UNIVERSITY NEWS

Two hundred and fifteen pupils had registered for college courses at the close of the second day of registration, the majority of whom are incoming freshmen. The outlook now is that the freshman class this year will be the largest in the history of the university. One reason why the enrollment is so light this week, is that the outside students who make up the large majority, wish to avoid the extra expense of a week's board and room

away from home, so put off their coming to the last hour. The registration next week is expected to be unusually heavy.

Nearly forty members of the returning Delta Upsilon fraternity from San Francisco, representing 23 different colleges, visited the university buildings Friday, and were much pleased with what they saw.

At least two years' credit in a college academic course is now necessary to entitle to registry in the medical department.

During Prof. Wise's vacation in Eu-

rope, Mr. Kerr, a former student of the university, will take his place.

Dr. Matel and Dr. Lovry are new instructors in the medical department.

POSTOFFICE BURGLARIZED.

Garfield Quarters Entered and Strong Box With \$110 Stamps Stolen.

Burglars looted the postoffice out at Garfield, Thursday night, and stole \$110 in stamps of different denominations. The robbery was discovered by Postmaster R. B. Quayle, and reported

to the sheriff. An investigation showed that the burglars had pried open a door and then the strong box on the counter. Later the box was found at a distance away. There is no clue, but the matter has been telephoned to the postal authorities.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security & Trust Co., 22-24 Main street, \$2.00 per year.
