

VERY STRONG S CALL FOR MONEY

With Collections Slow, and Some Banks Overloaned, It's Hard to Borrow.

LOCAL TRADE SEEMS HEALTHY

Food Men Holding for Higher Prices—Potato Growers Tired That To Their Sorrow.

A pleasant feature of the banking news of the week is the reappearance of the excess of clearing house returns over the clearings for the same week during the previous year; and on the whole the local money situation is very fair. But collections are reported slow, the exact cause of which it is not easy to ascertain. The demand for money continues to be strong, almost unparal- leled, so that several of the local banks have under- gone almost over- loaned. This is not recalling loans to strengthen their cash resources, which has made it difficult to borrow, which was illustrated Thursday by a prominent and perfectly reliable real estate dealer who wanted to raise \$5,000 with trans-Jordanian as collateral, but could not "raise the wind."

The demand for money for perfectly legiti- mate enterprises has been unprece- dented, so that several of the banks again are loaned out. Recourse might be had to loan. Recourse might be had to loan. Recourse might be had to loan.

BUSINESS NOTES

Considering the tightness in the money market, local stocks have held up quite well during the week. The favor with which the headlines in the list are regarded, is shown by the fact that several blocks of stock placed on the market were snapped up immediately at prices named below. The blocks which changed hands were Amalgamated Sugar preferred, Consolidated Wagon, and Utah-Idaho Sugar. Broker Cutler says that bids as high as \$21 for Z. C. M. L. \$20 for Home Fire, and \$50 for Deseret Savings were made without obtaining the stock.

HARDWARE

The hardware trade reports business in a healthy condition, though collections are close—more so in Idaho than in other Wyoming or Utah. This is believed due to the neglect of so many Idaho potato growers to market their crops, holding back for unrealistic prices. It is noted that the potato growers were not sold at all, and thousands of dollars that would have been poured into southern Idaho never went there at all.

LUMBER AND CEMENT.

The lumber trade reports a tendency to weaken in fir timber, with no change in shingles. There will be no more shipments for the next 30 days, and the log now being run into the mills must be made up into manu- factured stuff before the yards can re- ceive more accosts. Delayed ship- ments from the northwest mills are now being received in bunches, so that the present much lumber is being changed in cement. There is no change in cement. The factories will have to run night and day for a long time before there is any sign of slackening up.

WHOLESALE DRY GOODS

The wholesale dry goods trade reports no local changes during the week of the 7th note, the season for the time being rather quiet. Buyers are pur- chasing accumulating stocks. This makes more bills in number, but in Jobbers' report the goods going out include lawn, sheet, organizes, white and fine goods, India linen, batistes are now being entirely neglected. The trade notes that cotton is now higher than wool, the figures being respec- tively 15 and 15 cents. Jobbers re- port that stocks generally in the market have been sold in the thought that that drastic mill thought must continue. It is claimed that which manufacturers are blamed, it is claimed without just cause. Low prices are quoted for duck, with

NEGLECT OF DUTY BY LEGISLATURE

Traffic Bureau Sharply Arraigns Lawmakers and Railroads Anent Coal Rates.

"STEALTHY, ALERT LOBBY."

Advice That Future Members be Able to Resist Passes, Meal Tickets and Cheap Shows.

Another bulletin was issued by the Commercial club traffic bureau Friday afternoon in pursuance of its campaign for lower coal rates. The bulletin calls attention to the violation of the Constitution of the state by every state legislature in its refusal to comply with article XII, section 15 of the Constitu- tion, which reads as follows: "The legislature shall pass laws estab- lishing reasonable maximum rates of charges for the transportation of passengers and freight, for correcting abuses and preventing discrimination and extortion in rates of freight and passenger tariffs by the different rail- roads, and other common carriers in the state, and shall enforce such laws by adequate penalties."

The bulletin further says: "Has the legislature obeyed this mandate? The session after session has occurred and absolutely nothing has been done in establishing reasonable rates. Why? Because a thoroughly organized, stealthy, persistent and alert opposing lobby has prevented it every time it has been attempted. How much longer are the people of Utah going to stand this neglect of sworn duty by men they send to the legislature? If the people of Utah want reasonable freight rates and cheap coal, send no man to the legislature who will not first pledge himself to obey the manda- tate of the constitution, and stop send- ing men there whose persistent neglect of sworn public duty for presents of railroad passes, tickets to cheap shows and dinners at second-class restau- rants has long been the joke and by- word of the streets and a reproach to the dignity of the state. The supply and price of coal in this city is controlled by the Denver & Rio Grande railroad. That railroad absolutely refuses to do anything for our people in reducing its exorbitant rates. It rests with the people to make that railroad reduce them. Will the people do it? Coal must come down!"

NEW INCORPORATION.

Articles of incorporation were yester- day filed with the county clerk by the Fretwell Water Motor company of Salt Lake. The capital stock is \$100,000, in shares of 10 cents each. W. A. TELEPHONE MERGER ON COAST.

The following statement from the San Francisco Call is of special interest to Salt Lake telephone circles: "Negotiations looking to the merging of the Western Telephone and Tele- graph company with the Pacific Tele- phone and Telegraph company have been in progress here for the last two days. It is understood that preliminary steps have been taken to- ward the absorption of a number of independent companies in the western and northwestern states with the ultimate idea of consolidating the

MORE SUBURBANITES WANT ANNEXATION

Residents of Part of Farmers Ward Discuss the Matter Favorably—Mayor's Cordial Invitation.

The annexation to the city of the territory lying between Tenth and Twelfth South streets and State street and the Salt Lake Route right-of-way, was the topic discussed favorably at a mass meeting held last night at the residence of Oscar Van Cott, 1728 south Main street. The annexation of this district has been urged for the past two or three months, and the general sentiment of that section and property owners of that section is in favor of becoming a part of the city proper. The only point of doubt is if the city can or will con- nect with the county water mains at Tenth and Eleventh South streets. It was suggested last night that this could be done at a cost of less than \$1,000 as the revenue to be derived by the city from the water users would equal this amount within a year. At the meeting speeches favoring an- nexation were made by Joseph Van Cott, representing the Commercial club, Oscar Van Cott, R. J. Willis, Ray Van Cott and others. A letter from Mayor John S. Bransford addressed to A. W. Gallacher on the subject of annexation was read, as follows: "Mr. A. W. Gallacher: "Dear Sir—Confirming our conversa- tion of a few days ago with reference to the annexation of the territory lying between Tenth and Twelfth South and State streets, and Second West street, will say that I note that you and others have been working for some time with a petition for the purpose of adding this part of the territory to the city of Salt Lake. "I personally believe that this should be done, as I consider that the divid- ing line should be at that point. This will make of Salt Lake a great city for all of the citizens residing in that section. I understand that the possi- bilities are that a mass meeting will be called for the purpose of bringing this matter to the attention of the persons residing in said territory, and one of the most important things which would be discussed would be the question of the water supply for this district. "You have explained to me that you have a four-inch water main already laid in the county, and you asked that the city of Salt Lake extend its water main from the present terminus west on Eleventh South street and con- nect with the county mains at the cor- ner of State and Eleventh South streets. This work will be done as rapidly as possible on the part of the city. "You are at liberty to read this per- sonal communication to the mass meet- ing. Hoping that the citizens residing in this territory will see that it is to their advantage to be annexed to the
