

from Rear Admiral Goodrich at Mare Island, stating that the Russian transport Lena had arrived and that her commanding officer claimed that his ship's engines and boilers were in need of repairs. Later in the day the telegram will be referred to the state department for action.

PRESIDENT NOT INFORMED.

Oyster Bay, Sept. 12.—The president has not been informed officially of the arrival at San Francisco of the Russian vessel Lena. He has noticed, however, the news dispatches concerning the matter. He has taken no action regarding the ship and it is not expected that the Lena will have any trouble with the incident.

TRANSPORT LENA.

Russian War Vessel Suddenly Appears in San Francisco Harbor.

San Francisco, Sept. 12.—The Russian transport Lena, Capt. Berinsky, put into this port today for repairs. The Lena is thirty-one days from Vladivostok via Baniwaia, Sakhalin islands. She made the run from Baniwaia in nineteen days, which is considered fast time, showing that the Lena possesses speed qualities. The Lena has a crew of 47 men and twenty-one officers and carries twenty-three guns.

THE LENA'S HISTORY.

According to Brassy's naval annual, the Lena was formerly the Kherson, of the Russian volunteer fleet. Brassy refers to her as "volunteer cruiser" and also as a "transport vessel." Immediately after the Lena dropped anchor in the bay Capt. Berinsky left the warship, but the object of his visit ashore was not announced. One of the officers of the cruiser said that the Lena left Vladivostok on a cruising expedition, hoping to capture some of the trans-Pacific vessels carrying contraband of war. It was admitted that what the vessel most eagerly sought for was the steamship America of the Toyo Kisen Kaisha, which company sent her from this port several weeks ago for the orient. The America arrived safely at Hongkong Sept. 7.

CAME ON ORDERS.

Commander Rytshagoff, when seen tonight, said that the Lena came here on information received from the local Russian consul, but he declined to disclose the nature of the information. It is presumed, however, that it was in relation to the shipments from this port to Japan. The Lena came by way of the Aleutian islands.

CAPT. BERINSKY VISITS.

Late this afternoon Capt. Berinsky visited the United States war vessels in the harbor and then returned to the Russian consul. No statement regarding the Lena could be obtained from the Russian consul. The United States war vessels now in port are the cruisers New York, Boston and Mackinac, the gunboat Hennington and the torpedo-boat destroyer Paul Jones, a sufficiently strong enough force to prevent any breach of neutrality.

AT JAPANESE CONSULATE.

At the Japanese consulate it was announced tonight that no statement would be given out, the representative of the Japanese government not having been officially notified of the arrival of the Lena. It has developed later that two different interpretations had been placed on the remarks of Commander Rytshagoff of the Russian cruiser. The gentleman does not talk English fluently, and one of his interpreters believed him to say that the Lena expected to remain in this port for a month, while another version was that the commander said "we would like to stay here a month."

REPORTS OF INTERVENTION.

St. Petersburg, Sept. 12, 7:30 a. m.—Reports of impending intervention by the powers to end the war are considered today by the Novoe Vremya, which says there is no prospect of such action by France, which country would sincerely like to see peace. The paper says that if Germany should undertake the task of separating the combatants, while Germany has not the same material interests to be affected as France and the United States.

RUSSIANS RETIRING.

Mukden, Saturday, Sept. 10, via Pekin, Sept. 12.—The Russians are continuing their retirement to the pass. The Japanese advance is slow, though the military situation is not unfavorable to them. Many Russian companies now consist of only 20 men. Notwithstanding the Russian reverse the retreating troops are cheerful.

OPERATIONS AT A STANDSTILL.

Mukden, Sept. 12.—Last night rain again fell in torrents and today it is drizzling. The roads are impassable, and military movements are at a standstill. The town is so crowded that foodstuffs are almost unobtainable. Prices have trebled and quadrupled. The division sutlers lost almost all their supplies during the Russian retreat. Civilians are besieging the railroad station and other eating places, but it is well nigh impossible to get food.

