

BLOODY NIGHT IN TEHRAN'S STREETS

Parliament Building, Chief Scene Of Military Activity, a Mass of Ruins.

SHAH'S PARTY VICTORIOUS.

Ever Since Constitutional Government Was Proclaimed Persia Has Been In Throes of Revolution.

Tehran, June 23.—After a bloody fight, which was waged around the parliament building today, the city was comparatively quiet tonight, although the Cossacks were camped in the streets and squares, Cossacks and soldiers early in the morning surrounded the parliament building and demanded that a number of persons whose arrest the shah had ordered be forthwith handed over to them. The demand refused to comply with the demand and shots were fired at the troops several soldiers being killed. Orders were at once issued from military headquarters that the parliament building be bombarded, and the bombardment commenced soon after.

SHAH IS MASTER.

Berlin, June 23.—The troops have dragged the reformers who had taken refuge in the parliament building before the shah. The shah seems to be entirely master of the situation. The dispatch to the Local Anzeiger from its special correspondent at Tehran, dated last evening, says: "The disturbances ended in victory for the shah's party. Opposition forces being entirely dispersed. The bombardment ceased toward 2 o'clock in the afternoon, and the army was withdrawn from the parliament building after that building had been cleared."

TROUBLE NOT NEW.

Washington, June 23.—For two years ever since a constitutional government was proclaimed by the shah of Persia, that country has been in the throes of a revolution, which has been general in character and included within its scope the inhabitants of larger and smaller cities. The shah rather reluctantly proclaimed the constitution and has cast his lot with the reactionaries, who are opposed to it because they hold that it is contrary to their best interests. The other party, the constitutionalists, have been fighting to maintain their rights guaranteed to them by the constitution.

PARLIAMENT RESPONSIBLE.

London, June 24.—A special to the Daily Mail from Tehran says that the responsibility for the fighting lies with parliament, which took advantage of the shah's momentary weakness. His majesty's Cossacks, the dispatch adds, suffered heavily, but the day ended in a practical victory for the shah. Much now depends on his wisdom in restoring order and bringing his coup d'etat to a successful issue.

THE CASUALTIES.

London, June 24.—A special dispatch from Tehran to the Times says that the fighting began about 8 a. m. and was provoked by a bomb thrown from the roof of one of the buildings among the Cossacks. The fighting continued until late in the afternoon, many being killed on both sides. The shah sent the Cossacks and artillery to surround the parliament building as a result of the parliament's ultimatum refusing to hand over certain persons whose arrest the shah had ordered. The shah had ordered 50 soldiers requested the assembly to surrender five men who had been leaders in the agitation against the shah. This being refused, the officers returned to guard the doors while he proceeded to military headquarters for further instructions. An hour or two later and before the troops had taken any action, a bomb was thrown from a roof among the Cossacks. It killed two horses and did other damage and created a panic owing to the absence of the officer. The latter hurried back and was fired on by the troops. He fled the fire and there was a lively exchange which continued for three hours.

MINERS FIGHT, BOTH MORTALLY WOUNDED

Goldfield, Nev., June 23.—M. Taylor and C. W. Priest, miners, engaged in a duel this afternoon on Grand avenue, and both men are mortally injured. The duelist emptied their guns, Taylor being shot in several places in the abdomen. He is being attended by a doctor, while Priest has been taken to the hospital in a dying condition. The shooting occurred immediately following a remark by Priest reflecting upon Taylor's wife.

THUNDER BUTTE.

Will Be Abandoned as Soon as Ute Indians Return to Utah.

Washington, June 23.—Arrangements have been made by the war department to abandon Thunder Butte, S. D., upon the return of the Ute Indians to their reservation in Utah. The Indians will be accompanied by Capt. C. P. Johnson, second cavalry. The return of the Utes to their old camping grounds is entirely voluntary, because they are now confident that they will be far more comfortable there than they have been at Camp Thunder Butte, where the winters are excessively cold.

McCLELLAN'S PLURALITY.

New York, June 23.—The re-counting of votes today in the Hearst-McClellan majority controversy gave Hearst a plurality of 111 votes. The latest tally shows that McClellan's plurality of 2,854 has so far been reduced to 3,181.

INFLAMMATORY RHEUMATISM

Most Treatments Are Unsatisfactory but Dr. Williams' Pink Pills Have Cured So Many Stubborn Cases That They Command a Trial.

It is unnecessary to tell the sufferer from inflammatory rheumatism that the ordinary treatments for this disease are unsatisfactory.

