

A GOOD START.

Organization of the Woman's Home Society Completed.

Full List of Officers and Committees.

The Woman's Home Society met at the W. C. T. U. headquarters at 2 p. m., yesterday, to complete the organization, about fifty of the ladies interested being present.

The principal work done was the completion of its list of officers and the appointment of committees to carry on the work of the society.

Several ladies made some very practical suggestions respecting the Home system. The full list of officers as now completed is:

President, Mrs. G. Judge Bush; vice-president, Mrs. G. Judge Bush; recording secretary, Mrs. M. E. Handwerker; treasurer, Mrs. Angus Mackintosh;

board of trustees: Mesdames C. E. Jenner, H. S. Parkhurst, Eben Smith, Charles Hopkins, Myra C. Ingraham, D. B. Ward and Clark Davis;

committee on finance: Mesdames A. R. Mitchell, O. J. Carr and H. E. Haskins; committee to examine applicants for admission to the Home: Mesdames Parkhurst, Eben Smith, H. S. Parkhurst, Eben Smith and Kelly.

Mrs. M. M. Daniels and Mrs. Judge Bush were appointed a committee to draft articles of incorporation.

It is the wish of the society to incorporate as early as possible so that it can hold property and be accepted as honorary members of the society upon payment of \$5 annual dues, a motion to that effect being carried.

The financial committee is also constituted a committee on ways and means, and is fully empowered to solicit for the society.

Mrs. Handwerker was appointed the press committee. Mrs. Hopkins and Miss Thornley were appointed a committee to wait upon Mr. Moody to ascertain if the famous evangelist would devote one night for the benefit of the Home. The ladies will call upon Mr. Moody to-day.

The regular meetings hereafter will be held on the second and fourth months, at 2 p. m., at the W. C. T. U. headquarters.

ROAD TRAVEL. Justice Court's Bills Being Taken Up.

Regarding the bills which have been petitioned for by A. Lunn, an order was issued that John A. Stevens be appointed a viewer of the proposed road, in the place of John McRedmond, who at present is out of the county.

The contract to open grade and construct a road into Etna creek was let to Carl Behlke.

A lease was made of school land on the east half of the northeast quarter, and the west half of the southeast quarter of section 16, township 25 north, range 6 east.

An order was issued appropriating \$125 toward planking the county road west of O'Brien street, and that a like amount be received by a bond from O. Z. Yates, under the supervision of C. L. Taylor.

The greater part of the afternoon was spent in looking into the accounts of justice, all of which had not been handled up to the time for adjournment.

PACIFIC COAST.

Its Officers Accomplish Their California Mission.

Interview With Mr. A. H. Anderson.

A Pleasant Journey—Miscellaneous Correspondence.

Mr. J. R. McDonald, president, Mr. C. F. White, general manager, and A. H. Anderson, secretary of the Pacific Mill Company, returned yesterday morning in the special Pullman car No. 12-12-12 on a 12-days' business and pleasure trip to San Francisco.

Mr. Anderson was called on at the office of the company in the Pacific mill building yesterday afternoon, and was asked concerning the trip and mission, which it was understood was one reason of the journey to the Bay City.

"Our trip was an exceedingly pleasant one," answered Mr. Anderson, in his usual easy and confident manner. "Our party numbered six, and consisted of Mr. McDonald, Mr. White and myself. Mr. Thomas Ewing, Mr. McDonald and Mrs. A. B. Stewart. Mr. Stewart accompanied us as far as Portland. We left Seattle on Thursday, Nov. 1, and after an exceptionally pleasant journey arrived in San Francisco on the following Sunday. We remained there throughout the week, and started on our return on Saturday night, arriving here in good health and spirits this morning."

"How about the business purpose of your trip?" "We went to join the Pacific Pine Lumber Association, and we accomplished our object without the slightest difficulty. The association is an article appeared in your paper last Saturday, in your Tacoma correspondence, concerning our mission to the coast, and we were very much annoyed me, inasmuch as it was so absurdly mistaken in its misstatements, and our reasons for joining the association were not given. We went to correct the misstatements under which your correspondent appears to be laboring. We were with the Satsop Railroad Company and Hainson & Co. have always been of the most mutually satisfactory nature, and we have no objection to any statement to the contrary should have emanated. Assertions to the effect that we were handicapped in joining the lumber companies, and we sustain just the same relations and to the public that we have before. In fact," continued Mr. Anderson, smilingly, "we are not a corporation, but a simple lumbering and milling company that purports to do business on the coast, and to furnish lumber to the public at as reasonable prices as we can possibly manufacture it."

"Our mill has been operating about a month, and we are now turning out 100,000 to 125,000 feet of lumber per day. We expect to reach in a short time at our maximum capacity of 175,000 feet per day. Our location is four or five miles from Tacoma, on the North Pacific on the Sound, where we are accessible to all interior and all deep sea points."

