocks closed at about yesterday's figures or a shade higher, and it seems not improbable that some stocks will record substantial gains during the next few days.

Carria brought figures around 40 1/2, and Lower Mammoth came out on a bid of 42. May Day traded higher and brought above 53 throughout the call.

Uncle Sam was dealt in at 52 1/2-53, and Northern Light at 32 and 34 1/2, was traded in to the extent of 14,900 shares.

Victor sold down from 42 1/2 to 41 1/2, and Yankee Con. brought as high as \$2.12.

GREAT STRIKE MADE IN MAY DAY

Extremely Rich Copper Ore Encountered in Workings.

WAS OPENED UP LAST WEEK

President Hunt Won't Talk, but Reports Say Ore Goes Over 40 Per Cent Copper.

Reports received in this city today from Tintic say that a most important strike has been made in the May Day mine. It is said on excellent authority that on the 260-foot level, below the tunnel a body of ore that assays 43 per cent copper and is rich in gold and silver, was opened into on last Thursday.

Reports further state that during the past week the ore body has been opened up, and that from the developments there is no doubt that there is a very large amount of extremely rich copper ore ready to be mined.

When President Hunt was seen today regarding the strike he was unwilling to talk. "I don't care to say anything about the mine," said he. "We are developing the property and it will do nothing at all until we have some very good ore bodies in the May Day."

As the report of the strike spread this morning there was much rejoicing and the management is said to be congratulated. Further news of the strike is being awaited with impatience.

DAILY-WEST DIVIDEND.

Usual Monthly Dividend of \$60,000 Posted.

This afternoon the regular monthly dividend of \$60,000 or 40 cents a share was posted by order of the directors of the Daily West. The dividend is payable on February 15, and with its payment the company will have distributed \$120,000 so far in 1902, and a grand total of \$1,335,000 since payments began. The mine is said to be looking fine with immense ore bodies in sight. The annual report at which a report of the condition of the property will be made is scheduled for February 17.

FAMOUS MINE SOLD.

Henry M. Ryan Formerly of Salt Lake Heads Purchasing Syndicate.

Cheyenne, Wyo., Feb. 4.—The famous Carria gold mine at South Pass, Wyo., has been sold to a Chicago syndicate, headed by Henry M. Ryan, formerly of Salt Lake. The amount paid for the mine is not known.

The Carria has been operated steadily for over thirty-five years. In early days a fortune was taken from the mine, the output during the first three years of its history being estimated at from four to five million dollars. During the twenty-five years following very little was done, although the owners cleared small sums each season.

During 1898, 1899 and 1900 the mine again became a heavy producer of the yellow metal.

The Carria, like all other gold mines in the South Pass and Atlantic City district, has been handicapped by the lack of transportation facilities, the nearest railroad being over 30 miles away. With a railroad into the district, however, the Carria had dozens of other mines, some of which have not been developed so extensively, would become heavy producers and would make the camp a second Cripple Creek.

It is said that the Chicago men who have purchased the Carria, have planned to interest capital in building a railroad into the district, but nothing definite is known about this matter.

Activity in Dove Creek.

Considerable activity is manifested on Dove Creek in Park Valley. Among the claims that are being steadily developed are the properties of the Suisun company, all those of Cap Reynolds, the Knowlton boys, Robert Cleghorn and others. Vice President and Superintendent Samuel Kirkman of the Suisun is in the city, having been called home by the serious illness of his father, Hon. John Kirkman, reports a splendid outlook for his company. A shaft was sunk 30 feet, and then a splendid outcrop for his company. A shaft was sunk 30 feet, and then a splendid outcrop for his company.

Gold Mountain Company.

The Copper Butte Mining company of Richfield filed its articles of incorporation with the secretary of state today. The place of general business of the company is at Richfield and the incorporators are nearly all Sevier county parties. The value of the capital stock is \$100,000, divided into 400,000 shares of 25 cents each. Asa B. Hawley is president, J. M. Billingsley, vice-president, James Christensen, secretary and treasurer, who, with H. N. Hayes constitute the board of directors. The company's property consists of the Hill, Red Jacket, Jack Gilbert, Bell Cliff and Canterbury claims situated in the Gold Mountain district in Piute county.

Mount Pisgah Company.

The Mount Pisgah Mining and Milling company has filed its articles of incorporation with the secretary of state today. News from DeLamar.

A subscriber to the "News" writes from DeLamar, Nevada, that at the Magnolia and at the DeLamar there have been strikes of importance made recently. East of the DeLamar there has also been a strike made on the ground operated by Nesbit Brothers.

Concerning the property in which he is interested, the subscriber says: "There are five of us operating on the Blizard group, five miles north of DeLamar. A tunnel is being driven towards a ledge of ore carrying gold, silver and copper. Assays from near the surface showed 70 oz. silver \$6 in gold and a small per cent in copper and also lead. The ledge will be reached 200 feet below the surface and is expected to tap it within a month. In common with the producers of high grade ores

MINING NOTES.

Hon John Fern is expected to arrive from the east this afternoon.

Solon Spire has returned from a visit to his properties in Park City.

The Lower Mammoth has two cars of rich silver ore en route to the smelter.

Thomas Hollingsworth of the Galena has returned from a visit to that property.

One and a half bullion settlements in this city yesterday amounted to \$1,400; T. R. Jones & Co., \$1,900; McCormick & Co., \$33,400.

John E. DuBois left last evening for his home in Pennsylvania. He stated before leaving that he is much pleased with his investments in this state.

The Taylor and Brunton sampler is in receipt today of four cars of matte from Bingham and eight cars of ore from Ophir Hill.

