

WAS SUSPICIOUS GUEST DYNAMITER?

San Francisco Detectives Believe Man at Santa Rosa Sanitarium Was Brice.

LEFT THERE VERY SUDDENLY

Departure Followed Immediately Talk With Innate Who Asked Questions.

San Francisco, Oct. 8.—Evidence which local detectives regard as of the most convincing character came to light yesterday, showing that a man answering the description almost perfectly of one of the Los Angeles Times dynamiter suspects was a guest from last Tuesday until Thursday afternoon at the Burks sanitarium near Santa Rosa. Not only the man's description but his peculiar conduct and the suddenness of his departure are considered by the investigators as strongly confirming the belief that he was none other than the fugitive variously known as J. B. Brice, Bryson, E. A. Farry and J. B. Leonard, who is thought to have been the ring-leader of the trio that purchased the 500 pounds of dynamite at Glant, Cal.

NEXT PRISON CONGRESS MEETS IN LONDON IN 1915

Washington, Oct. 7.—With the work of the eighth international prison congress practically concluded, delegates began leaving today after the executive body had chosen London for the next meeting in 1915, and had selected Sir Evelyn Ruggles Brise, K. C. B., for the presidency. The final session of the assembly will be held tomorrow, when the action of the commission today will be formally ratified.

RUSSIAN MILITARY AVIATOR IS KILLED

St. Petersburg, Oct. 7.—Capt. Macevich, the Russian military aviator, was killed today in a fall from a Voisin biplane. The accident occurred during an altitude competition which was won by Capt. Macevich, who reached a height of 3,933 feet. Macevich had risen 3,933 feet, but decided to descend. When at a height of 1,640 feet his machine upset, and the aviator was thrown out. He came hurtling down like a plummet, reaching the ground before the biplane. Every bone in his body was broken excepting an arm. It is the belief of the physicians that he died of heart failure before reaching the ground. Loss of control of a lever is supposed to have been responsible for the accident. The fall of the aviator caused a panic among the spectators. The wife of Macevich became delirious, and it is feared she will be permanently insane. Macevich was considered the most skillful and careful of Russian military aviators and only last Wednesday took Premier Stolypin for a 10-minute flight.

SOME CURIOUS OLD BOOKS ARE UNEARTHED

Los Angeles, Cal., Oct. 8.—James Bowles of this city has unearthed a number of curious old books from a lot which he had stored away for a number of years, among which is a copy of the first New York directory, issued in 1786. It contains the names of all the residents of New York city at that time, numbering 24,000. A review of the events of the preceding year also is contained in the book. A small advertisement tells of the "excellent run" sold at 26 Broadway, now the home of the Standard Oil company. Only 42 lawyers were in New York at that time and side by side are the names of Aaron Burr and Alexander Hamilton.

DECAPITATED BY LARGE FLYWHEEL

Aspen, Colo., Oct. 8.—Placing his head between the spokes of a large fly wheel in the compressor room of the Strangler mine in order to make repairs, Richard Pierce, foreman of the compressor room, was decapitated yesterday when the machinery was accidentally started up.

OPERATION RESTORES MEMORY AND CHILDREN

Denver, Oct. 8.—Four years ago Jeremiah Warwick placed his motherless boys in an institution in this city. For a time he visited his sons, aged then 8 years and 6 years respectively, and then his visits ceased. Failure to receive any provision, and inability to

find trace of relatives finally led the authorities of the institution to make other arrangements for the boys and finally ending in the state home for dependent children. Ten days ago, Jeremiah Warwick, a mental wreck whose memory was entirely gone, was operated on at a hospital here and a tumor removed from his brain. Memory and power of speech, which he had also lost, came back to him gradually, and yesterday he inquired for his boys, regarding whom his mind had been blank for over three years. A search of various state institutions resulted in bringing father and sons together.

DEATH CLIMAXES MANY MISFORTUNES OF A FAMILY

Denver, Oct. 8.—George Seares, a 19-year-old boy, was run over by an automobile here yesterday and died soon afterward at a hospital. The lad, who was studying for the priesthood, had a prayer book in his hand when he was struck by the car. The lad's death is the climax of a series of misfortunes in the Seares family. The father is in a hospital suffering from a broken leg and other injuries sustained in an accident, the mother has just been discharged from another hospital, and a sister is ill at home.

