

WAS TO BE MARRIED BUT WAS MURDERED

Ora Lee, a Handsome Young Woman, Shot to Death Day Before She Was to Wed.

HER LOVER UNDER SUSPICION.

Denies All Knowledge of Tragedy—Police Have Theory That Deed Was Committed by Rival.

Wadsworth, O., Oct. 9.—With unusual energy the police authorities are tonight endeavoring to unravel the mystery of the murder of Ora Lee, 21 years old, a handsome factory girl, whose body, pierced by two bullets, was found early today on the road between Wadsworth and the hamlet of Custard Hook.

Guy Rasor, the man whom Miss Lee was to have married tomorrow, is detained by the sheriff pending developments of the police investigation. Rasor denies all knowledge of the tragedy, and in support of his denial exhibits a marriage license, procured at Wooster yesterday.

The body of the young woman was found by Charles Rason, a cousin of Guy Rasor, as he passed along the road in the early hours of the day.

The principal clue that led to the detection of Guy Rasor is the fact that along the road where the murder was committed a plainly seen the traces of a horse with a missing shoe.

An examination of the stables at the Rasor home discloses the fact that one of Rasor's horses has a shoe missing from one of its front feet. Rasor refuses any explanation concerning this feature of the case. He declares he can prove an alibi.

Another theory is that a rival for the affections of Miss Lee may have shot the girl on learning of her approaching marriage to Rasor.

Miss Lee left Wadsworth last night ostensibly to prepare for her wedding. When the body was found the hands were folded over the breast and the legs straightened out as if the corpse had been carefully arranged after death. The girl's suit case was on the ground beside her. Her hand bag was still on her right wrist, and in her left hand she clutched a handkerchief. There was no evidence of a struggle. Rasor is apparently bowed with grief.

BROTHER OF RULER OF KURDISTAN BECOMES CITIZEN

New York, Oct. 10.—Archdeacon Malik Gabriel Javah, who claims to be a brother of the present ruler of Kurdistan, a province in Asiatic Turkey, on the Persian frontier, appeared at the federal naturalization bureau yesterday and renounced his allegiance to the sultan of Turkey. After declaring his intention of becoming an American citizen he received "first papers" from Clerk John Donovan.

The applicant as plain Gabriel Javah, said he was born at Zerne Jelov, Turkey, March 26, 1876, and that he arrived in this country on June 28, 1906, from Patras, Greece.

Javah describes himself as a clergyman. His brother being nominal ruler of Kurdistan, Javah claims to be heir to the throne.

COMES TO LOOK ON OUR ELECTION

Lord Northcliffe, Head of Harmsworth Corporations, Owners Of Many Papers.

NEWSPAPERS ARE SMALLER

Is One Thing He Notices in America—Hopes Some Genius Will Find Substitute for Wood Pulp.

New York, Oct. 10.—Lord Northcliffe, the head of the Harmsworth corporations, which own the London Daily Mail and 55 other English publications, accompanied by Lady Northcliffe, his mother, Mrs. Harmsworth and Mrs. Algernon Douglas-Pennant is here to take two months' holiday and watch the election in November.

"Personally I have come for a little holiday, to look on at the election and to talk with many of our American friends," he said. "I notice that some of the American newspapers are smaller in size than they used to be and I fancy they are not even yet have reached the limit in that direction, while paper must inevitably rise in price. Prodigious extravagance in the cutting down of forests, forest fires and the increased demand for the wood of the spruce tree caused by the growth of newspapers all over the world must have only one result unless some of your geniuses help the situation by discovering a substitute for wood pulp. Some 5,000 different materials have been tried but vainly. There is nothing like wood.

"Even American resourcefulness and initiative cannot grow a paper tree in fewer than 35 to 50 years. Therefore, in my opinion many of your daily journals must reduce their size or increase their price in the future. I am in favor of the smaller than the dearer newspapers, although I have no rooted prejudice either way."

ARREST UNION LABOR LEADERS

Charged With Assaulting Jos. Schultz, a Witness Against "Con" Shea.

