WANT EXPERIMENT STATION

On Utah Reserve to Help Develop Vast Agricultural Empire.

Special Correspondence. Provo, Jan. 26.—A memorial will be presented to the legislature by O. W. Jarvis and others interested in the Utah reservation country, asking for the establishment of an agricultural experiment station in northeastern Utah.

The reasons for the request are that the soil and climatic conditions there differ from the great basin section of the state, when the soil is formed by deposition, while in the reservation country it formed by erosion, and that there has been comparatively little farming done there, which leaves the new settlers under the necessity of experimenting in order to determine the methods adapted to conditions there, which will be a waste of time and effort that can be overcome through the work of an experiment station.

FIVE CENT FARE DEMANDED.

City Council Holds up Railway Franchise—S. S. Worker Honored.

At the city council meeting Tuesday night the city fathers had a somewhat perplexed problem to deal with. A number of ladies interested in rooming house business were present, claiming they will be unjustly dealt with if an ordinance is allowed to be passed requiring them to pay 50c per quarter for each room maintained. They demanded the license as exorbitant and were frequently not in use, and unjust because they are obliged to compete with foreigners who rent one room to from 15 to 20 persons, and would receive from 10 to 20 per cent more profit. The argument prevailed and an ordinance was held for further consideration.

A petition has been filed in the Second district court by Thomas E. Powell praying for his appointment as administrator of the estate of William A. Powell, deceased. The petition sets forth that the deceased met his death Oct. 23, 1906, at Elk River, and because of negligence and wrong conduct of the Southern Pacific Railroad company. 35,000 DAMAGE SUIT.

A \$35,000 damage suit has been commenced in the Second district court by Robert C. The Miller-Cahoon company complains that they are not receiving all the coal billed to them. The Rio Grande switches leading to their yard are filled with broken cars, and it is impossible to get cars into their yards. Most of the time cars are left on the company's right-of-way and fences have to be cut in order to reach them and receive the coal.
