MONDAY, APRIL 16, 1906. SALT LAKE CITY, UTAH.

FIFTY-SIXTH YEAR.

TREES FROM WHICH SHADE WILL COME

And Flower Beds and Grass Plats Which Will Add to Salt Lake Beauty.

CIVIC PRIDE WAS AROUSED.

Man With Hoe and Rake Was a Busy Chap Today and Did Much in Way of Cleaning Up.

General Regret That Big Storm Did Not Observe Either Spirit or Letter of Proclamation.

It is doubtful if Arbor day was ever before such a living issue in Utah as it is today. Last year probably marked the lowest ebb of Arbor day spirit, as the celebration then was much more in form than in spirit, but the revival this year has transcended conditions, and the tree has come into its own.

The banks wouldn't cash checks to-day, nor the courts render decisions, because it was the day for the young tree to be soded in where it will do the most good and grow with the most promise of future usefulness. On Capitol hill the state officials foregathered at 11 o'clock, the governor surrounded by his official family, and like other governors of territorial and statehood days, planted trees in the rows which will one day be veterans around a great state capitol building, and as borders to beautiful capitol driveways.

At the University of Utah the men planted, and for one day overalls and spades were the correct student costume. At noon the girls came forward with a lunch and then there was "rough house" dance and impromptu entertainment. The work lasted for two hours in the morning, and the play for as many hours after lunch. Then the students dispersed to go to work on their homes, repairing, painting, and making things beautiful. Thousands of school children helped the good work along in all parts of the city.

The new arbor day spirit is a recent growth, in which it is recognized that one citizen can do violence to his neighbor by presenting him with an unkempt front yard, and an unsanitary back one, just as forcibly as by the physical processes of which the police judge takes cognizance for which he meets out punishment. The new spirit of civic pride, and a craving for civic beauty seems to have taken a firm hold over the nation generally, and Salt Lake's celebration of Arbor day today was in fitting keeping with the general movement, notwithstanding the fact that the storm failed to do business throughout the day.

ON CAPITOL HILL.

State Officials Plant Trees Above the City—Out in Force.

A large number of state and federal officials assembled at 10:30 o'clock on the grounds this morning at 10:30 o'clock and took part in the regular Arbor day tree planting ceremonies. Among those who participated in the ceremony were Gov. Cutler, former Gov. Thomas, former Gov. Wells, Secretary of State Tingey, Atty. Gen. Breeden, State Auditor Edwards, State Supt. of Schools Nelson, Internal Revenue Collector Callister and wife, U. S. Marshal Spry, U. S. Surveyor General Hall, U. S. Land Office Receiver Thompson, State Fish and Game Commissioner Sharp, State Food Inspector Peterson, W. J. Lynch, J. D. Dixon, W. D. Thain, members of the state land board, Gen. Naylor and Col. Kesler of the governor's staff, Fred Price, state statistician, and three private secretaries to the governor; A. C. Matheson, clerk in the office of the state superintendent of schools; Mrs. Kesler, Mrs. Fred Price, violence to his neighbor by presenting him with an unkempt front yard, and an unsanitary back one, just as forcibly as by the physical processes of which the police judge takes cognizance for which he meets out punishment. The new spirit of civic pride, and a craving for civic beauty seems to have taken a firm hold over the nation generally, and Salt Lake's celebration of Arbor day today was in fitting keeping with the general movement, notwithstanding the fact that the storm failed to do business throughout the day.

Next time newspaper reporters who are present joined with the governor's private secretary and the secretary to the superintendent of schools, and, with the kind assistance of Gov. Cutler and all of the state officials, planted two fine mountain ash trees.

The ladies who were present were given Huntington elms to plant and they put the men to shame by their expert handling of the shovel. Those of the fair sex who planted trees are Mrs. Kesler, Mrs. Callister, Mrs. Price, Miss Lillian Phelps, Mrs. George Austin and Miss Emma Austin. Each one was given a Huntington elm to plant.

