FIFTY-THIRD YEAR.

Tragic Fate Of Young Man

Edmond Anthony, Son of a Widow With Large Family, Crushed to Death at Street Car Barn Early This Morning—Boy's Father Met Violent Death in Pennsylvania Mine Some Years Ago—Inquest Probable.

A young man named Edmond Anthony, aged 22 years, lost his life this morning by being crushed between two cars at the car sheds of the Consolidated Railway and Power company. He had been employed to clean the cars as they came in from their runs at night. After midnight, last night and before he went to the car, the repairer, who was at work on it, half an hour before, had pulled the trolley off the wire and removed the overhead cut-out and then had taken the controller apart. While he was engaged at this, young Anthony came along to clean the car and put the trolley back again, causing the current to run into the motor, which threw the car in question against the other, catching him between them and crushing him.

KING PETER OPENLY TERRORIZED

Cologne, Aug. 8.—King Peter of Servia is being openly terrorized by his entourage, according to the Belgrade advices of the Cologne Gazette. Most of the present court officials who actually participated in or were party to the murder of King Alexander and Queen Draga appear to have strongly objected to the appointment of Col. Lesechajin, the Serbian attaché at Constantinople, to the post of court marshal. The official gazette yesterday contained the appointment but shortly after its publication all copies of the gazette were called in by the police, which then issued a brother-in-law minister of finance, who was court marshal until the late King Alexander's marriage.

THE INSURRECTION IS GROWING

That in Macedonia Appears to be Widening—Sands in Various Districts Reported to be Active—Diplomats at Constantinople Fear it May Spread.

Constantinople, Aug. 8.—The insurrectionary movement in Macedonia appears to be widening. Bands are reported to be active in the Sanjak of Uskub and the district of Krushevo, where the government telegraph offices have been dynamited, while the district of Dibra four Bulgarian villages have risen, provoking a corresponding rising in the neighboring Albanian villages. According to the statements of the ports, however, the authorities have succeeded in calming the Albanians and inducing them to return to their homes. The diplomats here are uneasy, fearing that the trouble may spread outside the bounds of Macedonia, so long as the trouble is confined to the usual skirmishing bands and occasional dynamite outrages it is not believed that there will be any serious cause for alarm. Up to the present the action of the embassies has been confined to advising the ports to prevent the Muslim population from engaging in fights with the insurgents.

Rome, Aug. 8.—The Associated Press correspondent today saw Cardinal Gibbons and found him almost recovered from his indisposition which he thinks was due to over fatigue on Wednesday when he stood about three hours at the Vatican in order to present the American pilgrims to the pope. After the coronation of Pius X tomorrow he intends to go for some days rest to castle Gandolfo, on the beautiful lake of Albano, near Rome, where the American college has magnificent summer quarters. The pope, in order to aid the Catholic university at Washington, has granted the cardinal the right to appoint a shorty legate a bull granting the apostolic benediction to all the faithful participating in the yearly collection which the archbishops and bishops in the United States will raise for the university.

(Special to the "News.") Ogden, Aug. 8.—Last evening Detective Penning and Officer Harricks arrested J. W. For some time Watson, who has been going under the name of Ed Shepard, has been advertising in eastern papers for ranch hands, and has received replies to his advertisements from nearly every state in the Union. The "ad" was as follows: "Good ranch hands wanted; \$50 per month. For further particulars write J. W. Watson, box 100, Ogden, Utah." Watson, however, was not the man who heeded him to work on his exclusive sheep ranch, and that he would be sent to the necessary jail. A number of registered letters containing from \$5 to \$15 each have been received recently at the postoffice addressed to Watson from his dupes. On August 7 it was learned that Watson, or Shepard, had many letters and telegrams answering his ad were found on his person. Watson said the government has a very sharp case against the man and that it will be vigorously pushed.

Airship Makes A Fair Flight

Langley Machine Covers a Distance of Some Five Hundred Yards—Deflection of Wings Caused it to Take Downward Course—Made a Plunge into Water and Disappeared from View—Velocity Was 700 Feet a Second.

Widewater, Va., Aug. 8.—A partly successful experiment with the 15-foot Langley airship was made today from the house boat in the Potomac river off this point. The aerodrome started well in a straight line south with a velocity of 700 feet per second and flew for a distance variously estimated at from 500 to 600 yards. Some deflections in the wings soon after the launching caused it to take a downward course which it followed rapidly and was impelled into the water under the full power of her engine. There was sufficient steam generated for a rapid flight of a half or three-quarters of a mile. Under the full pressure of the water the machine struck the water and a moment more had disappeared from view. The machine was recovered. It was considerably damaged. The machine was removed to the house boat, where extensive repairs will have to be made before another trial can be pulled off. At a signal the model was dispatched on its voyage. A better launching could not have been desired. The Smithsonian scientists believed that the highest hopes were about to be realized, but after the first few seconds of flight, the wings were deflected and the flying machine went downward until her course was ended on the mud bottom of the Potomac. She was traveling at a velocity of about forty miles an hour. When the machine was raised from the water a workman attempted to cover it with a cloth, but for a long time was unsuccessful. Its mechanism and dimensions were plainly seen. It was equipped with four wings, two on each side, about four by six feet, made of the finest oil silk and held upon delicate wooden rods. The right wing was shaped like a tent. The body consisted of an intricate arrangement of fine steel rods with cylinders, motor and boiler carefully balanced. The two sets of wings were situated on opposite sides of the body, each equipped with two blades. The steering gear was situated at the rear end and was constructed from material like the wings. The motor is supposed to generate something in excess of two horse power.

