UNPATENTED CLAIMS.

Some Questions Pertaining to the Title To Them Made Clear.

There seems to be an impression among many that unpatented mining locations are not subject to taxation, the idea seeming to be that as the government has not passed title by patent to the locator the title rests in the government, says the Mining and Scientific Press.

STOCKS CONTINUE VERY IRREGULAR.

New York, April 12.—Prices of stocks today opened a fraction lower than last night, ignoring the higher range in London.

The government report on the winter wheat crop in the United States, which was issued yesterday, was not so favorable as had been expected.

Four thousand shares of United States Steel preferred stock at an extreme advance of 100 per cent were sold from a fraction below par to a general dealer, under which the last named advanced 100 per cent.

United States Steel second five year bond was sold at 100 per cent, the price fell back to 95 per cent.

Scarcely any interruption occurred in the gradual decline of prices in the latter session. All of the representative stocks averaged nearly a point lower.

The selling of the Pacific States Steel preferred was prominent in the decline. Less opposition presented itself in the selling of 100,000 shares of the same stock in the afternoon.

TRUCE DECLARED.

Difficulties Between Majority and Minority Stockholders of R. I. Adjusted.

New York, April 12.—Difficulties between the majority and minority stockholders of the Chicago, Rock Island & Pacific Railroad company have been settled according to the Herald.

The settlement is said to include the purchase of the stock held by C. H. Verner held in his own name 100 shares of the Chicago, Rock Island & Pacific Railroad company, the original organization which he claimed in his bill to be worth \$200 a share.

Although the strictest secrecy is maintained regarding the entire matter, it is said he received a lump sum greatly in excess of this amount.

Besides being rid of the suits, in one of which Judge Dunne in Chicago had issued an order compelling the books of the company to be submitted and disclosure of the terms of the reorganization, the defendants have practically removed opposition to the proposed bond issue of \$12,000,000.

Through the First National bank the proprietors of the Rock Island system have negotiated a loan of \$1,000,000 in short term notes. The purpose of the borrowing, it was explained, is to provide immediate funds without a bond issue to reimburse the company for advancements made for construction of new lines.

Surveyors in Idaho.

A party of 10 surveyors in charge of H. J. Doolittle arrived at Huntington, Or., Monday, and commenced work this morning on locating a northwest railway down the Snake river to Lewiston.

The members of the party are non-committal. Indications are that the Northern Pacific is behind the project, and is planning an extension which will prove of incalculable value to the country which will be thus thrown into direct railway communication. For a number of years there has been a need for railway service in the section traversed, and large developments will undoubtedly follow railway construction.—Pocatello Advance.

SPIKE AND RAIL.

FIRST TICKETS SOLD.

Mr. and Mrs. Hick of Salt Lake Bay Transportation to World's Fair.

To Mr. and Mrs. J. Hick of this city falls the distinction of being the first residents of Utah to purchase world's fair tickets, which go into effect on Friday.

The tickets purchased were what are known as "season" and are good returning until the end of the exposition next fall.

Mr. Hick to visit the fair in St. Louis and continue on to Hamburg, Germany, and again visit the exposition on the return trip.

In connection with the St. Louis tickets which are known by a number which is stamped on the coupon, it is instructive to know that the number 13 is taboo.

SOME OLD HISTORY.

Time When a Passenger Could Ride 1,800 Miles for One Dollar.

Geo. T. Nicholson, passenger traffic manager of the Santa Fe, in speaking recently of the rates that were made in New York as saying:

"We feel that we are dealing liberally with the public and with California in making a one-way fare of \$33, second-class, from Chicago to California—about one-half of the regular fare—but this does not approach the low fares that were charged back in 1856.

There was a passenger rate war on at that time among the California lines, and rates were put in pieces. For several weeks \$1 would pay for a ride of 1,800 miles.

The crowds were so great, attracted by that chance to get to California for \$1, that everything possible, and impossible, in the way of rolling stock, was put into service.

Not only were the cars crowded, but the passengers were nearly as low as a rate was made east as west, and sometimes we gave passes to save the expense of issuing the long coupon tickets. Why, the paper in them was nearly worth the money."

Robbed the Grave. A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50c guaranteed at Z. C. M. I. Drug Store.