Only one department of the state government was not represented in the ceremonies today was the supreme court. None of the justices of the court were present. It was stated, however, that two of them were out of the city.

MAYOR THOMPSON.

The only tree planting done by the officials today was that by Mayor Thompson, who drove down to the city

ARBOR DAY AT VARSITY.

Students Turned Out in Full Force This Morning to Celebrate.

Today the University of Utah students turned out in full force to celebrate the fifth Arbor day since they have lived on the hill above Salt Lake. Unlike the day five years ago, they now have a great number of trees in bud on the campus and in the athletic field. The faculty was there and so were the college girls. The faculty grove started on the first Arbor day at the University, present holdings now consists of about 50 trees of different varieties.

DUG THE FIRST HOLE.

President Kingsbury dug the first hole today and planted a horse-chestnut tree near the walk between the circle and the Metallurgy building. The other professors set out about 12 trees, mostly sycamores and catalpas. Prof. Lyman was kept busy for an hour carrying water as the other faculty member sifted the soil around the roots of the saplings.

WHERE THEY PLANTED.

Northeast of this grove and west of the Metallurgy building the seniors cleaned their class grove and the irrigation ditches around.

The juniors cared for their trees which are south of the grand stand on the athletic field. The sophomores and freshmen planted trees between the Mechanical laboratory and the Gymnasium. Meanwhile members of the preparatory school and some from the other classes hauled all of the boxes and other rubbish behind the shop building where professors and students stacked the wood into neat piles of the training school refuse. The fourth year normals cleaned the grounds around the training school and planted their trees where they would afford shade on the playground.

WOMEN GOT BUSY.

Not to be outdone by the college people, the women's clubs of the city planted four rows of trees, mostly horse-chestnuts, between the gate at Third South and University avenue to the athletic grounds fence and to the training school. Even the younger pupils of the training school were urged to plant seeds and trees on their experimental farm. In the athletic field, Professors Cummings and Wilson were busy cutting the laying of about 400 feet of pipe in the middle of the track. Mr. Maddock had a force at work with him fixing the field for use of the track team.

LUNCHEON PREPARED.

While this was in progress, Miss Wheeler of the domestic science department was preparing a luncheon for 300 students. The lunch was prepared by the girls of her department, who took great pains to see that the boys had sufficient to eat. The Gamma Phi and Chi Omega girls served the luncheon in the assembly room at noon and it was wonderful how much of the regents' money disappeared in about an hour.

A PERMANENT FEATURE.

The faculty hopes to be able to continue the Arbor day work and make it one of the big days of the school year. The college students are all heartily in favor of the idea and hope to make each a bigger success than the preceding one.

AMERICAN ATHLETES ARRIVE AT NAPLES.

Naples, April 15.—The North German Lloyd steamship Barbarossa from New York April 2 and Gibraltar April 13, having on board the American athletes who are entered to take part in the Olympic games, which begin at Athens, April 22, arrived here today. The men who were injured while crossing the Atlantic with the exception of James S. Mitchell, of the New York Athletic club, the weight putter and hammer thrower, and Harry L. Hillman, Jr., of the New York Athletic club, runner, have recovered. Mitchell's arm is still in a sling and may interfere with his competing, and Hillman's left leg is still bandaged. The latter is improving and expects to compete at Athens.

The Americans landed soon after the Barbarossa's arrival. Some of them visited the scenes of the medical congress to be held at Lisbon, April 19-25. The doctor managing the injured part of the team, and says he certainly will try for a prize, the other members of the team fear that he is badly handicapped. Referring to the injuries sustained by Mitchell and himself, Hillman said:

"Only six out of 32 of us were struck by the wave, and four of these six are in fine trim. Only Mitchell and myself are slightly ailing. My right knee is bandaged and a little stiff, but it has been greatly improved by massage. These are the questions upon which I interfere with my running. I took a practice jog on deck yesterday without any pain and had a very good workout. I hope to be entirely fit in a few days. The main drawback is the interruption of practice."