M. H. Walker, J. R. Walker and John H. Walker, are visiting the Showers' Con. properties today. It is stated as more than probable that an ore body of importance has been tapped.

President Franklin of the Yankee Consolidated left this morning for Tintic property. Late reports from Superintendent McCrea say that a very fine lot of galena ore has been encountered east of the Jewel Box.

A letter to W. H. Tibbals from Superintendent Condon of the Boston and Tintic states that the north drift from the 170 foot level is in 68 feet and that the pay streak of ore encountered some weeks ago still continues and is strong.

The East Honerine of Stockton has two cars of good copper ore on the way to market. This shipment brings the total for the past three months up to fifteen cars. Reports from the property state that a shaft is being sunk from the 500 foot level to a depth of 600 feet below the tunnel. Larger and richer bodies are expected to be opened into at the lower depths.

CHIN TO ENTERTAIN.

He Will Remain Home to Receive His Friends.

Chin Q. Chan, the mayor of Chinatown, announced today that he had received permission from the chief of police to fire off fireworks during the new year's celebrations. Chin also stated that during Friday, Saturday and Sunday he would remain at his home in Plum alley to receive his friends, who may call and visit him; he says he has a stock of good things on hand and proposes to royally entertain his friends in a truly oriental style.

Chicago Gas Explosion Victims.

Chicago, Feb. 6.—It is believed that eleven is the correct number of people who lost their lives by the explosion of gas in the Trotter butcher shop at 375 Twenty-second street last night. The bodies, charred past human semblance in the majority of cases, lay at a nearby morgue today, while friends, assisted by laborers, still dig in the ruins on the bare possibility that more bodies might be under the debris. Fire Chief Musham today declared his belief that the explosion was that of a pocket of gas. A force of laborers was put at work at day-break tearing up and repairing the gas pipes which figure in the two explosions which followed that in the Trotter shop. When the corner learned of it he ordered the work stopped.

"I want no changes in present conditions made, unless necessary, until I have investigated fully to discover if negligence was in any way responsible for the loss of life," said he.

STEEL STOCKS IN ASCENDANT.

Were Quickly Absorbed at Advancing Prices.

BUYING IN SOME NEW SPOTS

Large Purchases of Sugar Carried to To 12 1/4—Amalgamated Ralied—Bonds Were Firm.

New York, Feb. 6.—There was a very active demand for a number of stocks which were favorites in yesterday's speculation. Local transactions were strong. United States Express opened 3 1/4. There was large absorption of United States Steel stocks and of Southern Pacific at advancing prices.

Amalgamated Copper after opening up a fraction, ran off over a point under yesterday's close. The granulars, Pacific and United States Steel fell back, some of them falling below last night's and pulled back Southern Pacific and checked the upward tendency elsewhere. Buying developed in several new spots. Pennsylvania rose 1/4 and Southwestern stocks 3/4, 2 1/2, respectively for the common and preferred. Illinois Central touched 14 1/4. American Express and United States Express were a point lower. The tone of the market was rather heavy and dull at noon.

Bonds were firm. Large buying of sugar carried to 12 1/4 and Amalgamated Copper recovered a fraction. United States Express rallied to 6 points over last night and Northwestern rose 1/4 in all. Lackawanna lost 1/4 and Distilling preferred a cent.

MONEY AND BONDS. Money on call steady at 2 1/4 to 3/4 per cent. Sterling exchange firm. With the business in bankers' bills at 4.57 1/2 to 4.57 1/2, for demand and at 4.54 to 4.54 1/2, for sixty days. Posted rates 4.53 1/2 and 4.58. Commercial bills 4.38 to 4.54 1/2. Mexican dollars 13 1/2. Government bonds weak. Refunding 2s registered and coupon 108 1/2, new 4s registered and coupon 139; old 4s registered and coupon 112 1/2; 5s registered and coupon 106 1/2. PROF. PEARSON'S CASE.

He Will Be Asked to Resign from Northwestern University.

Committee Investigating Him Will Report Making This Recommendation.

Chicago, Feb. 6.—Prof. Chas. W. Pearson, will be asked to resign from the faculty of Northwestern university, the Tribune says, if the report of the committee appointed to investigate his case is accepted by the executive committee of the board of trustees.

The decision was reached, according to the Tribune, after a two hours session behind closed doors last night, at which the communication written by the professor on Tuesday was read and the case reviewed. The members of the examining committee are Daniel Bonbright, acting president of the university; Dr. Robert D. Sheppard, business agent; and M. H. Wilson, a trustee.

The report in substance, it is said, will declare that Prof. Pearson has transgressed the rules of propriety in openly declaring the fallibility of the Bible while occupying a chair in an institution supported mainly by contributions from members of the Methodist church; and that he should seek a chair in some liberal institution where he would be at liberty to preach any doctrine he might desire. For these reasons the conclusion is drawn that the university trustees should ask Prof. Pearson to resign.

Prof. Pearson when informed of the verdict of the trial board declined to discuss the matter.

On previous occasions, however, the professor has declared that he would accept the verdict of the trustees without a murmur. He said that further he would not stay where he was now wanted.

Prof. Pearson was not asked to attend the meeting and did not know one had been held until it was over. The executive committee of the board of trustees will meet next week. The Tribune report will be given to them at that time.

A Steamer with Smallpox.

Liverpool, Feb. 6.—The Warren line steamer Kansas, Capt. Waters, which left Boston Jan. 21 for this port, arrived here yesterday and landed fourteen cases of smallpox.

The smallpox broke out on board the Kansas shortly after she left Boston. The cases are about equally divided among the cabinmen and the crew. The steamer has been quarantined.