RUSSIAN CAVALRY SEEN.

Tokio, Sept. 12, 2 p. m.—Field Marshal Oyama reports that a large body of Russian cavalry has appeared at Pingtung eastward of the railroad between Yen Tai and Mukden. He adds that the Russians are merely keeping in touch with the Japanese.

QUEST OF THE LENA.

It is conceded in shipping circles that the main quest of the Lena was the steamship America, which flies the Japanese flag, and which would be open to capture at any place on the high seas. The America left Hongkong for San Francisco three days ago, and being richly laden, would make a handsome prize for the Lena.

SURMISES.

Another surmise is that the Lena was sent out with a view of capturing a prize that she put in here for information concerning the movements of the enemy's vessels and for further instructions. This step, it is claimed, she was clearly entitled to take under the neutrality laws, a fact which is stated to be a fact that the move was considered safe may be judged from the known absence of Japanese warships in this vicinity.

TRAIN ROBBERS' TRAIL.

Bandits Believed to be Hiding in Woods Near Lynden.

Bellingham, Washington, Sept. 12.—Detectives have trailed three of the six men who held up the Canadian Pacific train near Mission last night, to the town of Lynden, about 12 miles from Bellingham, and it is believed the bandits are hiding in the woods near that place.

KUROPATKIN IS STILL "RETIROING."

He is Withdrawing the Bulk of His Army Northward From Mukden.

HOW HIS STRATEGY WAS UPSET.

Maj.-Gen. Orloff Failed to Hold Kuroki's Extreme Left—Reports of Intervention.

St. Petersburg, Sept. 12, 3:40 p. m.—No fresh light has been thrown on the situation at the front. Unofficial information tends to confirm the reports that Gen. Kuropatkin is withdrawing the bulk of his army northward from Mukden. The rain continues at the front. The three armies of Field Marshal Oyama are reported to have united north of the Taitse river, but there is nothing yet to indicate that they are sufficiently recuperated to resume the advance. The best unofficial opinion is that Kuropatkin does not contemplate making a serious stand at Mukden.

The spirit animating the Japanese troops is shown by the translation of a letter written by a Spartan Japanese mother to her son which has reached the war office. The letter was found on the body of her son. It adjured him to fight nobly for the mikado and his country and informed him that his capture would be considered an everlasting disgrace upon the family and that if he died on the battlefield it would be an honor which his family would celebrate for a week.

WHY STRATEGY FAILED.

A Russian correspondent says Kuropatkin's strategy was upset by the failure of Maj.-Gen. Orloff to hold Gen. Kuroki's extreme right. According to this correspondent Kuropatkin's plan was to catch Kuroki after he had crossed the Taitse river by a quick and clever movement. Orloff's mission was to attack desperately Sept. 2 the front of Kuroki's army which had marched northwest to hold him and, if possible, to drive him back towards Kuropatkin. While the latter, severing Kuroki's communication, struck with all his might at his flank and rear, but Orloff was unequal to the task assigned to him. His division had just arrived from Russia and its fighting efficiency was not known. When he struck Kuroki, Orloff was wounded early in the fight and was compelled to hand over his command. To make the matter worse the horse of his chief of staff bolted. The division could not resist the onslaught of Japanese troops and gave way and retreated. In the meanwhile Kuropatkin was just launching his attack, but when he found the Japanese were turning his left, he was compelled to abandon the offensive, withdraw and ordered a retreat. As it turned out, however, Gen. Stakelberg had come to Orloff's rescue and checked the Japanese flanking movement just before they reached Yen Tai. Had Kuropatkin held on a little longer the fate of the day might have been different, as this was the critical moment for Kuroki referred to in the dispatches from the Japanese side.

REPAIRS TO BE MADE.

St. Petersburg, Sept. 12, 7:30 a. m.—Repairs to be made to the Russian fleet are considered today by the Novoe Vremya, which says there is no prospect of such action by France, which country would sincerely like to see peace. The paper says that if Germany should undertake the task of separating the combatants, while Germany has not the same material interests to be affected as France and the United States.