INDICTMENTS AGAINST NEWSPAPERS UPHELD.

St. Paul, April 15.—Judge Bunn, in the district court of Ramsey county, today filed an order upholding the indictments brought by the grand jury against the St. Paul Dispatch, the Pioneer Press and the Daily News for publishing detailed stories of the hanging of William Williams, a murderer who was executed in the county jail here March 13. The newspapers were indicted under what is known as the John Jay-Smith law, which forbids the publication in newspapers of the details of any public execution.

The newspapers demurred to the indictment and attacked the constitutionality of the law.

CHILD IS ALIVE AND UNINJURED.

Little Four-Year-Old Patsy Sullivan Lost in the Canyon.

FOUND TANGLED IN BRUSH.

Sergeant Roberts Discovered Little One in the Nick of Time—Wandered For Over Twenty Hours.

Members of the family of John Sullivan, who reside at 466 south Ninth West street, were made exceedingly glad yesterday afternoon when Patsy, a little four-year-old, was brought safely to his home, after wandering alone in the hills for more than twenty hours. That the child is alive and uninjured is almost a miracle, as the little fellow was not only exposed to the chilly mountain winds, but all night had tramped through drifts, and when finally discovered was lying tangled in the brush in the midst of deep snow.

Sergeant John J. Roberts was the person who found Patsy, and the big officer quickly and tenderly placed the benumbed and exhausted child in his own great coat and lost no time in placing him in the care of the almost frenzied mother.

DISAPPEARED SATURDAY.

It was late on Saturday afternoon that Patsy wandered away from his elder brother, the two of them being at the time in City Creek canyon, where the father of the boy is employed by the city in the capacity of a tankman. Mr. Sullivan was performing his duties about the waterworks in the canyon, and the lady busied themselves gathering wild flowers. Soon the younger child became separated from the other, and it was some time before the parent became aware that his children were not together. He immediately began a search for Patsy, but could find no trace of him. Other men at work in the canyon joined in the hunt, with no better success. Finally when darkness had come lanterns were procured, and the hills were scoured in quest of the lost child. This continuing through the night.

WHEN THE SEARCH BEGAN.

At an early hour on Sunday morning officers from police headquarters went up the canyon in the patrol wagon, and they were re-enforced by mounted policemen. They with the searchers already on the ground examined every hill and ravine for many miles around. The child's name was loudly called at short intervals, and the sound echoed and re-echoed over the hillsides, but the voice of little Patsy gave no answer.

It was about 11 o'clock Sunday that Sergeant Roberts and Officer Carlson joined in the search. They went over the divide into Beautiful canyon, and after traveling about four miles a faint voice at length responded to the re-peated shout of "Patsy!" The child was tangled in the bushes, and had become frightened and in a state of privation, added to the cold. His little cap, filled with the flowers he had gathered, was tucked under his overalls, and he wore no coat.

THE MOTHER'S JOY.

At the tankhouse the child was placed in a carriage and was rapidly driven to the parental home, where the mother was found almost in a state of collapse. Her joy at once more beholding her darling child alive and well can better be imagined than described.

It is estimated by the searchers that the little fellow traveled several miles in his wanderings, and young as he is, he tells with considerable clearness details of the fearful night's experience. The family are very grateful for the kindly aid extended to them in their trying hour by the officers and by friends in general. It is confidently expected that the lad will not suffer any bad results from the ordeal through which he passed.

DR. HIRSCH DISCUSSES PRESIDENT'S SPEECH.

Chicago, April 15.—The "muckraker" speech of President Roosevelt was discussed yesterday by Dr. Emil G. Hirsch in his lecture at Sinai temple. He interpreted it as "an expression of the president's belief in the need of emotional exponents of the gospel of unrest are likely to rush the country into the vortex of the greatest of the world's revolutions unless a halt is called."

