

STATE RESTS IN THORNE TRIAL

Witnesses This Morning Tell How Capture of the Gang Was Made.

WATCHED GANG SEVERAL DAYS

Night of Murder Police Gave Men Time to Get to Their Rooms And Then Arrested Them.

It developed this morning that most of the credit for the capture of Thorne and Riley half an hour after they had murdered George W. Fassell in his state on the evening of March 26 last, is due to Detective Chase; for when Thorne's attorney began to question Chief Barlow in such a manner that the integrity of Detective Sheets was involved, the prosecution objected and after a placed Detective Chase on the stand with the suggestion that he be examined by the defense concerning how it was that he, Sheets, Shultz and Barlow, walked right into the robbers' room in the Angelus rooming house within half an hour of the killing.

Mr. Chase stated that for several days he had seen two cripples, about the streets trying to dispose of "phony" jewelry; and that on the day before the killing he saw them talking to two crooks by the name of Wilson and Brown; and upon inquiry found that the cripples occupied room 31 and Brown and Wilson room 28 of the Angelus. He told Chief Detective Sheets what he had discovered; adding that he had heard these were attending the Driskell trial someone else had better watch them. Sheets said that he would watch them himself.

READY TO MAKE ARREST.

The evening of March 26, Chase was talking with Sheets saying that as they "had a line" on the six it would be advisable to take them in toto. They talked it over for some time, agreeing that they would arrest the six the next morning at daylight. While they were talking a man came in to say that some jewelry had been stolen from him; whereupon Chase went out to inspect a pawn shop.

When he returned Sheets told him of the murder of Fassell, adding that in his mind they should take in the bunch at the Angelus then without further delay. Chase suggested that the culprit be given time to return to their rooms, which was agreed to. When they went out they were joined by Chief Barlow and the capture, the most sensational in the history of Salt Lake crime, followed.

It is estimated that the defense in the Thorne trial may put Detective Sheets on the stand.

STATE RESTS.

The state rested at noon today in the trial of Thorne, after having Chief Barlow, Sheriff Sharp, Dr. H. P. Kirtley, Detective Chase and Sergeant Roberts on the stand. Sergeant Roberts told his story on the morning after the crime he visited the boy's ward of the city jail, found Thorne feeling bad and at Thorne's request called Chief Barlow at 5:30 in the morning.

Chief Barlow told how Thorne made a complete confession to him without promise of immunity or advantage. The signed confession and the drawings of the scenes of the crime were introduced as evidence.

Sheriff Sharp told how on March 20 last, Thorne was brought before Governor Spry, Warden Frazar, Deputy Warden Ure and himself at the state penitentiary, and without any coercion or promise made a full confession of the crime. Thorne related to them that Riley and Curley, the unknown third robber, pushed him into the store first, how the shooting occurred and how, when the deed was done, he stooped for a moment to look at the prostrate form of his victim, robbed the cash register and sped out of the store after his companions who were already on their way. Going to Fifth South, he and Riley emerged from an alley in the face of two girls who became frightened and ran. Speeding down Fifth South to Main, Thorne and Riley took separate seats on a car and finally arrived at the Angelus, sought Wilson and were counting the money when the officers came.

Thorne also told how Curley, the unknown third robber, kept company with a young woman who works at the Troy laundry and had implored her to give him the combination of the safe which she refused to do.

THORNE TAKES STAND.

Thorne took the stand in his own behalf at the opening of the trial this afternoon. The evidence of the witness was of such a nature that the responsibility for the crime was thrown upon other shoulders. His whole endeavor seemed to show that the evidence that transpired were the results of suggestions made by other men, meaning Wilson, Brown, Riley and "Curley" Morgan.

His witness was very evasive in his answers. He identified the clothing that he wore that night, but refused to tell from whom he had received the revolver with which the shooting was done. He claimed that he did not know that the revolver was loaded, and that the shooting was entirely accidental. When asked if this was his first crime, he said no, but that he did not think that had anything to do with this case.

CASE OF LEPROSY IS FOUND IN SALT LAKE

Secretary of State Board of Health Has Patient Isolated Pending Federal Action.

