## GRANT AND PETERSON ARE OUT OF GAME

Two Stars on University Team Will Probably Retire on Account of Injuries.

Benne Grant, the star quarterback, and Oscar Peterson, right end, of the University of Utah team, will probably have to retire from the football game for the season on account of injuries sustained in the game which they played last week. Coach Bennett has weakened the team, but Coach Bennett has decided that there is no use keeping them limping around the remainder of the season when they are unable to get into the game for all they are worth. Many of the games which the university has lost have been chalked up against Grant's sore knee. Peterson has only been able to play a few minutes in each game and then retire.

## DOUBLE-HEADER FOR FOOTBALL FANS

Grand Junction and Salt Lake High Will Play on Cummings' Field Following Freshman-Ogden Game.

Two football games will be played on Cummings field Saturday as a double-header attraction for the fans. The Grand Junction high school and the Salt Lake high school will kick off at 1 o'clock in the afternoon. This game will follow the contest between the university freshmen and the Ogden high school, the first game being called at 1 o'clock. Although the high school boys were defeated by the Ogden high school Saturday, they are determined to show Coach Brusse that all the fight has not been taken out of them. The game will show the Grand Junction high school one of the hardest games of the season.

The Grand Junction high school Tigers leave for Salt Lake Thursday night, and are expected to arrive in Salt Lake City on Friday. They will play the Salt Lake team on Saturday. The Salt Lake team will go to play the Ogden team on their own grounds on Thanksgiving day. The contracts have been received by Manager Lynch and are as follows:

## TWO OF PRINCETON'S SPEEDY MEN WHO ARE EXPECTED TO SHINE ON GRIDIRON IN LATER GAMES.

PHOTOS BY AMERICAN PRESS ASSN.

Football experts here are highly pleased with the showing of Princeton eleven so far this season. While the team is not as heavy as the aggregations of other years, one cannot fail to see that the men are all of one type—clean cut in figure, slinky and fast. With the exception of the rugged Captain Hart, the back field is made up of men who resemble in build and action Tibbot, the sensation of 1908. Bissell and Bredemus, the ends, are larger than any of the back field men except Hart. Princeton is fortunate to have a man like Pendleton in the back field. He is a very fast runner and gets around the ends much like Dillon did. He has what the undergraduates call the ability to "fade away" from a tackler just as the latter thinks he is within his grasp.

## JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonymy, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.