"What the humanitarians, philosophers and sociologists are soliciting about today is not that a revolution shall come, but the form it may take," said Dr. Hirsch. "Is it to be revolution or evolution? Is it to be a violent upheaval that may have the immediate effect of setting back the cause of progress, temporarily at least? or will it be a peaceful change from industrial individualism to industrial co-operation? These are the questions upon which the answers to which will depend to a large degree the progress and prosperity of the American generations of the near future."

"That, I take it, is the thought that inspired the great address of President Roosevelt yesterday in Washington. He interpreted aright the signs of the times. He sees ahead for his beloved country, the vision of a revolution infinitely more far-reaching than the world has ever known."

"But let there be no mistake about the president's meaning. To me it seems clear that his warning against what may be called 'extremism' is directed as much to the rich or so-called capitalist class as to the critics on the left. It is a warning to the malcontents and unjustly rick."

"The crying injustice of the individual philosophy is its pretense to pay labor for its devotion of a lifetime with a mere subsistence for labor's prime and the poorhouse in old age. If it be Socialism to say that the true industrial cure is co-operation, then let us have Socialism. The true and just course for employers and capitalists is to consider labor not a possession, but a stewardship."

MAXIM GORKY IN A PECK OF TROUBLE.

Question is Raised Whether Woman With Him is His Wife Or Companion.

HE AVOIDS THE REPORTERS.

Immigration Officials Have No Evidence That the Lady is Not Mme. Gorky.

New York, April 15.—The Tribune today says: Maxim Gorky and his woman companion were not found by newspaper men in this city yesterday. Their baggage, it was ascertained, was shipped to Chicago on a morning train, and there was some reason to believe they had gone on the same train with the baggage, together with Nikolay Rieschhoff, Gorky's adopted son. After being turned away from the La Fayette-Brevert hotel on Saturday evening, they went to a Socialist's meeting at the Grand Central palace with the understanding that they were to have rooms at the Rhineclander. When they got to the Rhineclander an hour before midnight, however, they were told by Frank Leray, the manager, that they could not stay there, and that their baggage must be removed immediately. Gorky and the woman who has been traveling with him as his wife, No. 107, it was said, went to the Victoria hotel in charge of Gorky's adopted son. An attempt to get rooms at the Victoria failed, and the baggage was taken to the Grand Central station and left in the baggage room over night. At the Grand Central station yesterday it was said that the baggage had been shipped to Chicago, but nobody would say positively whether or not Gorky and his companions were on the train as passengers.

H. Gaylord Whitshire, who was responsible for the appearance of the Gorkys at the Hotel Belvedere, said yesterday that he did not know where had become of them. He was unable to communicate with the Scotts or the Gorkys.

"I wanted Gorky to come to my house," he said. "I told him that he would not be able to get rooms in any hotel in the city with his conventional wife, when it was known that his real wife and children were in Russia, and I think the trouble he is encountering will teach him a lesson. He will find out that he cannot accomplish anything in this country except with the aid of the Socialists."

Abraham Cahon, editor of the Jewish Daily Forward, said last night that Gorky had arranged to go out of the city for a few days and keep out of sight in a quiet place, where he could write in peace. In that way, Mr. Cahon said, the Russian author and editor would avoid the publicity of speeches he intended to deliver in this country and in the meantime the trouble over his companion would abate.

It was about 11 o'clock Sunday that Sergeant Roberts and Officer Carlson joined in the search. They went over the divide into Beautiful canyon, and after traveling about four miles a faint voice at length responded to the re-peated shout of "Patsy!" The child was tangled in the bushes, and had become frightened and in a state of privation, added to the cold. His little cap, filled with the flowers he had gathered, was tucked under his overalls, and he wore no coat.

"MEN SHALL FLY SO FAST THEY GO"

Ten Hours From New York to Chicago by Electric Line.

DARING MOVE UNDER WAY.

Road Will be 742 Miles Long and 200 Miles Shorter Than That of Any Steam Line.

Chicago, April 15.—Ten hours between Chicago and New York on trains operated by electricity and making an average speed of 75 miles an hour is the plan of incorporators of the Chicago and New York Electric Air Line railroad.

