

DRY FARM EXPERT IN NEW ORLEANS

F. D. Farrell, Government Agronomist, Tells of Work in West.

DOUBLE WHEAT GROWING AREA

Farrell Publishes Interview With Graduate of Utah Institution on Subject of Interest.

The New Orleans Picayune recently published an interview with F. D. Farrell, government dry farming expert.

Mr. Farrell has been at work for the past 20 years, said Mr. F. D. Farrell, a dry farming expert of the agricultural department last night at the Grange.

The system is proving a great success, and what was once desert land, growing nothing but cotton and sugar, now is producing from 15 to 50 bushels of wheat per acre.

Mr. Farrell has been at work for the past 20 years, said Mr. F. D. Farrell, a dry farming expert of the agricultural department last night at the Grange.

The area which is being developed by this method, said Mr. Farrell, "lies between the 100th meridian, which runs through central North and South Dakota and Kansas and the Cascade range of mountains."

Mr. Farrell said that he had just attended the dry farming congress which was held in Montana, and that the principal addresses were made by Mr. James I. Hill and his son, who speak through the great future for the west in establishing this system.

This congress was composed of delegates from nearly all the western states, and these delegates from Brazil, Chile, India, Palestine, all of which countries have the same problem with their arid soil.

Mr. Farrell said another problem that the government was trying to solve was the conservation of the rainfall for the purpose of getting sufficient water for the stock.

Little Soldiers

In your blood are the millions of corpuscles that defend you against attacks of disease.

To make and keep these little soldiers healthy and strong, is simply to make and keep the blood of the right quality and quantity.

This is just what Hood's Sarsaparilla does—it helps the little soldiers in your blood to fight disease for you.

It cures scrofula, eczema, eruptions, catarrh, rheumatism, anemia, nervousness, dyspepsia, general debility, and builds up the whole system.

It effects a wonderful cure, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients.

It is so simple and so effective, you may be sure it is inferior, cost less to make, and yields the dealer a larger profit.

opportunities offered to American manufacturers and merchants by the development of this near-by Mexican territory.

The company owns some 2,000,000 acres in northern Tamaulipas, bordering on the Rio Grande and San Juan rivers, and has received a subsidy of about \$5,000,000 gold from the Mexican government to be used in the development of this tract and for the establishment of irrigation plants and the purchase of machinery.

Mr. Farrell has been at work for the past 20 years, said Mr. F. D. Farrell, a dry farming expert of the agricultural department last night at the Grange.

other day one of these "runners," met a fellow from the country in front of the city hall. The countryman was looking at the pigeons. The confidence man told him that he couldn't look at the pigeons in Chicago, as it was against the law, and displaying a star, placed the fellow under arrest.

"Up the street a little way they met a confederate soldier, the confidence man hailed as 'Judge.' The judge asked the countryman what he was looking at the pigeons for and the victim replied, 'Why, I was counting.' "That's against the law," answered the judge. "How many did you count?" "Twenty-one," answered the farmer.

The fine is \$5 a piece for counting pigeons here," commented the judge and the victim handed over \$100.

MRS. JOSEPH WYDA DANCED HERSELF TO DEATH

Chicago, Nov. 27.—Mrs. Joseph Wyda of North Chicago, danced herself to death Thursday evening. She then, Thanksgiving ball, Waukegan and her graceful dancing caused her to be eagerly sought as a partner.

Toward the close of the evening her face became flushed and she suggested that she sit out one of two numbers and rest, but she declined saying she was having too good a time.

On the way home she told friends that she was tired and appeared all right when she left them a block from her home. Two hours later pedestrians found her dead on the sidewalk a few steps from the house.

Investigation showed she had died of hemorrhage brought on by over-exertion.

ARCHBISHOP MESSMER ON BREEDING CRIMINALS

Madison, Wis., Nov. 27.—In a sermon at the dedication of the new St. Bernard's church and school, Archbishop Messmer of Milwaukee, commented the oft-made charge that the lower classes breed criminals.

"It always promises me to hear about the ignorance of the poor and to hear the lower classes put down as the only breeders of criminals," he said.

"It is a lie. It is a foolish statement made by foolish people. If a study of the lives of the rich is made it will be found that the greater crimes are committed by them, and that there are greater tricks employed to prevent publicity."

CONGRESS WILL BE BUSY.

Auburn, N. Y., Nov. 27.—Representative Jerome E. Evans, chairman of the house committee on ways and means, thinks that the approaching session of Congress will be one of the busiest that a body has ever seen. He said: "There will be a study of the interstate commerce law; the postal savings bank question will come up for ship subsidy will be prominent, and the Sherman anti-trust law will need consideration. I don't think Congress will interfere in the Nicaraguan question, which the state department seems to have well in hand."

