MOVE MADE FOR A GYMNASIUM FOR OGDEN

Mass Meeting Called for Wednesday Evening at Weber Academy.

OGDEN, Dec. 6.—For years there has been a long felt need of a good gymnasium in Ogden to keep the boys off the streets and to encourage an interest among the youthful citizens, as well as the older men, in regard to their physical welfare. Believing that a movement should be started in this direction, the officers of the Y. M. M. I. A. of Weber stake have called a meeting of all those interested in a movement of this kind to meet at the Weber Academy on Wednesday evening, Dec. 8, when an organization will be perfected. It is understood that Prof. Milne of the state industrial school and Coach Ben Harker of the Weber academy are to take active charge of the organization and it will not be long before many of the boys of the city will be swinging Indian clubs and indulging in other healthful exercises. The men who have started the movement are very anxious to have a large attendance at the organization meeting and it is hoped that many prominent citizens will lend their aid to the success of the new gymnasium.

RAILROAD IMPROVEMENTS TO BE RUSHED TO COMPLETION

OGDEN, Dec. 6.—After accompanying President Lovett of the Harriman lines to Green River, Wyoming, Julius Kruttschnitt, director of maintenance and operating returned to Ogden Saturday afternoon and spent the greater part of the day inspecting railroad buildings and yards. The main cause of Mr. Kruttschnitt's returning to this point was to meet Mrs. Kruttschnitt and other members of his family who arrived from the east Saturday evening en route to California. Mr. Kruttschnitt confirmed all that has been said regarding the vast improvement to be made in the Ogden railroad yards and buildings. The subway at the Union station will be completed as soon as labor and material can be had, and the large freight depot, car shops and other buildings will be finished as soon as the weather and other conditions will permit.

COOPER CONVERTS NOW ALMOST CULT

Scores of Salt Lake People Embrace Theories of Eastern Expert.

IDEAS MEETING WIDE FAVOR

Growing Number of Citizens Come Forward to Give Him Indorsement.

Those Salt Lake residents who have subscribed allegiance to the new health ideas of the Cooper "stomach man," have grown so in number that they have almost attained to the dignity of a regular cult. Some of the "Cooper converts," as they call themselves, who attribute remarkable efficiency to the health ideas and treatment of the "stomach man," have recently related the following experiences with the remedies of the eastern expert, who is meeting the people at Smith's "Busy Corner" drug store, Main and Second South streets.

L. E. Anderson, No. 9, Annex apartments, was a very sick man for a number of years, suffering from stomach trouble, had no appetite, suffered from headaches and nervousness and chronic constipation; everything he took failed to relieve until he began Cooper's treatment. Eight weeks' course of treatment made a new man of him, he says, and restored his health and interest in life.

J. E. Morris, 1240 Johnson avenue, police officer stationed on the "Busy Corner," led to try Cooper's treatment for himself and wife by watching crowds visit the "stomach man," was cured of stomach trouble and catarrh of several years' standing, and his wife quickly rid herself through remedies of catarrhal cold which had lasted months.

Mrs. A. Whipple, 213 East South street, secured new health through Cooper treatment after suffering nearly 17 years from catarrh of the stomach and kindred ills.

Mrs. Richard Hawley, 453 south First West street, suffered four years from stomach trouble and feared she had cancer; taking food was torture, gas forming, which would be followed by a nauseating and faint feeling, with dizzy spells. Could not eat solid food when she began treatment; now says she can eat anything and is completely and perfectly restored to health.

Mrs. Alice M. Bradley, 154 Center street, tried Cooper's remedies three years ago when she met him in Boston; was skeptical of him, but took his treatment and was cured of stomach trouble in its worst form within eight weeks.

Miss Lillian Ford, Gold Hotel, suffered several years from what she thought was stomach trouble; doctored for many diseases without relief, believing she had kidney and liver trouble, bad blood or a weak heart; appetite was irregular with a gnawing pain in the pit of the stomach at times, together with much nervousness and dizziness. Took course of Cooper treatment and an enormous tapeworm passed from her system; she is now on the road to rapid recovery.

Mr. W. H. Patton, Payson, Utah, had catarrh of the stomach with all symptoms; feet and legs were so badly swollen when he first visited the "stomach man" that he could hardly walk; had tried everything without relief and now says he is a well man.

corded on the voting machine and there is a dispute as to whether the majority voted for disincorporation or otherwise. It is understood that experts will be sent from the factory of the voting machine company to testify regarding the possibility of the votes not registering. Since the petition to disincorporate was filed in the Second district court many of the Huntsville most progressive citizens and business men have reconsidered the

proposition and will ask to have the matter thrown out of court at the next hearing.
