

GREAT STRIKE NOW ON IN RUSSIA

Employees of Light Plants in St. Petersburg Quit Work On Orders.

Dictatorship is Coming.

Grand Duke Nicholas to be Made Commander-in-Chief of All Troops.

St. Petersburg, Aug. 4, 2:45 a. m.—St. Petersburg is in darkness tonight. The employees of the electric lighting plants, always the earliest barometric record of political conditions, ceased work during the afternoon, in obedience to the call for a general strike. This call already has been obeyed by 2,000 factory hands in the capital. It will be impossible, however, to predict the success of this universal political strike until Monday, as the workmen in St. Petersburg and the provinces have two holidays, Saturday, which is the fête day of the dowager empress, and a great religious feast, and their regular holiday of Sunday.

The only other available index to the situation are the railroads. Up to 2 o'clock this morning the railroad men have not heeded the call for a general strike, except in the case of an insignificant branch line running to Sevastopol and other short resorts in the vicinity of St. Petersburg. The men of this road barricaded the line, with the result that they had an important collision with Cosens last night.

In the meantime the fate of the Stolypin cabinet hangs in the balance, and Russia is upon the verge of disorders which may lead either to the reign of the military or the proletariat. It can be stated definitely that the step toward a dictatorship may be taken Sunday or Monday by the nomination of Grand Duke Nicholas as the chief command of all the troops in Russia. This would virtually place him in control of all the disturbed districts of the empire where martial law has been proclaimed.

This matter was a subject of earnest discussion during the interview between the emperor and Premier Stolypin yesterday, from which the premier returned in greatly vexed state of mind. The revolutions at Svaborg and Cronstadt and the mutiny on board the cruiser Pamyat Azova gave the tone to the conversation between his majesty and the premier. These events, although they have all ended fortunately apparently have left a strong impression upon the mind of the emperor. The Associated Press has been informed from a high source that the nomination of Grand Duke Nicholas to the post of commander in chief, if made, will be announced as "for the purpose of harmonizing the activity of all troops, without reference to political affairs."

One element of possible disorder for tomorrow has been removed by the decision of the widow of M. Herzenstein, the ex-deputy who was murdered at Terjoki, to inter her husband at Terjoki and to omit holding the services here and at Moscow. The prefect of police of St. Petersburg today appealed to Mme. Herzenstein to cease the procession here, saying it probably would result in great disorder, which he was resolved to suppress at whatever cost. After consultation with the Constitutional Democratic committee, Mme. Herzenstein agreed to this.

The pickets of cavalry and infantry were the most conspicuous features on the streets of St. Petersburg last night. Business houses generally have boarded up their windows as they did in the days of the great October strike. Practically all of the street cars in the city have stopped running, and the cab drivers are threatening to cease work today.

A dispatch received by the Associated Press from Sestroretsk says that heavy reinforcements are being poured in there, evidently in fear of an attack upon the government large and small arms factory located in that suburb. The long distance telephone station was occupied last night by half a company of infantry in order to prevent the anticipated attempt of the revolutionists to sever telephonic communication between here and Moscow, and the last train in from Moscow brought railroad officials who had collected the funds on hand at the various intermediate stations to prevent their seizure in case of a strike.

It was announced at the admiralty last night that the drumhead court-martial proceedings at Cronstadt probably would be suspended with the execution of seven ringleaders of the mutiny who were condemned to death Thursday. The other mutineers will be subjected to trial by the regular court-martial which will be convened after the customary delays. It has now been ascertained that the death list on board the cruiser Pamyat Azova included Capt. Sosinsky, two lieutenant, the chief engineer and the junior engineer, the surgeon, a midshipman and the chief petty officer. The captain of the second class Mosyorkin was mortally wounded. A private and two lieutenants were slightly wounded. About 50 sailors were killed or wounded.

The three petty officers who organized the loyal sailors to take possession of the ship have been singled out for imperial commendation. The mutineers will be court-martialed at Revel.

WOMAN SUFFRAGISTS.

International League Will Meet in Copenhagen Aug. 7.

Sopenhagen, Aug. 3.—The third conference of the International League of Women Suffragists will meet here from Aug. 7 to Aug. 11.

A majority of the delegates, among who are many Americans, have already arrived here and are the guests of leading families of Copenhagen. A william succession of excursions and fetes has been arranged. The queen of Denmark today granted an audience of one hour to Mrs. Carrie Chapman Catt of New York, president of the league. Her ministry showed deep interest in the suffragist movement and regretted that the term of mourning for the late king prevented her entertaining the delegates. She expressed her admiration of American women, saying she thought them active and progressive, and that the women of other countries should take them as their models.

The British consul in Boston has ordered the arrest of Lord Sholto Douglas during the period of his recent detention by the Portland police. The inquiry relates chiefly to the use of manacles on the second night of the detention after he had furnished the police with what seemed to be the British consul's proof of identity. The manacles worn all night left painful bruises.

Lord Douglas says he wants to avoid further detention and will be satisfied with a verbal apology from the sheriff and police. The consular authorities await the apology and the matter may become a subject of international inquiry.

Lord Douglas was taken by the police for an alleged bigamy case wanted in the south.