"I don't think Congress will investigate the sugar trust," Mr. Evans said, and the federal prosecutors seem to be doing very well with that matter in New York."

UNIFORM DIVORCE LAWS.

Pres. Taft Would Have Various States Adopt Them.

New York, Nov. 27.—Uniformity in the divorce laws of the various states is being sought by President Taft and the state legislatures. Mr. Taft, as president of the National Civil Federation has just announced the date of the conference on uniform divorce laws, which will be held in Washington on Jan. 17-19. Representative men of every state in the Union are invited to attend.

Mr. Taft's announcement says: "Through the initiative of the American Bar association, a special national organization of commissioners chosen by the different legislatures to study and report on a uniform divorce law, the supreme necessity for which grows out of the condition that a child under various divorce laws may be legitimate in one state, but illegitimate in another. The work of this special commission will be reported on at the conference and will then come before the committee of governors."

MAKING TRANSPORTS READY FOR NICARAGUA

San Francisco, Nov. 27.—Special orders from Washington were received at the army quarters here today, directing that immediately to prepare the army transports Logan, Buford and Crook for use. The Logan was scheduled to sail for the Pacific coast on Monday, and the other two were to follow in a few days.

The destination of the transports is not known, but the orders are considered significant in view of the situation in Nicaragua and the reports received by the navy yard at San Pedro de Macoris, the Pacific port of Nicaragua.

TAFT'S MESSAGE.

Discusses It With Cabinet but Has Not Written Any Part of It.

Washington, Nov. 26.—President Taft today discussed with his cabinet various features of his message to Congress. Although the opening of the session is but a little more than a week off, the president had not yet written any part of his message.

SCHOOL WAR IN FRANCE.

Paris, Nov. 26.—Premier Briand in the chamber of deputies today replied to a speech of Abbe Dubouché, a member of the Finistère, who had defended the action of the episcopate concerning the public school question and the withdrawal of sympathy of Catholics for the pope.

"You are being forced into an attitude that has become as a matter of fact a schism," the premier declared. "Warfare seems to be essential with some people. It is necessary for you to speak of the possibility of arriving at a peaceful compromise, but do you think the present attitude of Catholic leaders is conducive to this end?"

ROBBERS WERE KILLED. SHERIFF FATALLY SHOT

Hemlock, Minn., Nov. 26.—A robber, whose name is said to be Jim Smith, was instantly killed by Sheriff Andrew Johnson who was fatally shot today in a fight between officers and two robbers who had been in the village of Popokoy, 15 miles northwest of here.

Heaman Allen Benner, went to the Great Northern bridge, a mile west of Hemlock to watch for them. The robbers left the bridge and headed for the north end of the bridge. When the men had disappeared within 100 feet of Sheriff Johnson, he ordered them to halt, but was shot. In the ensuing fight a robber supposed to be Smith was killed.

ACCUSED MURDERER WILL TRY INSANITY DODGE

Auburn, Cal., Nov. 26.—Insanity and the unwritten law are again to be invoked in behalf of an accused murderer in Placer county. They will be pleaded by the defense at the trial, which begins here next Monday, of Jer Lewis, charged with the murder of Leo Sweeney at Penryn on Aug. 22, of this year. Lewis alleged that Sweeney's relations with his wife leaving him.

He was charged with the murder of Leo Sweeney at Penryn on Aug. 22, of this year. Lewis alleged that Sweeney's relations with his wife leaving him.

WOMAN HIRED A MANIC WHO NEARLY KILLED HER

New York, Nov. 25.—When Mrs. Ellen Sullivan, employed a man-of-all-work at her boardinghouse she observed that he acted strangely, but she did not know that Sweeney's relations with his wife leaving him.

He had been at work only a few hours when, under the pretense of showing her a baking water pail, he lurched her into the back yard and attacked her with an iron bar, inflicting injuries from which the surgeons say she will probably die.

DR. J. E. MOODY DEAD.

Los Angeles, Cal., Nov. 25.—Dr. J. E. Moody, aged 65 years, a war veteran of Ashland, O., and former secretary of General James A. Garfield, is dead at his home here.

WIFE SAVES HUSBAND FROM BIG BULL MOOSE

Litzen, Minn., Nov. 27.—A wild animal charge through the shoulders of a charging bull moose in the wilderness north of here by Mrs. H. E. Parker of Chicago, one of Illinois' best shots, saved her husband and the old Indian guide from a certain death beneath the wild animal's hoofs.