Physicians are not of one mind on the subject but the highest authorities hold that rheumatism is a disease of the blood. All admit that in attacks of rheumatism there is a marked and rapid thinning of the blood. This is a condition that a treatment with Dr. Williams' Pink Pills at once arrests and corrects. The thin blood is enriched, the strengthened organs of the body throw off the poisonous impurities and the patient gets well.

Mr. John F. Orlinton, a retired grocer, of 1237 Fulton street, Chicago, Ill., and a veteran of the Civil war in which he served as a member of Co. A, 14th Illinois Infantry, bears witness to this truth. He says:

"I was afflicted with inflammatory rheumatism for twenty years and had received only temporary relief from the doctors. About three years ago I was helpless in bed with it. I could not use either hand or foot for over two months and suffered intense pain. My limbs were swollen and I could not move at all without great pain. I had sleepless nights and thought I would never be able to get around again. My friends and comrades thought I was going to die."

"I had paid out a lot of money in doctors' bills but was not cured. Then an old war comrade urged me to try Dr. Williams' Pink Pills as he knew of cases they had cured. Before I had taken them a great while, I was feeling much better and was able to get up and move around. I am now in perfect health and have not had a touch of rheumatism in any part of my body since."

Dr. Williams' Pink Pills are sold by all druggists, or will be mailed, post-paid, on receipt of price, 50 cents per box, on both sides. The shah sent the Cossacks and artillery to surround the parliament building as a result of the parliament's ultimatum refusing to hand over certain persons whose arrest the shah had ordered.

The shah had ordered 50 soldiers requested the assembly to surrender five men who had been leaders in the agitation against the shah. This being refused, the officers returned to guard the doors while he proceeded to military headquarters for further instructions. An hour or two later and before the troops had taken any action, a bomb was thrown from a roof among the Cossacks.

It killed two horses and did other damage and created a panic owing to the absence of the officer. The latter hurried back and was fired on by the troops. He fled the fire and there was a lively exchange which continued for three hours.

Eventually a shell crashed through the door of the parliament building and the Cossacks charged the occupants of the building fleeing.

The soldiers had no sooner entered the place than they began to loot it. Next thing they knew they were being shot at from the neighboring shops and the palace of Prince Zill Es Sultan.

Thousands of people, it was stated, who a few days ago assembled before the parliament building, were being shot at by the shah's troops.

With the exclusion of this possible danger of civil war, it is hoped that the situation will soon clear.

MISSIONARIES IN PERSIA

State Department Assures Presbyterian Board of Foreign Missionsaries They Are Safe.

St. Petersburg, June 23.—The Moscow Freeman today published a dispatch from a correspondent who has just completed a perilous trip from Tabariz, Persia, to Urumiah, through a country swarming with pillaging Kurds.

He declares that Urumiah is now completely surrounded by Kurds who are ravaging the villages on all sides up to the gates of the town. The sound of firing is constantly heard. The missionaries at Urumiah have held a meeting and sent out to their respective countries a statement of the critical position in which they find themselves.

Turkish regular troops are close behind the raiding Kurds. Two battalions of infantry, two squadrons of cavalry and a battery of artillery have occupied villages three miles from Urumiah and six days ago one battalion of infantry and five batteries of the Sixth division of cavalry went in camp in the region around Sigulbat that is in dispute between Turkey and Persia.

It is declared at the foreign office here that Russia has made continual representations to the ports about the situation at Urumiah, but without result up to the present time.

MISSIONARIES ARE SAFE.

New York, June 23.—At the office of the Presbyterian board of foreign missions in this city today, it was said assurances had been received from the state department at Washington to the effect that the missionaries at the stations of the Western Persian mission at Urumiah are not believed to be in immediate danger. The 15 missionaries there are: Rev. and Mrs. F. G. Coan, Rev. and Mrs. W. A. Shedd, Rev. and Mrs. Robert M. Labarre, Rev. and Mrs. E. McDowell, Rev. and Mrs. Harry T. Packard, Rev. C. E. Sterrett, Mrs. M. K. Vandusee, Mrs. E. T. Miller, Misses Mary E. Lewis and Miss E. D. Lamine.

There's nothing so good for a sore throat as Dr. Thomas' Electric Oil. Cures in a few hours. Relieves any pain in any part.

ROMANTIC MARRIAGE ENDS IN DISASTER

Chicago, June 24.—A dispatch to the Tribune from Los Angeles, Cal., says: A police court here today rendered yesterday of the end of a romance of less than a year, including a honeymoon spent on brakebeams and in box cars, from New York to the western coast.

