

GREAT ACCIDENT BARELY AVERTED

C. B. & Q. Overland Limited Flew Past Interlocking Switches and Signals at 60 Miles an Hour.

ENGINEER DEAD ON CAB FLOOR

He Had Died from Hemorrhage of the Brain—Train Had a Hundred Passengers Aboard.

Chicago, May 27.—The Overland limited, fastest train of the Chicago, Milwaukee & St. Paul road system, ran Monday night at full speed of nearly 60 miles an hour over interlocking switches and past signals near Byron, Ill., with Engineer Albert Gavuin's body dead on the cab floor and no controlling hand on the throttle. The train, with a hundred passengers aboard, narrowly missed a smashup.

Officials of the railroad yesterday heard the story told by Fireman Gavuin, who had been in the engine's cab as the result of hemorrhage of the brain. The train left Chicago on the journey to San Francisco with Gavuin at the throttle in apparent good health. Near Davis Junction, at Byron, where the train slows down to cross the right-of-way of another road, Fireman Gavuin slipped from his seat and fell back into the engine cab and discovered Gavuin's body lying on the floor. The train was stopped and help called. An examination showed the engineer was dead as the result of hemorrhage of the brain.

SHORT \$37,572.

Represents Taxes Paid Under Protest in 1903 by S. F. United Railroads.

San Francisco, Cal., May 27.—It is reported that the \$37,572 representing taxes paid under protest in 1903 by the United Railroads, is missing presumably from the city and county treasury.

The sum represents the difference between the valuation placed on the holdings of the United Railroads by the state board of equalization and the amount shown by the city and county assessors.

ITALIAN CRIMINALS.

Dist. Atty. Clark Will Go to Italy to Study Them.

New York, May 27.—Dist. Atty. Clark of Brooklyn will sail for Italy on June 6 to study the Italian criminal where he grows. Mr. Clark will be accompanied by Francis L. Corrao, one of his assistants, who was born in Italy. Mr. Clark has taken an active interest in the increase of crime among the Italian residents of Brooklyn, and in the severe blacklisting legislation that flourish among them.

WILL CONTINUE TO PROSECUTE GRAFTERS

Los Angeles, May 26.—Rudolph Sprickles of San Francisco, who has been the financial backer of the graft prosecution in that city, made a brief address here today, in which he referred to the continuation of the graft prosecution in the following language: "To assume that the people of San Francisco are discouraged by reason of the mistrial in the Trefe case would be a mistake; on the contrary, the disagreement of the jury in that case has

CARTER'S LITTLE LIVER PILLS

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Irritability, Distress after eating, and all the ailments which are most remarkable success has been shown in curing

OLD CITY HALL IS TO COME DOWN

Official Chicago Including the Office Cats Will Move On June 15.

ALEXANDER DOWIE'S ESTATE

Now Proves to Be Reduced to \$1,200—Street Cars on Dress Parade For Big Convention.

SPECIAL CORRESPONDENCE.

Chicago, May 25.—This city will move June 15—officially. On that day its administrative offices and offices and office cats, which there are dozens, will leave the old City Hall (and its millions of unofficial occupants) and go to temporary quarters at 294 and 296 Randolph street.

WATERWAY COMMERCE.

Although Chicago's altruistic support of deep waterway projects won the next autumn's convention of the Lakes-to-the-Gulf Deep Waterway association, the city has failed to secure 10,000,000 and to secure to Milwaukee, Duluth, Cleveland and other lake ports because of its neglect of its own harbor. According to reports just made to commercial organizations here, the water in the Chicago river and the \$53,000,000 drainage canal has become, by filling in of sediment, much too shallow for commerce. The report says that the depth in some places 29 feet from the dock line at two feet. In the west fork of the old Chicago river, there was a depth of only 12 feet in several places. At other points the depth is 13 feet, with a maximum of 24 feet. During the past 17 years except for turning basins, less than \$45,000,000 has been expended in improving the Chicago river, and \$91,000,000 of that amount was expended in the purchase of projecting land. The government engineer, Col. H. B. Taylor, has reported that the water in the harbors, Calumet and Chicago, barring iron ore, at 1,506,781 tons less in 1905 than was received in 1889 in the old river alone.

ALEX. DOWIE'S ESTATE.