The scheme appears to be far in the future, however. It is asserted that "some of the right of way has been secured," but the projectors decline to say how much. They hope to have the road in operation in five years.

It is implied, the proposed road will sacrifice everything for speed and distance. According to the statement of Jonathan D. Price, president of the Co-operative Construction company, which was organized to build the road, the line will be 742 miles long, or 200 miles shorter than any steam road now connecting the two cities.

The first section of the road to be built, according to the promoters, will be out of Chicago, and the work on this, one of the incorporators said last night, will begin soon.

In choosing the route, no attention is paid to whether the line runs through large cities or not. As now surveyed the road will be eight miles south of South Bend, Ind., and at that point it is proposed to build a station and run a spur into the city. The same plan will be followed where the line comes near any other city. These spur lines will be connected with the street railway systems in each town and it is proposed to run night trains at night.

The details as to the kind of cars to be used has not been thoroughly worked out, according to F. H. Wood, a lawyer living in Oak Park, Ill., who is one of the incorporators. He suggested, however, that the Germans have attained great success in building third rail roads, such as it is proposed this road will be, and he mentioned the Chicago and North Western electric line, which has been operated at 141 miles an hour.

DAUGHTERS OF THE AMERICAN REVOLUTION.

Washington, April 15.—The fifteenth continental congress of the National Society of the Daughters of the American Revolution assembled today. For the second time the proceedings were conducted in Continental hall, a building erected by the Daughters. An unusually large representation of delegates was in attendance when the president general, Mrs. Donald McLean of New York, called the congress to order.

The congress was opened with prayer by the chaplain general, Mrs. Tunis S. Hain of the United States army, and followed by an address of welcome by the president general. Brief responses were made by Mrs. L. Bradford Prince of Iowa, Mrs. John R. Walker of Missouri, and Mrs. Mary Wood Swift of California.

The congress then took a recess until afternoon when the reports of the various committees will be read and referred.

METROPOLITAN RACING SEASON OPENS TODAY.

New York, April 15.—The Metropolitan horse racing season will be opened today at Belmont park, which will be opened on Sunday, and fast time was not expected. The distance of the Carter handicap is seven furlongs. With Roseben the favorite and Whimsical a second choice, the entries including Ramo, Hor, and Phil Finch, the Williams' entry from New Orleans, and Lord of the Valley and Ormonde's Right, the inaugural event of the season of 1906 was expected to be a worthy one. Five other events besides the Carter handicap are on the card.

The opening day found the track only partly dried out after the heavy rain of Sunday, and fast time was not expected. The distance of the Carter handicap is seven furlongs. With Roseben the favorite and Whimsical a second choice, the entries including Ramo, Hor, and Phil Finch, the Williams' entry from New Orleans, and Lord of the Valley and Ormonde's Right, the inaugural event of the season of 1906 was expected to be a worthy one. Five other events besides the Carter handicap are on the card.

MOUNT VESUVIUS.

Surrounded by Cloud of Smoke But Ashes Have Almost Ceased to Fall.

Naples, April 15.—The condition of Mount Vesuvius is unchanged today. The volcano is surrounded by a thick cloud of smoke but ashes have almost ceased to fall. Many Americans, including passengers on the White Star liner Cremona and North German Lloyd steamer Barbarossa, visited the Vesuvius region today. The police and carabinieri tried hard to prevent some of them from going further up the observatory, saying that it was not safe.

SIR EDWARD ELGAR.

English Composer Arrives and Will Produce a New Oratorio.

New York, April 15.—Sir Edward Elgar, the English composer, arrived in New York yesterday on the steamer Celtic. He comes to America to conduct his cantata, "The Dream of Gerontius," and his oratorio to "The Past" at the May music festival in Cincinnati. "The Dream of Gerontius" has been produced once at the Cincinnati festival, but "The Apostles," which has had few hearings in America, will be produced here for the first time.

INNOCENT MEN WERE LYNCHED.

