FAMILY CURED OF SKIN TROUBLES
 Two Little Girls had Eczema Very Badly—In One Case Child's Hair Came Out and Left Bare Patches—Father's Head Sore from Childhood—In All Three Cases

CUTICURA MET WITH ITS USUAL SUCCESS
 "I have two little girls who have been troubled very badly with eczema. One of them had it on her lower limbs. I did everything that I could hear of for her, but it did not give in until warm weather when it seemingly subsided. The next winter when it became cold weather the eczema started again and also in her head where it would take the hair out and leave bare patches as large as a quarter of a dollar. At the same time her arms were sore the whole length of them. I took her to a physician and he said that she had had eczema all her life. I continued to use Cuticura Ointment and she got well in a few weeks and the child grew worse all of the time. Her sister's arms were also affected in the same way. My husband came home one day with a box of Cuticura Ointment and a cake of Cuticura Soap. I began using them and also the Cuticura Pills and by the time the second lot was used their skin was soft and smooth as it had not been before for the winter. We keep the Cuticura Soap and Cuticura Ointment constantly by us and when any little roughness or irritation appears on their skin I quickly dispel it with the Cuticura Remedies. My husband had used Cuticura constantly for many years for a sore head which has troubled him from childhood. Mrs. Charles Baker, Albion, Me., Sept. 21, 1908."

CITY OFFICIALLY ACCEPTS VIADUCT
 Other Business Transacted in Ogden Council Session Monday Night.
SCHOOL TEACHERS SELECTED
 City Board Elects Pedagogues and Principals for Next School Year — J. C. Child Appointed.
 OGDEN, May 18.—The Twenty-fourth street viaduct has been officially accepted by Ogden City. This action was taken by the city council at its session last evening. The matter was brought before that body in a report from the street committee and the city engineer, who stated that the structure had been thoroughly inspected and had been found to come up to the requirements of the contract as set forth in the franchise. The report recommended that the viaduct be accepted by the city. The report was adopted unanimously. The same committee and the engineer reported adversely upon the petition presented last week, one asking for the opening of Eighteenth street and the other for the building of a bridge across Weber River at the foot of Thirty Third street. Both reports were adopted. The public buildings and grounds committee reported recommending that quarters be provided in the City Hall for the city board of education and that the recorder advise officials having offices in the City Hall, that will be affected by the remodeling and changing of the offices, to this effect. City Recorder Brown advised the council that no protests had been received in the specified time against the proposed paving of Washington avenue between Twenty-sixth and Twenty-eighth street or the creating of a sidewalk district on Royal avenue between Twenty-first and Twenty-second streets. The city having gained jurisdiction in both cases the city engineer was instructed to prepare plans and specifications for the work. The recorder reported that protests had been received against the creating

proposed by the council in the early part of the year was hardly sufficient to pay the expenses of the commission, \$425 being the amount received. The communication stated that the commissioners desire to finish the fountain on the City Hall square and complete other improvements in the city's parks before the G. A. R. encampment, which would bring thousands of visitors to the city.
 After some lengthy arguing the communication was referred to the public buildings and grounds committee.