Several photographs were secured of the machine in flight. The wind against which it flew was blowing about four miles an hour. After the experiment was over, Engineer Mavley refused to make any statement for publication.

THE KILLING OF WESTMAN PERFECTLY VALID

Conflicting Stories of Eye-Witnesses to the Unfortunate Tragedy, So Says Judge Lewis in Deciding Bach-Gallagher Case.

EVERYBODY SEEMS Muddled

The Inquest Adjourned Until Late This Afternoon to Take the Testimony of Dr. Mayo.

The inquest over the remains of Carl A. Westman, the aged stonemason who was killed at the Roman saloon on Thursday afternoon, was continued before Judge Lewis this morning in the district court on the petitions of Fred Bach and "Reddy" Gallagher for release from the county jail under writs of habeas corpus. Judge Lewis announced that the petitions in both cases were denied and both prisoners were returned to the custody of the proper officers to complete their trial.

The case still seems to be in a badly muddled state. The stories of alleged eyewitnesses are conflicting as to who committed the murder. Atty. James K. Smith testified that Klotz struck the blow that fell Westman to the pavement, while John Larson declared positively that he was standing not more than eight or ten feet from Westman when the blow was struck, and that McKane is the man who hit him. The bartender, Jimmy Fowler, testified that Westman and a man named Coe came in and called for beer and when Westman refused to pay for it he ordered him out of the place. Just then, said Fowler, Klotz walked up and began quarreling with Coe. Klotz hit Coe on the nose with a brick and finally struck Westman twice. Both men were in the saloon at the time. Westman then went out and it was then the fatal blow was delivered.

Larson testified that he was by the cigar case when Westman started out and that he had one foot on the sidewalk when he struck him. Westman was struck on the forehead by McKane's brick. Coe testified that he was with Westman when the beer was ordered, but he did not see the trouble that followed.

The inquest was adjourned until this afternoon for the purpose of taking the testimony of Dr. Mayo, who performed the autopsy last night. Dr. Mayo found that Westman's skull was fractured from above the left eye to the right ear and under the base of the brain.

MCKANE HELD. Following is the verdict of the jury, rendered this afternoon: "The said jurors on their oaths do say that the death of the said C. A. Westman was caused by a fracture of the skull caused by being knocked to the sidewalk from a blow on the side of the head dealt by one Thomas McKane with his fist, not feloniously." (Signed) "L. J. BROWNE," "W. H. REEDMALL," "H. B. CARTER."

George Klotz, the other man implicated in the affair, was discharged from custody, while McKane will be held to answer to the charge of murder.

RINGS RECOVERED.

Diamonds Lost at Saltair Returned to Their Owner. It now appears that the lady suspected of having stolen Miss Brown's diamond rings at Saltair, was unjustly accused, she simply having left the resort without thinking of returning them to the owner. When she discovered the mistake and heard that Miss Brown's suspicions had been aroused, she immediately repaired to the home of Mrs. Swenson, where the lady is stopping, and surrendered the lost articles, which were found by a little girl shortly after the bathers went into the lake.

HODGE TALKS FREELY.

Does Not Give His Wife Very Good Certificate of Character.

Hodge was found at Riverside, California, by a Tribune correspondent last night. He talked freely of his wife with whom he has apparently not enjoyed very much wedded bliss. While he does not give her very good certificate of character he talked freely of her and her wayward ways and if he tells the truth she is a stranger woman than was even supposed. This is what he said: "I first met her last November and married her Jan. 7 at her solicitation. She deserted me after the ceremony and went to Los Angeles the same afternoon. I believe with a man named Lang, from Pittsburg, and James Cohen, of Needles, Cal. She had been with a sailor from the Hawaiian valley district in San Pedro, whose name I don't know. She was loose with other men at Relief Springs, but I was a hustler and did not know them. "I went to Clifton, fixed up the matter and went with her to El Paso, Tex. There she got all my money and deserted me in the middle of February. I was stranded and came back to California as a hobo, tramped part way and rode the break-beams of the overland train. I arrived at Highgrove about 10 o'clock and went to a ranch hand for Charles Klotz. I worked for Klotz until May 5, then went to work for Oserachmidt and have been with him ever since. "I wanted his insurance. "After he went to Los Angeles on the day of our marriage I met her at her place at Clifton, Ariz. She went there to work in a Clifton hotel under a contract for six months with Humphreys Bros., employment agency. She wanted to quit her job and I wrote me to help her out of the scrape. "SECOND DESERTION. "I went to Clifton, fixed up the matter and went with her to El Paso, Tex. There she got all my money and deserted me in the middle of February.