"Mr. McDonald and myself leave for the East in a few days," added Mr. McDonald. "Our present destination is St. Paul. We will return in about three months and take entire charge of the affairs of the Satsop Railroad Company."

Two Prospective Naval Stations. San Francisco Bulletin.

A recent map issued by the Maritime Canal Commission, which discloses the physical features of the country over which the route has been surveyed better than any other map, shows on paper the route which the canal is ever constructed by American capital, or substantially under American patronage, is to be built under the control of the United States government, so far at least, as the right to pass war-ships through this water-way, and to lay the main line of fresh water of Lake Nicaragua. It would require but a few steps in advance of the present negotiations to secure a great naval station on the lake. If the canal were once built, all the known world there could not be found another port so admirably fitted by nature for a great naval station as Lake Nicaragua. The islands in that lake would afford a splendid harbor, and the water could be built and stores collected. The ships riding at anchor there would be able to pass into the Atlantic or Pacific side of the continent, to America, or to be sent up the northwest coast of the Pacific. The attainment of this result may be remote, but it is not one of the impossibilities of the future. No one can say what the territorial limitations of this country are to be hereafter, and the Nicaragua canal will be constructed because it will have advantages which have hardly been hinted at present. It will be a great station and purchase rights may finally be acquired which admit of the establishment of a great naval reserve in the waters of Lake Nicaragua.

In some important sense this will be the key of the two continents. Suppose to-day the canal were built, and a great naval station established in the lake midway between the Atlantic and the Pacific. All the war-ships would be propelled by steam or would depend upon some other motor than wind. In a few hours they could move out on the Pacific, or Pacific, according to the exigencies of the moment. In the lake they would be secure from the attack of an enemy, always supposing the United States to be at war. The Nicaragua canal will be constructed because it will have advantages which have hardly been hinted at present. It will be a great station and purchase rights may finally be acquired which admit of the establishment of a great naval reserve in the waters of Lake Nicaragua.

Editor Oregonian—Sir: Seeing so many statements in your paper of cure by Dr. Darrin I deem it right to say what he has done for me. Six months ago I was taken with a soreness through my kidneys, liver and stomach, and general weakness of the whole system. My kidney troubles terminated in an inflammation of the prostate gland and urethra and caught in the bladder. All remedies seemed to fail until I was treated and cured by Dr. Darrin. Publish this cure to-day the country would know where to be cured. My address is 29 Columbia street, Portland. T. L. MILLS.

Another remarkable cure. Editor Oregonian—Sir: I wish to express my sincere thanks to Dr. Darrin for the cure he has effected in my case. I have been afflicted with liver complaint, dyspepsia and malaria. Through his electric and medical treatment I am now well and strong. My address is 29 Columbia street, Portland. E. McMillan.

To the Public: Six months ago I published a card giving in detail the marvelous cure Dr. Darrin performed on me by his electric treatment. My troubles being a complication of ailments, such as nervous and general debility, heart disease, dyspepsia, liver complaint, gonorrhoea, and loss of manhood, and last but not least, a very serious case of syphilis, which I will gladly describe to any one calling on me or by letter to the doctor's office. All the ailments are perfectly and permanently cured. I never felt so well in my life. I cannot say too much for Dr. Darrin's treatment. My address is 29 Columbia street, Portland. T. L. MILLS.

Unprecedented Values For this Week!

Remember the antiquated maxim, "Never buy a pig in a poke." Remember a dollar saved is a dollar made.

Remember when you think of laying down your money for Dry Goods, Clothing, Millinery, Carpets and Furnishings Goods, that Toklas, Singerman & Co., exponents of liberality and champions of the LITTLE PROFIT SYSTEM of doing business, guarantee the largest selection and the biggest dollar's worth on the Pacific Coast.

It makes no difference to T. S. & Co. how low a price other dealers may name, we will always sell the same quality for a LOWER PRICE. By strictly adhering to this principle of underselling competitors and truthfully representing every article we sell, we have built up a business that is without a parallel in the development of any mercantile venture ever made.

Cloaks and Wraps! The strongest stock we have to offer this week is in our Third Floor, in our Cloak and Wrap department.

The very best thing we ever offered in a New-market will be shown this week. All sizes, from \$34 to 44, Black or Brown Berlin Twill for \$7.00; this garment is equal to any \$14.00 Cloak in this or any other city. We have the largest variety west of Chicago, of Plush Wraps and Ladies' Paris Wraps.

Additional novelties have been received during the past week in very rich, long and short garments, to which we respectfully invite the attention of all seeking for choice goods, of which duplicates cannot be procured in the city. As usual, our prices are much under those prevailing for high-class Paris Wraps.

Ladies' London-Made Walking JACKETS! The assortment of high-class London-Made Walking Jackets which we shall offer this week is beyond all comparison the greatest in variety ever seen in Seattle, and the styles are exclusive with us. They are marked greatly under value. Adhering to our strict rule, we make no charges for alterations.

Special Bargains in Marseilles Quilts. At \$1.00 for this week only.
