

SALT LAKERS IN GOTHAM.

Special Correspondence.

NEW YORK, March 25.—The latest recruit from the ranks of Utah newspapermen has fallen upon his feet in Printer's square and Joacim Russell, for several years with the Desert News, is now selling his wares without any apparent great effort. Mr. Russell has found a place, or better to say, several places, ready for him, and he has dropped in with prospects of occupying a niche. He has already sold two stories to a Sunday paper and has an order from McClure's syndicate and three other subjects for Sunday journals, besides going to Brooklyn each day for material for the World, for all of which he is being well paid. Everything looks encouraging for the young journalist so far, and it is safe to predict that Mr. Russell and family will be added to the Utah colony before the spring drifts into summer. At present Mr. Russell is staying at the Capa Sigma club rooms on West Fifty-eighth street, the club to which he belonged in his Stanford days and where he is always a welcome fellow.

The illustrated lectures of Frederick I. Mosen on "Tropical Mexico" and "With a Kodak in the Land of the Natives" are attracting wide attention in the east. Mr. Mosen, son of the musician Mosen, a member of the Thomas and Careless orchestras of years ago, will be remembered by many Salt Lakeers as a very clever lad who left for the west. Mr. Mosen travels extensively and his lectures at the American Institute are among the enjoyable ones people throng to hear winter evenings. Mr. Mosen and his father have lived many years in Brooklyn, but have lately moved into New York, and the beginning of May will see the young man on his summer travels for fresh material for the next season's lectures. The Mosen household, which consists of father and son, Mrs. Mosen having died some years ago, always welcomes their old western friends.

For nearly six months Miss Isabel Inett of Denver has been visiting with her sisters, Mrs. Hugh Ford and Miss Annie Inett, their mother, Mrs. Inett, having come on at Christmas time to join her family. Last Tuesday Mrs. Inett, her daughters Isabel and Mrs. Ford left for the west, Mrs. Ford remaining in Chicago with her husband, Manager Hugh Ford, who is producing three new plays there this month. Mr. and Mrs. Ford will be in Chicago until the middle of April, when they return to New York. Mr. Ford is always a busy man; he began his career as a manager at the Grand in Salt Lake, he having only filled the role of actor previous to that, and a capital actor he was. Mrs. Ford is always in demand in a professional way, but her husband is much opposed to a public life for his wife. At their home Miss Annie Inett keeps house and is also a mother to little Miss Jean Ford, only child of Mr. and Mrs. Ford, during their absence.

The boys and girls of the East side settlement work make great plans when they are able to secure a Broadway star for a performance at their downtown theater on the Bowery. And now Maude Adams has consented to give a matinee in aid of settlement work the coming week, her entire company joining in the novel experience. Preparations are being made for a grand time among these boys and girls who do so much for the East side and their unfortunate fellow creatures. Miss Adams will be their guest and the play, "What Every Woman" will be a treat for them all and doubtless she will never find a more appreciative audience.

Monday evening William McKee surprised his friends at mission headquarters, 33 west One Hundred Twenty-sixth street, by appearing and announcing his sojourn in the city for the next three months. Mr. and Mrs. McKee and baby McKee have been in Chicago for some time. Mrs. McKee left there in February to visit her parents, Mr. and Mrs. R. C. Thomas, in Salt Lake. Mr. McKee is engaged with a stock company in Jersey and does not expect his wife and baby until late in the spring.

At "North Castle" just beyond Yonkers, Mrs. E. W. Sells and daughters, aunt and cousins of Mr. Jack Richards, will entertain a week end party of young people at their home. The party leaves Friday afternoon by train for Yonkers and will remain until Monday. Automobileing and the sports common to country homes will

YOUR TEMPERATURE.

The Reason a Sublingual Test is Used in Finding It.

What is a person's normal temperature? is a question often asked of every physician. When the answer 98.5 degrees F. is given to the query very few people understand the plain, simple significance of this fact of how a degree of systemic heat is maintained during health within the narrow limits that their bodies have an even temperature the coldest day in winter or the hottest day in summer with an exactness of adjustment that is not ob-

to be indulged in and the young people are assured of a fine time.

Mr. and Mrs. G. Duffey of South Orange, N. J., occasionally visit with their friends Mr. and Mrs. Kohn and Miss Ruth Avery of New York. Mrs. Duffey was formerly Miss Grace Fitzgerald of Ogden, daughter of Mr. and Mrs. L. Fitzgerald of that city, and has been living in the east since her marriage. With her husband and two children she moved to South Orange a year ago. Mrs. Duffey is a church singer, possessing a beautiful voice and is able at all times to secure good positions. Mr. Duffey is a newspaper man, coming to the city each morning to his work. Both Mr. and Mrs. Duffey welcome Utah people to their home and desire to keep in touch with their western friends at all times.

