

MURDERED WHILE ON WAY TO HOME

Joseph Kehl Killed When He Was Going to Join His Aged Mother.

BODY PUT ON RAILROAD TRACK

Went Try to Hide Crime, Which Appears to Have Been Committed to Obtain Money He Carried.

Murdered, robbed, his clothing stripped of all means of identification that the friends could find, and the corpse placed on the railroad track to be ground to pieces by a midnight train—such was the frightful fate of Joseph Kehl, 29 years of age, well known in Salt Lake City, according to the belief of his friends here.

JOSEPH KEHL.

The first intimation of Kehl's tragic death came to this city, Tuesday, when chief of Police Barlow received a telegram from the authorities at Hazen, Nev., stating that the corpse of a young man had been found about 20 miles from there, and that the name and address of William J. Clark, of 16 North First West street, in response to a letter from his mother, who had worked for some time in the office place on the fruit ranches, and had saved several hundred dollars, had been found with him, in a large roll of bills, when he left Salt Lake City, saying that he meant to give it over to his mother.

Investigation developed that Clark had given his address to young Kehl, who had written the letter to his mother, who lives in a small town in Southern California, which, according to Clark's recollection, is about 80 miles from Los Angeles. Kehl's mother, he told his acquaintances, owns a large orange grove. The boy was the only thing left to her in the world, and he was going home in response to a letter from his mother that she wanted him to cheer her life a little before she went away.

The name of J. Kehl was discovered on the register at the Lincoln house, Clark stated that he had known young Kehl for some time, Kehl, he said, had relatives and friends in Buffalo, N. Y., and numerous acquaintances in Grand Junction, Colo., as he had worked for some time in the office place on the fruit ranches, and had saved several hundred dollars, had been found with him, in a large roll of bills, when he left Salt Lake City, saying that he meant to give it over to his mother.

MURDERED FOR HIS MONEY.

Kehl's friends are convinced that he was the victim of foul play, and that he was murdered for his money. They believe that after killing and robbing the boy, the murderers, in order to dispose of their crime, placed the corpse on the railroad track of the main line of the Southern Pacific running out of Hazen, and that the night train ran over the body into bits. It is significant that the circumstances which support this claim is that when searched by the authorities, no money, letters, or means of identification could be found on Kehl's clothing. Clark positively states that Kehl carried letters from his mother and his Buffalo friends, besides a large roll of bills, when he left Salt Lake City for Southern California. The coroner at Hazen positively found the envelope under Kehl's hand.

An effort will be made to probe the mystery to the bottom. Meanwhile, the Nevada authorities are doing all in their power to apprehend the murderers, though they admittedly have few clues to work on at present. The Salt Lake police are carrying on an investigation at this end, and it is possible that detectives Burt and Chase may unfold fresh clues in this city. An effort is being made here to find two boys who were with Kehl just before he started for the depot. Kehl, his friends say, was rather unsophisticated, and in spite of frequent warnings he would insist on handling his fat roll outside, with a \$50 bill wrapped on the outside, and he would do this in front of total strangers.

While Fred Naylor was walking along on crutches, on State street, between Second and Third South streets, at 2 o'clock this morning, a man rushed out of the alley, ran into him and knocked him down. Though he appeared to be in a hurry, the man stopped, looked at Naylor and said, "Really, you must excuse my awkwardness, old man. Sorry I hurt you. Good night." Then he rushed off again, and disappeared in the darkness.

At this juncture, J. E. Harkey, night waiter in the Busy Bee cafe, ran up to Naylor, crying out: "Where did that fellow go?" Naylor replied that the man had not mentioned his destination on leaving. "He held me up only two minutes ago," vociferated Harkey. "Well, what do you know about that? Say, that must be Raffles!" Naylor saw such a polite robber before, and Naylor recounted his own adventure to the spell-bound Harkey.

Harkey reported to the police that the hold-up had entered the restaurant and ordered him to slick up his hands, at the same time poking a large revolver into his face. When Harkey hastened to comply with the request, the robber calmly rifled the cash register. After securing his loot, the hold-up man said: "Sorry to interrupt you, old man. Many thanks." Then he ran out of the front door, and accidentally knocked down Fred Naylor.

TRIED TO STOP MAD HORSE.

Walter Irving Badly Hurt on Day He Was to Take Examination.