The characters in the drama were William Koprivich, member of a wealthy Hungarian family, who fled from his native land to escape army service, and his wife, Albin, sister of Count Kabana of Austria-Hungary.

They were married in New York City, where she was visiting. He told her of a fine job he had in the west, and she, whose expenses she donned a man's clothes and they beat their way to Los Angeles. The trip was made in snow and cold weather and the woman suffered much.

The husband deserted her here, and she was forced to ask the aid of the police. Koprivich was ordered to pay her \$10 at once and \$4 a week until the divorce action she started is tried in August.

A baby, born less than a month ago, while the young woman was in privation, lived only a few days.

WILL CANCEL PASSES TO STEAMSHIP OFFICIALS

Chicago, June 24.—In pursuance of the interstate commerce commission's ruling the western railroads yesterday canceled all passes issued to officials and representatives of steamship companies. This means that all interchange of the courtesy of free transportation will cease between the steamship companies and the western roads. It is thought that the example of the western roads will be followed by all other lines.

RING SMUGGLING IN CHINESE COOLIES

Los Angeles, June 24.—In Los Angeles, according to information gathered by the immigration authorities, there is a ring actively employed in smuggling Chinese coolies over the Mexican border into the United States. The gang in southern California is believed to have agents throughout California and the southwest, and the inability of the regular force to cope with the situation has caused the department of commerce and labor to send a special agent from Washington to make an independent investigation. The agent will soon be on the scene.

Immigration Commissioner Hart H. North does not believe that the country is menaced with an invasion of coolies. He says that smuggling over the border has materially decreased in recent years, especially since the government stationed line riders along the Mexican boundary five years ago.

The department officials, however, apparently take a more alarming view of the situation. From an examination of Chinese recently caught sneaking into the United States, it developed that the smuggling of coolies into the next thing is a matter of considerable expense, and that the traffic is financed and managed by a well organized ring.

Commissioner North expects when the inquiry from Washington gains headway, that new light may be thrown on the smuggling ring, but at the same time he is positive that whatever smuggling may be taking place, the operations are confined to a limited area, and involve only a few Chinese at most.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of Mother's Friend before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

Mother's Friend Sold by druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

TWO DONKEYS

Smallest Oriental Ones That Ever Came to Country Arrive.

New York, June 24.—Probably the smallest oriental donkeys that ever came to this country were landed from the Hamburg steamer, the Hamburg-American line, which came in from the Mediterranean. They were consigned to David N. Goodrich, a retired rubber merchant of this city, who has a country home at Mount Kisco, and who will take them there for breeding purposes. The donkeys are native to Sardinia and 15 of them were put on the Hamburg steamer, but one withered and the infant was given to another of the mothers for nursing. The mother took kindly to the addition to her small family and the two youngsters are doing well.

The donkeys are diminutive—scarcely larger than big dogs—and attracted much attention. They came in a special cabin built on the aft part of the main deck of the steamship.

DEVELOPMENT OF MANCHURIA

Japan Will Throw No Obstacle in Way Of China's Work There.

Tokio, June 24.—Following prolonged negotiations both at Tokio and Peking on the general subject of the commercial development of Manchuria, and the Japanese government today instructed its charge d'affaires at Peking to notify China that Japan would throw no obstacle in the way of the development of Chinese territory in Manchuria.

The contrary Japan declares its willingness to assist in this work and therefore sufficient money to take them across the Rocky Mountains and into the agricultural regions of the middle west.

JAPANESE IMMIGRANTS.

St. Paul, Minn., June 23.—The Pioneer Press tomorrow morning will print an interview with Baron Kagura Takahira, who has been investigating the Japanese in the United States for the military government. The interview was obtained last night at Crookston, Minn. In the interview the baron says:

"It is the desire of the Japanese government to thoroughly understand the proposition of the American and the Japanese question. The government realizes certain of its citizens have been the cause of disturbances on this side of the Pacific which at once have shaken the evenness of localities and disturbed our government too."

"It is not our intention to reveal the information I have received or the conclusions I have drawn, but my report will state to the Japanese government that the collection of Japanese immigrants in the cities of the Pacific coast is detrimental to friendly relations between these two countries and is actually in some cases an intrusion as far as concerns Americans who labor in the liberties and rights of the people who they inhabit this country. Therefore my report will advise that immigrants reaching the coasts of America be compelled to have in reserve sufficient money to take them across the Rocky Mountains and into the agricultural regions of the middle west."