Secy. Beatty of the state board of health has discovered a case of leprosy in this city. The victim is a Greek railroad laborer aged 35, whose name is not yet on record. He was brought to the secretary by a local physician, whose attention had been called to the case. The man carried suspicious looking eruptions which Dr. Beatty was not long in diagnosing as leprosy about 13 months advanced. The man's hands were partially paralyzed, but the segregation of organic tissue had not yet commenced.

Dr. Beatty has had the patient carefully isolated and will take the matter up with the federal authorities, to see if he can not be deported to his native country, although the man claims to have been in this country for the statutory three years.

It is not ascertained yet whether he contracted the disease in America, or before he came here.

It is several years since there was leprosy in Utah, the latest being the well known cases of Hawaiian lepers who were isolated in a community by themselves in Skull valley.

SHIP ON FIRE IN NEW YORK HARBOR

Grand Republic, Sister Ship to General Slocum, Blazes Up With Passengers Aboard.

New York, July 6.—The big triple decked steamship Grand Republic, returning from Rockaway Beach this morning with about 20 excursionists, took fire in the lower bay. The burning craft, the sister ship of the ill-fated General Slocum, was headed at once for the dock of the Crescent Athletic club where all her panic stricken passengers were landed.

Dense clouds of smoke enveloped the vessel and a fleet of tugs hurried to her assistance to prevent a repetition of the former disaster, in which 1,000 lives were lost.

It is believed the fire will be contained. It started amidships. The fire was still burning at 2:50 o'clock this afternoon but the fireboats and tugs appeared to have it under control.

BURGLAR CAPTURED AFTER LONG CHASE.

Sandusky, O., July 5.—After a chase lasting throughout the night, Frank Connelly, said to be one of the two hold-up men who failed in an attempt to take \$35,000 from a safe of the Cedar Point Hotel company at Cedar Point, late last night, was captured by police and a posse in a marsh this morning. His companion, Charles Braun, was arrested at midnight.

Braun and Connelly, it is alleged, rushed into the office and leveling guns at R. A. Smith and Robert Glessman, employees, demanded "that money in the safe."

Glessman slammed the safe door shut and locked it. Connelly, angered, started for him as if to kill him, whereupon Glessman drew about \$25 in currency from his pocket.

Connelly grabbed the money and with Braun backed to the door and fled.

"I haven't been here for 23 years," said he, "and all I've got to say is that I am having a good time. It isn't exactly a vacation, but I had to accompany my daughter and these other young ladies west."

Vice President and General Manager

H. W. Clark also denied any business significance in connection with the trip. "It is just a little get-acquainted party," said Mr. Clarke. "I met Mr. Delano and party at Colorado Springs and brought them over to Salt Lake just to show them a good time."

ARTHUR THOMPSON COMMITS SUICIDE

Seeks Death by Taking Carbolic Acid at Rooming House at 62 East Second South.

ALIVE WHEN FOUND BY POLICE

When Removed to Emergency Hospital Suffering Man Expires—Came From Theodore, Utah.

Arthur Thompson, formerly of Theodore, Utah, took carbolic acid in his room in a roominghouse at 62 east Second South street at 1 o'clock this afternoon with suicidal intent. Thompson's condition was discovered by his landlady, who knows very little about the young man. Although given heroic treatment at the police station emergency hospital, he died there under treatment at 2:45 p.m.

Thompson left a letter written on a letterhead of the Elk Liquor company addressed to Lucy M. Thompson, Theodore, Utah, and reading as follows:

To Mother and Friends
I am tired of life and I am going to kill myself. Now it is about 1 o'clock and within an hour I will be a dead man. I own it is a cowardly thing to do, but I am all in and don't know what to do. So goodbye, forever.
ARTHUR THOMPSON.

Responding to the call for the police, Patrolmen Hinton and Phillips went to the roominghouse and found the young man still gasping for breath. He was taken at once to the emergency hospital, where he failed to respond to treatment. He was a man about 25 years of age and was well dressed and of respectable appearance. No motive other than that revealed in his letter is known to the police.

Thompson after drinking the acid, stabbed himself over the heart with a pocket knife. When his effects were searched, nothing except \$3.55 in coin, his pocket knife and the letter was found.