The moose came upon the Indian early in the morning while the latter was drawing a full of water from a spring near the hunters' camp, preparatory to breakfast.

The Indian, who was unarmed, called to Parker for help.

Parker came running also without his rifle and the moose charged him, the Indian having climbed a tree for safety. Parker endeavored to escape and dodged the bull's horns, piercing his shirt. The moose pursued him and was about to trample him down, when Mrs. Parker appeared. She fired a rifle at the raging animal. The beast was killed when he received the bullet and fell. He was dispatched later by the Indian.

WALSH NOTE GUARRANTORS HAVE NEW PROPOSITION

Chicago, Nov. 27.—It is understood that Joseph Walsh, a sick neighbor of the Chicago note guarantors, has announced the date of the conference on uniform divorce laws, which will be held in Washington on Jan. 17-19. Representative men of every state in the Union are invited to attend.

Mr. Walsh's announcement says: "Through the initiative of the American Bar association, a special national organization of commissioners chosen by the different legislatures to study and report on a uniform divorce law, the supreme necessity for which grows out of the condition that a child under various divorce laws may be legitimate in one state, but illegitimate in another. The work of this special commission will be reported on at the conference and will then come before the committee of governors."

STRUGGLE FOR LIFE WITH MADDENED BABOON

Portland, Ore., Nov. 27.—Struggling for his life with an infuriated baboon, Fred Wilson, of Brazil, Ind., a trainer employed by an animal show, fought desperately for half an hour yesterday with a Komodo, a maddened baboon that attacked him in the cage.

The savage simian clutched Wilson's throat, but so long as the trainer could keep his feet he had the better of the fight. At length he was exhausted from loss of blood and strain, and the animal gnawed his legs in the cage until a score of monkeys, in the excitement, had fallen on the trainer during the progress of the fight and this attracted the attention of other employees, who rescued Wilson. Wilson is in a serious condition.

HUNTING FOR GHOULS WHO ROBBED BABY'S GRAVE

Great Falls, Mont., Nov. 26.—With every available man from the sheriff's office aiding and the city police desperately at work, the city is hunting for the robbers who stole the body of a baby from its grave in the city cemetery.

The investigation is not yet complete, but it is believed that the robbers were a party of three or four men who were seen near the grave at about 10 o'clock last night. The robbers were seen near the grave at about 10 o'clock last night.

LEGAL BLANKS

Of every character and description, arranged from the best legal forms and the lowest prices, always on hand at the Deseret News Book Store.

This could only be traced a short distance. Another buggy with two men, which was seen in the early morning of the night, had been followed and it was found that it had gone out to the country. The man in the buggy was turned around and driven back in the direction of town. A thorough search of the streets and the surroundings, however, failed to show any trace of the body or anything pertaining to it. The exact time in which the remains were interred was found near the place where the buggy had driven off to the country. The man in the buggy office admit they are as much in the dark as ever.

STATUS OF AMERICAN PATENTS IN GERMANY

Leipzig, Nov. 26.—The imperial supreme court today rendered a decision in a patent case in which it interpreted the patent agreement between Germany and the United States in favor of an American company, which has a branch office in Berlin.

This branch office obtained letters patent under the German law, but it failed to obtain a corresponding German patent within three years as specified by the German statute. Thereupon a German brought suit to vacate the American rights and the patent office decided in his favor.

The court today declared that the patent office must renew the letters of patent in the United States in favor of an American company, which has a branch office in Berlin.

WILD MAN OF HOPLAND.

Ukiah, Cal., Nov. 26.—Emilio Badoni, alias the "Wild Man of Hopland," was captured last night by Constable Orr and Game Warden Lee and Miller, who brought him here.

Badoni has lived in a cave near Conkey station since last May and had not spoken to any one for months. During this time he has lived on sheep he has killed and food taken from chickens in the neighborhood.

He was found by the officers on top of Squaw Rock. Three rifles lay beside him and in his pocket was a loaded pistol. His cave was littered with sticks, bones and various other articles he confessed to have stolen.

WIFE'S OLD FEET CAUSED BIG ROW

San Francisco, Nov. 27.—The carelessness of Mrs. Annie Fields, wife of Charles H. Fields, an expressman, resulted in a row with her husband in respect of husband and wife by Patrolman Ritter on Thursday night and in their being locked up for the night on charges of disturbing the peace.

The row was started in a peaceful neighborhood of Holy Park, shortly before midnight, was attracted to a Field's home by the sounds of a terrific combat evidently going on within the house. The husband and wife were found in a belligerent attitude.

