ELDER PENROSE IN TABERNACLE

Elaborate Preparations for Labor Day - Regs Ten-Dollar Bill - Gruesome Relics from Philippines.

ELDER PENROSE IN TABERNACLE

Ben Litt, brother-in-law of Morris Hardman, proprietor of the Hub Clothing Store, has just returned from the Philippines. He brought with him a most unique collection of instruments of savage warfare. These weapons were taken from the battlefield by Mr. Litt a few hours after a bitter engagement between the Filipino savages and U. S. regulars. Mr. Litt describes the battlefield from which he got the weapons, telling of the horrible sights that met his gaze.

BOGUS \$10 BILL.

At the First National bank yesterday, P. F. Densel, the receiving teller, detected a forged \$10 bill which had been passed on a well known Ogden business house. The bill was a silver certificate and was raised from a one-dollar certificate to a ten. Both the figures and letters had been cleverly raised. A red cross had also been placed upon the face of the bill.

Cancerous Ulcers

ROOTED IN THE BLOOD. After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly, and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and very long are a large eating, sloughing ulcer.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some kind of taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer.

These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood, and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it and ulcers of every kind quickly yield to its wonderful curative properties. Medical advice or any information you may desire will be given by our physician without charge.

VERNAL.

PROSPEROUS PART OF STATE.

Desert Transformed into a Garden - Cheap Paying Material. Special Correspondence. Vernal, Uintah Co., Utah, Aug. 10. - The Ashley valley at the present time presents a picture of rare beauty, one that would be hard to excel. What once was barren plains are now, smiling fields of green. The whole valley is full of the odor of the alfalfa blossom, and wherever the waste water is allowed to escape springs up the sweet clover, which grows to such heights that one can get lost in it. On the clover and alfalfa the bees thrive and this valley that was once a desert waste is now a land literally flowing in milk and honey.

CHEAP ROAD MATERIAL.

Vernal City is preparing to put down some more pavement. We venture to say that Vernal can put down pavement cheaper than any city in the United States. The great ledges of sand asphalt only needs to be broken down and hauled into the town, melted and mixed with a little more sand and spread on the street, and the work is done.

PRECECE FAMILY REUNION.

The Precece family have been having a happy reunion in this valley, the two sisters of Sheriff Wm. Precece are here on a visit to their relatives, and yesterday they all met at the home of Reuben Fuller and partook of a feast of the good things of the valley. It was a most enjoyable time, as the four sisters, namely Mrs. Mary Precece Taylor, Maggie Precece McKenzie, Annie Precece Fuller and Louie Precece Smith, had

not all been together for 18 years. Mrs. Taylor and Mrs. McKenzie are making their first visit to this valley. Everybody is wishing for that much talked of railroad. The branch road that is being built from the R. G. W. railway to the Gilsonite mines is expected to be completed in the fall of 1904. This will bring this place within 60 miles of a railroad, and it is hoped that they will come on, as the traffic will justify them. At present the people of this valley are being forced to go 120 to 130 miles to Price to reach the railroad, yet here is a prosperous, progressive community, and one of the richest valleys in the mountains.

BLACKFOOT, IDAHO

ABUNDANT CROPS

And General Prosperity - More Industrial Settlers Wanted. Special Correspondence. Blackfoot, Ida., Aug. 12. - The frost and cold spell which came unusually late this spring, caused our farmers and beet raisers considerable concern at that time, as it was feared that the fruit crops had been killed, and the beet and other crops injured. But in traveling around in the various settlements now and looking over the excellent crops of corn, squash, beans and other tender plants one would not know that we had a backward spring. The orchards in most places in the Blackfoot area are loaded with fine fruit and the sugar beets are surprising the beet farmers in their rapid growth.

PENALTY FOR ITS VIOLATION.

No Saloons Among the "Mormons" - Annual Celebration of "Squirrel Day."

Hon. Angus M. Cannon, while on his recent visit to the "Mormon" settlements in Canada, was much impressed with the general observance of the Sabbath day. One man, he says, who thought he had to work Sundays in order to accomplish that which he desired to, was followed a distance of 20 miles by the officers, and finally arrested and fined for his violation of the Sabbath day. This law is enforced throughout the Dominion, and the consequence is that there is a reverence felt for that day not common in other parts of the country.