On the morning of the day on which he was to take a civil service examination as a range rider for the government, Walter Irving sacrificed his chances and risked his life by stopping a runaway horse at Murray, Tuesday.

The four-maddened animal ran straight into a fence, while Irving clung desperately to the bridle. The horse finally was knocked to the ground, and the buggy passed over his body. His nose was broken and he sustained serious internal injuries, besides being severely lacerated and cut about the head, face and body.

Drop by drop the offensive discharge caused by Nasal Catarrh falls from the back of the nose into the throat, setting up an inflammation that is likely to mean Chronic Bronchitis. The most satisfactory remedy for Catarrh is Ely's Cream Balm, and the relief that follows even the first application cannot be told in words. Don't suffer a day longer from the discomfort of Nasal Catarrh. Cream Balm is sold by all druggists for 50 cents, or mailed by Ely Brothers, 54 Warren Street New York.

WILL TRY TO BUILD BRIDGE.

County Will Try to Show Part of It Lies Within City.

The county commissioners have decided to renew their efforts to secure the co-operation of the city in the building of a bridge across the Jordan river at Twelfth South street. The proposition was once turned down by the city on the ground that the bridge is entirely in county territory, but the commissioners assert that they can show the council committee that the line between the city and county runs directly through the bridge. It is probable a conference will be held in regard to the matter and steps taken to remedy the dangerous conditions which now exist at the bridge, as it is now unsafe for travel.

SLAUGHTERER'S WIFE GOT BUSY

While Her Liege Lord Was Drunk She Cleaned Up the Place.

State Dairy and Food Commissioner Hansen has returned from a profitable official trip to Logan and Smithfield, where he got after several restaurants and slaughter houses, notifying them that if they did not clean up, they would find trouble brewing. Mr. Hansen is pleased that the disposition to obey the law was quite manifest, while the local papers "clapped their hands" with printers' ink and invited the commissioner to "come again."

Deputy Heber C. Smith who is now in the far south reports in a way that would indicate that section of the state has been in need of official admonition to keep clean. He says Mr. Smith found a slaughter house in very bad condition. The offender was notified to clean up, and remove his hog to the slaughter house of 100 feet from the slaughter house. Profuse promises were made, but the inspector gave orders to Chairman McGregor of the local board of health to see that those promises were kept. Mr. Smith reports that in one week the slaughterer's wife appeared before the board to state that her liege lord was drunk and unable to carry out the official order. She asked for an extension of time, which was refused, whereupon she took the matter into her own hands and the slaughter house was cleaned up in very short order. Mr. Smith reports bad conditions all along the line of his travel along the slaughter houses, but finds that as a general thing there is a disposition to obey the law. He is now en route to St. George to give things an overhauling there.

Commissioner Hansen expresses great satisfaction with the prompt response to his order made by the Spanish Fork Co-op slaughter house, whose management, on being notified to get the house in order, immediately did so, expending considerable money in laying cement floors and walls, cleaning out completely all accumulated filth, removing the hogs to the 100 foot limit, and in a number of other ways improving the premises, so that the commissioner says it is now a model establishment.

Special attention is to be given to slaughter houses in conditions in Utah county, where improvement is much needed in some places.

PREST. HUNT MEETS WITH DEATH IN ACCIDENT

While Returning From Errand of Mercy Is Killed Under Automobile Near San Diego.

A letter from Los Angeles, received today, announces the tragic death of President Clarence E. Hunt of the San Diego branch of the Church.

President Hunt and Dr. Edward Grove of San Diego met death in an automobile accident Oct. 19, shortly before 4 a. m.

Dr. Grove was called to attend a young man suffering with acute pneumonia, and on account of the very treacherous condition of the roads he asked President Hunt, who was an expert automobilist and a personal friend, to accompany him. They left San Diego at 8 o'clock in the evening and arrived at Ramona without mishap. Though the long watches of the night the physician, tattered by the life of the young patient, and when dawn approached and the danger point had passed, and President Hunt prepared for their homeward journey, leaving Ramona at 4 a. m.