Maybel Edmondson Declares Positively Duncan and Copeland Were not Her Assailants.

DECIDED REACTION HAS SET IN.

Special Grand Jury Has Been Ordered to Investigate the Springfield Crime.

Every Effort Will be Made to Secure Conviction—Negroes Who Fleed to the Woods Are Returning.

Springfield, Mo., April 15.—"Quiet prevailed here today and the indications were that the race trouble was over. The presence of the troops has had the effect of bringing the people to a full realization of the situation. The last of the state militia ordered here by Gov. Folk arrived early today, and six companies now patrol the streets.

With the first appearance of the soldiers last evening there came a revolution of sentiment. Before midnight a decided reaction had set in, and people began to condemn the action of the mob that lynched the three negroes and burned their bodies. Today this feeling gained strength especially when it became thoroughly appreciated that Maybel Edmondson, the white domestic, had declared positively that Duncan and Copeland, two of the negroes lynched, were not her assailants. This was also heightened by the arrival from Jefferson City of an assistant attorney-general sent by Gov. Folk to aid the county officials in ferreting out and prosecuting the members of the mob, the names of many of whom are known.

Judge Lincoln of the criminal court today ordered a special grand jury convened on Tuesday morning. The jury will be instructed to make a thorough investigation of the lynching and the other acts of the mob, and to indict all the leaders that may be apprehended. The better class of citizens were strong today in their demands that the rioters be punished to the full extent of the law, and every effort will be made to secure convictions.

Under the direction of Capt. Willis of Company H, of Nevada, Mo., who is the officer of the day, the soldiers pitched their tents today. Outposts were maintained during the night on all the principal streets, leading to the jail. No disturbance of any kind was reported. Today the negroes who fled to the woods returned to their homes and many others, who had hidden themselves in their homes, made bold to appear upon the streets. Crowds of people today still walked the streets, passing from point to point of interest but no attempt was made to interfere with the negroes.

COMMENTS BY GOVERNORS.

St. Louis, April 15.—Expressions were sought today from the visiting governors concerning the Springfield lynching. Gov. Hagerman of New Mexico, said:

"Such a lynching as took place in Springfield, under a statue of Liberty, with the police helpless, could not have occurred in New Mexico. Our mounted police are men who would take no account of the odds against them in enforcing law. It would be a lasting disgrace to a sheriff in the territory to have a prisoner taken from him by a mob, as it is to have a prisoner escape."

Gov. Hoch of Kansas, said: "Race prejudice is not bounded by geographical lines. This outbreak, in which the mob did not stop to learn whether the prisoners were guilty, is another instance of this hyena-like spirit."

AGED COUPLE ASSAULTED.

Insurance Man Who Made Attack Commits Suicide.

Des Moines, Ia., April 15.—Following an attack on Abeldiah Smith and wife, an aged couple living near Hampton, A. Evans, an insurance man of Waterloo, committed suicide today. Evans, who was secretary of the Property Mutual Insurance company, went to Hampton Saturday to transact business with Smith. He attacked the couple, leaving them unconscious and fled. The motive for the attack is not known.

COMMERCIAL CLUBS.

St. Louis, April 15.—A convention of the commercial clubs and newspaper editors of the southwest, held under the auspices of the Business Men's league of St. Louis, was called to order here today at the Mercantile club.

Gov. Hoch of Kansas, Gov. Kibbey of Arizona and Gov. Hagerman of New Mexico, were present, as guests of honor. Gov. Folk of Missouri expects to arrive this evening and Gov. Frantz of Oklahoma also may come. Among the topics that will be discussed will be irrigation and improvement and settlement of the southwest.

E. B. KRUTTSCHMIDT DEAD.

New Orleans, La., April 15.—Ernest B. Kruttschmidt, chairman of the Democratic state central committee and one of the most prominent lawyers in the south, died today, aged 54. Julius Kruttschmidt, vice president of the Southern Pacific, is his brother.

INNOCENT MEN WERE LYNCHED.
