

RELIGION AND EDUCATION.

Very Much Involved in the British Government Educational Bill.

PART OF GENERAL MOVEMENT

Lloyd-George, President of Board of Trade, Defends Measure in Commons.

London, May 8.—In the course of the debate in the house of commons today on the education bill, David Lloyd-George, president of the board of trade, answering the claim of former Premier Balfour, Conservative, for the logical settlement of the educational question, said it was easier to be logical in criticism than in action. Of four "logical settlements" the first was purely secular, the second frankly denominational all round, the third common religious syllabus and the fourth was the one he might say, that there could not be a common religious syllabus between Protestants and Catholics.

This was the settlement had in Germany, Quebec and Holland. It was a recognition that fundamental differences could not be solved. The speaker said that he had examined these various settlements in order to show why the government had concluded that the last of the four was the only one it could propound under the circumstances.

It was said they should give the same right of religious teachings to every denomination, but the assumption was that none had dogma except the Church of England—an assumption with a touch of arrogance in it.

If a right were given one denomination it should be given all. States, Mr. Lloyd-George said, do not bring up sectarians, but citizens. What is occurring in England, Mr. Lloyd-George declared, was part of a general movement that had occurred in every democratic country in the world. There were three democratic countries—America, France and England. What is taking place in those countries shows that democracy had come to the conclusion that clericalism is its enemy. There was no use in saying there was hatred of a special church; it was the instinct of three great democratic peoples moving toward what they believed was liberty of conscience.

SHERMAN ANTI-TRUST LAW.

Ex-Comptroller Daves Says That It Is A Dead Letter.

Cincinnati, May 8.—Charles G. Daves, former comptroller of the currency, in a speech before the Bankers' club tonight, declared that the Sherman anti-trust law is a dead letter, and a discouraging influence to business. "This is the day of trade agreements," he said, "and the Sherman anti-trust law, by an inherent quality, nullifies its power intended for good. A trade agreement may or may not be in restraint of trade. I hold that there are some which are beneficial to the public and the present law is weak in that it lacks the specific definition of what is a legal and what is a criminal agreement.

SEA LEVEL CANAL.

Senator Morgan's Bill Providing for One Laid on the Table.

Washington, May 8.—Senator Morgan's bill providing for a sea level canal for the isthmus, except through Cuba, where he proposes locks, was ordered laid on the table today by the senate committee on inter-oceanic canals. Mr. Morgan gave notice that he would not accept the verdict of the committee, but would urge the senate to take up the bill. The action of the committee, but would urge the senate to take up the bill. The action of the committee, but would urge the senate to take up the bill.

EX-MAYOR ROSE OF KANSAS CITY RE-ELECTED.

Kansas City, May 8.—William W. Rose, Democrat, who resigned the office of mayor of Kansas City, Kan., recently, pending state ouster proceedings against him for non-enforcement of certain laws, and who was later ousted by the supreme court, which disregarded his resignation, was re-elected mayor by 1,600 plurality over E. E. Venard, Republican, and David Harris, Socialist, at a special election today.

GREAT ENGINEERING HOME.

Andrew Carnegie and Wife Assist in Laying the Cornerstone.

New York, May 8.—Andrew Carnegie and Mrs. Carnegie assisted today in the laying of the cornerstone of a fourteen-story building on West Thirty-ninth street, which is to be the joint home of three national engineering organizations—The American Society of Mechanical Engineers, The American Institute of Electrical Engineers and The American Institute of Mining Engineers.

CANADIAN INDIANS.

Report on Them Says Fathers Sell Daughters and Brothers Their Sisters.

Vancouver, B. C., May 8.—Interior Agent Debeck, of Alert Bay, B. C., has made a special report to the department in which he says almost every Indian in that agency, who favors the potlatch is a slave dealer. Fathers sell their daughters, brothers sell their sisters and cousins, and he knew of one instance where a son offered his old mother for sale as a slave. Mr. Debeck recommended as a remedy for the existing evils, first, the putting down of the potlatch, which really at the bottom of all the evils

complained of. He says it should be done with a firm hand, not in the slipshod manner in which justice had been administered to the Indians in the past; secondly, he suggests a rigid enforcement of law as regards the sale of intoxicants to Indians. Thirdly, he suggests putting a stop to the custom of buying and selling women, and if possible, compel all Indians to marry their women legally, and, lastly, if possible, to keep out the grafters. Mr. Debeck concluded: "You may legislate for these Indians until doomsday and they will never do any good until this curse of their whole lives, the potlatch, is completely wiped out."

WHITECAPPERS FINED.

