CEGAR CITY.

DEATH OF JOHN STEPHENS.

Commercial Club Organized—City Fathers Asked to Improve Roadways. Special Correspondence. Cedar City, Ign county, Jan. 26.—This section has had a storm of stormy weather, which ended today. On Tuesday the 22nd inst, John Stephens a highly respected citizen of this city, passed away. Funeral services this morning were conducted in the over his remains were conducted in the afternoon at 2 o'clock, when appropriate remarks were made by some of his intimate friends who bore record of the good character, industry and liberality of the deceased. The deceased joined the Church of Jesus Christ of Latter-day Saints in Carmer-shire, Wales, where he was born April 23, 1838, he followed the labor of a farmer in his native land. Before emigrating to Utah, he married Miss Elizabeth Perkins and came to Utah in 1858. Ten children have been born to them, eight of whom and the wife survive him.

Notwithstanding the anxiety felt for the sheep and cattle interests on account of the severity of the winter, it is generally believed that these interests will come out with little loss. Snow is melting fast and in consequence the roads are reported almost impassable.

MOAB.

Mild Winter in Grand Puts Ice men Out of Business.

Special Correspondence. Moab, Grand Co., Utah, Jan. 23.—We are having extra fine weather here at the present writing, and have had excellent weather during the past month, with no freezing weather to speak of, and it looks very much as though the ice men would have to give up their custom in Moab next summer. This will prove very bad for our wet-goods people, for it gets pretty hot and dry down in this section of the country, especially during the months of July and August.

VERNON.

DEATH'S HARVEST.

Mrs. Anna S. Pehrson and Eric Anderson Called Hence. Special Correspondence. Vernon, Tooele Co., Jan. 23.—On Jan. 14, funeral services were held over the remains of Mrs. Anna S. Pehrson, whose death occurred on Jan. 10, after an illness of less than a week. President H. S. Gowans of Tooele stake was the principal speaker. Members of the Relief society showed their respect to their departed president by neatly decorating the meeting-house and furnishing a profusion of white carnations. Eric Anderson, another pioneer of this place, aged 78 years, passed to the great beyond Jan. 23 and was buried Jan. 19, services being held at the ward meetinghouse. The speakers were Elders Peter Jorgensen, Jens Nielsen and Bishop Bennion. William W. Durrant, who is the sole owner of a threshing machine, expects to start threshing his grain and lucerne seed today. On account of storm and scarcity of help, he has been compelled to postpone the work until now. There are sheepmen here from Heber City, feeding some sorry looking sheep, but with plenty of feed they may save many of them if the winter remains mild. There is a pretty good supply of snow in the mountains, which is well drifted.

FAIRVIEW.

Entertainments for Benefit of New Meetinghouse.

Special Correspondence. Fairview, Sanpete Co., Jan. 26.—Several entertainments have been given recently to raise means for the new meetinghouse, which is estimated to cost between \$200 and \$300. The Ladies' club social netted \$60, the Relief society club \$45 and the M. L. A. entertainment and lunch added \$35 to the building fund. One Fairview citizen promises that if the people would finish the walls this year he would donate all the staves and nails for roofing it, hence the effort on the people's side to accomplish it. There is every indication that hay will be very scarce here before another crop is growing.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamberg, N. Y.

CATARRH OF THE STOMACH

A Pleasant, Simple, But Safe and Effective Cure for It. COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, feeble appetite, nervousness and a general played out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition. The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily and thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared. According to Dr. Harlanston, the safest and best treatment is to use after each meal a tablet, composed of Dis-tase, Aseptic Pepsin, a little Nux, Gold-enseal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals. Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found fresh appetite and sound rest from their use." Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of the stomach, biliousness, sour stomach, heartburn and bloating after meals. ICELAND'S POLITICAL CORRUPTION.

Special correspondent, writing in the Pall Mall Gazette of the movement in Iceland for absolute self-government, says that by degrees the demands were formally acceded to—including the appointment of a resident minister responsible to the Althing, or representation of the people, and after the advent of the present King Frederick of Denmark it was believed that all subjects of contention were now happily disposed of. "This, however—as a letter from the Danish capital shows—is not the case. In that famed 'Isle of Snow and Fire' a new political eruption has broken out. It must not be forgotten that though the Icelanders are, like the Danes, of Norse Germanic origin, they speak a language of their own, even as is the case between Norwegians and Swedes. It is in Iceland pretty well still the strong old tongue of the Edda, the ancient Scripture of the north. Hence Dane and Iclander do not easily understand each other. Centuries ago the Icelanders were a free commonwealth, with no hereditary ruler. Of that long bygone past the people are proud even now; and being generally well educated, they keep up a literature of their own. "The idea of setting up a monument at Reykjavik in honor of the late King Christian has been suddenly dropped. Some Icelandic journals declare that money may be more usefully spent; that, at any rate, it was not right to erect the first monument on the soil of the island to a Danish king; and that the country could show many of its own natives who merited an earlier honoring. Again, the resolution has been formed to create a national flag of Iceland—even as the Norwegians have done. It is to be blue, with a white cross. If this were to be only a local flag, even that demand might be general. But it is supposed that the intention is to use this flag also abroad. In that case, it is said at Copenhagen, Iceland would scarcely look any longer like an 'inseparable part of the Danish monarchy.' Lastly, it is stated that the Icelanders intend treating the Danes as 'outlanders' as regards fishing in Icelandic waters, although Denmark, for years past, has kept a cruiser in Icelandic waters for the protection of native fishers against foreigners. In government circles at Copenhagen the matter is treated, for the nonce, with a degree of silent cautiousness. Not a few, however, fear that a difficult Icelandic question is coming up."—London Telegraph.

CHAMBERLAIN'S COUGH REMEDY

IS UNEQUALLED FOR Coughs, Colds and Croup. "Jack," said the one in chignon, "promised to see me last night." "The one in gauze smiled." "He doesn't do it as well, does he, dear?" she said.

A NOVEL AMERICAN ENTERPRISE—SHIPPING WATER FROM THE JORDAN.

The picture affords a vivid illustration of a remarkable new American enterprise. The project of shipping water from the Jordan river, the traditional scene of Christ's baptism, has actually been carried out. Numerous difficulties had to be overcome. It was necessary to convey the water seventy miles across the mountains of Judea to the seacoast, and casks were not to be had. Wood for them had to be brought from Asia Minor. Permission of the sultan and of the patriarch of Jerusalem was necessary and finally was secured. Colonel C. E. Nadaud of Kentucky brought the scheme to a working basis.