By wire Wednesday from Salt Lake the news was told of the death of Mrs. Amanda Best at the home of her son, Walter Best, on Canyon road. Mrs. Best has been a resident of New York nearly two years, living with her daughter and son-in-law, Mr. and Mrs. Albert Boyle, and to everyone in this conference she endeavored herself by her sweet and loving presence. The news of her death was announced at the ladies society meeting Wednesday afternoon and cast a gloom over every one present. To her many friends here her death was not unexpected; she is sincerely mourned. The sympathy of the entire conference is extended to her bereaved children. Mrs. Boyle in particular is receiving the greatest share, for her unselfish and noble devotion to her dear mother throughout the long illness preceded Mrs. Best's death was inspiring. Mr. Boyle is now in Columbia and will not return home as his studies are keeping him here, but it is hoped Mrs. Boyle will return and also will be heartily welcomed to her circle of friends in the Brooklyn conference.

Mr. Oscar Kirkham is doing some teaching and coaching in class work for Prof. Farnsworth at Columbia in the professor's music department during his absence from the city for a time. Mr. Kirkham has been offered a \$2,000 position in the department of music, the position Prof. F. W. Robinson has recently resigned for other work. This is a fine place and many of Mr. Kirkham's friends are urging him to accept it. He is now considering the proposition though work along the same lines is awaiting him at home early in September.

The success of Jeff de Angeles' "Beauty Spot" comic opera in Washington and Baltimore where it is being tried out is receiving notices in all the leading papers. Viola Pratt Gillett is playing lead and has made a hit in the part. The success of the play is particularly commented on in the morning papers and good notices are given freely. The company plays Baltimore next week and then will come to the Herald Square theater for an indefinite run. Marguerite Clark sings the soprano part and the entire cast is a good one.

In last week's issue an error in regard to the publishing of the "O My Father" pamphlet about to be sent out, crept in. The origin of combining song with illustrations of the poem while it may be claimed by President Rich, was inspired during a conversation between Presidents Rich and Ellsworth, the latter of the Chicago mission. President Ellsworth at once grasped the idea and has given it his attention ever since. Together they drew up a plan which has developed into a magnificent work of art. John Hafen was the artist first thought of and while President Rich has given it all the time and thought he could, it has really fallen to the lot of President Ellsworth to see to the business end of it. President Rich who has just returned from Pittsburgh and Chicago where he has been in the interest of conferences, brings a report of the work so far accomplished. The eight pictures, the plates of which must each go through the process from six to seven times to produce the colors, will run into money. The book will be of 24 pages and in price close around the dollar mark. The size of the brochure will be 8x12 inches, the original size 18x28. JANET.

RACE SUICIDE
As President Roosevelt calls it is not nearly the men to increase in population that deaths among infants are directly or indirectly caused by bowel troubles, Meckel's Bile, cures diarrhea, dysentery, sour stomach and all infant ailments of this nature. Just the thing for teaching kids. Price 25c and 50c. Sold by Z. C. M. L. Drug Store, 112 and 114 South Main St.

timable in warming or cooling their homes. The most up-to-date heating and refrigerating apparatus.

Now, in accepting the statement that the body temperature is 98.5 degrees F., it must be borne in mind that to some extent this is a relative figure, for the warmth of the exterior varies markedly from that of the interior. The surface temperature of the head, hands or abdomen may differ from 96 degrees F. down to 82 degrees F. or lower. While that of the internal organs may extend up to 102.2 degrees F., the average of these nears circulates through the liver, pancreas and kidneys. For practical purposes some gas must be accepted whereby normal temperature may be measured and compared. Therefore on

MRS. RICHARD A. BALLINGER, WIFE OF THE SECRETARY OF THE INTERIOR.

A STATE CARRIAGE.
Present to a Chinese Emperor That Puzzled the Orientals.

When, in 1793, Sir George Macartney headed the first British embassy to China, he brought with him numerous presents for the emperor. Among these was a magnificent state carriage, an article which delighted, but at the same time puzzled, the Chinese more than any other gift. Nothing like it had ever been seen at the capital. Oriental dignitaries immediately arose as to the seat intended for the emperor.

The hummercloth, which covered the box of the carriage, had a smart outline of fountains of roses. It made a splendid appearance, and that, with its elevated position, immediately determined the official mind that it was without doubt the emperor's seat. Then the

question arose of what the inside of the coach was intended for. The blinds, screens and so forth were all carefully examined, and it was decided that the interior was the place for the ladies only.

An old retainer went to a member of the embassy to ask if the conclusion were correct. When he learned that the box was to be removed and placed where he behind—Helen H. Robbins, First Ambassador to China.

Mccoys Livery Stables, Both phones 11.

Inducements to Visit The Auerbach Store

Were Never Greater Than Next Week!