Three Hundred Citizens of Franklin Co., Miss., Plead Guilty.

Jackson, Miss., May 8.—Over 200 citizens of Franklin county, charged with being members of an alleged white capper organization, pleaded guilty today before Judge Niles to the charge of intimidating government homesteaders. Each assessed the minimum fine of \$25 and a month's imprisonment. The imprisonment was held up pending good behavior.

IGNATIEFF NOT ASSASSINATED.

St. Petersburg, May 8.—There is no foundation in fact for the report telegraphed from Kiev today that Gen. Count Alex. Pavlovich Ignatieff had been assassinated. Gen. Ignatieff is in St. Petersburg tonight and not in Kiev.

WESTERN MARKET LETTER.

Deseret News Correspondent Sends Weekly Review From Kansas City.

Special Correspondence. Stock Yards, Kansas City, Mo., May 7.—The cattle market is in excellent condition just now. Prices advanced 10 to 25 cents last week on all killing stuff, and the market is 5 to 15 cents higher today. Run last week was heavy, at 38,000 head, and more than 10,000 head are here today, but the killers bought them quickly at the higher prices. Stockers and feeders sold high but not in great numbers, but they closed the week with the advance lost, barely steady today. Prices on these classes have been very high lately, and dealers will be well satisfied with steady prices for a while. Several orders of western hay fed cattle sold to killers here last week, mainly at \$4.50 to \$4.80, a few rough horned cattle at \$4.20. Panhandle roughs sold at \$4.65, steers from Texas and Idaho, at \$4.50, straight grass cattle at \$3.50 to \$4.00. Large numbers of veal calves are going on the market, and the dealers just now, high but not in great numbers, but they closed the week with the advance lost, barely steady today. Prices on these classes have been very high lately, and dealers will be well satisfied with steady prices for a while.

CHARGED WITH FRAUD.

Pennsylvania Wants Los Angeles Mining Man Extradited.

Sacramento, Cal., May 8.—An agent of the state of Pennsylvania arrived in this city this morning and called at the governor's office to request requisition papers for a prominent mining man and well known politician of Los Angeles named L. H. Wheeler, who is charged with obtaining money through false pretenses, there being about 100 counts against him. It appears that agents of Wheeler sold some \$75,000 worth of mining stock to the city of Philadelphia, the stock purporting to be of the San Joaquin Mining Co. This was done in 1903, and it is claimed that the agents represented that the ore in the mine was free milling, with over a million dollars' worth exposed and blocked out. It is now claimed that the stock was sold on false representations, as the amount of pay ore was not in sight. Wheeler has communicated with the governor and has demanded an examination before him before any papers for his return to Pennsylvania are considered. He claims that when the stock was sold he was not in the state of Pennsylvania, and in consequence holds that the papers are not operative on that account alone.

CHINESE ANTI-AMERICAN BOYCOTT SAID TO BE WANING.

Pekin, May 8.—The statement to the effect that there is apprehension in the United States that the boycott of American goods is growing have caused some concern here. All the information obtainable shows that the movement is waning. The Chinese imports were \$7,000,000 last year, compared with \$23,000,000 in 1904. It appears that the boycott is waning, and the amount received upon its arrival in the Japanese city, the money was turned over to the proper committee. The funds were much appreciated, and credit was given to the church and to individuals, some of whom were instrumental in launching the movement for the relief of the stricken people.

JAPS WERE GRATEFUL.

A letter from Elder Sanford W. Hedges, who is laboring as a missionary in Japan, conveys the information that the money collected at an entertainment in the Eleventh ward of this city, for the relief of the northern Japan famine sufferers, has been duly received at Sendai. The entertainment was given on the night of Feb. 3, and the amount received and forwarded was \$102.52. Immediately upon its arrival in the Japanese city, the money was turned over to the proper committee. The funds were much appreciated, and credit was given to the church and to individuals, some of whom were instrumental in launching the movement for the relief of the stricken people.

LONGFELLOW SAID:

"We lead but one life here on earth; We must make that beautiful, And to do this, health and elasticity of mind are needful, And whatever endangers or impedes these must be avoided."

Just a plain bit of good, old-fashioned common sense. Now apply common sense to your "health of body and mind." It's largely a question of

Food

When "run down" or ailing in any way you may be sure the life forces are not taking up, from your present food, the things required to keep Body and Brain well. It is very sure you will discover help when the food is changed properly. The reason for advocating GRAPE-NUTS is that this food contains the natural Phosphate of Potash obtained from Wheat and Barley from which Nature makes (in combination with Albumen of the food) the gray filling of Brain and Nerve centres.