IDAHO FALLS IS SWEEPED BY FIRE.

Business Section Nearly Wiped Out by Big Blaze Last Night.

LOSSES MAY REACH \$300,000.

Consolidated Wagon & Machine Company Bears the Brunt of the Damage—Others Hit Hard.

(Special to the "News.")

Idaho Falls, Ida., Sept. 12.—The fire which broke out last night at 9 o'clock and burned through the main business blocks of this city, was finally brought under control at 2 o'clock this morning. A fierce wind from the west fanned the flames all night, and drove them from block to block until seven square blocks in the heart of the city are now in ruins.

CITIZENS POWERLESS.

It seemed to be a foregone conclusion that the city was doomed when the flames took hold of the large retail stores of the Consolidated Wagon & Machine company, as the citizens were powerless to prevent the spread of the flames in any way. The water from the canal, which was the only available supply, is turned off, and the helpless crowds could do nothing but watch the flames lick up building after building while they made desperate efforts to remove what property could be easily carried. The loss will, it is estimated here, reach at least \$300,000, with but a small percentage insured, although no definite figures have yet been compiled. Practically every building between the railroad depot on the south to the river on the north was destroyed. The principal loss was suffered by the Consolidated Wagon and Machine company. Their retail store and lumber yard was completely destroyed, only the office records being saved. These were rescued by employees before the flames struck the building.

TRAMPS STARTED BLAZE.

The fire started in the Bette cafe, a small restaurant and bakery, a block below the Consolidated Wagon stores. It is supposed to have been caused by tramps, smoking in a pile of shavings behind the cafe. After consuming the cafe, the fire spread from store to store until it reached the Consolidated Wagon buildings. The small frame buildings which comprised the burning district up to this point were separated by a narrow alleyway, but the fire, but the big structure by a brick store, but the fire, drove the flames around this building and over it, to the stores beyond.

BOOKS SAVED.

Manager Wright of the Consolidated Wagon company then bent his attention to saving the office property with the result that the records were removed before the building fell in. The fire spread across the street to the lumber yard and warehouse of the Consolidated Wagon and Machine Co. and completely destroyed them. It then followed the direction of the wind to the river, where it burned itself out.

HEAVY LOSS.

The loss to the Consolidated Wagon and Machine Co. would have been much heavier had it not been for the fact that they had three separate plants, and much of their stock was in one of these—a warehouse situated at the corner of Capital and Railroad avenues. This structure was untouched. The insurance on the lumber yard was but a few hundred dollars. The company carried a total of \$10,000 insurance on the two other places, but how they divided between that which is burned and that which is saved it is impossible as yet to say. It seems certain, however, that the value of the goods actually destroyed was from \$75,000 to \$90,000, although the exact amount will not be known for some time yet. General Manager Geo. T. Odell was wired for last night, and is on the ground today, taking care of the company's interests.

OTHER LOSSES.

Other business firms that suffered were: Mortar plant, completely destroyed. Gregory bakery, partially damaged. Payne drug store, damaged. Johnson & Catmull, gent's furnishings, totally destroyed. Goldwater's clothing store, damaged. Ralph Willis' livery stable, completely destroyed. Times building, damaged. Henry Nangle, blacksmith shop, completely destroyed. O'Neil saloon, damaged. Frank Wilbur, clothing store, total loss. Jackson's drug store, damaged. Matt Larouchie, store, complete loss. Carter barber shop, complete loss. Idaho meat market, complete loss. Johnson harness shop, damaged.

FIRMS THAT ESCAPED.

Of other concerns in which Salt Lake capital is interested, the Z. C. M. I. escaped untouched, and the Riverside Furniture store received but slight damage. The Wright Mercantile company received a bad scorching, but its stock was not damaged. The Cotton Lumber company lost its entire stock and many small firms suffered complete or partial destruction. The fire was watched by practically every resident in town, who one and all seemed powerless to help stem the flames. The flames eventually practically burned themselves out, although this afternoon the charred ruins are smoldering and bursting into fitful blazes, but all danger is thought to be over.

