

MINING, BUSINESS AND STOCKS.

WEST QUINCY REPORT HAS BEEN SENT OUT

Stockholders are advised of condition of property as it now stands without drainage.

Stockholders of the West Quincy Mining company are receiving a report from Secy. M. H. Sowles...

I enclose herewith a copy of the notice published of the special stockholders meeting of the West Quincy Mining company to be held Nov. 30, 1910...

MUCH WATER.

You, as stockholders, realize that approximately \$180,000 has been expended by the West Quincy Mining company in attempting to succeed because of the large quantity of water encountered...

INCREASE VALUE.

It is the opinion of experts and parties interested in this combination that practically speaking it will create a demand for and increase the value of the shares of stock.

MARKET IS WEAKER.

Trading on the local stock exchange this morning was dull and straggly. But little interest was taken in the trading.

UTAH COPPER ISSUES QUARTERLY REPORT

Statement Shows Large Curtailment in Production During Months of August and September.

The report issued by the Utah Copper company for the third quarter of 1910 shows that the curtailment of production has been quite marked in August and September...

"During the month of July all three of the concentrating plants were in operation. At the end of July the Copper-ton plant was closed down permanently...

"The improvement of the Magna plant is practically complete and that plant will be in operation in a few days in excess of 10,000 tons per day.

"The production for the month of July was in excess of the average production for the preceding three months...

"The decrease in output is due in part to the decrease in tonnage previously mentioned resulting from the closing down of the Copper-ton mill during the process of construction...

"The net profit from mining and milling operations were \$946,925.55. Add to this the net profit from the sale of concentrates and miscellaneous resources in Utah...

"These earnings are computed on a basis of 12 1/2 cents per pound for copper. At the close of the quarter no copper due for delivery from refineries remained unshipped.

"The average cost per pound of the net copper produced, after smelter deductions were made, was 8.23 cents per pound, as compared with 7.53 cents per pound for the corresponding quarter of 1909...

"Of the total ore produced during the quarter, about 53 per cent came from surface steam shovel mining and 17 per cent from underground. It is and will be necessary to continue underground mining for some time to come in the area acquired from the Boston Consolidated company...

"The treasury for each share of new stock is \$10. This becomes delinquent on Nov. 26. It looks probable that the Guggenheim interests, which have long looked covetously at the property are about to gain control.

TAX LIST CASES DISMISSED

Judge Armstrong Successor of Board of Commissioners.

On This Ground of Reply to Charge. Suit to Compel Refund Is Thrown Out of Court.

On the grounds that the complaint did not state facts sufficient to constitute a cause of action, Judge George G. Armstrong this morning dismissed the suit of County Attorney J. P. Lyon against the county commissioners of Salt Lake county to recover \$57,520, alleged to have been illegally paid to the Intermountain Republican in 1908 for printing the delinquent tax list.

The county commissioners were represented by Attorneys H. E. Booth and Bernard Stewart, who maintained that the authorities were almost unanimous in declaring that the commissioners had no judicial powers and that they could not be held liable in a suit of this kind. The court held with them and the case was dismissed.

County Attorney Lyon said, following the dismissal of the action, that an appeal would be taken to the supreme court of the state.

NEW INCORPORATIONS. The Salt Lake County Land & Improvement company filed amended incorporation articles with the county clerk today, increasing the capital stock to \$10,000 in one-dollar shares. S. Ebert is president and L. H. Gray, secretary.

Amended incorporation articles have been filed with the county clerk by the Nancy Hanks Mining company of this city, limiting the capital stock to \$10,000, in one-dollar shares. The notice of filing was signed by James K. Shaw, president, and L. H. Gray, secretary.

BIG JOB NEARS FINISH. The interstate commerce commission clerks who have been overhauling the books of the auditor of the Short Line are completing their work on the fifth floor of the Vermont building after protracted labor covering a period of several months. The commission sent of here to work up data as information on which the members of the commission might be able to base judgment in finding just what the gross cost of the lines of the Oregon Short Line may be, its sources of revenue, operating expenses, value of equipment, value of physical properties, fixed charges, schedule and value of stocks and bonds held, and such other financial data as may be desired.

STOCK CERTIFICATES. stock certificates, bonds, and blank checks of all sizes or style made to order. Estimates promptly furnished. THE DESERET NEWS JOB DEPT.

Talks to Students.—Rev. Elmer I. Goshen spoke on School Loyalty this morning before the students of the Jordan high school at the regular Wednesday morning assembly. It is customary to have prominent speakers address the pupils. The school, which started out in a small way, is now the third largest in the state from the point of attendance.

Big Salt Harvest.—The Inland Crystal Salt company is finishing its fall harvest from its fields southeast of Saltair. The crop this season is 30,000 tons, or a little over, about the same as last year.

Tuesday's Storm.—The storm of Tuesday did not make itself felt at this latitude to any appreciable extent, the precipitation being a slight rainfall along the mountains, and the eastern half of the city. But further north the action of the elements was more pronounced. There was quite a fall of snow in Montana, with rain further south in Idaho. The center has gone east, along the line of the 43rd parallel of latitude, leaving this part of the country with an ideal fall climate of almost Texas mildness.

PERSONALS. J. H. Rosengren of Provo has returned from Florida, where he has been in the country that he proposes to return there to live.

The Misses Sybella Clayton and Hortense Kimball leave next Friday for Europe. Miss Clayton goes directly to Bremen-Haven, where she takes the train for Berlin. Miss Kimball goes to Cherbourg and thence directly to Paris, but will go later to Berlin.

J. W. Kingsbury, president of the University of Utah, left this morning for Washington, D. C., to attend the annual convention of the National Association of University Men. He will be gone two weeks.

Mrs. Charles A. Stain has been removed to her home, 1977 Twelfth East street, from Holy Cross hospital after having undergone a serious operation there.
