Judge Thurman Breaks Down in New York.

LED FADING FROM THE STAGE

The Venerable Statesman Greeted by an Enormous Audience—His Essays to Deny Reports of His Deepening Condition—Friends Prevent Him From Falling to the Floor.

New York, Sept. 6.—Madison Square garden was crowded with a mighty swarm of people to-night upon the occasion of the Democracy's reception to Allen G. Thurman, and when his holding capacity was exhausted it served as a centre to many thousands of people who were addressed by speakers upon stands at each corner of the building.

The interior of the garden was profusely decorated with the American colors. When the doors opened a tremendous stream of people rushed in, tramping and pushing the 150 policemen present, who vainly tried to preserve order.

At 8 o'clock, Calvin S. Price, chairman of the national campaign committee, appeared on the speaker's stand, came in hand, and rapped for order. He at length made himself heard above the din, called the meeting to order and presented Hon. Rowell P. Flower.

As Thurman stepped forward to the speaker's stand and stood erect, wiping the perspiration from his face with the fanned banyana, the wildest excitement followed. Every one having secured a place, the cheering and waving of flags were waved, and the crowd cheered and cheered again, drowning into a muffled sound the strains of the band.

Col. Rice and Mr. Flower stepped forward each to shake hands with the arm, and assisted him back from the speaker's stand. He was almost fainting, and a few minutes' rest was needed before he could be received from the building.

When he recovered sufficiently, Judge Thurman was taken in a carriage to the ladies' entrance of the Fifth Avenue hotel, accompanied by Eric and Barnum, and his son Allan W. Thurman.

The judge was conducted to his room and was attended by Dr. Goldthwaite, the hotel physician. The latter applied remedies and administered a pleasurable and convenient place to make their headquarters, as all Puget Sound, San Francisco and Alaska steamers make Seattle their point of departure.

THE MEETING CONTINUES. Speeches by Governors Hill and Green and Confederate Blackburn.

New York, Sept. 6.—Meanwhile, in Madison Square Garden, the throng called for Gov. Hill when Mr. Thurman had gone. He was presented and at once referred to Judge Thurman's sudden illness, saying it was a sickness which had come upon him but an hour before.

Sherman Thinks the Chinese Treaty not Rejected.

THE SENATE DELAYS ACTION.

Mitchell Thinks Political Dishonesty and Moral Dishonesty Distinct—Prospect of a Speedy Vote on the Retaliation Bill—Who the Persecuted Nevada Miners Are.

WASHINGTON, Sept. 6.—In the senate, among the bills reported from committees and placed on the calendar was the following: Senate bill granting a resolution adopted by the senate on the 28th of August, requesting the president to communicate to the senate copies of all communications addressed by his direction to the government of Great Britain retransmitting against certain unfair treatment of American citizens in that country.

The senate bill for admission of the state of Washington to the union and the Chinese exclusion bill taken up.

St. Louis, Sept. 6.—The platform submitted to the Republican state convention this morning, endorses the national ticket and points with pride to the record of the party in the high license law; declares uncompromisingly in favor of American protection; and repudiates the policy of the platform of the state and national platform in favor of modification, readjustment and reduction of the tariff.

Gen. Barnett presented a minority report. The platform adopted by the convention, proceeded to election of a state ticket. Justice of the Supreme Court James Gillin and Associate Justice L. W. Collins were renominated by acclamation.

Colorado Republicans. Cleveland's Retaliation Message Denounced—Free Silver Coinage. DENVER, Col., Sept. 6.—The Republican state convention assembled at 10 o'clock in the morning and nominated W. A. Brisbane state treasurer, on the third ballot, and Capt. Jones Rice secretary of the convention.

Political Ballots. Eleven Arkansas Bell Boxes Stolen. ST. LOUIS, Sept. 6.—A special from Little Rock, Ark., says: A big sensation has been created by the stealing of 10 ballot boxes from the office of the county clerk.