JOHN HARVARD HOME.

Nelson Morris Buys It But Hesitates to Present It.

New York, Aug. 4.—A cable dispatch to the Times from London says: Nelson Morris recently told a London friend that he had purchased the John Harvard home at Stratford-on-Avon with the full intention of presenting it to Harvard University. He hesitated, however, to tender the gift on account of the prejudice that had lately been expressed against the American meat packers. He seemed to think that for the present he could not give of the gift of the home.

While speaking of the canned meat scandal, Mr. Morris stated that his firm had already suffered a net loss of \$2,000,000 in its foreign trade on account of the orders issued against the products of the Chicago packers.

MUSTN'T SERVE SKIM MILK.

Chicago, Aug. 4.—The state food commission issued formal notice yesterday that hotel and restaurant keepers who served watered, skimmed or otherwise adulterated milk to their customers will be prosecuted.

"The practice is a fraud perpetrated on the traveling public and others taking meals at public places," said the notice. It is wholly indefensible morally and is a violation of the state law which prohibits the addition of any foreign substance to a milk intended for sale.

The half-burned body of the man was this morning taken to the coroner, who is holding the body pending identification.

The man had been arrested last night on a charge of vagrancy, and was the only prisoner in jail.

A PREMATURE EXPLOSION.

Bomb Intended for Troops Killed Intending Murderers.

London, Aug. 4.—A dispatch to the Evening Standard from Moscow says that a detachment of workmen today had prepared to receive with bombs a detachment of troops sent against them when one of the bombs was prematurely exploded by accident and exploded other bombs, blowing three workmen to pieces and wounding many others. The soldiers were uninjured.

TREPOFF TO SUCCEED RUDJER.

St. Petersburg, Aug. 4.—The Bourne Gazette says Gen. Trepoft will be appointed minister of war, succeeding Gen. Rudjer.

M. Goremykin, who was premier from May 2 to July 22, has left St. Petersburg and gone abroad.

BOYS BEAT GIRLS.

Report of Board of Health for Week Ending Aug. 4.

Thirty-three births were reported during the week; 22 males and 11 females; 18 deaths were reported; 15 males and three females. One shipped here for burial.

There were reported seven cases of contagious and infectious diseases, consisting of two cases of smallpox, two cases of scarlet fever, one case of diphtheria and two cases of typhoid fever.

INDIAN WAR VETERANS.

Large Attendance on Occasion of Gathering at Ephraim.

There was a large attendance of Indian war veterans at the recent Ephraim reunion, where many of the veterans brought their families and relatives, some from a considerable distance. The exercises were held on the Snow Academy grounds and on adjacent vacant property, so there was plenty of room left to move in. There were many tents and covered wagons and at night, with the camp fires burning brightly and other lights going, the scene was attractive enough, and suggestive of old times.

Congressman Howell made an address referring to the strenuous experiences of the veterans in the early days as pioneers who not only had to fight Indians but conquer a rebellious soil as well. Mr. Howell also explained the difficulties in the way of securing pensions for veterans whose services had not yet been recognized.

A great feature of the gathering was the sham battle between the settlers and the Indians, and the site selected was the same spot where a real encounter took place 40 years ago, and the fight was reproduced as nearly as could be. The settlers were represented by about 90 people with 20 wagons camped in a little valley; the wagons being arranged in a circle with scouts posted around. The Indians came up around it from opposite sides. The redskins first captured and drove off the cattle of the settlers and carried off the women who were herding them. The real fight took place, and this appeared so realistic that many of the spectators held their breath. The Indians were finally put to rout, after considerable scalping had been done, and imaginary blood shed. However, the Indians captured one of the wagons and burned it.

GOVERNOR ASSASSINATED.

Samara, Russia, Aug. 3.—The governor of this city was instantly killed today by a bomb thrown by an assassin who was subsequently arrested. The governor's head and feet were torn off by the explosion.

SET JAIL ON FIRE.

Prisoner Who Did It Perished in the Flames.

Oakland, Cal., Aug. 4.—An unknown prisoner set fire to the town jail at Niles early this morning in an endeavor to escape, and before the blaze could be discovered or help arrive, was burned to death. It is not known by whom the man started the fire, but it is presumed that he had some matches concealed about his person, which the officials in searching his clothing overlooked. After he had started the blaze, he could not keep it within bounds, and was soon the victim of his own device for escape. His screams of pain aroused a neighbor, Frank Stoddard, who quickly brought citizens to the rescue, but the flames had then gained such headway that no one could reach the prostrate body of the prisoner, and his body continued to burn before their eyes. All joined in extinguishing the flames, the only houses burned being the jail and a few nearby buildings. The man was this morning taken to the coroner, who is holding the body pending identification.

The man had been arrested last night on a charge of vagrancy, and was the only prisoner in jail.

Solomon Kraus, a Jew, tried to steal a crocodile last night from a circus which is performing here. There were several of the reptiles in a cage, into which Kraus broke at half past one. The crocodile resented removal, and fastening his teeth in Kraus' arm, held him until his cries attracted the attention of the staff, when he was arrested.—Budapest Correspondence London Express.
