ACTIVITY IN SMALL STOCKS.

Trading Was Fair in Low Priced Issues.

MANY DECLINES RECORDED.

Yankee, Century, May Day, Con. Mercur and Lower Mammoth All Went Lower.

Manhattan was the feature of this morning's session of the mining exchange. For a long time, in fact ever since the slump commenced, investors have kept an eye on Manhattan and wondered with anxiety what it would do. Now they are regretting that their money is not in that stock instead of in others. It is up 1/4 of a cent, and traded to the extent of 2,000 shares; is firm as always and does not bog down. It is the only stock that has absolutely withstood all bear, and for that matter all bull, movements, too.

This morning the market was more active than usual and the business recorded involved over \$12,500. The lower priced stocks were in considerable demand and some Daily-West participated at 44.90-45.35.

Prices were generally lower and in some cases tobogganed at an alarming pace. Century traded down from 21 1/2 to 4 1/2. May Day from 2 1/2 to 20 1/2; and Yankee from 1 1/2 to 1 1/4. Columbia was held around 12 1/2 and Martha Washington at figures under 2 1/2 was in active demand. Victor, Tetro and Manhattan each traded at higher prices and closed firm.

On the open board 92 shares of Daily-West changed hands and Lower Mammoth at 1.16-1.17 traded to the extent of 600 shares.

The session closed with the following quotations and transactions recorded:

MARKET DULL, UNINTERESTING.

Trading Was Fair in Low Priced Issues.

ROASTERS WERE STARTED.

New Murray Plant Will Soon be Ready for Business.

The first smoke to issue from the big brick stack of the American Smelting and Refining company's new smelter at Murray, was noticed yesterday afternoon. The roasters were started up and given a test run under the direction of Orlando Hardcastle, the roaster-foreman, at the Mingo plant.

It is stated that the fourth furnace at the Germania was blown in on Saturday last, and that that plant will probably be kept in operation for some time until the new plant is in full working order.

The question of ore supply is at present occasioning much trouble and worry. There is certainly not enough ore coming to the local market at present to keep the new plant, the Germania and the Bingham Co. supplied and unless some arrangements can be made to increase the output it will take a long time to get ore enough to warrant the firing up of the great new plant at Murray.

QUARANTINE DECISION.

Supreme Court Decides in Favor of State's Right to Exclude. Washington, June 2.—The United States supreme court today declared the right of a state of the Union to pass laws excluding the body of a person going into a city or community which is quarantined. The case in which this decision was given is one which was brought against the Louisiana board of health by the owners of the brigantine, a French steamer, which sought to land Italian immigrants in New Orleans in 1893. The city then was infested with yellow fever and a quarantine was in force against it. The board of health enforced the state law authorizing exclusion from a quarantined municipality, refusing to allow the immigrants to land. The owners of the steamer took the case to the state courts where the decision was against them. They then applied to the United States court on the ground that the law is a violation of the interstate commerce law and also in contravention of the treaty of 1853, with France. The opinion of the supreme court was handed down by Justice White, and sustained the state law on the ground that interstate commerce takes the quarantine into consideration, each state is entitled to make and enforce its own quarantine regulations. Justices Harlan and Brown unite in a dissenting opinion.

BERNADA BOERS REJOICE.

Hamilton, Bermuda, June 2.—The news of peace in South Africa was communicated to the Boers in the enclosure on Hawkins Island last night. The prisoners were delighted, and received the news with great enthusiasm, shouting, singing and hurrahing. Some of them rushed wildly about embracing every English soldier they met, and said: "Yesterday we were foes, but today we are friends." Drinks were served out to the Boers on Hawkins Island and the rejoicing there continued until a late hour. The Boers on Tucker's Island also received the news with great joy. When the fact of peace was communicated to them the prisoners went fairly wild, shouting and singing the "Folk-song" and other hymns until 1 o'clock in the morning. At 1 o'clock the band of the Warwick regiment moved up to Tucker's Island enclosure and played "Auld Lang Syne," "Old Hundred" and "God Save the King," and in all of these the prisoners joined most heartily. The peace news was received by the prisoners on the other islands here with similar manifestations of joy.

San Francisco, June 3.—Felipe Galicia, Guatemalan consul in this city, has received from his government an explicit denial of the statement that Father Francisco Munoz was expelled from the Central American republic for political reasons, as he alleged after his arrival here in April. Consul Galicia's letter to Guatemalan asking for information has been replied to which specifies the reasons for the young priest's expulsion as entirely personal and having nothing to do with politics, or government officials.

Some months ago I was troubled with a general breaking down of the system, I consulted a physician without avail, and upon the suggestion of Mr. John A. Coin, who I believe is a living example of your wonderful curing medicine, I purchased a few bottles of your Compound, and I must say that I improved wonderfully since the first dose. My nervousness has left me entirely, and I am now feeling better than I ever did. You can rest assured that I will not hesitate to recommend your wonderful medicine to my friends who may suffer from nervousness in any form."
