SPANISH FORK.

Funeral of John P. Jones—Waterworks Question.

SPECIAL CORRESPONDENCE.

Spanish Fork, Utah Co., April 11.—The funeral of Bro. John P. Jones was

held this afternoon in the central meeting house, presided over by Bishop Hansen of the Fourth ward. A very large congregation attended the services. Addresses were made by Elders Anderson, Evans, Martell, Swenson, Wilkins and Prest. Gardner.

Bro. Jones embraced the gospel in Wales in 1849, emigrated to Utah in 1857, and was 73 years of age at the time of his death. Spanish Fork is indebted to the energy and tireless efforts of Bro. Jones in many ways. The water question especially he studied very thoroughly. He had been president of the West Field Irrigation company and the East Bench company. He had been justice of the peace and in every office he held he brought to bear a firm, sturdy honesty that won the respect of every one with whom he had dealings. He was a faithful and devoted Latter-day Saint. A good man has passed away, but the world is better for his having lived.

WATERWORKS QUESTION.

The question of waterworks is uppermost in our minds. We are expecting speedy action on the part of the city authorities in giving us pure water.

Shocking Fate of Switchman John Rooney—Painful Accident.

COLONIA JUAREZ, MEXICO.

Stake Academy Affairs—Preparing For Commencement Exercises.

SPECIAL CORRESPONDENCE.

Colonia Juarez, Chihuahua, Mexico, April 7.—The attendance at the academy has not materially decreased, although a few of the students have had to leave school on account of spring work. We hope that all will continue, during the remaining five weeks, finish their studies and obtain their credits.

We very much miss the influence of the late Prest. Henry Eyring, who was

a staunch supporter of the academy. He was especially energetic in advocating Spanish as an essential study in the academy and no doubt his efforts in that direction will prove a lasting benefit to the colonies in Mexico.

The teachers and students as well as the patrons of the academy, much enjoyed the visit of Dr. J. M. Tanner, superintendent of Church schools. His teachings and educational influence inspired us with renewed energy, a desire and determination to fulfill life's mission to the best of our ability.

The teachings given by Dr. Tanner and Elder Summerhays at the Sunday School conference were timely and encouraging, and were much enjoyed by the saints in attendance.

The class in bookkeeping is doing good work and from this department we expect to send forth enough bookkeepers to supply the different business houses in the Juarez stake.

The members of the class in phonography, who are studying arithmetics, have reached an efficiency of 135 words per minute.

Elder George Walsen, an academy student, has lately returned from a mission in Missouri. He reports having enjoyed his labors.

The drama, "Jessie Brown, or the Defense of Lucknow," was creditably presented during the Sunday School conference, by the members of the Juarez Dramatic association, and highly enjoyed by those in attendance from the different colonies of the stake.

A great number of saints from the different colonies went to Salt Lake City to attend annual conference. Mrs. Guy C. Wilson is in Utah, visiting with relatives and friends.

RAYMOND, CANADA.

SERIOUS PRAIRIE FIRES.

Horses Accidentally Poisoned—An Orderly, Prosperous Community.

SPECIAL CORRESPONDENCE.

Raymond, Alberta, Canada, April 7.—Two large prairie fires have been burning the past 48 hours, one between the Belly and St. Mary rivers, sweeping over miles of grass; the other east of Stirling. The last fire was started by the Baker boys, who ploughed around a straw stack, standing in the field, making a fire guard, then fired the stack. Soon after a heavy wind started up, carrying great bunches of ignited straw to the grass, and in a very short time the stubble and dry grass was a mass of flame and smoke. In their eagerness to extinguish the fire they forgot a bushel of poisoned wheat in their wagon, which they intended scattering for the destructive ground hogs, which abound here, and five valuable horses, belonging to Stirling farmers, came up and ate enough to kill four and probably the other will die. Meanwhile the red-coated police, came over from Lethbridge, arrested the boys for firing the grass, but learning the facts released them for the time being.

Already there are more than enough people here to fill our large meeting house yet every train brings others. Hoodlumism has not yet cropped out in this thriving, orderly city. Meetings are started on time; dances begin at 7 sharp, ending at 12 p. m. The ever present beer bottle, or whisky flask, found on the premises of the country dance house, has not yet decorated our grassy landscape.

Some are turning the sod of their city lots, others are disking the best land. The many new seeders are planting the grain. All around is life and activity.
