WOODLAND.

AN IDEAL RETREAT.

If any more beautiful spots than the valley along the Provo river in the summer time. The winters are long and cold, the snow is deep, but the summers are beautiful in the extreme. The many shady groves, the babbling brooks of clear cold water, the rushing river, the verdant meadows, the shady pastures, with the lowing herds, make a perfect rural scene, while on every hand are found the pleasant and oft-times luxurious homes of the thrifty settlers.

No place offers a more perfect retreat to the city worker than a week or two in this rural retreat. Here are in abundance the comforts of wholesome rural life. The streams abound in trout and though the days get warm, the nights are cool enough for comfort—in fact, the visitors from the Salt Lake valley or from the eastern states have a hard time to get asleep though. The nearest railway station is Heber, and from there the days get warm, the nights are cool enough for comfort—in fact, the visitors from the Salt Lake valley or from the eastern states have a hard time to get asleep though.

one more record by IVER LAWSON

He Now Holds Best Time for Five Mile Lap Race.

EASILY BEATS SAMUELSON.

The Two Riders Are Left Alone and Sammy is Barred From Any Chance To Protest for Fair Chance.

Despite the fact that the night was chilly another overflow crowd gathered at the Salt Lake racetrack last night, and saw Iver Lawson run away from Samuelson in world's record time, with all the other fast lurch out of the mounting for the moment.

There were many other things they saw but this was the only one that stirred up special enthusiasm, unless it was the sprint of Hume in the heat of the mile-up handicap.

The five mile motor race proved to be an exhibition on the part of the drivers, with some very close racing and worked in to a victory, the latter Shadow Samuelson third, and Hagen twice over.

The lap race worked around a great deal at the average rate of a mile each 31 seconds.

The races last night demonstrated one thing to a certainty. The rider down they most in the public eye is one Samuelson. In spite of the fact that he was not in the race, he was watched incessantly just in case he entered.

They watched to see if he had a fair chance to win, and they hoped, and saw what combinations "tried to do him" and to see what help his speedy adversary had in pulling past him in the sprint.

At the end of the race, the crowd fairly sure of two things, one of them being that when he is left perfectly alone, Iver Lawson can run away from him in fair fashion, and gather in the candy.

The other is that Samuelson rides alone in the lap race, and he is a great deal of a deal. He appeared to be wondering where McFarland was, and why he wasn't coming to take the race.

He realized that he was alone with Sammy, and he was doing anything but unwinding his wonderful spirit, and when it was all over, the crowd was sure that he was a new world's record was set for the event.

A FEW COMBINATIONS.

The big lap race had all the professional in it at the start, but Iver Lawson and Hume and McFarland went out on a preliminary lap, the first two laps, and the race was on.
