

MARTHA MABELLE DUNPHY'S TRIAL

Boston Woman Charged With Stealing Eight Thousand Dollars Worth of Jewelry.

CASE IS VERY SENSATIONAL

Defense Claims Jeweler Was Madly in Love With Defendant and Gave Her the Jewels.

Chicago, Feb. 1.—The trial of Mrs. Martha Mabelle Dunphy, wife of a Boston physician, on a charge of larceny, was begun in Judge Clifford's court today.

Charles E. Giles, also of Boston, who charges Mr. Dunphy with having stolen \$8,000 worth of jewelry and securities from his trunk at a hotel here, testified that defendant last April borrowed from him \$1,000, and that in August he gave her \$1,000 more, taking as security an assignment on her father's estate in California.

After visiting several cities, Giles said, they came to Chicago together. "While on the train," continued the witness, "I made arrangements to have our trunks delivered at the Great Northern hotel. Upon our arrival in the city, however, we were unable to secure any accommodations at that hotel and were compelled to go to the Transit house at the stockyards.

"What was the condition of your room when you returned?" asked the witness. "I found the place in confusion. The clothing it contained was strewn over the floor and the valuables were gone."

"I found the place in confusion. My trunk had been broken open. The clothing it contained was strewn over the floor and the valuables were gone."

"We shall prove that Mrs. Dunphy went to Giles' office in answer to an advertisement for the purpose of making a small loan. From that day Giles became madly infatuated with her and pressed his attentions upon her. We will show that the jewelry which Mrs. Dunphy is alleged to have stolen was given by her to Giles as security for the loans, and that on meeting her obligations in Dubuque, Iowa."

Chicago, Feb. 2.—Personal mementoes of Abraham Lincoln will be exhibited "Lincoln-week" through the consent of Frank G. Logan, The famous old saw-toothed shawl is one of Mr. Logan's choicest possessions. This wrap, fringed and softly striped, has touched no shoulders since Lincoln wore it. Another valuable belonging which Mr. Logan now owns is the simple black frock coat which Lincoln wore the night he was shot. Among the other relics are the last line which Lincoln penned, a signature to a photograph just before he entered the carriage which drove him to his death, and a cane carved from a piece of the ribbing of the Merrimac.

TOOK POISON ENOUGH TO KILL 500 MEN

New York, Feb. 2.—Leon Adler, a salesman, who committed suicide in his apartment in West One Hundred and Seventieth last night, took poison enough to kill 500 men, according to physicians. The vials, which had contained cyanide of potassium, were found in his room with indications that he had emptied the contents of all three in a glass and drunk it. Adler was 35 years old, and leaves a widow and two children. That he made careful preparations for death was indicated by the fact that he had his insurance policies renewed until Feb. 5, in a letter which he left to his wife and children he said: "You will be better off without me. You will find the notice of the extension of my policies in my pocket."

S.S.S. CURES RHEUMATISM

This is just a short talk on Rheumatism, pointing out its causes and some of the reasons why so many fail to find a cure for this painful, and often far-reaching trouble.

No other disease is more persistent and discouraging than Rheumatism. Those persons in whose blood this painful ailment has taken root, often grow disheartened, and sometimes conclude there is no permanent cure. Patiently they have blistered and rubbed their aching joints and muscles with liniments, oils, etc., and faithfully taken potash and other mineral salts, only to find when the treatment is left off the disease returns, and usually with increased severity.

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually regarded as of no importance. Nothing applied externally can ever reach this trouble, while potash and like mineral medicines really add to the acidity of the blood, and this vital fluid, therefore, continuously grows more acid, sour and weaker.

Rheumatism can never be cured until the blood is purified and built up. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and expelling the foreign matter from the system. It strengthens and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, joints and bones, the entire body is nourished by rich, healthful blood, which completely and permanently cures Rheumatism. S. S. S. contains no potash, alkali, or any other harmful mineral, but is made entirely of blood-purifying and healing roots, herbs and barks which enrich and freshen the circulation while curing Rheumatism. Book on Rheumatism and any medical advice furnished free to all who write.

REUMATISM ALL GONE. Mrs. Ida M. Palmer, of 206 Fulton St., Brooklyn, N. Y., writes as follows: "I wish you to know what great benefit I have received from the use of S. S. S. I have been afflicted with Rheumatism for twenty years, sometimes being entirely laid up by it and always lame in some part of my body. It grew worse until it was misery to attempt to walk at all; my right knee was nearly twice its natural size and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S. which I commenced. I had tried so many things that I must say that I had very little faith that it would do me any good but I was willing to try anything that promised relief. Before I had been using it long I was greatly relieved, and continuing the medicine I soon found that I was entirely cured. The lameness and soreness all left, I can straighten, move or bend my leg as well as any one and I have never known what Rheumatism was since. I am 65 years old and feel deeply grateful to S. S. S."