While the calamity comes as a great blow to Idaho Falls it might have been worse had the wind shifted. The local fire brigade, assisted by every available man in the city, worked hard, but no help was solicited from surrounding towns.

The merchants who suffered are this afternoon making preparations to carry on business and rebuild.

SAW THE FIRE.

Seymour B. Young Returns from the Scene of Blaze.

Seymour B. Young arrived in Salt Lake this morning, and at that time, he says, the fire was still fiercely burning. He was not here to see the fire, but to see the damage it had done.

TEA

Write for our Knowledge Book, Salt Lake & Company, Salt Lake City.

the electric wires were destroyed, and there was no light in the town except that from the fire. It grew into immense proportions within an hour after it started, and drew a crowd from every part of town. Mr. Young was surprised that the fire was under control so early on a hot day as 3 o'clock, considering the power of the wind which was blowing a gale, when he left on the southbound train.

HOME COMPANY ESCAPES LIGHTLY.

A great part of the insurance carried on the burnt property in Idaho Falls was placed by local agencies in that town, all of whom report direct to their principals in San Francisco, or in the east. The only exception is in the case of the Home Fire Insurance company of Utah, whose general agents are Heber J. Grant & Company. At their office today, it was stated that their line in Idaho Falls had always been kept low because of the many frame buildings in the business district, and there had been several cases of conflagration for years. While they had quite a number of small lines, their best estimate from present advices was that their loss would not exceed \$100,000, with a chance of that amount being lessened, if the brick buildings which were singed by the fire should turn out to be only slightly damaged.

Militiamen Call on Parker.

Esopus, N. Y., Sept. 11.—The Eighth Massachusetts regiment, on its way home from the maneuvers at Manassas, stopped at Esopus today and enthusiastically greeted Judge Parker as he was boarding a train for Kingston to attend church services. The judge shook hands with as many of the soldiers as could be before his train started. Requests that Judge Parker go on a speaking trip and also visit New York to personally direct the campaign continue to pour in, but as yet the candidate has made no change in his original program.

More Anti-Semitic Riots.

St. Petersburg, Sept. 11.—Anti-Semitic rioting took place at Rovno, in the government of Volynia, Sept. 4, during which many persons were injured and shops pillaged.

A similar outbreak occurred at Smela in the government of Kiev, where the troops were called. Ninety-eight houses and 145 shops were pillaged and several persons were seriously wounded by the troops. Many of the rioters were arrested. The affair lasted for two days, Sept. 4 and 5.

OGDEN SCHOOLS OPENED.

Began Today With the Largest Attendance in Their History.

(Special to the "News.")

Ogden, Sept. 12.—Ogden's public schools opened this morning with the largest attendance in their history. While State Auditor has no detailed figures as yet, it is evident that the schools were never better attended than they are today. The Dea building will not be ready for occupancy for about two weeks. In the meantime the teachers assigned to that building will occupy rooms and annexes in other buildings and on the completion of the new structure these will be closed as the board will no longer require them.

KEARNS WITHDRAWS.

Says He is no Longer in the Race for U. S. Senator.

Under the heading, "The Attitude of Senator Kearns," Sunday's Tribune contained the following double-headed announcement: "The Tribune is authorized by Senator Kearns to state for him unequivocally that he is not now, nor will he be, during the session of the forthcoming Utah Legislature, under any circumstances, a candidate for re-election to the United States senate."

This statement he hopes will be taken as evidence of his intention to personally, persistently and unflinchingly advocate and advance, by all honorable means, the movement now on foot in Utah to purify the politics of the state from apostate domination and to secure to the people of Utah the political freedom which of right should be theirs.