The personal estate of John Alexander Dowie, "Prophet Elijah III," who built cities, who established big industries, who died in millions, and who held the financial destinies of his thousands of followers in the hollow of his hand—for a while—now proves to be reduced to \$1,200, of which Mrs. Jane Dowie has been awarded \$400 as her widow's dower. The splendid robes of office have faded, the jewels have disappeared, the handsome furnishings of his homes have been taken away by receivership; the erstwhile glories of the founder of Zion are memories only. Mrs. Dowie's memory of them has, however, prompted her to list as the present receiver of Zion many items of personal property in Shiloh house, which she claims as her own. She has asked for the furnishings of her bedroom for household articles, including "a pillow case containing eleven infant's robes," garments of cherished maternal associations. She has asked also for a mahogany bedstead inherited from Esther Dowie, her daughter, who was burned to death. The value of the real estate she owns according to the father's will is more valuable than is expected. Mrs. Dowie has a claim upon it. She and the son, Gladstone, the "unkissed Gladstone," are incidentally through the chicken business on the Michigan estate, Ben Mac Dhui, near Muskegon, Gladstone, incidentally, is practicing law and recently has been elected to the office of justice of the peace in the city of Chicago.

FOUGHT TWO DUELS.

St. Petersburg, May 26.—Prince Napoleon Murat, a descendant of Bonaparte's famous field marshal, and whose grandmother was an American woman, Caroline Franzer of Bordentown, N. J., fought two brothers named Plan in duels here today, winning both of his opponents, one seriously, but himself being unharmed.

NEW OCEAN RECORDS.

The Mauretania and Lusitania Start Today to Make Them. New York, May 27.—New ocean records will be tried for by the giant liners Mauretania and Lusitania, which set out today from opposite sides of the Atlantic. Owing to the delay in getting out of drydock, the Mauretania was unable to leave Liverpool on Saturday according to her schedule, so that on her passage beginning today she will attempt to make the round trip within two weeks. If she succeeds in her attempt it will be the shortest round trip on record. Her schedule calls for her arrival here on Monday, when she would discharge her cargo, take on coal, passengers and baggage and sail for Liverpool on Tuesday, June 4. Meantime the Lusitania will sail from here today on the second lap of her voyage. The British government for an average speed of 24.5 knots on each voyage of a round trip. Her average on the first half of the trip, which ended here last week was 24.85 knots.

SCRAMBLE FOR GRAIN.

Every railway and lake transportation line entering Chicago scrambling for a share of the big shipment of grain that changed hands May 1 when the May deliveries were made and paid for under board of trade rules, and which now will go forward to their ultimate destination. The focus of this rivalry for traffic is the board of trade, for the grain and provisions bought and sold there run into the figures which are enormous. The cured meats in 1907 totaled 758,359,255 pounds, and grain and flour 766,956,782 pounds. The figures incidentally through the light upon the great legitimate business of such exchanges, which has been confused with the gambling done in their counterparts, the "bucketshops" which have been persistently fought by them for years. In order to maintain a continuous market for live stock, the packing companies sell in the provision pits for future delivery those meat products which must be cured, and on which they need to borrow as otherwise, for lack of capital, the record of 1,201,081 hogs, and 3,395,014 cattle, marketed for cash in Chicago in 1907 would not have been possible. About 4,000,000 bushels of grain sold will leave Chicago elevators, of which the lake boats have got about 2,000,000 bushels. The elevators here, with capacity of 63,000,000 bushels, will be practically emptied before the crops are ready for sale, in fact, before part of the new crop has been planted.

PHILANTHROPISTS SCORED.

Archbishop Glennon of St. Louis severely scored philanthropists who donate libraries and people who lecture on the child problem or engage in social settlement work merely for the purpose of securing notoriety. In his address here he said: "There are today philanthropists—so called—who believe that by giving the people libraries and social settlements, they are doing good work or lecturing on the child problem. Constantly they seek notoriety. Let them go on giving away their libraries and establishing their social settlements, but I want you to understand that philanthropists are not to be confused with the gamblers who do in their counterparts, the 'bucketshops' which have been persistently fought by them for years. In order to maintain a continuous market for live stock, the packing companies sell in the provision pits for future delivery those meat products which must be cured, and on which they need to borrow as otherwise, for lack of capital, the record of 1,201,081 hogs, and 3,395,014 cattle, marketed for cash in Chicago in 1907 would not have been possible. About 4,000,000 bushels of grain sold will leave Chicago elevators, of which the lake boats have got about 2,000,000 bushels. The elevators here, with capacity of 63,000,000 bushels, will be practically emptied before the crops are ready for sale, in fact, before part of the new crop has been planted.

NO LIQUOR SOLD IN DENVER AUDITORIUM

Denver, Colo., May 27.—There will be no liquor sold in the convention auditorium in Denver when the national Democratic convention meets in July. Application was made to the committee on the liquor question of the convention for a concession for a bar in a section of the auditorium which is now the committee room, and some distance from the assembly hall, where the delegates will meet. A large sum was offered for the concession by several firms experienced in catering at conventions, but the committee unanimously voted to refuse any concession for a bar or other means of selling liquor on the auditorium premises.
