

MINING, BUSINESS AND STOCKS.

MUCH ACTIVITY AT GOOD SPRINGS

Ninety-Nine Encouraging Advance In Zinc Makes a Stir Among Zinc Mines of District.

Reports from Good Springs Mining district, Nevada, state that the formation has changed in the face of the drift on the 200 level of the 99 Mining company's property, and indications are favorable for encountering the ore chute on that level at an early date.

The company resumed work about 60 days ago, since which time a small force of men has been employed. The mine is equipped with a gasoline hoist and compressor, air drills, etc.

The Sultana group in that camp is named by Mr. Jensen as an exceptionally fine property. In this group is said to be exposed on the side of a gulch a body of zinc ore carrying 35 per cent. which is 20 feet wide.

Mr. Jensen says that there is a lively interest in zinc production in Good Springs, owing to the numerous deposits of high grade zinc ore which exist there.

MARKET WEAK IN SPOTS.

Iron Blossom and Columbus Con. Both Show a Falling Off.

The mining stock market was weaker in spots today, though most of the list held firm around yesterday's prices. With the announcement that the No. 1 shaft of the Iron Blossom has been closed down, the stock fell off this morning, sales being made from 66 down to 64.

Mountain Lake, which sold at 1.00 and better last year, softened this morning to 75¢, with indications of its reaching a still lower mark.

Mineral Flat has almost reached zero point, selling this morning as low as 25¢. Utah Con. fell back to 4 on the announcement of a half cent advance, and Black Jack might have been bought for 75¢ or less.

UNLISTED STOCKS.

The only sale recorded among the unlisted stocks on the exchange this morning was 2,000 shares of Utah Treasure Hill, which was sold at 40 cents.

SILVER ISLAND SHIPMENT.

Last Car Nets Company Nearly \$2,300—Account of Work Being Done.

The last car of ore from the claims of the Silver Island Coalition Mines company near Wendover, making the sixth lot, was settled for yesterday on the basis of 119 ounces silver, 3.60 per cent copper and 19.4 per cent lead to the ton.

The ore now being marketed is being taken from two true fissure veins, the LeRoy and Emancipator. On the first named Secretary J. E. Pratt says a depth of 75 feet has been attained and on the second the depth is about 50 feet.

The ore vein in the Emancipator is being developed by tunnels designed to follow the veins right through the hill. Work has been started on both sides of the hill on the Emancipator vein, which will explore that vein to a depth of 175 feet from the crown of the hill.

Some fine looking samples of red carbonate of copper have been received by Manager Colin Mackintosh of the Ohio Copper company from the 300 level on the "What Cheer" vein.

Just about one-third the size of the regular cabinets, but they will take care of any filing you may ever want to do.

CONFERENCE PAMPHLET.

The full proceedings of the 80th semi-annual conference containing a verbatim report of every discourse delivered at this very interesting conference, is now issued.

These sermons will not appear in any other form. It is in fact a regular "Journal of Discourses" and should be in the library of every Latter-day Saint.

It is also a good pamphlet to mail to friends. Price 25c post paid.

Wool.

ST. LOUIS.

St. Louis, Dec. 2.—Wool steady. Territory and western mediums, 24 1/2; fine mediums, 24 1/2.

LONDON.

London, Dec. 1.—There were 11,511 bales offered at the wool auctions today.

Buyers from all sections were eager bidders and paid full prices, especially for the grades of wethers and greasy merinos.

American buyers secured the best lots of cross-breeds at 3 1/2. New clip from the United States was 1,200,000, valued at 12. The sales will close tomorrow.

PRODUCE.

CHICAGO.

Chicago, Dec. 2.—Additional rain in the winter wheat belt in this country and harvesting weather in Argentina imparted heavy rain to the wheat market here at the opening of trading today.

Cash interests were moderate sellers of December and commission houses sold May.

The volume of trading was small. Prices at the opening were 1 1/2 for the day in sympathy with May 1 1/2 at 1.05 1/2. After selling at 1.05 1/2 the price dropped back to 1.05.

At the close of the day the market caused slight firmness in the corn market at the start but sentiment soon became bearish owing to selling inspired by an official report of a drop in temperature tonight or tomorrow.

Local receipts were more than the estimated amount of 400,000 bushels. Notwithstanding the increase of fireproof buildings since the first skyscraper was built, Chicago's average fire loss has not been materially reduced and the cost of fire fighting and other measures to put out fires has greatly increased at the same time.

With an average annual fire loss of five million dollars Chicago makes a pitiful comparison with Berlin, where the average annual fire loss is only about \$150,000.

The fire loss per capita in Germany, France, Switzerland, Austria, Denmark, and Italy combined in a stated period was 33 cents. In the United States for the same time the per capita loss was more than \$2.50.

It is no wonder that European insurance rates are found to be much lower than those in this country.—Chicago News Letter.

ORIGIN OF THE REORGANIZED CHURCH AND SUCCESSION.

A book of 140 pages showing the latter-day apostasy.

This book is invaluable and indispensable to missionaries and all other students of Church history. It deals thoroughly with the origin of the Reorganized church and conclusively proves it to be of apostate sources, also that the church has departed from the doctrines of the Prophet Joseph Smith and now attacks them vindictively, denying many of the principles of the gospel.

The book also treats the Succession in the Presidency and shows that PRESIDENT BRIGHAM YOUNG WAS PROPERLY ORDAINED TO LEAD THE CHURCH.

By E. Joseph E. Smith, Jr. Just published by the Deseret News. Cloth binding per copy 60 cents, in paper 30 cents.