MONUMENT AT DOUGLAS OVER CONFEDERATE GRAVES

Washington, Oct. 8.—Marking the last resting place of 6,500 officers and men who died as prisoners of war at Camp Douglas between 1862 and 1865, a \$25,000 monument on a mound in Oakwoods cemetery, Chicago, is to be improved greatly. Under a special act of Congress, a contract has been awarded for raising the base about five feet, three inches and for placing 16 bronze tablets around the new sub-base of mound. These tablets will bear the names, rank, company and regiment of the 4,500 men together with an appropriate inscription. The work will cost \$22,230. The new base will be faced with granite. The monument was erected 15 years ago by the ex-Confederate association of Chicago.

VENEZUELA AS FIELD FOR YOUNG MEN

Washington, Oct. 8.—Men who are willing and able to establish themselves in transportation, merchandising, manufacturing, agriculture, mining and the founding of a bank would do well to go to Venezuela, according to the annual report of Consul Isaac Manning at La Guaira. Consul Manning emphasizes openings that exist for manufacturers of agricultural machinery, glass bottles and

DR. HECKER CASE DISMISSED

Portage, Wis., Oct. 8.—The trial of Dr. William Hecker of Waaukon, Ill., was dismissed today after about six weeks ago, was concluded yesterday by the dismissal of the case by Justice O'Connell on the ground of insufficient evidence to sustain the accusation. No testimony was offered by the defense.

MORE MONEY FOR YALE

New York, Oct. 8.—It is announced Yale university's residuary share in the estate of the late Samuel H. Lyman of this city will probably exceed \$700,000. His will has just been probated here. The gift to Yale ranks as one of the largest college benefactions of the year.

ALICE IVES HIBBARD STERLING FOUND DEAD

Chicago, Oct. 8.—Mrs. Alice Ives Hibbard Sterling, wife of William B. Sterling, senior partner of Peabody Houghtaling & Co., was found dead at the base of the bluff overlooking Lake Michigan on the Sterling country estate in Lake Forest yesterday. The body, clad only in a nightgown and a light kimono, was still warm when found by the coachman in a search that was instituted as soon as Mrs. Sterling's absence from her room was discovered. Mrs. Sterling had died of exposure. Not a bone was broken in her fall over the 80-foot bluff and she received no injury sufficient to have caused her death. She left her room on the first floor of the house some time during the night and the announcement given out by members of the family yesterday was that she had been suffering from neuritis and had presumably left the house to get a breath of fresh air.

MARINES EQUIPPED WITH SPRINGFIELD RIFLES

Washington, Oct. 8.—The United States marine guard at Peking, the entire marine force in the Philippine Islands, and every marine in both the Pacific and Atlantic fleets have been equipped with the latest modern arm, the newest model of the Springfield army rifle. This makes 4,000 or more marines already armed with this weapon, while all the rest of the marine corps—which musters a strength of a little less than 10,000—are equipped with the old Krag-Jorgensen. These still un-equipped are the marines ashore on the Atlantic and Pacific coasts, in this city and in Hawaii. The new rifle is a first multiple fire. The idea is to equip the entire corps with the same type of weapon as the army uses so as to have uniformity and to complete the equipment an appropriation of Congress will be necessary.

EMPLOYES AT WORK ON PANAMA CANAL

Washington, Oct. 8.—The Isthmian canal commission reports that on Aug. 13, there are 35,867 employees actually at work on the canal and the Panama railroad and of this number 29,950 were canal employees. No labor recruiting during the month was necessary. The number of Americans engaged in the enterprise shows an increase of 25 over the report of July and the total force employed is divided as follows: Railroad re-location force, 1,603; railroad commissary force, 1,016; Isthmian canal forces, 29,950.

SCOTTISH REUNION

A well attended reunion of the Scottish Missionary society was held in the Pioneer stake hall last night. The program consisted of selections by the Scottish quartet, recitations and short addresses by returned missionaries and former presidents among them Bishop Brown of Evanston, Wyo., Elder Johnson of Blackfoot, Ida., and Elder Rock of Ogden. John B. Young of Rock Springs also favored the crowd with some high class set dancing. During the evening resolutions of respect to Elders Wm. S. Lockhead and Thomas McMaster, both of whom met tragic deaths, were adopted, and copies were ordered presented to the stricken families. The retiring officers, consisting of Peter S. Condie, president; David Murdoch, vice president, and Charles Murray, secretary, were tendered a hearty vote of thanks for past services, after which a reorganization was effected with Lorenzo Wood as president; Wilford J. Burt, vice president, and Joshua Buchanan, secretary. The society will meet again six months hence.

