

SENSATIONAL CHARGES MADE

H. S. Mills to Sue Egin Dairy Company for \$12,915.

FRANCIS G. LUKE SCORED.

Merchants' Protective Association Comes in for Some Extensive Notice in the Complaint.

A suit full of much lurid language is about to be filed in the Third district court by H. S. Mills of this city, and although the Egin Creamery Dairy is the defendant in the action many sensational charges are made against F. G. Luke, the well known collecting agent of this city.

The case originates in a debt of \$47.50 that is claimed to have been due the defendant by E. S. Jones. The plaintiff in the present suit emphatically declares in his complaint that he did not owe the Egin company one cent, and furthermore that company swelled Jones' debt from the sum named to \$12,915.

Now Mr. Mills declares that the Egin company entered into a conspiracy with Mr. Luke to institute proceedings against Jones and to make the association generally of honest dealers, says Mills, they thought he would pay the sum to escape the well known oppressive and distressing measures and means usually adopted by said Luke to the expense of defending against the same.

Mills alleges that the creamery company secured the services of Luke for that very reason, knowing him to be a pretended scientific collector of honest debts, and so advertised and holds himself out to the public and said Luke advertises his business under the euphonious and attractive name of "The Merchants' Protective Association," and that said Luke as a pretended "scientific collector of honest debts" has as conducted his general collecting and recovering business, a disreputable and reprehensible measure against those whom he has heretofore held claims for collection, that he has won for himself in his said business, a disreputable and reprehensible measure against those whom he has heretofore held claims for collection.

The complaint alleges that on the 14th of March the defendant for one year the defendant company made it king that the plaintiff was jointly indebted to it with Jones and conspired with Luke to bring suit against him and Jones and to sue on an attachment against them and to follow up the attachment with garnishment proceedings and to thus "covet this plaintiff into paying this claim rather than to be opposed and distressed by said Luke's disreputable methods. That the said defendant in furtherance of its said conspiracy with Luke, did falsely and fraudulently threaten and intimidate and had its alleged claim against said Jones, individually from about \$47.50 to a false and fraudulent claim of \$12,915, against said Jones and this plaintiff, jointly, well knowing that the business manager and officers of said defendant did, at the time, that they had no honest or just claim against this plaintiff for any amount whatever, and well knowing as they did that the plaintiff did not owe said defendant herein one cent or any other amount."

The complaint states that the matter was placed in the hands of Luke and on the 17th of March that the plaintiff of its secretary and business manager, C. H. Wilcox, which formed the basis for a writ of attachment against the property of the plaintiff, that the affidavits contained more facts than among them being that the plaintiff was about to dispose of his property for the purpose of defrauding the defendant. It is further alleged that Luke had an illegal and void order

HEWLETT BROS. CO.

of the said court served on the plaintiff, charging him that if he failed to obey the order he would be held for contempt. On that same day, it is declared, Luke had the justice issue a warrant for the arrest of the plaintiff, by misrepresenting the facts to him. The plaintiff was arrested and denied the privilege of sending for his attorney, and he was forcibly taken before the justice and the latter permitted him to send for his attorney, who came, and after a trial of the case the justice decided that the plaintiff was not indebted to the defendant and ordered him discharged. Now for all this trouble and humiliation seek reparation in the sum of \$12,915. His attorney is Judge Theodosius Hotkin, and the papers were served on the Egin company last evening.

Mortgage Foreclosed.

In the foreclosure suit of Jetta McCaskill vs Hiram Kimball et al, Judge Hall today rendered at default judgment in favor of plaintiff for \$200, with interest, costs and attorney fees. The suit was brought to foreclose a mortgage on lot 5 and the north half of lot 5, block 1, Kimball's subdivision of block 14, plat C, Salt Lake City survey.

Judgment by Default.

A default judgment has been rendered in the district court in favor of plaintiff, in the case of M. C. Fox vs William Davidson, for \$183.92.

SMALL BOY IN COURT.

Tom Cosgrove, a youth who is said to have a penchant for throwing rocks, pleaded not guilty in Judge Diehl's court today to the charge of destroying property by throwing rocks at a door in the annex school building. Two small boys testified they saw the late Mr. Diehl, who they said, however, that the young defendant kicked the door and smote it "with a chunk of wood." The youngster was found guilty, but the court confessed he did not make a vicious assault, but rather, which he would rather do, go to jail or the reform school, the lad said: "Neither one." He was allowed to go after a sound lecture had been given him.

FAT NERVES.

A whirl of excitement was recently caused among scientists by the discovery of "how nerves act".

Healthy nerves are fat nerves. It is fat in the core of a nerve that by hardening and softening creates nerve action.

Maybe this explains why Scott's Emulsion has always been such a remarkable remedy for nervousness.