He was obliged to take them to jail that the Thanksgiving slumber of the neighbors might not be further disturbed. Fields explained to Judge Shortall the reason of the noise.

"My wife," said he, "returned late after being out with a sick neighbor. I was asleep when she retired, resting after a hard day's work. The first thing she did was to plant her old feet in the middle of my back. I awoke and she was on top of me, and yelled: 'For heaven's sake, take your frozen toes away.' They had some further words, and the policeman came in."

OCTOBER SHOWS AMAZING RECORD

Steel Companies Produced Nearly 57,000 Tons Daily During The Month.

Following the remarkable record of September, the performance of the blast furnaces of the country is amazing and points to a consumption of iron and steel greater than has been appreciated, says The Iron Age. Practically complete figures on the third day after the close of the month show a production of coke and anthracite iron in October of 2,592,516 gross tons, against 2,385,296 tons in September. The steel companies produced 1,746,182 tons in October, or 36,575 tons a day, against a daily average of 35,361 tons in September. The merchant furnaces increased their daily rate of 24,146 tons in September to 26,658 tons last month.

It thus appears that pig iron production last month, allowing 5,000 tons for charcoal iron, was at the rate of close upon 21,000,000 tons a year. Whereas at the beginning of October the active weekly capacity was 565,000 tons for 299 furnaces, we entered November with 600,000 tons and a blast furnace in blast, having a weekly capacity of 593,608 tons, or at the rate of 21,469,500 tons a year, allowing for charcoal iron.

The United States Steel corporation blast furnaces and steel works have exceeded their best records in October. The total blast furnace products was 1,218,758 tons, an increase of 64,388 tons over the September record, while the total production was 1,358,662, an increase of 95,784 tons.

Along with the record performances of all steel mills it is to be noted the record heavy loadings of orders by the steel companies. This is indicated by the buying of further lots of steel-making pig iron. In the central west a total of 45,000 tons has been ordered by the steel companies. The company bought 40,000 tons, of which half is for this year's delivery and the remainder in the first four months of 1910.

Another steel company is in the market for Bessemer pig iron for this year. Some further sales of basic iron have been made in eastern Pennsylvania at \$19 for the first quarter.

Foundry iron markets are quieter, though buying keeps up and prices are firm on all grades. The largest transaction of the week was the purchase of 36,000 tons of iron by a central-western pig iron producer. The largest order of 1910 Virginia furnaces took 12,000 tons of this.

The large orders for rolling stock placed by several railroads last week and the building up of stocks of iron indicate assure full winter employment to a variety of interests. Steel foundries are very busy in filling requirements of locomotive works.

GENEALOGY

All communications for this department of the Utah Genealogical Society, Elder Joseph F. Smith, Jr. care of the historical office, Salt Lake City, Utah. DURABLE PAPER FOR BOOKS OF PERMANENT USEFULNESS.

The Latter-day Saints are, above all people, most anxious to preserve their records and their genealogies in such permanent form that the opening years of the millennium will find their records intact and secure. For no modern people have the same reason for demanding of their scribes and historians the immutability and durability which is so necessary to our people. It is "our" books that we shall surely be judged. The Church history has done something towards securing paper of excellent quality for our temple and other records. But even here improvement could be made, while the people at large, ward and stake clerks, and temple scribes, as well as all the people, are not, perhaps, as careful as they should be in regard to the ink which they use, to transcribe the records on. It is for the purpose of awakening thought and inquiry on this subject that we give place here to an excellent circular put out by the New England Genealogical Historical society.

One of the important needs of the library of the New England Historic Genealogical Society—a desideratum also common to most libraries—is that of bringing about hereafter the most general use of durable paper in books of permanent value. A large proportion of those books in this library which have been published during the last 20 years are rapidly deteriorating, while the most of those published much earlier are still in good condition, although subjected to the same use and exposure. Whether a book will stand the ordinary wear and tear of use and the chemical action of light, temperature and moisture for many years, perhaps even centuries, with only occasional use, is a matter of great importance. The ordinary wear and tear of use and the chemical action of light, temperature and moisture for many years, perhaps even centuries, with only occasional use, is a matter of great importance.

The quality of paper of which it is made, is then a matter of great importance. The quality of paper of which it is made, is then a matter of great importance. The quality of paper of which it is made, is then a matter of great importance.

HOWELL AND WILLIAMS FAMILIES.

Mrs. Ann Howell Burt of Brigham City, Utah, would like to correspond with any one who has done work in any of the temples for the Howell or Williams families. Address above and any information relating to the same will be appreciated.