Shortly after 7 a. m. a lighter was driving a four-horse team down the grade between Ramona and San Diego. He was idly watching the auto tracks when suddenly they were lost to view, and soon he heard a crash and a canyon below. He stopped his team and went to investigate. Thirty feet below among the rocks and bushes he found the auto overturned. From one side of the machine the head of Dr. Grove projected, he was dead and had apparently been killed instantly. President Hunt was still alive, but was pinned under the heavy car. The teamer could not extract them alone, so went for assistance, soon returning with a rancher, and with the aid of a wagon jack and an improvised crowbar raised the car and removed the bodies. President Hunt was placed on a wire net and carried to a nearby ranch house. His back was broken and he was injured internally. He suffered intensely and passed away at 4 a. m. on the wire net under the oak trees at the ranch house. He died before medical aid or his relatives reached him.

The road where the catastrophe occurred makes a sharp turn and on account of the darkness and the dense fog it is supposed that the occupants of the machine failed to notice the turn in the road, and the heavy machine plunged into the canyon below.

Elder George F. Richards, who is visiting here, President Joseph E. Robinson of the California mission, and Elder Joseph H. Kirikham attended the funeral, held Oct. 23, at 2:30 p. m. in Johnson & Connell's funeral parlors, which were crowded to their fullest capacity with relatives and friends of the deceased. The services were conducted by President Joseph E. Robinson. "I need thee every hour" was sung by a quartet. Prayer was offered by Elder George F. Richards. The quartet sang "O My Father." President Robinson in a beautiful and impressive sermon eulogized the life and labors of President Hunt. Mrs. Hunt sang "Love Divine," and the services were closed with a benediction. A chorus rendered, "Farewell all earthly honors," and the grave was dedicated by Elder George F. Richards.

President Hunt was born in Ohio, and came to San Diego in his early youth. He embraced the gospel in San Diego, and on May 4, 1898, under the direction of President E. H. Nye, was ordained a counselor to the president of the San Diego branch. He was afterwards ordained president of the branch. He was very affable and could adapt himself to all conditions. He was true to every trust that was reposed in him, and was an ideal Latter-day Saint in all that that term implies. He leaves a wife, three children, a number of relatives and a large circle of friends to mourn his loss.

SEEK STATE WATERS.

The Northwest company of Chicago has filed application with the state engineer for 1,000 cubic feet of water from the Price river to irrigate 70,000 acres of desert land in Emery county. The plan is to store 210,000 acre feet of water in the river where a 600-foot dam, 140 feet high, is to be built. The land to be irrigated has a gentle slope toward the Green river, and promises to be especially productive in fruit. Considerable money will be expended in carrying out this scheme. Other applicants for aqueous favors are Frederick L. Sumpter and Mabel J. Tetz for water in Millard county with which to irrigate 60 acres.

General Debility Calls Pioneer at Age of Seventy Years.

James E. Malin died yesterday at his home, 807 east Sixth South street, of general debility, at the age of 70 years. The funeral will be held in the Tenth ward meetinghouse Thursday afternoon at 2 o'clock. Interment will be in city cemetery.

Mr. Malin was born in Chester county, Pennsylvania, Sept. 14, 1839. He came to Utah in 1861, with his mother, enduring all the privations of the trip across the plains and those met by the first settlers of this valley. In his youth he carried the mail across the plains, and in the year 1864 he settled in Summit county, being one of the founders of Rockport. He returned to Salt Lake City in 1867, where he resided until the day of his death. He went on a mission to the states in

A DOCTOR'S SLEEP.

Found He Had To Leave Off Coffee.

Many persons do not realize that a bad stomach will cause insomnia.

Coffee drinking, being such an ancient and respectable form of dissipation, few realize that the drug—caffeine—contained in the coffee and tea is one of the principal causes of dyspepsia and nervous troubles.

Without their usual portion of coffee or tea, the coffee or tea is nervous, irritable and fretful. That's the way with a whiskey drinker. He has got to have his dram "to settle his nerves"—habit.

To leave off coffee is an easy matter if you want to try it, because Postum—well boiled according to directions—gives a gentle but natural support to the nerves and does not contain any drug—nothing but food.

Physicians know this to be true, as one from Ga. writes:

"I have cured myself of a long-standing case of Nervous Dyspepsia by leaving off coffee and using Postum, says the doctor.

"I also enjoy refreshing sleep, to which I had been an utter stranger for 20 years.

"In treating Dyspepsia in its various types, I find little trouble when I can induce patients to quit coffee and adopt Postum." The Dr. is right and "there's a reason." Read the little book, "The Road to Wellville," in place.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.