Scott's Emulsion makes fat nerves. It feeds them with fat. Good for all forms of nervousness and for neuralgia.

TO SELL OUTRIGHT CALIFORNIA MINE

(Special to the "News.")

Park City, Utah, March 27.—The special stockholders' meeting of the California Mining company of Park City, called for today, was held this afternoon in Park City. There were 22,000 shares represented out of a possible 300,000, and the stockholders present voted to appoint a committee of three to negotiate for the sale of the property for no less than \$300,000, or to get a loan of \$100,000 more than enough to clear the company of its indebtedness of approximately \$50,000. The committee is composed of Messrs. Snyder, Roscamp and Hauser. This committee is to report at an adjourned meeting to be held on April 11.

AMUSEMENTS.

Salt Lake saw the play of "David Garrick" for the first time last night. Other versions we have had in plenty in the last quarter of a century, and perhaps the best in recent years have been those of Nat Goodwin and Henry Miller, but neither of them, so far as excellent as he was, succeeded in conveying an idea of the full wealth of opportunity that lay in the role. As for their supporting companies, none of them could be mentioned in the same breath with that of Mr. Willard. Who ever before dreamed that the simple parts of Smith, Brown and Jones and "Moth" would be made to stand out with such brilliant individuality? As for Mr. Willard he gave us a third piece of characterization, as different from "The Professor's Love Story" as that light idyll is from the Cardinal, but his garrulous attitude and his character and clear finish as either of the other two roles. The drunken scene especially, rendered in such a way that the most delicate taste could not be offended, was great, and a magnificent recall followed the drop of the curtain.

Miss O'Malley as Ada Ingot, played with the same sweetness and good taste that she has always done, and Mr. Barfoot's Alderman Ingot was an excellent piece of work of the old comedy style. Mr. Stallard's Chivy also showed that he is an excellent actor, while Mr. Case, Mr. Taylor and Mr. Leonard were the roles to life. The character make-ups of Mr. Case and Mr. Taylor especially were studied.

An amusing trifle called "A Silent Woman," skillfully handled by the manager, Mr. Case and Mr. Homewood preceded the comedy. Tonight the rendition of "Tom Pinch," a dramatization of Dickens' "Martin Chuzzlewit," which has brought Mr. Willard such fame than any other single work he has attempted in recent years, will form the bill.

JAMES STULL BEFORE DIEHL.

The trial of James Stull, charged with committing a battery upon the late Mr. H. Higgin, was taken up before Judge Diehl this afternoon. It was alleged that Stull rented from the Higgin family, and that because the latter demanded the rent money, Stull made a vicious assault on the Higgin family. Mrs. Higgin stated that Stull knocked her husband down and kicked him so brutally that he was unable to walk. She said her husband's face and body were bruised. What was giving her testimony Mrs. Higgin broke down and sobbed piteously. The unfortunate woman was still giving her testimony when this report closed.

POOL IDENTIFIED.

Miss Higgins Today Says She is Positive He is Holdup.

If there ever has been any doubt in the mind of Miss Vera Higgins as to the identity of Harry Pool as the man who entered her father's home last week and robbed W. A. McMaster, that doubt was dispelled by the testimony when she saw the prisoner in Chief Higgins's private office.

Miss Higgins, accompanied by her father, Dr. C. W. Higgins, called upon Chief Higgin and requested an interview with Pool.

He was brought out of his cell dressed in the suit of clothes he wore on the night of the robbery. The young lady immediately recognized him and also the coat he wore, it being of a peculiar texture. In order to make no mistake, different men suspected of having some knowledge of the crime, have, in the last two or three days, been taken into custody and taken to the Higgins residence for the purpose of identification, but in each instance, the young lady could not identify the man.

This afternoon she said to Chief Higgin: "You need not bring any more men out; this is the man."

That man," said the chief and the prisoner was led back to his cell and the Oregon boat adjusted to his leg "is the worst and most desperate criminal we have had here for many a day. Not only did he commit the robbery at Higgins' but he has been in the saloon and the street car. He is the same man and there can be no doubt about it."

FAREWELL SOCIABLE.

A farewell sociable will be given tomorrow, Friday, evening in the Fourteenth Ward in honor of Quayle Cannon who leaves next week for Germany. A choice program has been prepared, refreshments will be served, and a collection will follow. All his friends and friends will be made welcome, and assured a good time.

S. L. & O. ROAD GETS NEW CARS

Ten Large Ones to be Used in Summer Excursion Trains

OTHER RAILWAY MATTERS.

Bill Forgets a Ten-Million Dollar Transaction—Scalpers Do Not Rob Tickets of Value.

