

NORWAY MAY SET UP A REPUBLIC.

Bourse of Bernadotte Will Not Furnish a King and Danish Royal Family Disapproves.

A QUESTION OF RECOGNITION.

Germany and Russia Will Not Give It Unless King Oscar Consents to Disruption of Union.

Copenhagen, June 9.—All hope that King Oscar or Crown Prince Gustave will yield to the request of the Norwegian storting to place a prince of the house of Bernadotte on the throne of Norway has now disappeared.

It is understood that arrangements are actually being made for a national convention, and this will inevitably result in the declaration of a republic.

According to well informed persons here Russia and Germany will refuse to recognize the Norwegian government until King Oscar consents to the disruption of the union.

The Norwegian press and people, according to advice received here, remain singularly unimpressed.

Thousands of telegrams from all parts of the world are pouring in on Premier Michelsen and the storting.

King Oscar is quoted as saying that he would avoid war at any cost.

Stockholm, June 9.—King Oscar decided at a meeting of the council of state today, to summon the riksdag for an extraordinary session, June 10.

By this revolutionary proceeding, said the premier, "the storting has, not only without the co-operation of the king, but without the least consideration of Sweden and on the authority, determined upon the rupture of the union, which existed by virtue of a mutual convention drawn up in accordance with the laws, which in no way be broken without the authority of the two countries."

As much as the resolution of the storting is a great and profound violation of the rights of Sweden, it is indisputably necessary that the riksdag should be summoned in extraordinary session without delay.

Albany, N. Y., June 9.—The court of appeals today by a divided court, voting four to three, sustained the lower courts in adjudging Albert T. Patrick, the New York lawyer, guilty of the murder of William Rice, the Texas millionaire.

The case reached the court of appeals on March 14 of this year, when David B. Hill, who appeared for the appellant, based his argument for a reversal mainly on the contention that the condition of Rice's body revealed by the postmortem examination might have been caused by fluids used in embalming.

The prevailing opinion is by Judge Gray, with whom concur Judge Bartlett, Haight and Warner. There is a dissenting opinion by Judge O'Brien, Chief Judge Cullen and Judge Van Curen.

Patrick has succeeded in postponing the ultimate decision of his fate for over three years by a display of acumen and resourcefulness that has excited the wonder of the members of

the bar and the public at large. The opinion of the court, written by Judge Gray, is very exhaustive, reviewing the formidable record in every detail and containing upwards of 16,000 words.

PAUL MORTON ELECTED CHAIRMAN OF EQUITABLE

New York, June 9.—Paul Morton, who retires from the secretaryship of the navy on July 1, was today elected chairman of the board of directors of the Equitable Life Assurance society.

His election marks the first and most important step in the reorganization of the society, and was followed by the tender of the resignations of President James W. Alexander, Vice President James H. Hyde, Second Vice President Gage E. Tarbell, Third Vice President George T. Wilson and Fourth Vice President William H. McIntyre.

It is known that Brayton Fox and Charles Stewart Smith, who were from the outset of the controversy on the side of the conservative element, protested against some of the proceedings of the meeting and are believed to have voted against Mr. Morton's election.

The new chairman, to further quote Senator Dewey, did not consent to take office until he had received positive assurance that he would have a "free hand as to measures and men."

All of the resignations submitted to the meeting are subject to the pleasure of Chairman Morton, and none has yet been accepted.

Just what action Mr. Morton will take as to these resignations was not disclosed, but it was strongly intimated that President Alexander and Vice President Tarbell, Wilson and McIntyre retired with the belief that their executive relations with the Equitable had ended.

The interests with which Mr. Hyde disposed of his stock number some two score individuals, led by Thomas F. Swan, vice president of the Morton Trust company, which has closed relations with the Mutual Life Insurance company, one of the Equitable society's principal rivals.

The price paid for the Hyde estate stock, which is to be trusted practically in perpetuity, was not disclosed, but estimates vary from \$3,500,000 to \$5,000,000.

In addition to the 507 shares held by the Hyde estate, which includes the widow of Henry B. Hyde, founder of the society, and his daughter, Vice President Hyde is said to hold between 100 and 125 shares, and it is these holdings which Mr. Undermyer refers to as the "substantial interests" which his client retains.

Enclosed Public Lands. John and Herman Krause Convicted in Nebraska. Omaha, June 9.—The jury in the case of John and Herman Krause today brought in a verdict finding the defendants guilty on the charge of maintaining inclosures on public lands, and also finding John Krause guilty of preventing Theodore Osborne, Edward Whetstone and other persons, by intimidation, from using the Krause inclosure.

The defendants were tried on three indictments, embracing 14 counts, and both were found guilty on five counts, while John Krause was found guilty on two additional counts.

Atty. Noleman, for the Krause brothers, asked for a new trial, and was given 10 days in which to file a motion.

This is the first conviction secured by the government under several indictments returned by the federal grand jury, while W. S. Summers was United States district attorney.

Lady Managers' Report. New York, June 10.—Mrs. Daniel Manning, president, and her associates on the board of lady managers for the St. Louis exposition, who are in session here, have decided to publish an independent number of the board's report. It will be distributed among the world's leading women officers. This, it is estimated, will cost between \$5,000 and \$6,000.

