HUSLER'S FLOUR!

That is equivalent to saying, "Give me the very best you have."

The man in the Grocery store will understand.

the sum of \$1,000 for withholding possession of the property and \$150 for the rents and profits from it.

LOUIS GORDON HERE.

Louis D. Gordon, who was considerable fame in Nevada through having discovered the Round Mountain district, returned to the city last evening suffering from a bad cold and which bore symptoms of developing into pneumonia.

Mr. Gordon says Round Mountain is simply humming, and that the developments made there in the mines have far exceeded all his expectations.

He believes the camp will be the local gold mines as big as any in Nevada; that there is sure to be much activity there during the present year.

The town is growing in population. Every day the bank of which Mr. Gordon is president, began business on the first of the month and the mining exchange which opened for business started off under the most encouraging conditions.

Mr. Gordon says the camp of Wonder is attracting a good deal of attention and looks to see some big mines opened there.

AN ADVANCE

The Volume of Business Very Good and Prices Went Higher.

AND THEN THEY SLIPPED BACK

Stiffened on Fresh Buying Orders—Close Was Irregular With Profits—Taking in Progress.

New York, Feb. 12.—Advances in London over the holiday helped the opening prices of stocks here to a higher level.

Some of the southwestern railroads were rather heavy. There were 15,000 shares of Anaconda sold at 2 3/4 and 28 compared with 25 on Monday.

Realizing sales were without appreciable effect on prices and the market went somewhat higher. A good volume of business.

Northern Pacific showed some heaviness. Federal Sugar improved 3 points. Lackawanna, Northern preferred 1 1/2 and United States Steel 1.

An exceptionally large demand for American securities which netted 1 1/2 points. Instead speculative purchases of other railroad stocks and the entire group being a reaction to some degree.

The Hill stocks continued. Middy prices of the grangers and Pacific were heavy.

There was more uniform display of strength by the middle of the afternoon.

There was a more confident demand. Northern Pacific gained 1/2.

Black and irregular, with profit-taking in progress. Great Northern preferred was up 3/4.

Central Pacific and Southern Pacific 1. Profit-taking made fractional inroads on prices in the late dealings. Sugar lost a point.

LIVESTOCK.