SCANDINAVIAN REUNION

A large number of Scandinavian elders and saints gathered at Unity hall last evening for the annual reunion of the Scandinavian Missionary society. A program of musical numbers and addresses by prominent Scandinavians was given, which was much enjoyed by all present. The opening number was rendered by Echo choir, and following the invocation vocal solos were given by Ragnar Lind and Einar Petersen. After a piano solo by Miss Jennie Lind, the Pyper-Whitney quartet, consisting of George D. Pyper, H. V. Whitney, Walter Christopherson and Thomas Ashworth, rendered a number. A duet by Lerdoth Haag and Paul Fjeldbo followed, with a humorous sketch by Joseph Strauberg. A duet by Aegnes Olson Thomas and Hyrum Olsen concluded the musical program. Dr. A. Z. Tanner wishes to announce that he has opened office near 1111 South on State, at the office of Dr. Drinton residence, No. 1652. Phones—Bell, 5801, Ind. 2248. Office Hours—8:30 to 9:30 a. m., 2 to 4 p. m. daily; 8:30 a. m. to 2 to 4 p. m. daily; Monday and Thursday, 6 to 7 p. m.

Homes in Mexico

You Want Your Best Opportunity Now

Land Water Markets Climate

(as rich as any) (all you want) (unlimited, and where prices are high) (no tropical heat, no snow or ice—just temperate the year 'round)

Coahuila Colonization Lands

Northern Central Mexico, directly south of Texas, across the Rio Grande.

\$40 per acre—which includes perpetual water rights—title comes direct from the Republic of Mexico

\$4.00 per acre down—balance long time payments, as easy as you want them.

You—the man who has to contend with water shortage and worn-out soil.

Who is tired of severe winters—

Who want to sell all the alfalfa you can grow (and it grows here) for \$20 a ton.

(Other crops sell at prices proportionate.)

Who want to raise two crops of grain every year on the same land—

Who want to get on land where the pioneering is all done—where the fields are ready—canals completed—ditches dug—and where actual cultivation (30,000 acres this year—has demonstrated these lands to be unsurpassed out-of-doors—

You are the man we're talking to.

We're sole selling agents for the lands controlled by The Mexican Land Syndicate of Coahuila, Mexico. The Mexican Federal Government has spent \$4,000,000 in building on these very lands—an irrigation system that is pronounced perfect by experts.

Let us tell you about it—tell you who your neighbors will be—and tell you about the unusual concessions offered by the Mexican Government to you.

Ask us right now.

Our next excursion leaves in a few days—better see us now.

See Highland Park While Here

To the thousands of visitors in Salt Lake this week, we wish to say one word: Do not leave this city until you have seen Highland Park!

You have read and heard much, no doubt, concerning this most charming residence addition on the Southeast Bench, but have you seen it?

If not, come to our office, and we will take you out in an auto and show you what Highland Park really is. We will show you a new and beautiful residence section already graced by a number of handsome, modern homes, with many more in course of construction.

We will show you well graded streets, broad cement sidewalks already laid, trees already planted, and water mains already in.

We will show you high, dry, level lots, with deep, rich soil, and commanding a magnificent view of the city, the valley, the mountains and the lake. We want you to see

Highland Park

SOUTHEAST

Many of you who are now the city's guests are, no doubt, looking forward to the time when you, too, will become residents of Salt Lake City. You may wish to give your children the benefits of superior educational advantages, or with them share in the social pleasures of the city.

You may have outgrown your present surroundings, and wish to enter a larger and more active business field. In any event, you will, of course, want a home here, and we are willing to leave it to your good judgment as to whether or not there is any residence locality in this city that so fully meets your ideals of a home site.

Salt Lake City has in store a marvelously brilliant future, and with the phenomenal growth already assured, present values will increase many times.

Lots purchased in Highland Park now will, in the next few years, be in demand at a remarkable advance, and now is the time, of all times, to secure, for a small outlay, the foundation of your city home.

Investments in Salt Lake real estate are safe, and certain to prove profitable. Highland Park is in the city's astest growing residence section, and prices are now at their lowest level.

Prices are now \$150 to \$275 per lot, on payments of \$8, \$10 or \$12 per month.
