

AMERICAN WORK IN CUBA. Gov. Gen. Wood Reviews What Has Been Accomplished.

PUBLIC ORDER IS PERFECT.

Excellent School System Established—Palma Has Nothing but Gratitude For American People.

New York, May 20.—In a dispatch from Havana the World publishes, over the signature of Gen. Leonard Wood, a review of the work accomplished during the American regime in the island, the government of which will be handed over today to the Cubans.

Public order, says the article, is perfect throughout the island. Cuba is free from all contagious diseases and its death rate compares favorably with that of the United States.

The hospitals, charities and jails have been reorganized, rebuilt and re-equipped.

During the last year 25 per cent of the total revenues of the island went into public education. Schools have been constructed at the rate of more than one a day for the past year.

The harbors and harbors have been fully supplied with buoys and launches for harbor patrol work and a fleet of revenue cutters built and the service fully organized and equipped.

Complete quarantine and immigration service has been established. The courts have been reorganized and re-equipped.

Free schools for typewriting and stenography have been opened. A new law of public works has been written on the lines followed by the United States government.

Cities like Santiago and Havana have undergone a sanitary reconstruction. The payment of public officials is practically on the same system as is employed by the United States government.

In short Cuba is turned over in a well ordered, healthy condition and the new government will find all departments well equipped and in good running order.

In a dispatch to the American and Journal President Wood says: "I have nothing but gratitude for the American people for giving us our independence. Cuba is grateful and never will forget what the mother of republics has done for her."

Washington, May 19.—George R. Moad, a sugar broker, testified today before the committee on relations with Cuba that Mr. Havemeyer was not interested in plantations in Cuba, as had been alleged.

HORSE RACING.

AT NEW YORK. New York, May 19.—Morris Park summary: First race, third Monday morning race.

ALL BLAME THE OTHER FELLOW. A Very Amateur Performance on The Part of the Athletic Club. GATE MONEY REFUNDED.

Truth, Untruth, Mistake, Misunderstanding, All Jumbled Up into One Big Mass of Incompetency. That Davis and Egan did not box twenty rounds or to a decision within that time at the Athletic club's arena last night is blamed to—well, somebody.

Davis is blamed by the club management and the latter is held responsible by Davis, while Egan blames both of them. The sporting portion of the public holds the club responsible and very properly so, too.

Manager Osborne stated that one of the boys had refused to go on, giving the same excuse for the refusal that Mr. Egan, upon instruction from the management, had given a few minutes before. Mr. Egan further announced that Jimmy Flynn had gone over to Davis and that possibly he would return with his man and in that event the contest would go on.

Hardy Downing, who was a member of the American Bicycle company team, and who captured most of the 219 class races on the coast last year, is now "lopping the loop" at Los Angeles in a fashion that in many respects discounts the performance of Diavolo, who is a star in a circus now traveling through the country.