Build Brain and Nerves up strong and vigorous and you have achieved the power to "make this life beautiful."

There's a Reason.

10 days trial of Grape-Nuts will prove.

Get the little book, "The Road to Wellville," in pkgs.

A DR'S FOOD

Found a Food That Lifted Him Out of Trouble.

The food experience of a doctor experimenting with himself is worth knowing. He says: "I had a bad dyspepsia since I have any knowledge, from eight years old, I know. 'I worked down from stomach to intestines justifying at the umbilicus in entirety until six years ago the agony every few days was something terrible.

BANQUET TONIGHT FOR PHYSICIANS.

State Medical Association in Closing Session This Afternoon.

INTERESTING PAPERS READ.

Dr. Scallon Discussed the Question, "Should the Doctor be Interested in Politics."

The third session of the Utah State Medical association was held this morning at which a number of very interesting papers were read and discussed. Some routine business was transacted, after which the following papers were read: State medicine, T. B. Beatty, Salt Lake; Food adulteration, H. A. Castle, Pocatello, Idaho; Herman Harris, city and state chemist, Salt Lake; Epilepsy in Legal Medicine, Frederick Clift, Provo. Should the Doctor be Interested in Politics? J. E. Scallon, Salt Lake.

The closing session will be held this afternoon, at which time the officers for the ensuing year will be chosen. Tonight the physicians will be tendered a banquet at the Commercial club by the Salt Lake County Medical society. The program for this afternoon follows:

REPORT OF HOUSE DELEGATES.

Some Factors in the Production of Obstetric Morbidity and Mortality, W. R. Calderwood, Salt Lake. Prevention and Treatment of Puerperal Fever, J. M. Henry, Payson. Puerperal Eclampsia, G. P. Tilson, Payson. Treatment of Pneumonia, J. E. Hosmer, Provo.

A number of interesting papers were read yesterday afternoon and last night, the titles and speakers being as follows: "A Plea for the Doctor of Internal Medicine," H. A. Castle, Pocatello, Ida. "Nature and Treatment of Severe Railroad Injuries," J. F. Critchlow, Salt Lake. "The Active Principle Therapy, or the Need of a Revival in Therapeutics," R. J. Smith, Smithfield. "The Value of Absolute and Relative Leucocyte Counts as an Aid in Medical and Surgical Diagnosis," Ross Anderson, Salt Lake. "Reflex Neuroses in Eye-strain," D. C. Bryant, Omaha, Neb. "Methods and Principles in the Diagnosis of Diseases of the Stomach," W. R. Tyndale, Salt Lake. "My Experience in the Treatment of Chronic Dyspepsia and the Symptom-Complex Associated, of the Upper Abdomen, in the Past Three Years," L. P. McCalla, Boise, Ida. "Perforating Gastric Ulcer," Fred L. Dixon, Denver, Colo.

WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 6 a. m. today: Temperature at 6 a. m., 51; maximum, 74; minimum, 49; mean, 62, which is 6 degrees above normal. Relative humidity, 49 per cent. FORECAST TILL 6 P. M. THURSDAY. Local forecast for Salt Lake City and vicinity: Fair tonight and Thursday. Local Forecaster, R. J. HYATT.

SENATE BARS WAY OF ALCOHOL BILL

Upper House Will in All Probability Kill the Measure.

IT WILL DISTURB TARIFF.

Results of Hot Weather—Texas and Irrigation—Taylor's Racing Badge—The Grand Avenue.

Washington, May 5.—Free alcohol seems to have struck a snag in the senate. The people who thought that it would go through the senate quickly because it met with so little opposition in the house may be disappointed. I am informed by men who have great weight and influence that this is a measure that must be "carefully examined," also that the tariff structure is to a certain extent dependent upon the tax upon alcohol and that alcohol free of tax would mean a revision of tariff schedules. It will be a serious disappointment to a great many people, and especially to a large proportion of members of the house of representatives, if the free alcohol bill should fail to become a law.

Special Correspondence. Washington, May 5.—Free alcohol seems to have struck a snag in the senate. The people who thought that it would go through the senate quickly because it met with so little opposition in the house may be disappointed. I am informed by men who have great weight and influence that this is a measure that must be "carefully examined," also that the tariff structure is to a certain extent dependent upon the tax upon alcohol and that alcohol free of tax would mean a revision of tariff schedules. It will be a serious disappointment to a great many people, and especially to a large proportion of members of the house of representatives, if the free alcohol bill should fail to become a law.

RESULT OF HOT WEATHER.

