

THIS WOMAN MAY PRACTISE IN U. S. SUPREME COURT

Mrs. Ella Knowles Haskell of Butte, Mont., was admitted to practise law before the United States supreme court last week. Mrs. Haskell received this distinction in Washington, D. C., where she went as a delegate to the congress of the Daughters of the American Revolution.

INDIAN THEORY OF EARTHQUAKES

MAJOR CICERO NEWELL tells why there are such things as earthquakes, tidal waves and volcanoes. The major learned these things from the Dakota Indians.

rows and not harmed, bitten by rattlesnakes and not poisoned, among other tests that I have witnessed, they are accepted as holy or wise men.

"Sometimes it is relieved in one way, sometimes in another. Should the earth crack in midocean, where the crust is usually thinner, then the waters of the ocean fill in and there is a great explosion as the water strikes the rim of the rim are thrown up and islands appear.

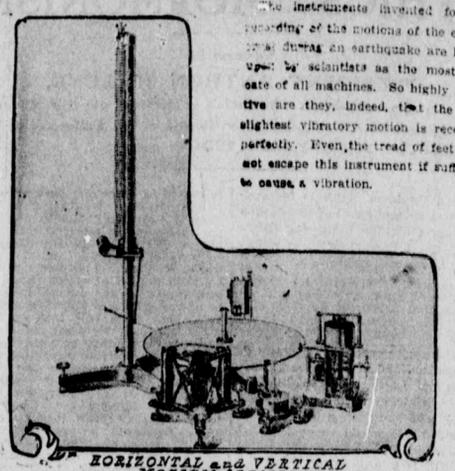

GEORGE MOORE DISCUSSES AMERICAN MEN OF LETTERS

Special Correspondence. PARIS, April 25.—George Moore, that erratic genius who is unquestionably one of the most extraordinary men of letters of our time, was found by your correspondent today in the Continental hotel, which he visits frequently for local color.

"Edgar Allan Poe is unread in America, whereas he is an integral part of the artistic life of Paris. The public damned his morals and the people thought it was condemning his literature.

"Madame Bovary," by Flaubert." In reply to my question as to whether or not any recent literary production pleased Mr. Moore, the author replied: "Yes, there is one. It is 'La Vie d'un Simple,' written by a peasant about a peasant.

SEISMOGRAPH RECORDS 'FRISCO EARTHQUAKE 2,000 MILES AWAY

The instruments invented for the recording of the motions of the earth's crust during an earthquake are looked upon by scientists as the most delicate of all machines. So highly sensitive are they, indeed, that the very slightest vibratory motion is recorded perfectly.