Having said this for Senator Kearns, The Tribune desires to say for itself, that from this time henceforth so long as the need for it shall exist, its influence and effort will be put forth to accomplish a dissolution of the relations existing between the church and the state in Utah, and

"That until it shall be made apparent that the head of the dominant church intend to comply in the letter and spirit with their promises not to interfere in politics, and not to violate the laws of the land, solemnly made to obtain amnesty and statehood, The Tribune will support any and every party now in process of organization, which has for its purpose the redemption of Utah from ecclesiastical thralldom and the establishment here of an American state."

In assuming this position, it must be understood by all concerned that The Tribune distinctly disclaims any intention of interfering with or antagonizing the religious belief of any individual. The right to worship God according to the dictates of conscience is a right guaranteed to every citizen of the United States, and this right The Tribune holds sacred."

Trout for Provo.

Rio Grande Western Tomorrow Will Replenish the Stock in River.

State Game and Fish Commissioner John Sharp will go to Provo tomorrow to superintend the planting of 250,000 trout fry in the Provo river. The fry were sent here from the Leadville, Colo., hatchery upon the application of the Rio Grande Western Railway company and will materially add to the attractions of trout fishing in Provo canyon in the course of time.

MARKELL GUILTY.

Rawbroker Fined \$85 by Judge Diehl This Morning.

D. A. Markell, a pawnbroker arrested several days ago on the charge of embezzlement, was found guilty by Judge Diehl this morning, and fined \$85. Notice of an appeal was given.

It is alleged that several days ago a Swede entered Markell's place on Commercial street and pawned a valuable Swiss watch for \$2. Several days later, when the Swede returned to redeem the watch, it is alleged that Markell gave him a cheap timepiece and refused to give up the watch pawned. Markell declares that he is entirely innocent, and that he will fight the case to the bitter end. His attorney is F. C. Loofbourou.

FIVE TYPHOID CASES.

Five new cases of typhoid fever were reported to the board of health today, one of which was brought here from Pocatello, Idaho, for treatment at St. Mark's hospital. The cases are: Mrs. Elmer Davis, aged 28, residing at 12 McDonald court; Mrs. Morris, Mrs. Morris, residing at 194 South Third East; Sidney Schoenfeld, aged 12, residing at 235 North Fourth West; William Thorburn, aged 24, of Pocatello, Idaho.

OPENING OF THE FALL CAMPAIGN.

Republicans Arranging to Begin Active Work on or About September 20.

AN ABUNDANCE OF SPEAKERS.

Some of National Prominence Will Be Brought Here—New Republican Organs.

In all probability the Republican state campaign will open in this city about the 20th. Chairman Spry is now busily engaged arranging itineraries and in a few days he will be able to make announcements of a definite character. The speakers will be chosen from among the very best campaigners in the state, and that there is plenty of them is a fact readily attested by the state chairman, Mr. Spry, who states that he has an abundance of good speakers for the campaign, and that most of them are life-long Republicans, well able to advance Republican principles.

This work will also be taken up by speakers of national renown, whose names, however, are not forthcoming at this time. Among those to volunteer their services to this state is Hon. Ward B. Sherman of Chicago, who states that his 30 years experience as a campaigner makes him better able to undertake the work this year than ever before. Mr. Sherman was here some years ago and says he likes both the climate and the people. He says there is inspiration in the grand old mountains of Utah, and that he is at the service of the state committee whenever wanted.

Gov. Wells will also take active part in the campaign, and it is stated that on his return from Idaho he will tour the state with Hon. John C. Cutler, the party's nominee for governor.

The state committee has arranged with Truth and Goodwin's Weekly, the two sprightly weeklies of this city, to advance the cause of Republicanism from now till the close of the campaign. Beginning tomorrow these papers will issue each alternate day, thus giving continuous service to the party and acting as a very good substitute to the Salt Lake Tribune, the erstwhile party organ, now repudiated. That these papers will do good service and make inroads on the subscription list of the deceased Republican sheet, all true-blue Republicans confidently believe.
