FRYE CASE CONTINUED. DECISION FRIDAY

OGDEN, Dec. 2.—The case of George F. Frie, charged with keeping a gambling room, was resumed in court Wednesday morning. Testimony went to show that Frie had nothing whatever to do with the game which was carried on in the room at the rear of his place. The testimony was much the same as given in this case the day before. The court has taken the matter under advisement and will probably render a decision on Friday morning.

BURGLAR CAUGHT.

OGDEN, Dec. 2.—A young man named Blaylock was arrested at North Ogden Wednesday afternoon, charged with burglarizing Marshall's store Monday night. Knives, watches, razors and other stolen property were found in his possession.

STOLEN CART LOCATED.

OGDEN, Dec. 2.—It was reported at the sheriff's office Wednesday evening that the horse and cart belonging to Clint Wilson which was stolen Tuesday night, had been located at Roy. The officers say that they have a clew as to the identity of the guilty party and arrests will probably follow in a day or two.

OGDEN WOMEN DIES IN ELY.

OGDEN, Dec. 2.—Word has been received from Ely, Nevada, of the death of Mrs. Bernard Knott, wife of a former well known drug man of this city. Mrs. Knott was formerly Miss Howard and was one of the most popular teachers in Ogden. She has been ill nearly a year and several operations have failed to give her any relief. She died at 1:30 o'clock Wednesday morning.

JOHN F. GRAY HONORED.

OGDEN, Dec. 2.—A very pleasing little reception was tendered to John F. Gray, the veteran checkman, at the baggage room at the Union depot Wednesday evening, who has recently been pensioned by the railroad company, after 37 years of faithful service, during which time he has the splendid record of never missing a day at work. The fellow employees of Mr. Gray arranged a little surprise for him and under some pretense managed to have him go to the depot at 7 o'clock, where he found the entire force waiting for him. After making an appropriate speech, one of the number presented Mr. Gray with a beautiful gold watch as a token of the esteem in which he is held by his fellow workers. Mr. Gray was very much touched with the good will shown him and it was only with much effort that he was able to express himself.

OGDEN DEPOT IMPROVEMENTS.

OGDEN, Dec. 2.—Ogden's traveling public and all others interested in railroad movements will be pleased to learn that many desirable improvements will soon be in use at the local depot grounds and that the railroad people have decided to build iron fences and overhead sheds and other conveniences in the very near future. The open condition of the depot grounds has long been a dangerous thing and many accidents have occurred on some of the many tracks by moving trains. This condition will be greatly changed, and it will be arranged so that the large grounds will be kept off the tracks, except at times when going to and from trains. Large signs will be placed at convenient locations announcing the time of arrival and departure of all trains, and those holding tickets will be admitted inside the gates at the proper time.

ACCIDENTAL DEATH OF HYRUM HANNON

(Special Correspondence.)
PANGUITCH, Nov. 26.—Hyrum Hannon was killed yesterday while working on the Diverson dam on the Sevier river on the Hatch project, a short distance above the Hatch farm, in blasting on the hill sides the workmen had put in nine shots, and set them all off just as they were going to dinner. One of the shots failed to explode. At 1 o'clock the miners returned to their work and put in a light charge of powder which they exploded, but it did not set off the dynamite beneath it. Mr. Hannon went up to it when the shot beneath went off blowing him 10 feet into the air and throwing him about 25 feet down the embankment, where he struck his head on one of some boulders in the river. He was hastily taken out of the stream by his companions and brought to Pangutch to the Church hotel where Dr. Clark dressed his wounds, but while doing so Mr. Hannon expired.
Some of the Odd Fellows from Richfield, to which fraternity Mr. Hannon belonged are here awaiting the dressing of the body when they will take it to Richfield for burial. The deceased leaves a family of three girls and two boys. The family is in Colorado. They are trying to locate the sons.

IT'S YOUR KIDNEY'S

Don't Mistake the Cause of Your Troubles.
Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes, or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying to permanent cures.

James Rennie, 2974 Washington Ave., Ogden, Utah, says: "It gives me pleasure to state that since using Doan's Kidney Pills, I have not suffered from the slightest symptom of kidney trouble. For nearly five years I was made miserable by a constant ache across the small of my back. I was also caused a great deal of annoyance by a difficulty with the kidney secretions. When Doan's Kidney Pills were brought to my attention, I procured a box and used them with the results above stated. I know of other persons who have taken this remedy with great benefit."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
Remember the name—Doan's—and take no other.

The belief that it might remain pleasant for weeks yet. The "chinook" that takes its birth under equatorial skies now breathes warmly across the prairies, smiting the snow banks in its path and setting the lakes awash with slush and rotten ice. It is a wonderful wind the "chinook." Away to the southwest where the Rockies rear their snow-capped summits, clouds that lie low and fleecy on the horizon begin to form stretching from southeast to northwest as far as the eye can see. The melting winds which mean to man and beast alike, freedom from the tyranny of cold. According to the oldest inhabitants the Indians and mustangs, none of whom have proven very reliable in the past, we are to have an open winter, but as all signs fail in Canada we who are here are looking for what we will get.
We had a seed fair recently and the government officials who came as judges said the showing of wheat had been unequalled in their experience. One especially clean sample weighed 65 pounds to the bushel and nothing weighing less than 66 1/2 pounds to the bushel was considered as a possibility as a prize winner. Never had they weighed such wheat, and one of them, an old Nebraska farmer, but now a Canadian, said this district should produce good wheat as could be raised on earth. It may be estimated how good it was when the lowest sample shown graded higher than the wheat which took first prize at Billings at the recent world farming congress. The heavy wheat let me say, is Alberta Red, a winter wheat, our spring wheat falling a little less in weight, being 62 pounds to the bushel. Last year's crop of wheat, which will run from 40 to 60 bushels to the acre in winter wheat, and from 20 to 50 bushels in spring wheat, is selling at from \$1.00 to \$1.25 per acre. It is a common thing for one crop to pay for the land on which it is grown, and not infrequently it will pay for it two or three times over.
The sugar factory is just closing its run having harvested practically all of the crop, which will give it an output of between 3,500,000 and 4,000,000 pounds of sugar for the year's best crop. The Japanese contractors have been quit successful, so much so that next year will see them with extended areas for best growing wheat.
Grain threshing is practically over with the exception of the sugar company which has a considerable crop awaiting its turn. Last year the country threshed into its multitudinous granaries 65,000 bushels of wheat, oats and barley, this year it is expected the yield will be practically as great.
The ordinary systems of our annual election are creeping up and down the municipal spine and the contest will be between progressive factions whose aims as to progress run along parallel lines with exceptions. Progress is the slogan and the electorate will decide at the polls which brand they prefer.
We are having a very busy season at the Opera House, and as an instance of how far the fame of our hall has spread, the railway employs for something like 100 men to carry out and north will gather on Friday night next for their annual ball. Special trains will be run and it is the purpose of the promoters and the citizens to make it a notable occasion.
Our district school is progressing nicely, being almost roofed in work can be prosecuted inside. The Church has been daily suspended work for the winter. As respects the latter building the intention is now to construct the outer walls of white brick instead of red brick. It is thought, we greatly improve its appearance.
Our harvest has been a bountiful one and we are thankful that we live in

so good a country, whose future is greater than any man perhaps, no matter how optimistic he may be, can estimate.