Ten new big excursion cars are to be put on the Salt Lake & Ogden for this summer's business. All the rolling stock and engines are being overhauled and put into good condition for the season and the track is receiving the regular spring attention all along the line. It is the expectation that this summer will see more excursionists traveling into and through Salt Lake than ever before in the history of the city; and these, with the big Elks' convention in August, are bound to pile up an unprecedented business for the summer resorts. All of them are being put into shape and will be arrayed in their "best dresses" when the opening time comes, which will be in Decoration day.

General Manager Hamberger of the Salt Lake & Ogden, said today that the agent Josh Bean is to be excursion agent this year and that John Q. Critchlow will manage the resort; also that Prof. Osborn's orchestra will furnish the music and Jake Bergerman the refreshments. A new bowling alley was received today and will be installed at Lagoon for the benefit of those who are partial to the healthful exercise.

At Saltair the repairs and strengthening of the pier are progressing satisfactorily and by the time for opening the big resort will be in splendid shape. The directors will hold a meeting next week.

A manager for Calder's park, has not yet been announced by the Consolidated Railway and Power company.

The Salt Palace is dormant, so far as public information is concerned, but it is presumed that the owners will run the place this year under a manager of their own selection.

UNATTENDED TICKETS.

Pasteboards are Not Contaminated by Scalper's Handling.

Chicago, March 27.—"However reprehensible a ticket scalper may be, there is no law that invalidates a ticket which otherwise is valid, because it passes through his hands."

Judge Chytrous of the superior court, in his opinion stating that the damages brought by Moritz Horowitz against the Chicago & Northern Pacific Railroad company. Damages of \$250 were agreed upon.

While traveling with his wife to Minnesota on a ticket purchased from a South Clark street scalper, which had originally been issued to a Michigan newspaper, Horowitz was confronted by J. C. Good, general passenger agent of the road, who happened to be on the train. Horowitz and his wife were ejected from the train at Lakeville, 51 miles from Chicago. The attorney for Horowitz, argued that Horowitz had been guilty of a constructive fraud.

SPIKE AND RAIL.

Work on a strip of the Leamington cutoff has been commenced at Eureka.

Dederich & Burke have secured the contract for 10 steel bridges on the Rio Grande Western.

Preed, Lesds of the Rock Island says that there is no truth in the rumor that Mr. Harriman has secured control of that road.

It is the opinion of Judge Mullins of Colorado that the contract absolving railway companies from responsibility for injury, and which all employees are obliged to sign, is illegal.

About a month ago it was announced that the Eureka & Eastern railway was to be built from Eureka, Cal., to Weiser, Ida. Lord Thurlow, one of its promoters, was quoted as saying that he had reached agreements with Messrs. Hill and Harriman, and that the Great Northern would connect with the new line at Weiser, and that the two roads would be operated as one.

Inquiries, this afternoon from Press, Hill has been received at Spokane, Wash: "I beg to say that I know nothing whatever about the Eureka & Eastern railway beyond the reports I have seen in the newspapers, and am not connected with the matter in any way."

The laying of new steel has commenced on the Montana division. The new steel to be laid during the year covers a distance of 118 miles. All steel used is 80-pound weight and the work now commenced at Dubois will run from that place to Ross Fork. Work on the new shops is progressing favorably. The roof is being put on to the new window building. The concrete work in the foundation of the power house is finished; the water table upon which the brickwork rests will be laid tomorrow and brick laying will begin Thursday if the weather holds. Five more cars of structural steel were received this morning and more are expected daily.—Pocatello Tribune.

Edwin Hawley, president of the Iowa Central and Minneapolis & St. Paul roads, at New York yesterday it was true that he and his associates had acquired control of the Colorado & Southern railway. Just who his associates are Mr. Hawley declined to say at this time.

"We bought Colorado & Southern because we liked the property," said Mr. Hawley. "It is full of promise as an investment. We do not contemplate any changes in the management now. It is in good hands. Besides, we have not actually taken hold yet." Mr. Hawley added that his interests in Colorado & Southern would remain separate and distinct from those in Minneapolis & St. Louis and the Iowa Central. He declined to say whether or not he had in mind the possibility of a combination with any of the leading southwestern lines.

AFTERNOON MINING CALL

Daily-West, the Feature, Was the Cause of Much Excitement.

Daily-West was the feature of this afternoon's session of the mining exchange. There was some reason for the highest prices of this morning and some very lively scrambling for stock ensued. It seems to be a general opinion that the stock, which is closely held, is being hoarded by the holders who have stoutly maintained that \$10 is a low price for it. There is considerable probability that something definite regarding a compromise and consolidation of the Quincy, Daily-West and Anchor, will be given out in a day or so. This afternoon, on good authority, it was learned that the Quincy and Anchor will go in on the basis of from 60 per cent to 70 per cent of the whole. The Daily-West at between 40 per cent and 50 per cent.
