DEBATE ON THE CHINESE PROHIBITION BILL.

THE MEASURE NOT PASSED. No sentiment against the legislation, the question being on party consistency in anti-Chinese work. Effect of heavy appropriations. Carlisle willing to meet Blaine.

WASHINGTON, Aug. 18.—In the house Tauboe of Kentucky presented a conference report upon the bill for the relief of the First National bank of Portland, Or.

McCreary of Kentucky, from the committee on foreign affairs, reported for immediate consideration the senate bill to prevent the coming of Chinese laborers into the United States, with an amendment repealing the acts of May 6, 1882, and July 3, 1884, the repeal to take effect on the ratification of the pending treaty.

McCreary stated that owing to the fact that the senate had amended the treaty it had been sent to China for the ratification of that government, and that it would probably be the first of next year before the treaty could be agreed upon.

The subject of Chinese immigration was important and deserved the most careful consideration. The pending treaty was liberal and the president had his great credit of having negotiated it.

He was in favor of opening the ports of the United States to immigration from every country, but he did not believe the Chinese, with their habits, customs and religion, were coming into this country.

He contended that the senate amendments to the treaty were in violation of the original treaty, and that the original treaty had been violated.

THE OLD WORLD.

EMPEROR WILLIAM HAS MADE NO FRIENDS.

HIS LATE VISITS FRUITLESS. The army and the Kaiser's warlike talk attracting the attention of all Europe—Continued riots mark Boulanger's election tour—The Spanish army honeycombed with revolutionary plots.

BERLIN, Aug. 18.—The emperor landed today at the headquarters of the First Infantry. In a speech in response to a toast to his health, he said Germany would keep what she had gained and expressed a conviction that the army was able to meet all comers.

The language of the emperor, although no immediate menace, is not to be attributed to his habit of expressing himself bluntly. His speech at Frankfurt was premeditated, if not planned.

The press organ in regretting the denials of the Kaiser and Copenhagen visits, says that within four weeks after the interview between the czar and Emperor William, the tension of the situation there would be relieved.

Swearing changes in the command of the army are impending. Since more than a general, nine lieutenants-general and a number of major-generals will retire, Gen. von Schellendorf will be promoted to the command of the first corps.