Indiana Republicans. The Campaign Opened With a House of Delegates to the Capital. INDIANAPOLIS, Sept. 6.—The Republicans of Indianapolis held a great outdoor demonstration to-night, the occasion being the return of General Allen P. Hovey, Republican candidate for governor, and the active inauguration of the gubernatorial campaign.

The Tariff Bill. WASHINGTON, Sept. 6.—Senator Allison said this afternoon that the tariff bill would be reported to the full senate committee on Wednesday next.

HOUSE PROCEEDINGS.

The Debate on the Retaliation Bill to Close To-day.

WASHINGTON, Sept. 6.—The house to-day resumed consideration of the retaliation bill. McCrary of Kentucky gave notice that he would call the previous question on the bill to-morrow at 4 o'clock.

Scott then resumed the floor and continued his speech in support of the bill, interrupted at the close of yesterday's session. He had estimated that the Canadian railroads had by reason of article 23 of the treaty of 1871 received \$6,000,000 a year for the transportation of American goods through the United States.

Under the treaty \$48,800,000 had been taken away from the working men of the country, and \$25,200,000 from the capitalists. The treaty had given \$72,000,000 to Canada as virtually as though it had been taken out of the treasury.

He had no fear that the president would exercise the power conferred on him except as a last resort, to protect our interests and interests of American citizens. The Republican senate were responsible for the present state of affairs. He had read the remarks made in the senate relative to the tariff, criticizing him for his action in bringing forward the Chinese bill, and referring to him as one who "no sense and no spirit for American labor."

He characterized as groundless the complaint that special agents act as spies upon the people of Nevada, and says no special agents were in Nevada for several years until they were sent there to investigate the facts in case of offers of a compromise received from mining companies for unlawful cutting of timber and land owned by government on this subject.

Stewart objected. St. Louis, Sept. 6.—This has been the gloomiest day of the epidemic. The death roll has been unacceptably large and many usually cheerful faces look stern and many stout hearts feel faint.

Adverses from Sagua are that fifty persons lost their lives there, while the damage done to dwellings and warehouses in the city, to vessels in the harbor and to wharves is very great.

FLORIDA'S SORROW

Business and Travel Almost Paralyzed.

FALL OF THE PESTILENCE.

Citizens of Jacksonville Stupidly Fighting Surgeon-General Hamilton's Efforts—The President Interesting Himself in Suppression of the Scourge.

New York, Sept. 6.—A refugee from Gainesville, Fla., makes the following statement: While Jacksonville alone has suffered from the pestilence of yellow fever, the whole state is suffering almost badly from the isolation of quarantine and consequent stagnation of business, and the cost to her citizens will reach into the millions. The state of Florida is a desolate scene. The first panic lasted about a week and carried off fully 30,000 people, flying without means and scarcely a change of clothing from the sources. Every citizen has his own board of health, and marauding officers are stationed at every point where any kind of a road enters the county lines. No person can pass without a satisfactory bill of health.

WASHINGTON, Sept. 6.—Surgeon-General Hamilton has returned to Washington last night from a trip to Florida and Georgia. He says the stories published regarding the condition of Camp Perry are exaggerated. He says that if Jacksonville sent respectable characters there it was not the fault of the government. Every other Jacksonville town is pleased. The state of Florida is pleased. The state of Florida is pleased. The state of Florida is pleased.

NEVADA TIMBER STEALING. The Land Office Answers Senator Stewart's Attack. WASHINGTON, Sept. 6.—The acting secretary of the interior to-day sent to congress all papers except such as were of a purely technical character, and called for the resolution of Senator Stewart, asking upon what authority and information the commissioner of the public land office based his assertion that the amendment introduced by the senator was really in the interest of mining corporations and against the interest of settlers.

Key West, Sept. 6.—The Mallory steamer State of Texas arrived here to-day. She struck a hurricane 20 miles off Tortugas. Her bulkhead was stove in by the sea. The cabin was gutted and the machinery disabled.