A representative of the exposition committee who came from St. Louis to collect from the lady managers what remains of their \$100,000 appropriation was sent back home empty handed, she was informed, so it is understood, that the ladies would report to President Francis when they have settled all their outstanding obligations.

DISPUTE OVER MEDICAL BILL.

Keogh-Wright Hospital Wants Its Pay for Caring For Deputy Sheriff Chidester.

COUNTY REPUDIATES CLAIM.

Says Half the Bill Should be Paid by Highland Boy Company, Whom Chidester Represents.

There seems to be some misunderstanding between the county commissioners and the Keogh-Wright hospital for medical services and treatment for Deputy Sheriff Lafayette Chidester, who was shot at Bingham on the night of March 24 in an attempt to quell a riot among some Austrians.

Mr. Chidester was sent to the hospital by Dr. Straup, member of the county board of health at Bingham, and also physician for the Highland Boy Mining company. It is contended by Dr. Wright that the bill should be paid by the county but the commissioners have refused to pay the same, which amounts to \$22.

The commissioners claim that the deputy was appointed at the request of the Highland Boy company and half of his salary is being paid by the company and half by the county, and that the company should pay half of the bill.

Commissioner Mackey stated today that the county is willing to pay half the bill and is still paying Mr. Chidester half of his salary just the same as though he were performing his duties.

He said that the deputy had been paying half his dues in the accident fund of the mine and hence is entitled to half of his expense while in the hospital out of that fund. This, he stated, the company has agreed to pay.

When he was sent to the Keogh-Wright hospital, Dr. Straup had him there as a charge of the company, knowing that he had been paying half his dues in the benefit fund, and he was not sent there as a charge of the county. Had the county sent him to the hospital he would have been taken care of by the county.

Mr. Chidester has been in the hospital since March 25 and was compelled to undergo an operation for the amputation of his leg in order to save his life. He is improving very slowly and is just able to sit up in bed, but has not been out of bed yet. If his condition is favorable he will be removed to his home in the next few days.

A YOUNG RUSSIAN VILLAGER.

The young Russian shown in the cut is of a type entirely different from the ordinary peasant, or moujik. He is a dweller in a communal village of some size, and he is a tradesman and not a tiller of the soil. He is playing on the balalaika, or Russian mandolin, which is an instrument which leaves a great deal to be imagined. All rural settlements in the empire are run on the

communal system. When a young man leaves his native village he is required to send back part of the money he earns elsewhere to cover the expense of having his share of the village land cultivated by those at home.

NEW PLAZA HOTEL.

Will be Built at a Cost of Fifteen Million Dollars.

New York, June 10.—Where the Plaza hotel now stands overlooking the south end of Central park, it has been planned to erect within the next year a hotel which will rival any similar structure in the world. Fifteen stories and having nearly 1,000 rooms, it will be built at a cost of about \$15,000,000. The projectors expect to have their hostelry ready for business a year from next autumn.

It was at first planned merely to remodel the structure as it stands today and to erect an addition at a cost of about \$2,000,000 but the men who are to manage the hotel have prevailed upon the owners of the property to raise the whole building.

In every respect it is planned to have the new hotel a model. Its ballrooms and cafes will be modeled after the famous hotels of Europe, the entire interior being taken up with one large dining room, and some time ago the old Plaza will be closed tonight and many families who have resided there a score of years will be compelled to select new quarters. When the furnishings have been auctioned off the building will be demolished.

A Girl's Suicide.

Portland, June 9.—The body of Miss Wrenia Cunningham, a young woman of Pendleton, Oregon, was discovered in a down town lodging house this afternoon.

She had committed suicide by inhaling illuminating gas. Some time ago Miss Cunningham purchased some jewelry of a local firm giving in payment a check which was deposited at the bank. Miss Cunningham was trailed to San Francisco and arrested. The case was compromised, however, Miss Cunningham returned from San Francisco last night. It is thought she was dependent over the disgrace resulting from her acts.

Federation of Musical Clubs.

Denver, June 9.—Mrs. Russell R. Dorr of New York City was elected president of the Federation of Musical Clubs for the next two years at its meeting in this city today. Other officers were elected as follows: First Vice President—Mrs. J. P. Kinney, Denver. Second Vice President—Mrs. C. B. Keley, Grand Rapids, Mich. Vice President Eastern Section—Miss Carlissa McCutcheon. Vice President Middle Section—Mrs. W. C. Lawson, Chicago. Vice President Western Section—Mrs. J. W. Winger. Recording Secretary—Mrs. Frey, Syracuse, N. Y. Corresponding Secretary—Mrs. Jason Walker, Memphis, Tenn. Treasurer—Mrs. Thomas E. Ellison, Fort Wayne, Ind. Auditor—Mrs. A. M. Robertson, Indianapolis, Ind. Librarian—Mrs. John Leverett, Upper Merion, Pa.

The constitution was amended so that clubs in which men held office can be admitted, but it was suggested that the balance of power be kept in the hands of the women. A motion to consolidate with the national federation of women's clubs was voted down, the members holding that biennial festivals held individually will be of more benefit. The convention closed tonight with a concert.