FEAR OF THE EVIL EYE.

In Egypt nothing distresses a parent more than that which in other countries is considered to convey a compliment—admiration of the child.

It is said to stare at the offspring the mother hastily snatches it away to perform some superstitious rite as a charm against the supposed evil eye.

The Turks, who more than any other people are in dread of the evil eye, believe in counteracting its effects by inscribing certain verses of the Koran on the entrance door of their houses.

In Sicily, when an old woman throws live coals into water, with which they sprinkle the four corners of the room, reciting the while certain formulas as a safeguard against the evil eye.

Adults wear rings or beads of amber on a string around the neck as a protection against it. The bridegroom, whose conjugal happiness is envied by some one, is especially susceptible to the influence of the evil eye. He may protect himself by walking backward.

In Italy, and in particular at Naples, where the superstition, under the name of "jettatura," reigns supreme, they believe the star in the shape of a horn is a safeguard against its effects.

Besides the large horns which they hang in a conspicuous place in their homes, they wear little horns of coral or jet around the neck, on the finger or the watch chain. Another

Scranton Zinc Ores.

Manager Dunyon Says Company Will Increase Shipments Soon.

Manager Newton A. Dunyon of the Scranton Mining company, who has returned from the mine, reports the North Tintic property to be looking exceptionally good and he intends shortly to increase the tonnage of zinc ore which the company is marketing in the east.

For some time past this mine has been producing from 500 to 600 tons of this class of zinc ore in addition to the lead ore which is found in the mine, laying over the deposit of zinc ore. The body has been developed to the depth of 500 feet and the ore body has been found to be continuous for a long distance.

When zinc was so low before the tariff was imposed, the company was unable to handle much of its product, but the advance in zinc to around \$6.20 per hundred pounds, makes a good market for the Scranton ore. The ore is said to carry better than 30 per cent zinc.

INCREASES ITS FORCE.

Ely Resurrection Mining Company Puts Additional Men to Work.

Manager George R. Raymond of the Ely Resurrection Mining company announces that six more men have been put to work on that property, doing assessment work in the unpatented claims, and also pushing work on the tunnel which is now said to be in about 165 feet making 10 men in all.

The company owns nearly 600 acres of mineral land of which nearly two-thirds is patented. The formation shows a lime capping, and where the lime has been eroded away the characteristic porphyry of the camp is exposed, and according to a recent report, in every instance copper values are shown.

CONCENTRATES.

It is reported that operations at the Iron Blossom No. 1 shaft have been closed down temporarily.

The J. D. Wood Investment company has taken over the Jersey Valley mines, in the Jersey district, and the south of Battle Mountain, from G. W. Abel, of Battle Mountain.

Boston reports state that the Coleman crowd has bought 100,000 shares of Miami Copper stock from the Lewishons. It is said that the company had that amount of stock on hand, and that the stock purchased is the treasury stock.

Twenty-five seniors of the state school of mines left today for the Sunnyside coal mines in Carbon county, accompanied by Dr. Fred J. Pack, Prof. Robert H. Bradford, Prof. H. E. Reckard and other faculty members.

The new train schedule to Pioche went into effect yesterday, which makes it possible for a man to spend several hours in the camp and in a day do business only one day. The train leaves Salt Lake at 8 p. m. and arrives in Pioche at 10 o'clock next morning.

Returning the train leaves Pioche at 1:45 and reaches Salt Lake at 6:30 next morning.

STOCKS LOWER, CLOSING WAS EASY.

New York, Dec. 2.—Prominent stocks started lower today but many of the less important issues showed small gains.

The market showed a steady decline in Union Pacific and Wabash preferred lost 1 and the common, Southern Pacific and United States Steel large fractions. Colorado Southern and Consolidated Gas rose 3/4.

Western railroad stocks and the metal group were irregularly mixed. Resultant declines running between 1 and 2 points. An effort to rally the list by bidding up Wabash preferred failed, rallied 2 points from its low level, to 88 1/2, had only a momentary effect, the list again falling to the lowest. Among the largest declines were Utah Copper 1 1/2, Union Pacific and Northern Pacific 1/2, Northwestern, Reading, Rock Island, National Biscuit, Third Avenue, St. Paul, Great Northern preferred, St. Louis-Scottwestern preferred, United States Steel American Sugar, Anaconda and American Car, Colorado Southern, American Smelting and American Tobacco preferred rose 1/4 and North American 1.

Union Pacific was carried 2 points under last night, Amalgamated Copper 1 1/2, St. Paul 1/2, and Denver & Rio Grande electric 1. North American rose 2. Prices rallied a fraction before noon.

Bonds were irregularly mixed. There was very little doing in the noon hour but prices held firm at further recoveries from the low point. Denver & Rio Grande improved 1/2. Western Maryland 2 and Cleveland, Cincinnati, Chicago & St. Louis, Denver & Rio Grande preferred, American Sugar, International Pump 1. Third Avenue gave way 2 1/2.

Individual stocks were bid up strongly but the general market did not rise much although it was firmer all around. Western Maryland got up 1/2. Rio Grande 1/2, the preferred 1/2 and Missouri Pacific 1/2. Wabash preferred lost 1.

The market closed easy. Pennsylvania came under pressure of declines at a point and Wabash preferred fell back to 1 1/2 below last night. The effect on the general market was slight. Louisville & Nashville lost 1, Reading 1/2 and Northern Pacific 2. American Cotton Oil rose 2.