STRUCK AND KNOCKED DOWN.

Got Up, Ran Away, Pursued, Overtaken, Assaulted and Again Knocked Down.

Chicago, Oct. 10.—Three union labor officials were arrested last night charged with assaulting Joseph Schultz, Schultz, a witness against "Con" Shea, president of the International Brotherhood of Teamsters, when he was tried for conspiracy after the big strike of teamsters in 1905.

These under arrest are: Gene Hammond, business agent of the excavating teamsters' union; George Miller, business agent of the coal teamsters' union; and Frank Warren, business agent of the bill posters' union.

The term "business agent" means the same as "walking delegate," but the latter title was abolished by labor unions a few years ago on the ground that it was odious. Schultz was at Fifth avenue and Harrison street waiting for a car last night when the three union officials are said to have attacked him.

He says Hammond drew a revolver, which he handed to Miller with the remark "get him."

Hammond struck him in the face, he says, knocking him down. When he regained his feet he was struck by the other two.

Schultz ran east in Harrison street, pursued by the three, and again knocked down and again knocked down.

SON OF "LITTLE GIANT" DIED IN POVERTY

Chicago, Oct. 10.—One of the last acts of Stephen A. Douglas, who died Thursday night, was to write to Alderman Michael Kenna requesting transportation to Galesburg to attend the semi-centennial celebration of the Lincoln-Douglas debate.

The straitened circumstances of Mr. Douglas were known to only a few of his close friends as he was of a proud nature and kept the knowledge of his financial condition to himself.

As the son of one of America's greatest orators and himself a lawyer of pronounced ability, the last days of Mr. Douglas were extremely pathetic.

Instant Approval for KOFFE-ET

Many thousands of people who visited the State Fair this week had a cup of Koffe-et that new, health-giving, nerve building beverage. With but very few exceptions all expressed their approval of the drink, stating that it was the best substitute for coffee (that injurious and nerve destroying drug), they had ever tasted. When assured that Koffe-et is made entirely from whole grains and fruits, each avowed intention to become a steady user of the new and pleasant exhilarant.

Prof. John Widtsoe, Prest. of the Agricultural College of Utah, and Mr. John Peterson, State Food and Dairy Commissioner have both examined and tasted Koffe-et for the purpose of ascertaining its purity. Over their signatures, they make the statement that kofe-et is entirely free from any deleterious substances, and that it can be freely and safely used by young and old.

In Koffe-et you get a flavor much like the real Mocha and Java coffee; you receive strength for every part of your being, and are spared all ills which usually accompany the use of coffee.

New York, Oct. 10.—Henry Johnson, able seaman of Peary's vessel, the Roosevelt, has arrived in New York from Greenland, bringing the first oral news of the Arctic expedition that has been received since the north pole seekers left this city last June. A report of progress of the expedition up to Aug. 18, is said to be contained in this letter, with photographs and interesting data. Mr. Peary is reported to have expressed in the letter his complete satisfaction with the results of the trip thus far.

WILL RACE IN ENGLAND.

New York, Oct. 10.—The recent announcements that Harry Payne Whitney and Herman B. Durycue would send many of their race horses to England to compete for the rich stakes abroad, caused the widespread report among racegoers that they had deserted the turf in this country. But this impression is not correct. The young turfmen will have thoroughbreds on the local tracks next year.

PUBLIC LAND.

Outside of Alaska Uncle Sam Owns 386, 873, 787 Acres.

Washington, Oct. 10.—Outside of Alaska the United States owns 386,873,787 acres of land, which is subject to entry under the land laws, and is sufficient to supply homesteads of 160 acres each to 2,417,961 citizens. Unfortunately most of the land is marked either "arid," "mountainous," or "swampy," and comparatively little of it is considered desirable for farming unless under irrigation. In Alaska there are 368,021,509 acres. These facts are set forth in a pamphlet just published by the general land office. Naturally the large unsettled tracts are in the western states and territories but there are still considerable areas in the eastern states awaiting settlement.