A few sultry days last week seemed to disturb the serenity of members of Congress, and there were hot exchanges in both senate and house. The acrimonious debate between Senators Hopkins and Tillman was not the only thing that occurred, for there were also vicious thrusts here and there directed by different senators at each other, showing that ill temper has developed. In the house there were a number of displays of bad blood, and even the leaders were not able to refrain from tart exchanges.

TEXAS AND IRRIGATION.

On the day the house passed the bill allowing Texas to participate in the arid land reclamation fund Representative Lacey of Iowa made a very interesting speech, and it is during which there were some especially bright features of debate. He was interrupted by Representative Gilbert of Kentucky when he incidentally mentioned that state. "Kentucky does not need to be irrigated," said Gilbert. "They do a great deal of irrigating in Kentucky," retorted Lacey. "That is a personal matter," interjected Representative Sulzer of New York. Speaking of what Connecticut would have had she not turned her large holdings in Iowa over to the general government, Lacey said that "Connecticut would have been a kangaroo state, the biggest end behind her," also that "the only thing that Connecticut saved out of her territory was the western reserve; she gave up Chicago and saved the western reserve. But Texas—kept, cutting Texas—kept it all—kept every acre of it, and now, like Oliver Twist, she is asking for more."

MORE ABOUT TEXAS.

Interspersed in Lacey's remarks there was more about the Lone Star state. He said: "There has never been anything very modest about Texas. She has been charged with everything except modesty. I do not blame her for that. I acquit her of any charge of immorality. They made a claim to pretty near everything in sight in the northwestern direction. We have been good to Texas and ought to have been good to her, and she has been good to herself. She is a stepchild, remarked Representative Stephens of Texas. "She is not a stepchild, and neither is she a mother-in-law," replied Lacey. "She appears now and asks for equality. Equality in what? To keep all she has and give up with the rest of the states what is left. She wants to be considered as one not only of the original 13 states, but as one of the 16 irrigated states. She wants to do this without putting an acre of land into the proposition and to draw out whatever she can get."

THE "GRAND" AVENUE.

Riding along Pennsylvania avenue in the electric car the other day, I overheard a fellow passenger remark, "It was late when the horse cars first began to run, and so far as I can see Pennsylvania avenue has not improved since that time." He was referring to that portion near the Capitol, and it is one of the strange things that for more than two-thirds of the length of this spacious avenue between the magnificent Capitol building and the comparatively insignificant and inadequate White House there has been little or no improvement in half a century. That part which has improved is toward the White House.

TAYLOR'S RACING BADGE.

Representative Taylor of Ohio enjoyed the races while they were here and was frequently at the track. He had a racing "badge," of course, which is a season ticket of admission. One day he left the house and went down to his automobile, but found that he had lost the plug which is essential in connecting the circuit which makes the machine go. He kept that plug in his overcoat. After searching the pockets of that garment, he found he had taken another member's overcoat. He hid himself back to the house cloakroom, found his overcoat and made the exchange and was soon speeding toward the track. When he arrived, however, he found he did not have his racing badge, and then recollected that he had in the beginning of the episode transferred his badge from his vest pocket to the overcoat that he had taken by mistake. He never recovered that badge.

BIG REALTY BUYS.

Western Pacific Secures Additional Valuable Ground South of City. That the Western Pacific-Rio Grande railway combinations is making extensive preparations to erect large and costly terminal plants at this point becomes more and more patent as time progresses, and the hand of the railway people becomes plainer. There was recorded yesterday afternoon, at the joint building, the transfer of 112 acres in section 14, township 2 south, range 1 west, from David McCleary to Waldemar Van Cott, for the railway interests mentioned, for \$16,500; and in the same section, the transfer is recorded of a tract somewhat larger to the same grantee from John Evans, for \$24,300. The land in question is just north of the land known as the Church Farm.

A Glass Cleaner

When You buy at a store that does not advertise, you are giving your patronage to a store that has not asked for it—and, not caring enough for it to seek it, will, presumably, care no more about keeping it.

High Endorsement

Of Evans' "One Hundred Years of Mormonism," by the General Superintendency of Sunday Schools

HE work has been carefully read and examined by a committee appointed for the purpose, consisting of Elders Francis M. Lyman, George Reynolds, and Joseph F. Smith, Jr., who speak highly of its originality, literary ability and adaptability to the purpose for which it has been written, and on the strength of their very favorable report, we recommend it to Our Sunday Schools for use wherever Church History is under consideration and also to the general public who desire a comprehensive history in one volume of the struggles and triumphs of the great Latter-day work.

Your Brethren.
