J. H. Hawley, a prominent Boise attorney, is a candidate for Helffeld's seat in the United States senate in case the Democracy carries the legislature this fall. Various papers throughout the state indicate that Mr. Hawley proposes to run for the senate, and that he has friends enough to make the situation interesting.

DR. WILCOX REPLIES TO SUPT. ASHTON.

To the Editor: It is a significant testimonial to Supt. Ashton's loyalty that after having opposed the policy of the state text-book convention in many of its important features, he should permit himself to appear as its public defender. Mr. Ashton is a public spirited and high-minded official. Nobody has questioned his motives or criticized his judgment.

I believe there are about 60,000 children in the schools of the state. A change in arithmetic affects five grades. There are about 15,000 children in the small books and perhaps an equal number in the large one. At the exchange rates offered by the Werner School Book company, this change will cost the state about \$50,000.

Some of the best educators in Utah, in fact, I believe, in the entire west, are of the opinion that Frye's geographies are better books than the Natural; and Mr. Ashton has been misled regarding Salt Lake City. The Frye geographies were certainly published by the Natural in the committee of principals by a vote of 8 to 5.

Whenever a member of the convention wishes to defend the adoption of Frye's geographies, he is asked to talk about the number of pages in the book; but when he wishes to defend the change in geographies, he talks about the wholesale prices. (It appears that the Frye books for the Natural cost 18¢ per copy, while the Natural costs 15¢ per copy.)

Mr. Ashton's concluding sentence he says: "If Dr. Wilcox wishes to ventilate the matter fairly, that gentleman should take each of the alleged errors and show how they were made, and where they have occurred." (I do not know whether the word "misplaced" is a typographical error or not, but it is one.)

Baby's Friend. Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery.

Would Not Insure Him

Insurance Companies refused to insure the Rev. J. W. Yeisley because he had kidney trouble.

This case is but one of thousands where the head of the house was refused insurance, because he had kidney trouble. Mr. Yeisley had given up in despair when some friend recommended Dr. David Kennedy's Favorite Remedy and it cured him.

Mr. Yeisley writes: "My kidneys and liver were in bad condition and I was anxious for relief. I had tried many remedies without success and when I bought a bottle of 'Favorite Remedy' it was with but little faith in its ever helping me, but in a short time it effectively proved its merit.

The Rev. Mr. Yeisley is the pastor of the First Reformed Church of St. Paris, Ohio, and is as well the editor of the St. Paris Dispatch.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the kidneys, liver, bladder and blood.

The popular sentiment against all forms of gambling has caught Big Chief Borcher, and he proposes to stop games of chance in the grand stand. He says he will have a big sign hung up in the stand, reading: "No gambling allowed." The fans will probably get out of it by gambling on the quiet.

There was a tie game at the ball park yesterday afternoon between the Mix-ups and the Z. C. M. I. teams. The game was called in the seventh inning on account of darkness, the score being 2 to 2. The teams lined up as follows:

Butte track torn down. The valuable saucer was a failure from the start.

After less than a year of a story life the Butte bicycle track is being torn down, the lumber in it being considered more valuable than the track itself.

About one year ago the little saucer track on East Park street was started. Ben Ging, a newspaper man from Salt Lake, being the promoter. The track was built upon the most improved lines and was nine laps to the mile.

Although some of the very best riders in the Northwest have taken part in races over the track it was a failure from the start. Butte did not take to cycling, and the debts piled up quicker than the receipts.

In the track proper, exclusive of the grandstands and fences, some 15,000 feet of valuable lumber was used and this is now being carefully taken apart.
