Deploable Condition of Affairs Under Investigation by Judge Gunnell Of the Juvenile Court.

OGDEN, Aug. 20.—A shocking condition of affairs, which is getting too common here, is now under investigation by the juvenile court. Yesterday, in discussing the case of Myrtle Griffin, 16 years of age, who has been in the habit of staying away from her home for weeks at a time, Judge Gunnell asserted that it has come to be a common occurrence for young folks to travel between Ogden and Salt Lake in automobiles to escape the surveillance of their parents, who in most cases are ignorant that their children are being led astray in this manner.

STREET CAR COLLIDES WITH BREWERY WAGON

OGDEN, Aug. 20.—A south-bound Ogden Rapid Transit car collided with a brewery wagon from Becker's brewery about 2 o'clock on Friday afternoon, at the intersection of Wall street and Thirtieth street. The wagon, owned by G. G. Griffith, was carrying beer and other contents and slight damage was done to the wagon. The driver of the wagon attempted to turn a short cut across the street before the car passed, and as a result the driver received a broadside which knocked the horses down and threw the driver from his seat with great force, although he was not seriously injured. One of the horses jumped up and ran madly up the street. The contents of the wagon, mostly bottles of beer, were scattered in all directions, and the foaming liquid formed a small stream and ran into the gutter.

MISSING AUTO OF R. W. SLOAN RECOVERED

OGDEN, Aug. 20.—The automobile belonging to R. W. Sloan of Salt Lake which was stolen about two weeks ago, was located in Ogden last evening by Detective Pender and Capt. Brown. The car was being driven by a colored man living on Wall avenue between Twenty-ninth and Thirtieth streets. Cole claims to have purchased it from another colored man, whose name has not been learned, paying him \$200 cash and giving his note for \$1,500. The police are inclined to credit Cole's story and believe he came by the machine honestly. It is learned that the man from whom Cole purchased the machine had left the city. Mr. Sloan came to Ogden Friday evening and regained possession of his car.

BISHOP QUAYLE ADDRESSES MINISTERS

Spiritual Talk on Matthew XXIV. At Methodist Annual Meeting Friday.

(Special Correspondence.) QUAYLE, Aug. 20.—Bishop William A. Quayle addressed the Methodist meeting here yesterday forenoon in the conference of the Third ward, giving an exposition of the 24th chapter of the Gospel according to St. Matthew. The bishop discussed the cultivation of a microbe for knowing when the world is going to suit, which he characterized as silly business for church people to speculate in. That is the Lord's business. It is the business of Christians to do like and work that if the Lord shuts up shop, the world—tonight, it will be better for the world to keep on as it is. We are stationed at the post, that is enough till the Lord says, "You are tired out, come up and rest with me." Blessed is the preacher who has something enough to keep on the main road of the main lines. "Our business is to keep to the hoeing; don't sit down under a bush and forget, when the housewife comes, where you put the hoe." In this way in graphic language and by homely illustrations the bishop impressed the importance of earnest, devoted work in the vineyard.

BURLEY, IDAHO. FUNERAL OF L. STOUT—HEAVY CROP YIELDS

(Special Correspondence.) BURLEY, Aug. 18.—The funeral of Lawrence Stout, who was drowned in Snake river last week, was held in the Latter-day Saints' church under the direction of Bishop Robbins and counselors. The funeral was largely attended. The deceased was the son of Mr. and Mrs. A. J. Stout, among the oldest and best known citizens of the country, they having lived at Albion for a number of years before coming here to locate. The crop conditions around Burley are very satisfactory, the harvesting is about all done and the bulk of the threshing will soon be heard. The farmers are wearing the smile that won't come off. Notwithstanding the severe drought the yield will be as much as 30 bushels of wheat per acre while the best yield will be good although some pieces had to be planted two or three times. Field Managers W. A. Masters has placed an order with the railroad company for 150 Donalson cars to handle the boots. Harvesting will begin on or about the 20th of September. The school board has decided to start school Sept. 12. The board has decided to call for bids on contracts to furnish teams and drivers to convey the children to and from school. It also appointed a committee to investigate the feasibility of heating the school building by electricity as it is expected that electricity will be ready for delivery by the middle of September. County Auditor Joseph V. Haight was in town Tuesday distributing election supplies. The Oakley Dramatic club will produce a play here next week in the new Opera House.

CROPS LOOKING GOOD IN PARIS DISTRICT

(Special Correspondence.) PARIS, Aug. 17.—Barney F. O'Neill, one of the Republican candidates for governor, made a flying trip to Paris in his auto Tuesday, for the purpose of shaking hands with his Republican friends and forming new acquaintances. Farmers have been busy harvesting wheat in our valley since Aug. 1, and most of them are happily surprised at the heavy yields they are getting. Dry farms have withstood the drought wonderfully well, many farmers report that their yields will be 30 bushels to the acre. The oat crop and second cutting of alfalfa are going to be exceptionally heavy this season.

CIRCLEVILLE.

(Special Correspondence.) CIRCLEVILLE, Photo Co., Aug. 18.—Clarence Simkins, a lad of 14, had a thrilling experience in a runaway yesterday, but escaped with a few bad bruises. While raking hay the tongue of the rake broke and the team ran away. The rake was demolished, but luckily the boy was thrown clear of it and escaped with minor injuries. The runaway was very ill with appendicitis, but is improving. The doctors say an operation will be necessary. Mrs. Mary Gass and Mrs. Alice Lewis have been visiting here. Friday evening Circleville was visited with quite an electrical display and heavy rain, but no damage was done. The hay harvest is progressing and a second crop of hay, and some grain is being cut. Indications are that we will have an early fall. The nights are quite cool, and the wind has a fall-like feeling. Quite a number of students are preparing to go away to high school again this year. A number of new buildings are in the course of erection, so it makes this little town look as if it were growing. There is little prospect for more inhabitants and more homes. Land is very fertile and productive here, and crops are very good. There is room for more people who have the means of utilizing cultivated land can be had from \$5 to \$85 per acre. The climate is fairly good. Two and one-half crops of alfalfa can be raised, and the yield is a much larger yield per acre, than where three and four crops are raised, and no better grain country anywhere. All kinds of vegetables and the hardiest fruits do well here. The bee industry would be very profitable, as a great deal of fine bee food grows everywhere.

The new engine will warrant better fire protection and can be the means of utilizing water in districts where at present the system does not extend. Citizens on the west side have entered a protest against the dampling of the stream into Little Cottonwood creek. The protest was signed by 82 people who secured Atty. W. D. Moffat to represent them.
